## WASHINGTON LETTER.

From our Regular Correspondent.  
WASHINGTON, D. C., June 13, '98.  
Knowing that the very persons who are having the most to say about the delay in getting Gen. Shafter's army to Santiago would have led the loudest criticism had the army met with any mishap on account of being moved before everything was ready, and that the delay has been necessary and unavoidable, President McKinley is talking things as coolly as the broiling spell of weather now upon Washington will allow him. He knows that no time has been wasted and that none will be; that Shafter's army is out for business, and that results are going to follow its landing in Cuba. The administration is not to blame because newspaper men who were not informed of the real causes of delay painted their guesses, that the troops were held back because of rumors of the presence of an alleged new and dangerous Spanish fleet in Cuban waters, etc., as facts; censorship of movements relating to important movements would be useless if the government contradicted all the rumors started. Admiral Sampson has landed a force of 30,000 men in Cuba, at Guantanamo harbor, which will be held as a base of naval supplies.

Generals Coppinger and Lee, who are to command the army that is going to Porto Rico, have been sent orders to get their command into condition for embarking at the earliest possible moment, which is taken to mean that the movement upon Porto Rico is not to be postponed until the movement against Santiago is successful, but is to go ahead independently as soon as ready. Secretary Alger says that in ten days time every man in the army will be fully equipped for war.

The Navy Department has published Admiral Sampson's official report of Lieut. Hobson's daring feat—the sinking of the Merrimac—and it is just as enthusiastic as were the newspaper descriptions, and is calculated to make every American proud to be a citizen of the country that produces such men.

Senator Butler of North Carolina, chairman of the populist national committee, formally read Senator Kyle out of the populist party because he voted for the war revenue bill. The reading out process did not appear to vex Senator Kyle, who stated that he was responsible to his conscience and his constituents, and not to Butler for his official actions. Mr. Kyle disposed of some statements made concerning him by Senator Pettigrew by denouncing them as "intentional and malicious falsehoods."

The House is now engaged in debating the Hawaiian annexation under an agreement to vote upon it Wednesday afternoon. Its adoption by more than a two-thirds vote is certain.

Speaker Reed's course since this matter has been under discussion has been greatly misrepresented. He is personally opposed to annexation, but his prompt decision when a point of order was raised against Gen. Grosvenor's motion "to proceed to public business"—made in the house for the first time in fourteen years—in favor of Gen. Grosvenor knowing that the motion was made to get the annexation resolution before the House, was proof enough of the fidelity of the stories about his resorting to all kinds of parliamentary tactics to prevent the House getting an opportunity to vote on annexation. Two weeks ago Speaker Reed stated his position to Chairman Hill and other members of the committee on foreign affairs when they went to him for a special rule from the committee on rules. He said to them: "My advice personally is to postpone consideration of this question until next session. I frequently think I am wiser than the Republican party, while as often the Republican party is wiser than I am. You gentlemen must take the consequences." Thoroughly troubled with the speaker in this case has been that his judgment has been

against that of 95 per cent of the Republican party, and probably a majority of all other parties.

There is no buncombe about President McKinley's good will toward the ex-Confederates, or he never would have nominated T. L. Rosser of Virginia, to be a brigadier general. Rosser got a lot of newspaper notoriety several years ago by making a crack-brained speech announcing himself to be an unreconstructed rebel etc. President McKinley only remembered that he was a gallant soldier, now seeking to fight for the country he once mistakenly fought to destroy. It is things like that which have caused it to be remarked more than once that "McKinley is in many respects as great as Lincoln."

President McKinley is well pleased with the war-revenue bill, now a law as a whole. He would have preferred that the amount of bonds authorized should have remained at \$500,000,000, as in the original House bill, instead of \$400,000,000, as agreed to by the conference. He does not intend to issue more than shall be necessary to meet war expenses. That is why the first issue is limited to \$200,000,000, and he hopes that all of these will be taken by the people in amounts of \$1,000 and less.

## HUSTLETOWN.

Crops are looking well.  
Mrs. Eli Husted is on the sick list.  
Mr. Chas. Gianville and wife transacted business in Pine City Saturday.

George Diegan, of this place, is spending a few days at Meadow Lawn.

The surprise party given at the home of Miss May Husted was well attended, and thoroughly enjoyed by all.

Mrs. Husted and daughter May, of Minneapolis, have arrived, and will make this place their home for the summer at least.

On account of the busy times, and the stringency of the money market we will have to ask pardon for not keeping up our correspondence, but will try to do better in the future.

It seems rather queer that Meadow Lawn should be braged up as such a nice place. It may be a nice enough place, but when a little rain falls their crops are all drowned out and at last have to be planted on Hustletown soil.

The I. E. O. H. Club gave a dime social at the home of Henry Kruse Thursday evening, June 8. Games and other amusements were kept up until a late hour, when all departed for their several homes, after voting it one of the most successful events of the season. The club cleared a neat little sum.

## BROOK PARK.

Work is soon to be commenced on the bridge over Pokenama creek.

Miss Mabel Kelsey returned Saturday from Irondele, where she has been teaching during the past year.

Clara Higgins left for her home in Minneapolis last Friday. He has been visiting his grand parents at this place for the past few weeks.

Mrs. Dr. Henry Allen and children, of Cloquet, who have been visiting relatives in this place for the past week, left Tuesday morning for the cities.

The sturgeon are running and big fish stories are the order of the day. In Pine City they fish by throwing lines from the front porch, in Brook Park they have only to drop stones from the railroad bridge. One killed in this way is said to have weighed about twenty-five pounds.

If you are indebted to the Progen now would be a good time to call around and drop a few nickels in the slot, and you can bet that we would smile for it we ever were in need of money it is at this time. Try and see if you cannot help us out at once.

## Forest Fire Protection.

From Minnesota State Forestry Association.

After becoming convinced that protection is desirable a thorough study of what to do to make protection efficient is quite apt to result in nothing at all being done. This is not a new question; it has been studied over and over again by hard headed and practical men who have property at stake and especially by lumbermen who should be able to solve the question if any one can. They have tried it and with some exceptions have given it up, to take their chances of getting their profit out of fire-killed timber if their lumber land does burn over. The future crop crops for nothing. They let stump land burn over if it wants to, and they usually get little or nothing for such land. The difficulty to be met is the difficulty of convincing the many varied people who are liable to start fires that they had better not do so. It is not so much a matter of controlling fires as becoming dangerous it is almost impossible to stop it. Even the stopping of small fires is difficult, expensive and sometimes impossible. In stopping small fires and in guarding the woods to prevent fires being started good work can be done under the system now established—the State Fire Warden System, but this done and done well the origin of our forest fires would remain, for their real cause lies in the wastefulness and the selfishness of the people who start them. When only well-meaning and intelligent people go into the woods there are very few fires, for such people appreciate the damage fires do and like all good citizens willing and anxious to do something for their community and country are glad to be careful to avoid such damage and will even sacrifice their own interest to that of the public. The fire starters however take no thought for the public good and when a fire will clear up their meadow or pasture, smudge off mosquitoes or boil their tea kettle they will kindle it regardless of any consequences beyond the immediate and often trifling convenience of themselves. To force such unpatriotic leeches to do their duty may be expensive but it should be done to avoid the greater expense of the usual fire and occasional holocaust like that of the Hickley fire. While the small fires are being extinguished and the reckless citizens are being prevented from starting more an educational work should be carried on preparing the younger people to view the fire question justly. It is an economic question to be faced and decided as all others of public welfare should be. Let it be given a proper place in the minds of the young. If boys are properly taught they will think it unmanly and mean to burn forest property as they now do to burn city property. To day only the more theoretical and public spirited of men practically believe in forest protection and cultivation. These few need to be strong, for upon their influence depends the time when our forest wealth shall have the care its importance deserves.

## LIST OF PATENTS.

Granted to Minnesota inventors this week. Reported by C. A. Snow & Co., patent Attorneys, Washington, D. C.

J. T. Moore, Minneapolis, telephone-holder; T. J. Murfin, Sleepy Eye, drainable pipe for tanks; C. Bondell, Minneapolis, hand-carrier for bicycles; C. G. Sault, Minneapolis, overalls.

For copy of any of above patents, send 10 cents in postage stamps and date of this paper to C. A. Snow, Washington, D. C.

Andrew J. Bilstrom wishes to inform the public that he will take contracts for open ditch work and draining. Mr. Bilstrom has had a good deal of experience in this class of work, and can give the best of recommendations. Any one in need of his services can leave word at this office.

The brick work on Rybak's new building was completed on Thursday, and the carpenters are pushing their part of the work as rapidly as possible. This is one of the handsomest buildings on the line of the Duluth road, and the location is good to show it off.

Grand Chancellor Stratton, of the Grand Damon of Minnesota K. of P., made an official visit to Pokagama lodge 77, on Monday evening. Quite a number of the boys were in attendance, notwithstanding the fact that the assembly did not occur on a regular meeting night.

On Tuesday six young gentlemen, of St. Paul and Minneapolis, came up to spend a week fishing at Pokagama. The party consisted of W. R. Cooke and Geo. E. Williams, of Minneapolis, and John W. Williams, Frank L. Williams, Harry Fairchild and Frank M. Owens, all of St. Paul.

Superintendent of schools Blankenship informs us that the following parties in this place are prepared to board one or more teachers during the summer school, which opens here the fifth of next month: Mrs. E. L. Seavey; Mrs. John Griffith; Mrs. A. F. Brackett; Mrs. Geo. Payne; Mrs. Sloan; Mrs. Ed. Madden; Mrs. Winchester and Mr. E. Stell.

The gentlemanly agent of the Northwestern Yeast company is around again with the little yellow samples of yeast foam. This company is the largest yeast manufacturer in the world. Yeast Foam has been on the market for over 20 years without an equal as a healthful bread raiser, and is extensively used in all parts of the United States. Everybody is familiar with the good qualities of Yeast Foam.

Rev. Father Ratsteink this week sold to William Bergeman, of Alma City, and Jas. Brieder, of Madison Lake, 80 acres each in Sec. 21, T. 39 R. 21, for \$10 per acre. The Rev. gentleman is securing a large number of settlers for this place, and before he will make a sale he sees that the title is perfect, so that the purchaser can never come and tell him that he has cheated him, and sold land on which a clear title could not be obtained.

Do not forget the annual school meeting on Saturday evening. Everybody should attend, as questions of great importance will be considered, one being the erection of a new school building, which should be voted down for at least a couple of years. The district is now in debt, and another school building would bury us so deep that we never could get out, and the present tax is sufficient for most of us at this time. Do not forget the time, and make a special effort to attend.

School Report—Year Ending June 9, '06.

Number of pupils on roll during year: Average daily attendance: No. of teachers employed: No. of books added to library: No. of new books added to library: Total No. of books on hand: No. books taken from library during year.

The above report shows that those who pass with good regularity are the ones who pass with credit for their good work by having every paper sent to the State Superintendent.

Business Men Meet.

The business men of Pine City are requested to meet at the Village hall on Monday evening, June 20, to make arrangements for the proper observance of our national holiday.

All should attend and make this celebration one of the best Pine City has ever held.

On Thursday evening the Rev. Dr. Fisher preached in the M. E. church. He gave a good sermon to a good audience, touching incidentally on the present war. He said it was the best boys the country had that were defending its flag, and that the doctrine of the survival of the fittest, was in this case exploded, and that it was now a matter of the sacrifice of the best.

BOYS CAN EASILY EARN A GOOD SAVING.

Working for their friends. Our titles sell in every party. Send stamp for illustrated Catalog. Premium list: Washes, Bleaches, Keadys, Air Bubbles, Outlets, etc. Address: THE MFC CO., Menomonie Falls, Wis.

The Volunteer Fire Company Organized.

Quite a number of our citizens who have signed the master roll for a volunteer fire company met in the Village hall on Thursday evening, and elected the following officers: Chief, F. A. Hodga; Captain, Jos. Thomas; 1st Lieut., James Hurley; 2nd Lieut., Daniel Payne; Sec., Robt. Wilson; Treas., Jas. H. Wanda.

A committee consisting of the Chief, Capt. Sec. and S. G. L. Roberts was appointed to draft a constitution and by-laws, to be presented at the next meeting. The Chief was directed to submit the names of those composing the fire company to the Council at the earliest possible moment for their ratification and approval. After which the meeting adjourned, subject to the call of the Chief.

ATTENTION OWLS!

All members of the Owl Club are requested to be present at Kowalko's hall Friday evening, June 17th, at 8:30 sharp, as business of importance is to be transacted.

CONGRESSMAN EDDY is so confident of his plain looking that a beggar who asked him for a dollar in Washington the other day and got it returned it after a good look at the congressman with the remark: "I'll wager if I'll take your money and buy myself a square meal and I'll strike some one else."

The latest thing "made in Germany" is a "harmonium bicycle." This new invention is constructed to grind out 100 notes, and has been given the name of "M. Tronators." The contrivance is fixed to the handle bar, is worked by the front wheel, and will play for an hour while the cyclist is pedaling at a speed of 10 miles.

MARSH KROCH, of Birmingham, Eng., has produced a calculating gun which is stated to be a long way ahead of guns of similar type. It fires 600 magazine bullets at a time, weighs 11 lbs. and is made to swing from right to left. It will probably prove to be one of the most deadly weapons of modern warfare.

The length of Mr. Gladstone's political service can be measured by the fact that he entered parliament at the age of 17, was secretary of state for the Colonies, and retired from it when Mr. Cleveland had begun his second term. He held his first cabinet office when Daniel Webster was also first serving in a like capacity.

The most wonderful machine ever invented from the point of view of the highest mechanical ingenuity and perfection of construction, is the Whitehead torpedo. In the hands of skillful and resolute men it is the most terrible engine of warfare the world has ever seen. A ship which receives a blow from it is doomed as surely as if she were already at the bottom of the ocean.

NEARLY every traveler in the Philippines finds much interest in the prodigious growth of flowers. There are over 30 varieties of orchids in the forests, and dozens of lilies of mammoth proportions that are never seen outside of the tropics. The Malaya lily is the largest. Its leaves are often six feet long and two wide, while its stems are three inches in diameter. It is in blossom from June to the year, and its blossoms are as large as a peck measure.

The Spaniards and the world at large are being treated to a few samples of cool, Yankee pluck. Devoting breakfasting between maneuvers at Manila was characteristic and dramatic. But the sinking of the Merrimack by a volunteer in San Francisco harbor over buried mines and under a running shot and shell, then paddling into the enemy's lines, the protection of the Merrimack from the enemy's guns, and the capture of gold grit to Hobson and his comrades.

AMERICAN pine and hard woods are constantly gaining importance. There is a large field in the manufacture of pines for finishing and for hard woods for flooring. No country is building so extensively than Germany, and only a few people are engaged in the carpet. Hardwood floors and rugs are the rule in the best houses. In all the great cities of the German empire, on every side and every where, new blocks of buildings and new houses are being constructed.

GRAND BRITAIN, leaving off its royal standard, has a merchant flag and a naval ensign, a union flag and a blue ensign. The union flag, which is an enlargement of the red, white and blue merchant flag we see everywhere, is hoisted by the various governors, who display different badges on it; the red ensign, with different badges, is shown by the different colonies, and some navy clubs fly the naval ensign, others the naval reserves, or blue ensign, and other bodies have other flags.

It is but seldom that a real good specimen of the Damascus sword can be obtained, for the art of working and engraving this kind of steel is dying. These swords are made of alternate layers of iron and steel, so finely tempered that the blade would bend to the hilt without breaking. The weapons lead to the fact to know that no coat of mail could resist them, and surfaces so highly polished that when a Moslem wished to rearrange his turban he used his sword for a looking-glass.

UNTIL the middle of the 16th century Christian marriage consisted of two distinct ceremonies—the betrothal or espousals, which were followed at a considerable interval by the nuptials extending to two years, by the benediction or complete marriage. Many modern marriage customs are relics of primitive times. The betrothal consisted of the throwing of old shoes after the newly married pair is a remnant of marriage by capture, when the bride's relations threw stones and other missiles after the bridegroom as he rode off with his captured bride.

The gross cost of the British army and navy for 1897 was \$41,770,343. Of this, \$5,180,800 goes to the "non-effective army and navy" and to the pensioners and other military and naval numbers roughly 256,000 men. As the great ironclad cannon and all the artillery would be absolutely useless without Tommy Atkins, he may be said to upst the nation the total sum. Thus when Tommy stands up before the enemy he costs the nation \$14 or more than two pounds weight of a hollow statue of him in pure gold would cost. Truly a costly fellow.

## THE DONS FINALLY FORCED TO RETREAT.

Four of Our Men Lose Their Lives—Spanish Loss Unknown—Stars and Stripes Hoisted on Cuban Soil—War Measures Taken—Cervera's War News of General Interest.

On Board the Associated Press Dispatch Boat Dauntless, Off Guantanamo, via Male St. Nicholas, June 13.—Lieut. Col. R. W. Huntington's battalion of marines, which landed from the transport Panther on Friday and camped on the hill guarding the abandoned fortifications at the entrance of the outer harbor of Guantanamo, has been engaged in heading off a regular attack by Spanish guerrillas and archers since three o'clock Saturday afternoon. The fighting was almost continuous for 13 hours until six o'clock Sunday morning, when reinforcements were landed from the Marched.

Four Americans Killed. Four of our men were killed and one wounded. The advance pickets under Messrs. Neville and Shaw are unaccounted for. Among the killed is Assistant Surgeon John Blah Gibson, son of Major Blah Gibson, who was killed in the Custer massacre. His home was at Richmond, Va., but he has lately been practicing medicine in New York city. The others killed are Sergeant Charles H. Smith, of Smallwood; Private William Dumphy, of Gloucester, Mass.; and Private James McColgan, of Stoneham, Mass. Corporal Glass was accidentally wounded in the head.

The Spanish loss is unknown, but is probably considerable. The Spanish line of blood found at daylight at the positions the Spaniards occupied indicate fatalities, but their comrades carried off the killed and wounded. OUR FLAG IS THERE. The Stars and Stripes Are Now Hoisting on Cuban Soil. Off Guantanamo, Cuba, Friday, June 13. The invasion of Cuba by the American forces began Friday. Six hundred marines have pitched their tents about the smoking ruins of the outer fortifications of the city. The stars and stripes for the first time float on a Spanish flagstaff in Cuba.

The marines will hold the position until the arrival of the expected troops in the meantime scouting the vicinity, with the Marched, Vixen and Dolphin lying by to protect them.

Reinforcements are being sent from the island, and troops can be landed at any time.

Still Working Cervera. The squadrons of Rear Admiral Sampson and Commodore Schley are still off Santiago, maintaining a strict watch over the Spanish fleet. The possibility of the escape of Admiral Cervera, from men who have landed to take observations of the harbor it is learned definitely, is being kept in view. It is believed that the Spanish cruisers and two torpedo boat destroyers are there, but these vessels have been regarded by naval experts as a high naval effort.

OUR TROOPS AT SEA. Fleet of Transports with 15,000 Men on the Way to Cuba. Washington, June 14.—The first army of invasion to Cuba is now on its way, 32 transport steamships, bearing over 15,000 officers and men, conveyed by battleships, cruisers, gunboats and auxiliary cruisers. It is estimated that they actually sailed from Key West at daylight Monday morning. An authoritative statement to this effect was made at the war department setting rest all reports that the expedition was on its way, or had landed last week. The authorities made the announcement for the reason that the time of departure was not past, as the scout boats had made sure that the path was clear before it, and that no possible menace could come from the Spanish ships or troops, even should they know our forces were advancing against them.

List of the Troops. The full list of the troops that make up this expedition, reported to the war department by Gen. Shafter, is as follows: Infantry—Regiments—Sixth, Sixteenth, Twenty-first, Second New York volunteers, Twenty-first, Second, Thirtieth, Ninth, Tenth, Eleventh, Twelfth, Thirteenth, Fourteenth, The Sugar Beet. These well-known beet sugar crops have completed an inspection of the growing beet crops, which are to yield the raw material for the Minnesota sugar mill. They are Shannon, of Washington, D. C., Frahn, of Hastings, Neb., and Lewis, of Adams, Cal. They saw 2,500 acres of growing beets and report that they never saw a younger growth looking better.

Work on the St. Louis Park factory is being pushed. One of the fifty-two artesian wells that are to furnish 2,500,000 gallons of water daily has been completed. It poured out clean pure water. The boilers have been set, 100 carloads of stone for foundation for the heavy machinery have been received, and all the machinery will be on the ground within thirty days. A night force of workmen will then be put on to rush the factory to completion.

Mortgages. Commissioner Powers is bringing down to date the statistics collected by the bureau of labor in regard to farm mortgage foreclosures. His figures seem to indicate a very bad thing. That there are not so many foreclosures as there used to be, and that there are fewer where farming is diversified than in one crop country.

The figures have previously been published from 1880 to 1898, with a few counties running back to 1870. The bureau has been collecting figures from 1880 to 1898, and has now completed the comparisons for 1894 and 1895. The figures for the last two years will be ready in another month. As far as Mr. Powers has got they show about the same as the preceding years, but more strikingly. Mortgage foreclosures have almost vanished in the richer farming counties, where there is market gardening and dairy farming.

Presented with a Flag. The features of Sunday at Camp Merritt, San Francisco, were the presentation of the regimental flag to the regiment by Mrs. Helen A. Runge, of Custer Circle and citizens of Minnesota. The entire crowd was drawn up in line. Col. Reeve replied, thanking Mrs. Runge and the people of Minnesota for showing their appreciation of their work, and following them with their thoughts and love. Col. Reeve pleaded every drop of blood in the veins of the boys that he before they would allow the flag to be dishonored.

The soldiers applauded vigorously, and gave three rousing cheers. The band played several selections during the exercises.

Forest Fire Record. Chief Fire Warden Andrews has issued his third annual report. The damage done by forest fires in 1897 was \$22,450, and by prairie fires, \$14,534. Sixteen forest fires were drawn up in line. Col. Reeve replied, thanking Mrs. Runge and the people of Minnesota for showing their appreciation of their work, and following them with their thoughts and love. Col. Reeve pleaded every drop of blood in the veins of the boys that he before they would allow the flag to be dishonored.

Patrons Are Plenty. When Lieut. M. L. Merrill arrived at the national guard camp at St. Paul to enlist a hundred men for the Thirtieth Minnesota, he found more than the requisite number of would-be recruits crowded about the entrance to the barracks. At supper time he was compelled to announce that no more men were wanted, and he referred applicants to the recruiting officers of the Twelfth and Fourteenth regiments, who are expected to arrive soon.

Happy. The happiest man in the Twelfth regiment at Chicago was Chaplain Clemons when the agent of the Southern express set down before his tent a small portable organ, the gift of Everett Angstrom & Co., millers of Waseca. It was just what the chaplain had been longing for, and he did not even try to conceal his pleasure. The portable joy and his new boots wasn't in it for an instant with the parson.

Corner Stone for the Capitol. The magnificent granite block which is to serve as the corner stone of Minnesota's handsome new capitol is being cut at the Baxter quarry near St. Cloud. It weighs many tons, and there is being chiseled out of the center a receptacle in which will be placed a number of documents historical of the state and its progress. Work on the granite contract is progressing rapidly.

less a penalty than the death of the unfortunate drunkard. And what do they do with the body? Strange as it may seem, they eat it. In this manner they obtain the food which nourishes them and sustains their healthful existence.

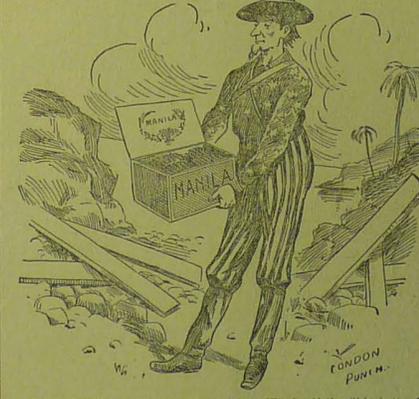

At the end of each of their long green leaves these plants have a pitcher-shaped receptacle. We might say it is the growler, but it never needs to be rushed. It is always full of what with special appropriateness might be called "big game"—a watery liquor, sweet to the taste and intoxicating to the senses.

Only in fine weather is the growler open for business. On rainy days it is firmly shut up to keep out the rain that would dilute and spoil the contents.

identified by a Thumbmark. A remarkable instance of the "thumbmark" method of identifying a criminal is recorded in Bengal. A prisoner had committed a murder which seemed to have been done by a woman, but in turning over the papers of his victim, he had by chance smudged an atlas.

What a Dollar Will Do.

Just a little dollar, on its mission sent, makes a lot of people glad each time the coin is spent. You pay it to the butcher, for meat to give you strength, he pays it to the grocer, from whom it goes at length, some pretty piece of cloth or lace, his better half to buy, or helps to get her summer hat, to make her rival smile. The dry goods man sends on the coin to pay his market bill, and though the coin is often spent, it stays a dollar still, and every time it's spent at home, some act of good is done, in "booming" local industries, or settling of the sun. But if you take that shining coin, and break the local chain, the distress is that from afar 'twill not return again. If once it passes out of town, the butcher and the baker, the grocer and the dry goods man, the cook and undertaker, the carpenter, the carriage-wright, the blacksmith, everyone, will lose the chance to touch that coin, ere setting of the sun. Just keep the little coin at home, just keep it merrily, and every time it changes hands somebody's goods will sell. That single little dollar has thus a wondrous power, to make somebody better a dozen times an hour. It pays the bill and wards off ill and he or its power relaxes, to soothe the doctor, buy the coal, and pay for clothes and taxes. —American Economist.

Dr. Fenner's Blood and Liver Remedy and Nerve Tonic.

This famous remedy, by a famous physician, has the virtue of being originated by one of America's most eminent medical authorities and has long been and is constantly used and prescribed in cases of debility, nervousness, indigestion, etc. For "building up" the system it is impossible to find it equal. The first bottle is guaranteed to give satisfaction, by the manufacturer.
