

LEGISLATIVE GOSSIP

Our Special Correspondent Tells of the Solons' Doings.

The Senatorial Question Being Settled, the Members Are Ready to Start the Wheels of Government in Motion.

St. Paul, Feb. 14.—After a three days' vacation the legislature resumed work yesterday. The senate, at last, definitely decided that it will not approve the pardon of Mollie Norris by voting to relieve J. S. Vandiver from a clerkship on the ground that there is nothing for him to do. A bill was introduced in both houses which practically appropriates a million dollars more for the state capital. It provides for the continuance of the tax which raises \$200,000 per annum for five years more. The original bill provided for a levy of \$200,000 for ten years. As the capital is state and not a local affair it is probable that the bill introduced yesterday will pass.

The mania to create new boards will exhibit. A bill was offered in the senate creating a new board of education, to be composed of a member of the faculty of the state university, a member of the normal school board, a superintendent of a high school and a county superintendent. This board is to have general charge of the educational interests of the state.

A new libel law is introduced which compels a man suing for libel to elect whether he will make it a civil or a criminal action, continuing it to one only, and not allow both as at present.

Roscoe county is now liable to be a dangerous place for fence-breakers. Representative Berg's bill was passed, allowing Roscoe county to bond her indebtedness so that she can have money to proceed against criminals.

The Carrie Nation temperance spirit invaded the house in the shape of a bill which forbids all window screens, who rooms or other articles in saloons to conceal the business carried on.

St. Paul, Feb. 15.—Senator Duckman has introduced a bill for the better protection of the forests of the state, which provides for the office of fire warden with a salary of \$2,500 a year. This is an advance in the salary now paid to fire marshals and is believed to be more nearly commensurate with the need of the office and its important duties.

The Pan-American exposition at Buffalo was recognized in both houses by the introduction of a bill creating a commission of eight members, one of whom shall be the governor, and the other seven appointed by him, and making an appropriation of \$20,000 for the state exhibit. The treasurer of the commission must give \$25,000 bond.

Senator Roverud introduced a harmless looking bill to require the presence of county attorneys at corner's requests, and Senator McNamee put in winnow bills in the interest of osteopathy.

Senator Jepson, of Hennepin, scored a victory and suffered a defeat in committee of the whole yesterday. When the judiciary committee's bill as a substitute for Jepson's measure to prohibit the recording of legal instruments in the county clerk's office was moved its indefinite postponement, which carried. Then when the Hennepin senator's measure to prohibit all lawyers in saloons carrying on business took a hard fall out of it, with the result that it was reported back with the recommendation that it do not pass.

The house committee on crimes and punishments took a more charitable view of persons marrying after divorces have been secured by either one of them than did Representative Unland when he introduced a bill prohibiting such marriages within a period of one year. Representative Johnson, of the committee, moved to have three months fixed as the limit, and the bill was recommended to pass with such amendment.

The judiciary committee killed the bill introduced by Representative Stark, providing for the appointment of a state librarian by the judges of the supreme court. The bill was clearly unconstitutional, and the affirmative power rests with the governor.

The standard center time will be adopted for Minnesota if the committee reports favorably, as the senate bill to that effect was agreed to.

Representative Sweet's bill asking that a constitutional amendment be submitted so that the terms of judges of probate be fixed by the legislature was recommended for passage.

St. Paul, Feb. 16.—Senator Johnson introduced a bill appropriating \$10,000 for the purpose of placing a statue of the late Senator C. R. Davis in the National Statuary hall in the capital at Washington. The bill is to appoint a commission of three to carry out the provisions of the bill.

Another bill introduced for the liquor dealers in the Twin Cities from shipping liquor to consumers in the country without securing a license in the same respects the law. This is a temperance measure in favor of the local saloon keeper.

The senate committee of the whole recommended for passage the bill giving judges to render their decision within four months after the case is submitted. Only two bills were passed in the senate, and those of minor importance.

If the legislature keeps on the same old line, the dignity of the legislature or the law. Two bills were introduced in the house yesterday regulating the license of barbers and also regulating the conduct of barber shops.

The latter portion of the house session was devoted to discussing Speaker Dowling's bill increasing the pay of county commissioners from \$5 to \$7 a day. A bill to indefinitely postpone was lost, but the bill was finally left in committee of the whole.

There is a good deal of agitation over the fact that the committee on reapportionment sits with closed doors. So many members of the legislature hope to see the new congressional districts so carved out that they will have a chance to go to congress that they want to know what the committee is doing, and now looks as if the committee would make the districts so that they are all got elected to congress and leave the rest of the legislature to take its chances. When the bill is finally reported to the open legislature Feb. 18, it may be different.

St. Paul, Feb. 15.—There was a little attempt to introduce politics into legislation Saturday, but it came to naught. Senator Stockwell introduced resolutions against the ship subsidy bill and against retaining the Philippines. Both were promptly laid on the table, and as a motion to table is not debatable, there was no opportunity for flights of oratory.

Among the bills introduced was the one creating a board of optometry, which is to regulate opticians, prevent any practicing opticians who are general practitioners from treating the eyes, and requiring parties selling eye glasses and spectacles to pass an examination and secure a license. The bill is evidently based on the theory that no one so blind as those who won't see, and it proposes to make them see whether they will or not. It is quite evident that the eye specialist who introduced the bill can see a hole through a blind man's eye.

Senator McGill introduced a bill creating a fund to pension school teachers in districts having over 5,000 people. It sets apart 1 per cent of the salaries paid to create the fund. It is a sort of enforced savings bank provided for the teachers by the teachers themselves, and if those affected teachers remain in the same district for 40 or 50 years they will have laid up quite a bank account for their old age. It will make the salary of a lady teacher independent of marriage to secure a home.

Another bill prohibits marriage of feeble-minded persons, or those afflicted with epilepsy or hereditary insanity. The house was greatly wrought up by a petition from the old soldiers at the soldiers' home. As it now, the pensions of the old soldiers who are inmates of the homes are collected by the institution and devoted to its maintenance, only a small fraction being given to the pensioner. The other went to all or a good deal larger proportion than they receive. There is a contest over printing it in the journal of the house, but the old soldiers scored, and it was ordered printed so that they can see their grievances. This publicity may lead to some legislation later.

A bill was passed requiring proposed constitutional amendments to be printed at the top instead of at the bottom of the bill.

The tonnage industry encountered a loss by the passage of the bill authorizing the probate judge to create monuments over neglected graves.

And still they come! A bill offered Saturday proposes to give the commission to pass upon the architecture and plans of all public buildings. The commission is to consist of five persons appointed by the governor, and they are to be paid \$5 per day for every day actually employed. If this thing goes through, there will be nothing on earth not regulated by a commissioner, not excepting the bills of fare at hotels and restaurants.

That the veterans of the civil war are fast answering the last bugle call is forcibly illustrated by a glance at the membership. Death has been particularly severe on the members of the first Minnesota volunteer infantry, and a list compiled by Secretary R. A. Plummer, Minneapolis, shows that nine comrades have been called since the last annual gathering, June 30, 1913.

News Notes. Jacob Faust has been appointed postmaster at Gladstone, Ramsey county.

Fire damaged the West hotel at Breckinridge to the extent of \$1,000. One hundred and fifty-two emigrants were rescued in Minnesota last year, an increased number over previous years. The undertaking business has shown more strength, according to the best informed, and in spite of its funeral agencies, is a money-maker. This is said to account for the increase in its ranks. The state realized \$11 from every license.

Winona will inaugurate a free bath system. The Chicago, Milwaukee & St. Paul depot at Faribault was robbed of a slot machine, containing a quantity of gum and a few pennies. The machine and contents were valued at about \$15.

Rolie M. Dart, youngest son of E. E. S. Dart, a prominent resident and property holder of Owatonna, attempted suicide by cutting his throat with a pruning knife. The attempt was unsuccessful. He was soon discharged. He has been mentally unbalanced for some months.

A postoffice has been established at Cannon, St. Louis county. HOSCH—Chicago to fancy strong-weight shipping, \$2.20; to do good heavy shipping, \$2.00; to do good heavy mixed, \$2.00; to do good heavy mixed, \$2.00; to do good heavy mixed, \$2.00.

Walter Wilnot, late manager of the Minneapolis baseball team, has been selected by H. D. Quinn and Charles Haveron to manage the Milwaukee American association team. Mr. Wilnot will be active work, such as the securing of players, etc.

The reorganized board of prison managers elected ex-Warden Henry Wolfner to succeed Warden C. McClellan. Mr. Wolfner, whose team of office was there by terminated.

The work of the state board of equalization has just been figured up. It shows that the state and the taxable property of Minnesota amounts to \$58,018,088. The tax on the total amount is \$14,000,000. The average rate of taxation is 25 1/4 mills.

The covenant has been inaugurated by some of the leading cyclists to establish a branch of the League of American Wheelmen in Winona.

MINNESOTA NEWS.

No Release. The supreme court decided several important cases, among them the case of the state against J. H. Clement, the Filmore county banker.

Clement was convicted on one indictment in connection with the insolvent bank, and sentenced to five years imprisonment. The charge was that the institution was fraudulent concern, and at this point Clement appealed and won.

The supreme court finds that the indictment was faulty in not being more specific as regards the verdict. Clement will not be released, however, as there was another indictment on which he was found guilty and sent to prison for 10 years.

The supreme court finds that this sentence was all right. Another case decided was that of Christian Bongard, the defaulting treasurer of Carver county. The verdict of the lower court was against Jacob Towne and the other bondsmen, and they appealed. The supreme court sustains the judgment.

Desperado Killed. Frank Sullivan, a baird desperado, met death near Rainy Lake City at the hands of Will Randolph, mail carrier, between Crane Lake and Rainy Lake.

They had had trouble before, when Sullivan drew a gun on Randolph, who took it away and threatened him. Sullivan saw Randolph driving across the lake and he got a Winchester. It was thrown away from him and then he got a revolver and shot Randolph through the abdomen.

He shot again and the bullet went through Randolph's chest. Randolph calmly turned about in his seat, reached for his shotgun, loaded it with buckshot out of the back of the trunk, took careful aim and shot Sullivan's head off five feet and the top of the head.

Randolph then drove 12 miles to the hospital and sought a surgeon who cared for his wounds. He will live. Caution is Urged. A statement to the public, signed by Secretary Iracken of the state board of health, Dr. R. M. Hall, Dr. C. M. Hooper, of health in Minneapolis, and Dr. Justus Olague, commissioner of health in St. Paul, urges the importance of guarding against the spread of smallpox in the state.

Employers are asked to insist that their workmen be properly protected by vaccination. It is pointed out that vaccination affords protection up to three days after the outbreak has occurred, and that proprietors of hotel and lodging houses can prevent general quarantine by taking prompt action.

It is requested that all suspicious cases of acute skin trouble should be referred to a physician at once. Pays Quarter of a Million. The Milwaukee Railroad company filed its 1913 gross earnings statement showing revenues for the year amounting to \$7,805,180 on its business in Minnesota. Its 13 per cent tax amounts to \$1,025,000, of which \$200,000 has been paid.

The effects of the light grain crop and shortage of receipts from the grain haul is shown in a \$190,247 decrease in earnings. The tax is \$5,977 less than for the preceding year.

A DOUBLE DISASTER.

Freight Train Jumps the Track and a Passenger Train Dies Into the Wreck.

Philadelphia, Feb. 13.—The south-bound train on the Philadelphia, Wilmington & Baltimore railroad, which left here at 12:30 in the morning, was wrecked a short distance below North East city at 12:45 in the morning by crashing into a derailed freight train. Engineer Edward Mead, aged 43 years, of Wilmington, was instantly killed, and Fireman George Meyers, of Ridley Park, Pa., had both feet crushed and sustained a fracture of the leg. None of the passengers were injured.

As the express train was passing the freight, the latter being on the north-bound track, the axle on one of the freight cars broke, throwing the car in front of the passenger train, causing the accident.

Expedition Ready to Start. St. Francis, Feb. 13.—The William H. Crocker expedition from the Lick observatory to observe the total eclipse of the sun in Sumatra on May 17, will sail from San Francisco on the Nippon Maru Tuesday. The expedition is in charge of Assistant Astronomer C. D. Perrine. He will be accompanied by Ralph H. Curtis, of the past year student assistant of the observatory at Dayton, Ohio, and an assistant on the Lick observatory staff. These astronomers will select their assistants from experts employed by the Dutch officials at Padang.

Double Tragedy. St. Louis, Feb. 13.—Charles E. Bent, a young man of 25 years, shot and mortally wounded his wife at 3424 La Cleve avenue at an early hour, and then took a revolver and fired a bullet through his own head, dying instantly. The couple had been living together for a time, and it is thought the killing was the result of a quarrel. Mrs. Bent is in charge of Assistant Coroner C. D. Perrine. He will be accompanied by Ralph H. Curtis, of the past year student assistant of the observatory at Dayton, Ohio, and an assistant on the Lick observatory staff. These astronomers will select their assistants from experts employed by the Dutch officials at Padang.

Oldest Living Clergyman. Philadelphia, Feb. 13.—Ely, village a few miles from this city, Monday celebrated the one hundredth anniversary of his birth. He was born near Westminster, Ind., February 18, 1813, and is probably the oldest clergyman in the United States. Mr. Nalle was ordained at the age of 40 years.

Kruger to Appear in King. London, Feb. 13.—There is an unconfirmed rumor here Monday that President Kruger has drafted a personal letter to King Edward, setting forth the Boer case and asking for his majesty's consideration.

Three Presidents Killed. Sofia, Feb. 13.—During an election riot Sunday at Beltsch the president fired on the grandees and wounded one. Three other persons also returned a volley, killing three presidents and wounding five.

Pine City Fair.

The time of holding the Monthly Fair at this place has been changed from the first Saturday of each month to the last Wednesday of each month. The merchants and business men have shown their interest in these fairs that they should have taken. But at a meeting held last night they came to the conclusion that if the fairs were held in the middle of the week they would be better patronized, and would also give the merchant a better chance to advertise special bargains for that event. Coming as they have heretofore the latter part of the week, if the merchant advertised a week in advance the farmer forgot all about it when Fair day came, and if they advertised the week of the Fair one of the farmers saw the advertisement until after the Fair was over, as both of the papers are printed the latter part of the week and would not be delivered in time to do any service to the merchant, hence the change.

The Fair will be held on next Wednesday Feb. 27th, and it is to be hoped that the farmers will bear the matter in mind and come in with everything they have to sell. The merchants, some of them at least, are advertising special attractions for this Fair, see what they offer in this issue.

The Monthly Fairs in this place should be well attended as there are enough farmers living in this vicinity, and who do their trading at this point to make them a grand success, and if our merchants and business men will only take a hold of it the Pine City Monthly Fair Day will be a time looked forward to, and will do more toward building up the trade of our bustling little village than any thing else.

—For the weakness and prostration following a grippe there is nothing so prompt and effective as One Minute Cough Cure. This preparation is highly endorsed as an unfailing remedy for all throat and lung troubles and its early use prevents consumption. It was made to cure quickly. J. Y. Breckenridge.

—Plenty of bargains at the Big Store for Fair Day, Wednesday, Feb. 27.

W. H. NOWARK'S FAREWELL.

Hinckley People Give W. H. Nowark a Farewell Reception.

On Tuesday evening in accordance with invitations sent out by a committee of the residents of Hinckley, a large crowd assembled at the Town hall to bid W. H. Nowark good by and God speed in his new field of labor, at Grand Forks, N. D.

For the past eight years and nine months Mr. Nowark has made his home in Hinckley, being in the real estate business, and it was through his hard work that the farming community of that section of the county is what it is today. He was well and favorably known all over the county and his many friends are sorry to see him leave the county.

The evening entertainment consisted of addresses, from old timers, who in a few brief words reviewed his career while in their midst. Mr. Nowark thanked his friends very cordially for the farewell reception and assured them that they would always have a warm spot in his heart. So as not to have the children forget him he promised to give them a grand picnic the coming summer. Refreshments were served by the ladies, after which dancing was indulged in for a couple of hours.

Mr. Nowark departed on the limited Wednesday afternoon for his new field of labor, where he will engage in the real estate business.

The Pioneer joins with Mr. Nowark's many friends in the County seat in wishing him good luck.

—Fresh Lake Superior Herring, at the Big Store.

—Mrs. M. Moody, of Rush City, transacted business in this place on Monday and Tuesday. Mrs. Moody is well known to many of our readers in this vicinity who will be pleased to learn that she is doing nicely in our sister city.

—There is always danger in using counterfeiters of DeWitt's Witch Hazel Salve. The original is a safe and certain cure for piles. It is a certain Tea, made famous by the Madison Medicine Co's advertising. See J. Y. Breckenridge.
