Pine City Fair Day.

Tuesday, July 23rd is the monthly fair day, and arrangements are being made to make it the best fair ever held in Pine City. The sports scheduled to take place that day will be a tug of war, the prize for the winning team being \$3.00, farmers' horse race, first purse, \$2.00, second purse, \$1.00; farmers' potato race, purses, first, \$1.00, second, 50 cents.

The next number on the program will be something new in the line of sport and will consist of a farmers' foot ball contest, eleven farmers from different towns will be chosen and will enter into a friendly game of foot ball, the eleven succeeding in putting the ball over the other's goal to receive a purse of \$3.00. A farmers' foot race for purses of \$1.00, and 50 cents will be run for. In the afternoon, after the sports, Miss Isabel Barbour will give a dramatic reading in Rush's hall, and also in the evening.

Farmers, remember this is your day and if you have any stock, farm machinery, horses, wagons, buggies, furniture, or in fact anything that you wish to dispose of or wish to purchase, come to the Pine City Fair. Remember the date is Tuesday, July 23rd. The Pine City Cornet Band will furnish the music during the afternoon. Come one, come all, and enjoy the day with us.

Excursion to Bergman's.

The excursion to Bergman's famous summer resort that was to have taken place last Friday evening had to be postponed on account of threatening weather in Tuesday evening of this week. At about 7:15 the steamer, having a barge in tow, arrived at the dock, and immediately the crowd began to gather and in a short time the bank was lined with the young folks and some of the older ones, and it looked as if the steamer and barge would be loaded to the water's edge, but for some unaccountable reason when it was time for the boat to pull out more than two-thirds of those on the bank stayed at home. There is something passingly strange in regard to excursions to the lake. If the people of any other town in this vicinity had the same chance for steamboat riding, and had as pleasant a place as Bergman's to go to, and could go as cheaply as this excursion was placed at, all the boats and barges on the river would not hold the crowd of people that would take advantage of the opportunity. Mr. Bergman went to considerable expense and trouble in getting up this excursion and the citizens should appreciate his efforts by patronizing him whenever he gets up anything to try and amuse them. Those who attended to excursion on Tuesday evening were well pleased and expressed a wish that Mr. Bergman would give these parties often.

For the benefit of those who stayed at home, we will give a short outline of how the evening was spent in the hope that if Mr. Bergman gives another excursion they will strive to attend. At about 9:00 o'clock the boat pulled out carrying the Pine City Cornet Band which played about a dozen pieces during the evening, and did a great deal to enhance the pleasure of the merry crowd. When the camp, Helen Bases, was reached, the large that was in tow was left as the steamer was amply large to accommodate the party and with room to spare. Michael Hurley came aboard and we steamed for the lake. When reaching the mouth of the lake the logs were jammed against the boom and the excitement caused in getting into the lake added to the enjoyment. When reaching Pokenama Park hotel we found quite a crowd awaiting us on the bank, and extended us a hearty welcome. After going to the hotel to remove hats and wraps, the larger proportion of those assembled bid themselves to the dancing pavilion where they spent the time until 12:00 o'clock in tripping the light fantastic to music furnished by the Pine City Orchestra. At 12 o'clock supper was announced and those desiring repaired to the hotel where the tables were spread with a bountiful and wholesome repast, as all those who partook can testify. At about 2:15 the dancers concluded they had disipated enough and the boat left the dock for her homeward trip, reaching her moorings in this place without accident about 2:30. On the return trip the band furnished some very fine music, which taken alone was well worth the price charged for the excursion. We hope that Mr. Bergman will not get discouraged, and that he will give us several more excursions during the season.

Base Base at Rush City.

The second nine of this place went down to Rush City on Sunday last to play a game of ball with the second nine of that place. The game was called at two o'clock and the battle raged until 4:15 when the Rush City boys threw up the sponge at the end of the seventh inning. Pine City went to bat first and in their half ran in eight scores, the second nine of Rush City using their own pitcher. The Pine City boys administered a coat of white wash to the boys from down the line. At the beginning of the second inning the Rush City boys put in a man by the name of Nelson to pitch and Otto Sommers to catch. Nelson pitches for the first nine and Sommers has played with the Rush City team ever, since the first time we saw them play. For one-inning the county seat boys took stage right and the boys from our sister city made them a present of a goose egg, but they got their eye on the ball after that and when the battle smoke had cleared away the score board read 16 to 27 in favor of the Pine City boys. In the second inning Frank Hurley, the Pine City catcher, was standing on the home plate when one of the Rush City boys slid in and threw Frank about six feet in the air and when he came down he fell on his arm and the game was delayed for about a half an hour but his arm hurt so badly that Jos. Morrisett, who went down as a substitute, was called into the game, and the balance of the team was changed around so that the boys were playing out of their positions. Taking the game as a whole it was a fine exhibition of the National game by the county seat boys who had their opponents at their mercy from the start.

Mother Always Keeps It Handy.
"My mother suffered a long time from distressing pains and general ill health due primarily to indigestion," says L. W. Spalding, Verona, Mo. "Two years ago I got her to take Kodol. She grew better at once and at 70, at the age of seventy-six, eats anything she wants, remarking that she fears no bad effect as she has her bottle of Kodol handy. Don't waste time doctoring symptoms. Go after the cause. If your stomach is sound your health will be good. Kodol rests the stomach and strengthens the body by digesting your food. It is nature's own tonic." J. Y. Breckenridge.

THERE IS MONEY FOR YOU IN EVERY SACK OF PINE CITY FLOUR.

Pine county land has been fertilized by nature ever since Creation, and produces the Best Wheat in the World. We buy this wheat direct from the farmers and make it flour in a modern, up-to-date plant. Bread from this flour is more wholesome than that made from prairie wheat. It retains moisture longer and makes more bread from the same amount of flour. If your dealer tells you he has a flour that is as good or better than ours, you can know that he is trying to make money out of some other flour.

We employ Pine City labor, burn Pine City fuel, and grind Pine City grain. Don't you think it would pay you to use our flour? Give it a trial anyway. We guarantee it.

Maj. Hugh McDonaghe, who led the old Ninth regiment in its famous charge up Malvern hill after all the superior officers had been killed or wounded, and who returned with what was left of the battle, celebrated his sixty-fourth birthday last week in the company of his old friends. In recent years Maj. McDonaghe has been an officer of the United States coast.

Rev. David B. Matthews of St. John's Episcopal church, West Hoboken, N. J., is establishing quite a reputation as a life-saver. He jumped into the river there a few evenings ago and dragged out a boy, saving the little fellow's life. At the same spot on a previous occasion he saved three boys from drowning and previous to his advent in Hoboken had performed similar feats of daring.

To recover \$5,000,000 in gold believed to lie at the bottom of the East river is the project of the latest "treasure trove" company. New Jersey has produced a company which has been regularly organized with an authorized capital stock of \$250,000. The gold it intends to seek went to the bottom with the British frigate Luscar when the vessel foundered opposite Randall's island in 1780.

Chickens are now plucked in a wholesale manner by the use of pneumatic machinery. There is a receptacle in which the fowl is placed after being killed, and into this are turned several cross currents of high pressure air revolving at the rate of 5,000 turns per minute. In the twinkling of an eye the bird is stripped of its feathers, over a thousand particles of down, and the machine is ready for another.

Up to some time ago the Norwegian army was the only one in Europe in which snowshoes were used to any extent. After several years of extensive trials, however, the Austrian minister of war has now equipped several battalions of the Imperial Austrian army with snowshoes. During the maneuvers carried on this year in the Austrian Alps, it was proved to be of immense advantage to the troops equipped with them.

The car has a larger number of physicians in attendance than any other conveyance in the world. There are no fewer than twenty-four, and needless to say, they are selected from among the most eminent doctors of Russia. There is first a physician-in-chief; then come the honorary physicians and four honorary surgeons. There are also a chemist and an honorary chiropodist, two court physicians and three specialists for the Carina.

The Egyptian pyramids are soon to come out of the darkness of 5,000 years, and will be accessible to all tourists. General Director Desperoy of the society which has in charge the preservation of the antiquities of the country, has decided to light with electricity the great pyramids. This will provide Egyptian tourists with new attractions, and they will be able to penetrate to the innermost recesses of the pyramids.

Wireless telegraph equipment for the entire navy, including all shore stations and apparatus on every ship, is to be installed as rapidly as possible, under plans made by Admiral Bradford and approved by Secretary Moody. Orders have been issued and are now being carried out at the New York navy yard to fit all ships in commission for the apparatus. Air in pastilles is the latest novelty. The invention is the work of M. Georges Gauthier of the Ecole Polytechnique, Paris, who has discovered a combination which, when dissolved in water, gives off oxygen. Two pounds of air pastilles made of this combination will produce 250 liters of oxygen, and the benefit of the invention in theaters, hospitals, mines and submarines is evident at a glance. It means, in fact, that a trip to the sea side is to be bought from the nearest chemist and enjoyed in one's own room.

Mysterious forests around the unmaped headwaters of the Amazon river, where hidden gold mines are thought to be, guarded by a large tribe of Indians known as the "Aché," who still cling to the ancient rites of the children of the sun. These Napo Indians have brought out significant evidence of the richness of the placer mines. In Quito gold dust is the standard currency, which they bring in hollow bamboo joints heavy with grains and dust of the precious metal, which is washed out by the most primitive method.

Paris has a newly formed "syndicate of kitchen maids," whose object is to restore to women her rights in the kitchen, from which she is being driven by men cooks and waiters in restaurants and hotels. The syndicate asserts that experienced women cooks can not get on as well as the women who want to fit themselves for the place of chef are unable to find opportunity. It is therefore proposed to employ regularly a certain proportion of "experienced girl cooks" in their kitchens.

IS OPPOSED TO STRIKE.

President Mitchell Declares His Policy Before National Convention at Indianapolis.

PROPOSES AN ADDRESS TO THE PEOPLE

Would Also Ask the Aid of All Trade Unions, and Suggests \$300,000 Assistance for Relief of Idle Miners—Animated Discussion by the Convention Follows.

Indianapolis, Ind., July 18.—If the voice and influence of President Mitchell, of the United Mine Workers, prevail with the members of his organization, there will be no general strike of the organization. The chances of such a step being taken now are very remote. In his speech in the convention, Thursday afternoon Mr. Mitchell declared strongly against a strike and urged that the bituminous miners continue at work, and that a system of assessment upon the members of the order, which he outlined, be carried into effect as the best means of affording aid and support to the striking anthracite men in the east. Following are Mr. Mitchell's recommendations:

- 1.—That the treasurer of the order be directed to appropriate \$50,000 for the relief of the anthracite miners.
- 2.—That the unions appropriate for the purpose as large a sum as they can afford.
- 3.—That an assessment of 10 per cent be levied on all members of the order.
- 4.—That all officers of the national district unions be directed to collect 5 per cent or over contribute 5 per cent of their salaries.
- 5.—That an appeal be made to all trade unions and citizens generally to aid the anthracite miners.
- 6.—That an address to the American people be issued appealing to the American people to contribute to the fund which will compel the operators to submit to arbitration.

Action Delayed. His recommendations, if adopted by the convention, would have settled the entire question for which the convention was called, and an immediate adjournment would have followed. A motion to adopt the suggestions of President Mitchell prevailed, and the debate, in which the general sentiment was against the ordering of the strike. The men from the anthracite regions have made a request that they be allowed to hold a caucus to determine upon an expression of opinion as to what they thought the convention should do, and submit an amendment of the convention for this purpose. Their request was granted, and the adjournment taken. The men who were in favor of a strike were a decided minority in the convention.

IN SECRET SESSION.

Indianapolis, Ind., July 19.—At the conclusion of the session, which lasted the entire afternoon, the recommendations of President Mitchell for the management of the anthracite strike were read to the national committee, which is to report back to the convention when it meets this morning. This committee consists of President Mitchell, Secretary Lewis, Secretary Wilson and the president of each district which is taking part in the convention.

WILL COST \$300,000 WEEKLY.

At the conclusion of the session Secretary Wilson said: "It will cost \$300,000 weekly to support all the men now on strike in the various districts. An assessment of 10 per cent per week will bring in \$250,000 a week; an assessment of one dollar per week upon each member of the union will result in about the same sum. We will require \$250,000 to raise each week from outside sources, and from the promise of the men, which have been made, we are confident that we will be able to do this."

MINERS ASK FOR HELP.

Indianapolis, Ind., July 21.—Having declared against the strike, Mitchell adopted a report calling on the American people to contribute \$1,000,000 a month to aid the striking anthracite miners, provided for a maintenance fund and issued a stirring appeal to public opinion, the United Mine Workers' convention, Mrs. Daniel Morgan, declared Saturday afternoon and adjourned.

SAILORS DROWNED.

Manila, July 18.—A severe typhoon swept over the southern islands June 14 and 15. The United States customs steamer Shearwater was sunk on the island of Marinduque, and 19 of her crew, including three Americans, were drowned.

A NOVEL ANNOUNCEMENT.

Pana, Ill., July 21.—The Assumption Independent, a weekly newspaper, announced that it will begin the publication of the Holy Bible in the vernacular of the people, and continuing until the whole is published. It will require 50 years to complete the publication.

MOTHER AND DAUGHTER KILLED.

Amoret, Mo., July 21.—Near here a Kansas City Southern train struck a carriage containing Mrs. Daniel Morgan, aged 55, and her daughter, aged 30, killing both. They belong to one of the best families in this section of the state.

DEAD OF AN INDIAN MINER.

Seattle, Wash., July 21.—Driven insane by illness Daniel H. Lake, a miner, shot and killed his wife, Mrs. David Thomas, mortally wounded his sister, Mrs. Mary J. Thomas, and then blew his own brains out.

FIFTEEN PERSONS DROWNED.

Hamburg, July 22.—The steamship Primus, of Hamburg, with 185 passengers on board, was out in two days and sank in the North Sea on Sunday, July 22, with 150 persons on board. Only two deaths occurred there in 1902.

WISCONSIN REPUBLICANS.

State Convention Concludes Its Session—The Ticket Nominated.

Madison, Wis., July 18.—The Republicans of Wisconsin finished their work in convention at 8:35 Thursday night after nominating the following ticket:

- For Governor—Robert M. La Follette, of Madison (renominate).
- For Lieutenant Governor—James O. Davidson, of Badin.
- For Secretary of State—Walter L. Houser, of Milwaukee.
- For State Treasurer—John J. Kempf, of Milwaukee.
- For Attorney General—L. M. Burdette, of Neillville.
- For Superintendent of Public Instruction—Charles Omm E. Cary, of Delavan.
- For Railroad Commissioner—John W. Thomas, of Chippewa Falls.
- For Insurance Commissioner—Zeno M. Hunt, of Milwaukee.
- Gen. George E. Bryant was re-elected as chairman of the state central committee without opposition.

A DEADLY STORM.

Eleven Persons Lost Their Lives and Great Damage Is Done to Property and Buildings in Baltimore.

Baltimore, Md., July 21.—A fierce storm, characterized by a windstorm of extraordinary velocity, thunder, vivid lightning and a heavy rain, suddenly visited Baltimore at 1:30 p. m. Sunday, coming from the southwest, with the net result that 11 persons lost their lives, hundreds of others were injured, trees in all public parks and streets were torn up by the roots, many buildings damaged and several people injured. The storm exhausted the fire in less than 15 minutes. The damage done in the business part of the city was comparatively slight, being confined to the blowing down of signs and injuries to roofs. The most serious incident of the storm was the blowing down of the city along the river front and in the harbors where the wind spent its violence.

VALUE OF FARMS.

Washington, July 22.—The census bureau Monday issued a bulletin giving the condition of agriculture in the United States for 1901 and 1902. It shows that there were at that time 5,739,637 farms in the entire country, which were valued at \$1,674,494,247. The value of farm implements added to the value of the farms, give a total value of farm property amounting to \$20,514,001,838.

RESIGNATION POSTPONED.

Lansing, Mich., July 22.—Owing to the illness of one of the attorneys for the defense, the examination of the Henderson-Ames company directors and N. Rickertoff, of Kalamazoo, on a charge of perjury in connection with the grand jury investigation of the state military funds, was postponed till August 11.

DEATH BY LIGHTNING.

St. Louis, July 19.—Fred Wetzel, 30 years old, and a son and daughter of Jacob P. Huskopf, aged 14 and 10, respectively, were struck by lightning near Millersville, in St. Clair county, Ill., Friday, and instantly killed. The same stroke killed two other persons killed to a wagon in which they were riding.

RESIGNATION TENDERED.

Lansing, Mich., July 22.—Warden Freeman, of the Marquette prison, has tendered his resignation to the board of the prison board, to take effect at his pleasure. The board, by resolution, expressed the opinion that the resignation should be accepted.

PRIESTS TO BE WITHDRAWN.

Washington, July 21.—The vatican will withdraw the friars from the Philippines, as asked by the United States. The decision is due to Gov. Taft's final instructions, but withdrawal will be made gradually. Other Spanish priests will remain in the islands.

BIG SIGN MISSING.

Chicago, July 21.—Five Washington park bookmakers lost \$35,000, and a big sign for the National Tennis society was blown away Friday night. The boxes are said to have been locked in the regular way, but the cash was gone when they were opened Saturday.

ALLEGED MURDERER ARRESTED.

Sioux City, Ia., July 22.—William Nimitz, a negro, was arrested at Denison, Ia., Monday for the murder of Fred Powell, a brakeman on the Milwaukee, who was stabbed to death Sunday.

FARMER LOSES HIS LIFE.

Clarendon, Ia., July 22.—Taylor Long, a young farmer of Ouss, Taylor county, was drowned in the flood waters of the Neosho river, three miles northeast of here Monday afternoon.

THE HEALTHIEST TOWN.

Washington, July 22.—Elsworth, Wis., with 3,000 population, is the healthiest town in the United States. Only two deaths occurred there in 1902.

STRIKE COMES TO AN END.

The Freight Handlers in Chicago Decide to Return to Work in a Body.

Keokuk, Ia., July 21.—Exploration of the flooded districts of the Mississippi river from Keokuk south, show conditions beyond the appreciation of any but people of long experience with the father of waters in its most destructive mood. The situation is growing worse hourly and a great conflagration in a great city would not be more rapidly destructive of values than the antithesis a hundred miles below Keokuk. There is absolutely not the slightest chance of stopping this dozen times most costly flood in the history of the great river above St. Louis. The correspondents went all over the worst damaged area Sunday in the steamer Silver Comet and found everywhere the greatest crop ever known under water deep enough to float a steamboat. People at the river cities give an immense mass of details, all to be generalized into losses aggregating many millions of dollars; hundreds of farmers, rich ten days ago, penniless and homeless, hundreds watching and praying that the great levees may hold, which are now their bulwark against additional millions of loss and many cases of penury.

BLAME TEAMSTERS FOR THEIR FAILURE.

No Concessions Are Made by the Discontented Railroads, and the Men Are Told to Make the Best Terms They Can with the Railroad Managers—History of Strike.

Chicago, July 17.—The gigantic strike of freight handlers which has almost paralyzed Chicago for the last ten days ended Wednesday at 10:30 a. m. when the men by an almost unanimous vote decided to return to work in a body and secure the best possible terms under the circumstances. A strike of teamsters, which would have involved nearly 20,000 men, has been averted by the abrupt ending of the controversy.

Result a Disappointment.

The result of the strike was a bitter disappointment to the men. They knew early in the day that the great levees would hold, which are now their bulwark against additional millions of loss and many cases of penury.

Careful estimates of the territory covered and generalization of the statements of best informed people indicate the loss up to this time is about \$6,000,000, with several hundred men in the mine.

Excitement Tremendous.

The excitement is tremendous. Not a person in the town but has friends or relatives in the mine. Women and children are thronging to the Ontario shaft house which is midway between Park City and the mine. Nearly all of them have husbands or fathers in the mines, and their grief is pitiable.

Mine Owners Exerted.

Park City, Utah, July 20.—The coroner's jury returned a verdict holding the officials of the Daily-West mine entirely blameless for the accident by which 35 men lost their lives.

Tragedy in Ohio.

Cleveland, O., July 22.—Frederick Morrison, of Salem, O., while riding in a carriage on Miles avenue with Miss Mary Cowley, Monday, drew a revolver from his pocket and fired a bullet through his brain that resulted in his death shortly afterward. Morrison had been paying attention to Miss Cowley for some time past, and her refusal to marry him led to the tragedy.

Crews Saved.

Port Hope, Mich., July 22.—Fourteen of the crews of the coal-hauling steamer A. D. Thompson, and barges Whitworth, stranded near Port Arthur, were taken off the wrecks July 19 by the life-saving crew. The steamer has been scuttled to prevent her from pounding to pieces during a gale. The Whitworth is afloat hanging to the steamer by her tow line.

Texas Democrats.

Galveston, Tex., July 17.—The democratic state convention nominated S. W. Lanham as governor. The platform indorses the Kansas City declaration and denounces imperialism, centralization, trusts, monopolies, mergers and other combines.

The Anti-Trust Bill.

Washington, July 21.—President Roosevelt has delegated the task of framing the anti-trust bill to Congressman Littlefield, of Maine. It will be introduced in congress on the first day of the session and made an administrative measure.

Dead Prentice's Estate.

Chicago, July 21.—The late Archibald Prentice's estate amounted to \$200,000 divided by his wife. His insurance and personal property will be left two sisters are left over \$25,000 each, and several churches and schools are given the balance.

Killed His Son.

Chicago, July 21.—William McCann, aged 29, was shot and killed by his son, Patrick, at their home, 249 Kinzie street, after a fight. He attacked the father with a sledge hammer which was fatally injured. All the rest were more or less bruised.

Named for Governor.

Burlington, Vt., July 17.—P. M. Clements of Burlington was unanimously nominated for governor by the local option league convention. F. W. Johnson of Lamoille was nominated for lieutenant governor.

Heavy Loss of Life.

St. Petersburg, July 22.—A ferry-boat on the River was wrecked Monday at Hesselburg and 15 persons were drowned.

A COSTLY FLOOD.

Damage from High Water in the Mississippi Valley to Property Will Be Over \$6,000,000.

Keokuk, Ia., July 21.—Exploration of the flooded districts of the Mississippi river from Keokuk south, show conditions beyond the appreciation of any but people of long experience with the father of waters in its most destructive mood. The situation is growing worse hourly and a great conflagration in a great city would not be more rapidly destructive of values than the antithesis a hundred miles below Keokuk. People at the river cities give an immense mass of details, all to be generalized into losses aggregating many millions of dollars; hundreds of farmers, rich ten days ago, penniless and homeless, hundreds watching and praying that the great levees may hold, which are now their bulwark against additional millions of loss and many cases of penury.

Careful Estimates of the Territory Covered.

Careful estimates of the territory covered and generalization of the statements of best informed people indicate the loss up to this time is about \$6,000,000, with several hundred men in the mine.

Number of Dead Unknown.

In the Daily-West mine between 100 and 150 men were at work. In the Ontario were nearly 300. It is believed by some that it awakened every one within a radius of miles. As an example of its awful force, it is told that two horses in the ore tunnel, one on each side of the tunnel, were killed by a wave of air.

Excitement Tremendous.

The excitement is tremendous. Not a person in the town but has friends or relatives in the mine. Women and children are thronging to the Ontario shaft house which is midway between Park City and the mine. Nearly all of them have husbands or fathers in the mines, and their grief is pitiable.

Mine Owners Exerted.

Park City, Utah, July 20.—The coroner's jury returned a verdict holding the officials of the Daily-West mine entirely blameless for the accident by which 35 men lost their lives.

Tragedy in Ohio.

Cleveland, O., July 22.—Frederick Morrison, of Salem, O., while riding in a carriage on Miles avenue with Miss Mary Cowley, Monday, drew a revolver from his pocket and fired a bullet through his brain that resulted in his death shortly afterward. Morrison had been paying attention to Miss Cowley for some time past, and her refusal to marry him led to the tragedy.

Crews Saved.

Port Hope, Mich., July 22.—Fourteen of the crews of the coal-hauling steamer A. D. Thompson, and barges Whitworth, stranded near Port Arthur, were taken off the wrecks July 19 by the life-saving crew. The steamer has been scuttled to prevent her from pounding to pieces during a gale. The Whitworth is afloat hanging to the steamer by her tow line.

Texas Democrats.

Galveston, Tex., July 17.—The democratic state convention nominated S. W. Lanham as governor. The platform indorses the Kansas City declaration and denounces imperialism, centralization, trusts, monopolies, mergers and other combines.

The Anti-Trust Bill.

Washington, July 21.—President Roosevelt has delegated the task of framing the anti-trust bill to Congressman Littlefield, of Maine. It will be introduced in congress on the first day of the session and made an administrative measure.

Dead Prentice's Estate.

Chicago, July 21.—The late Archibald Prentice's estate amounted to \$200,000 divided by his wife. His insurance and personal property will be left two sisters are left over \$25,000 each, and several churches and schools are given the balance.

Killed His Son.

Chicago, July 21.—William McCann, aged 29, was shot and killed by his son, Patrick, at their home, 249 Kinzie street, after a fight. He attacked the father with a sledge hammer which was fatally injured. All the rest were more or less bruised.

Named for Governor.

Burlington, Vt., July 17.—P. M. Clements of Burlington was unanimously nominated for governor by the local option league convention. F. W. Johnson of Lamoille was nominated for lieutenant governor.

Heavy Loss of Life.

St. Petersburg, July 22.—A ferry-boat on the River was wrecked Monday at Hesselburg and 15 persons were drowned.

AN UP-TO-DATE GOOSE RACE.

gone back to the freight yards and asked for work.

The decision of the men to go back to work in a body was largely the outcome of a meeting between President Curran and the members of the state board of arbitration, held Tuesday night. Wednesday Chairman Job and the other members of the board met the officials of the union again and told them frankly that the men could not hope to secure work unless they went back as the strike in the freight yards went back at the same time. The state board had felt the pulse of the railroad industry and knew that if the freight handlers did not go back Wednesday they could never go back.

Teamsters' Union Is Blamed.

The whole blame for the failure of the strike in the freight yards was laid on the shoulders of the teamsters' union. President Curran issued a statement saying that the freight handlers at the door of the officers of the Teamsters' Union. President Curran's order to his men to live up to the strike in the freight yards and freight of all kinds marked the beginning of the end.

Railroads Issue Statement.

The Association of Railway General Managers, meeting every week in which Chicago, has issued the following signed statement: "All of our old men, not before on hand for work, are being recalled to work on to-day, and were put to work on to-day. The men who were laid off or otherwise, since Tuesday, and no agreement was made with the union or with any committee. The men simply reported for work, and they doubtless expect and will receive the pay offered July 1, and which the railroad companies have been willing all along to pay."

Curran Makes Statement.

Without any evidence of bitterness and hopeful of his union's future, President Curran issued a statement saying that the freight handlers were neither cowed nor discouraged, but that they go back to work with only friendly feelings for everybody and will satisfied with the trend affairs have taken. Officials of the Teamsters' union were indignantly criticized by him.

History of the Struggle.

The freight handlers' strike began at nine o'clock a. m. Monday, July 7, when the men left work at 24 freight depots in a body. The strikers demanded 18 cents an hour for truckers, the striking out of the 30 days probation rule which provided for less pay for men for the first month of their employment, and the payment of time and a half for overtime work.

The Officials of the Road Refused to Grant the Demands of the Men.

The officials of the road refused to grant the demands of the men and imported labor to handle the freight. For several days the incoming and outgoing goods were handled without trouble. Then the teamsters refused to handle the freight, and the railroad business was at a standstill.

Queen Withstands Nearly Whole.

The Negro, July 17.—John Witham, who has been convalescing at Castle Schuylberg, near the Rhine, Pa., was elected to the Illinois legislature and will return home Saturday with his husband.

THIRTY-THREE DEAD ARE TAKEN OUT.

Over One Hundred Men in the Mine at the Time of the Disaster. Most of Whom Were Probably Perished—The Relief of Deceased Women and Children Is Pitiable.

Park City, Utah, July 17.—Two powder magazines at the 1200-foot level of the Daily-West mine exploded about one o'clock Wednesday morning, causing a loss of life that at present cannot be estimated nor the extent of the disaster known. At four o'clock 33 men had been taken out of the mine dead, and several others had been recovered in a half dazed condition. These were all brought out through the Ontario mine shaft, which is a mile distant from the Daily-West, in which the explosion occurred. The 1200-foot level of the Daily-West corresponds to and is connected by tunnel with the 600 level of the Ontario.

Number of Dead Unknown.

In the Daily-West mine between 100 and 150 men were at work. In the Ontario were nearly 300. It is believed by some that it awakened every one within a radius of miles. NO LONGER A DREAM

The Desert Will Be Made to Blossom as the Rose.

Irrigation Bill Recently Passed by Congress Will Stimulate the Rapid Development of the Arid West.

(Special Washington Letter.) It is said to be possible to irrigate a large portion of the great desert of Sahara by making openings for the Mediterranean sea and flooding the vast acreage; but by retaining control over the waters so that the desert will not become an additional sea.

When the fathers and mothers of today were school children they studied geographies which showed upon their maps of the country west of Omaha and Kansas City a vast territory then unknown and denominated "The Great American Desert." That was only 35 or 40 years ago.

It is a well-known fact that forestry and irrigation must receive simultaneous attention. It is not too soon for the general government to take cognizance of the palpable fact that the destruction of the forests in the great West has affected the Mississippi river within one generation.

There was a time when the valley of the Jordan was the most fertile and beautiful in the then civilized world. Solomon, reputed to have been exceptionally wise, began the destruction of the forests in the hill country of Lebanon. His successors continued the crusade against the trees until the hills became barren and the Jordan a miserable creek.

Having a broad view of the lessons to be learned from the past, and to be applied to the present and immediate future, President Roosevelt in his message to the congress last December, said: "The forest reserves should be set apart forever for the use and benefit of our people as a whole and not sacrificed to the shortsighted greed of the few."

The special committee mentioned in the report did diligent work. Each member of the senate and of the house of representatives kept the matter before the legislators, so that when the time came for voting everyone knew the provisions of the measure and its ultimate object.

Senator Warren, the chairman, infused his energy and earnestness into the senate. He introduced a bill, which he felt that Warren was after water, more water, and keeping them all in Nevada water, and the irrigation bill. The North Dakota senator, Hanabrough, was like unto him.

HON. W. A. REEDER, Kansas Congressman Who Pushed the Irrigation Bill.

The committee on irrigation of arid lands in the senate and house of representatives proceeded promptly to consider the recommendations of the president. The senate committee was the first to formulate and report a bill, and the measure was passed and sent to the other branch of the senate. It was received in the house of representatives on March 4.

MINNESOTA NEWS.

Crop Bulletin. Spring wheat, oats, barley and flax are generally in splendid condition, though in parts of the Red River valley which were flooded in the spring, the wheat is about two weeks later than usual.

The report of the house committee shows that 535,487,731 acres of land are available for public entry in the states and territories named in the bill. Kansas and Nebraska contain no arid lands, although nearly one-third of the western portion of each state is semi-arid, and susceptible to improvement by irrigation.

The report of the house committee shows that 535,487,731 acres of land are available for public entry in the states and territories named in the bill. Kansas and Nebraska contain no arid lands, although nearly one-third of the western portion of each state is semi-arid, and susceptible to improvement by irrigation.

Dakota are in the arid or semi-arid belt. The portions of the states of Oregon and Washington east of the Cascade range are either arid or semi-arid. This condition exists over two-thirds of California, a fact surprising to all who have not visited the region.

All of the other states and territories are in the arid belt, and can only be made fertile by scientific irrigation. It is estimated that upwards of 30,000,000 acres of barren land may be made fertile. The development of the empire will prove not only beneficial to those teeming millions of the future who shall dwell thereon, but have an effect upon the civilization of the contiguous country, and also aid to the wealth of the entire country by sustaining laborious and other producers of articles of value.

In 1900 the national platforms of the three political parties declared in favor of irrigation by national direction. Referring to this fact, the committee report says: "With confidence in the desire of members of all parties to fulfill the pledges of their national platforms, greatly enlarged by the earnest and vigorous recommendations of the president, the members of both branches of congress from the arid and semi-arid states met in early days of the present congress, appointed a committee of one from each state and territory, with Senator Warren as chairman, and authorized to formulate a suitable bill. This work having been accomplished, the bill was introduced in the senate by Mr. Hanabrough, and in the house of representatives by Mr. Newlands. No legislation presented to an American congress has had all of its provisions more carefully and thoroughly considered in all their bearings."

The special committee mentioned in the report did diligent work. Each member of the senate and of the house of representatives kept the matter before the legislators, so that when the time came for voting everyone knew the provisions of the measure and its ultimate object. It is almost invidious to make any distinction, but it is generally admitted that Congressman Reeder of Kansas, was exceptionally hard at work all winter and spring in this behalf. He talked irrigation to everybody and all the time, in session and out of session.

Senator Warren, the chairman, infused his energy and earnestness into the senate. He introduced a bill, which he felt that Warren was after water, more water, and keeping them all in Nevada water, and the irrigation bill. The North Dakota senator, Hanabrough, was like unto him.

THE NEWS IN BRIEF.

The Annual Encampment of the Grand Army of the Republic will be one of unusual interest.

The gathering of the Grand Army in reunion at Washington, D. C., the first week in October, has awakened considerable enthusiasm among the comrades in the state. Department Commander Starkever desires Minnesota to send a good showing and issues the following circular letter:

The coming National Encampment at Washington which will be held during the first week of October, offers us another and probably the last opportunity to visit as a body of veterans the city which to us must ever be the most interesting as well as the most dearly loved of the commonwealths of our country.

Our ranks were sadly broken, our banners of our olden glory faded and worn, our hearts with pain, which only the sweet memories of our olden days could soothe.

The U. S. Civil Service Commission will hold examinations, during September and October, in several places in each state to secure young men and women for the government service. There are now 126,423 positions in the classified civil service, being an increase of 46,736 in six years. There were 7,772 persons appointed between July 1, 1901, and April 1, 1902, being at the rate of 10,070 for the year. There will probably be 11,000 appointments next year. Salaries at appointment vary from \$660 to \$1,200 a year with liberal promotions afterward. All appointments are for life and for most positions only a common school education is required. Politics or religion is not considered. Those desiring to take examinations of this kind can get full information about them freely writing to the Columbia Government College, Washington, D. C., and asking for its Civil Service Catalogue for 1902.

A party of seven young ladies of St. Paul are visiting at the residence of Mrs. Geo. Wiseman, with their old schoolmate, Miss Lucy. On Monday evening Mrs. Wiseman planned a hay rack party composed of eighteen young ladies and at about 7:30 Geo. Sherwood, who had previously fitted on his hay rack, repaired to the Wiseman residence and got his load. They started out in the country a jolly crowd but in their enjoyment they forgot to watch the clouds and in a short time the rain began to descend and they all struck up and sang, "There is no Place Like Home." On Wednesday afternoon the young ladies departed for Lake Pokegama where they will spend a couple of days camping out, having secured Auditor Greeley's cottage on the Mission farm. They are being chaperoned by Mrs. Geo. Wiseman. The young ladies are here for a lark and to have a good time, and they would have to look the whole state over to find a place that is prettier or affords better opportunities for having a good time than historical Pokegama.

Spindle Top Lands Have the Only Cashers.

No other field on earth can compare with its already enormous output. 500,000 barrels were produced and consumed in 1901.

WE OWN OUTRIGHT ONE-HALF ACRE OF THE CORE.

Most companies own 1-16, 1-32 or 1-64 of an acre of proven oil land on Spindle Top. We lead all Minnesota companies.

A Home Company and a Home Market.

Minnesota business men control the affairs of the company and we have already established a market for the oil in St. Paul, Minneapolis, Red Wing and other Minnesota cities.

FIND OF ANCIENT METEOR.

Laborers at Williamsburg, N. Y., Unearth What Appears to Be Old Heavenly Visitor.

What seemed to be fragments of a magnetic iron meteor, which may have descended to the earth centuries ago, was discovered the other day by some laborers who are excavating a cellar on Knickerbocker avenue, at Cornhill street, Williamsburg, N. Y. The discovery was made at a depth of 40 feet, it being necessary to remove a hill 20 feet high before the sidewalk level was reached.

Upon reaching a ten-foot depth in the cellar excavation the men came upon the hard substance, and at first believed it nothing but solid rock. Its extraordinary weight, however, made them examine it more closely, and when they cut into a large piece of the matter they found the interior was a solid mass of iron ore beneath a surface several inches deep of hardened yellow clay.

The search was extended further, and the men came upon a perfectly formed ape's head and also a ram's head. All the matter was turned over to Frank N. Schell, the contractor, who will transfer the relics to some museum.

"It appears to me," said Mr. Schell, "that when this meteor fell, perhaps centuries ago, it struck the earth like a shower of hot stones would. That the pieces are all ancient is evident from the hard yellow clay which surrounds each piece."

A NEW LIFE RAFT.

Life-Saving Device of Special Merit to Be Placed on Some of the Warships.

The navy department is providing some of the warships with a new life raft, says a Washington special to the New York World. It consists of an elliptical copper tube somewhat flattened, with air-tight compartments, strengthened by fins. The tube is incased in cork, wound with canvas and made absolutely watertight. Attached to this float is a rope netting three feet deep, from which is suspended a wooden slatted bottom. The netting is suspended on the inner side of the float from rings which travel on washings, so that the bottom rests in the proper position, no matter which side of the float falls upon the water when it is thrown overboard. It does not require to be righted, adjusted or turned about; it is ready for service the moment it strikes the water. Cars are attached to the sides of the float to propel it when it is occupied.

Enough persons cannot get on this craft to sink it, and, unlike the lifeboat, it cannot capsize or founder, nor, like a raft, go to pieces against the sides of a ship.

The war department is considering the advisability of equipping army transports with the same sort of float.

WISE WHITE HOUSE EMPLOYE.

Does Quite a Profitable Business in Disposing of Kittens of the Official Out.

Evidence of prosperity exhibited by one of the colored employees of the white house, best known as George, has made him the envy of his associates. He recently appeared in a new suit of "store clothes."

When they saw him bring a little kitten into the white house the other day, says a correspondent of the Toledo Blade, and subsequently hand the little pet over to a fashionably attired lady who was riding in a trap the secret came out.

Not long since the official white house cat gave birth to 13 kittens—seven dozen and no more. The old cat and her family were in George's keeping. When the event became known in official and social circles there was a great demand for kittens born beneath the roof of the executive mansion.

Learning that George was their keeper, society girls sought him out and each wanted the prettiest one in the lot. Each was promised the "prettiest" one. When a dozen customers had been supplied the demand was as great as ever.

Learning of the kittens had brought as high as five dollars each, George could not think of retiring from the cat business. He went among his friends in South Washington and discovered other kittens. They were just as pretty as the white house ones and passed readily for the genuine article.

When a customer was to be supplied, George would take one of the South Washington born kittens to the white house and from there deliver it to the fair one. It may never be known how many kittens are being tenderly cared for about the city and pointed to as having been born in the white house. Nor will it ever be known just how much revenue the cat industry forced upon the colored employe yielded him.

A BRASS DOWRY.
A German paper reports a singular freak of paternal liberality in the matter of wedding dowry. On the betrothal of his daughter, Herr Duchascheck had announced that he would give her as her marriage portion her weight in silver currency. Accordingly, on the wedding day, the bride was formally weighed in the drawing-room in the presence of the assembled guests before proceeding to church. The bride turning the scale at 140 pounds, a sack was at once filled with silver crowns to the same weight. The exact number of crowns was 13,500, about 244.
