

# Gine Co. Pioneer.

W. P. GOTTRY, Publisher.  
FINE CITY, MINN.

The Official Gazette at St. Petersburg has just published a list of articles lost at the court balls at the winter palace during the season and not reclaimed. They include, among other articles, diamond rings, diamond brooches and pins, a jeweled comb, three jeweled fans, 27 lace pocket handkerchiefs, a sword, a pair of rubber overshoes and a latch key.

In detecting a false gem from a genuine, the X-ray can be relied on with absolute certainty. Diamonds, as is well known, are pure carbon, and carbon, which is opaque to ordinary light, is transparent to the Roentgen light, while glass, which is transparent to ordinary light, is opaque to the Roentgen ray. On the X-ray photograph of a real diamond nothing will show but the shadow of the gold setting.

A dispatch from London says that Charles Rothschild, second son of Lord Rothschild, has been engaged. Lord Charles is only 25 years old. With such an accumulation of fees at so early an age there is no wonder that he may do in the future what his father gets to be older. Already his fees are said to be of almost every known variety, collected from all parts of the world, from the tropics to the arctic world.

No pent-up Ulica for Prof. David Jones, of Lancaster, who challenged the whole world to a spelling match. He first issued a def of this kind some thirty years ago and annually ever since has issued a challenge. The professor, who is a school teacher, has been victor in numerous contests, but slips for more victims. He has won several several well-earned prizes, and has a certificate of a deposit of \$1,000, \$100 in bills and \$50 in silver, and old tin cans several hundred dollars. Bank books were also discovered showing deposits in Syracuse, Utica and Cortland banks.

Prince Henry of Prussia has been occupying his spare time in the composition of music. He is an excellent pianist and a wonderfully clever improvisator. His latest composition is a graceful waltz, which will shortly be published in German. It is a good deal of dance music, the prince has completed the scoring of the parts of an orchestra of wind instruments. The German emperor is a considerable interest in his brother's musical works, having himself composed a march.

Lord Kelvin, the distinguished English scientist, is the son of a small tenant farmer in County Down, and might have passed the rest of his life among the turpins had he not chanced to be fascinated by an old sun dial standing forgotten and neglected in the village churchyard. There were hidden meanings in that stone which allured while they baffled him. The study of this dial changed the trend of his life and gave to the world its most distinguished student of natural phenomena.

While King George of Greece was staying at the Park hotel in Weisbaden he noticed a young man, whom he identified as the son of a Danish noble, had cut his name with a diamond. King George took off his own diamond ring and engraved his name on the father's. The czar saw the window and immediately cut his name. Then came the Kaiser, who added his name. A British diplomat and an American millionaire are now striving to outbid each other in order to get possession of the piece of glass.

Young Dennison H. Bell, a 17-year-old confined in the Bloomfield asylum, is one of the heirs to the millions of his father, Dr. Christopher H. Bell, who died recently in Germany. Bell created a sensation at Newport two years ago by burning down costly villas and giving to the world the origin of the fire. He finally admitted that he was the arsonist, and was placed under restraint after his insanity was established. The boy's misfortune is believed to have broken his father's heart.

Just outside the borders of the General Grant National Park, the home of California's tree toadstool, and barely within the boundaries of the United States Forest Reserve, there was discovered the other day the largest known tree in the world. At one foot above ground the circumference is 108 feet; at four feet above ground, 98 feet; at six feet above ground, 92 feet. The tree stands in a nest of lesser giants of its own kind, and in three miles from Geneva, Va.

Electric contrivances which give alarm by ringing a bell, are a great improvement on the old alarm bell, and are being used to some extent by California fruit growers. The apparatus consists of a battery of dry cells, thermometers and alarm bell, and it is so adjusted that when the mercury in the thermometer falls below a certain point, the electric circuit is broken and the bell rings. As the thermometer can be set for any temperature it can be used for any purpose for which it is desired to have a few degrees above the point of danger.

## END OF STRIKE SIGHT.

Mine Owners and Railway Presidents Announce Their Willingness to Arbitrate.]

### THE PRESIDENT TO NAME THE BOARD.

Morgan Visits the White House and the Preliminaries to Settlement are Arranged. He Will Accept the Proposition Made.

Washington, Oct. 14.—By authority of J. P. Morgan and his partner, Robert Bacon, and Secretary Root, were in conference with President Roosevelt at the temporary residence for an hour and a half Monday night, a statement was given out at an early hour this morning, in which the president, by Secretary Cortelyou, in which the president of the operators proposed a commission of five persons to adjust the differences and settle the coal strike in the anthracite coal fields of Pennsylvania. The proposition is believed by the administration to be satisfactory to the miners as it covers the points which the United Mine Workers' union, with additional conditions which it believed the miners will accept. The agreement is as follows:

The agreement is as follows: The operators have agreed to the appointment of a commission to adjust the differences and settle the coal strike in the anthracite coal fields of Pennsylvania. The proposition is believed by the administration to be satisfactory to the miners as it covers the points which the United Mine Workers' union, with additional conditions which it believed the miners will accept. The agreement is as follows:

Conference at White House. The issuance of the statement followed a conference at the white house, which was attended by the president, Mr. Morgan and his partner, Robert Bacon, had reached Washington on a flying trip from New York. Mr. Morgan and Mr. Bacon arrived in Washington about ten o'clock Monday night in a special car over the B. & O. railroad, and were taken to the Arlington hotel. They met Secretary Root and the three gentlemen walked over to the white house and were shown up to the president's room. They remained with the president until ten minutes of 12 o'clock, and then came downstairs.

Agreement Made in New York. The proposition of the coal operators was a result of the visit of Secretary Root to New York and his conference with Mr. Morgan on Saturday. Mr. Morgan at that time expressed a keen interest in the situation and a desire to bring about an adjustment if possible. He then talked with Secretary Root, there was a conference in New York Monday at which the proposition of the coal operators was discussed. Mr. Morgan was delegated to bring it to the president, in the belief that such would be the course of the president and his way of promulgating the offer of settlement.

The Next Move. The next move will be the presentation of the matter to the miners and it is probable that President Mitchell will be invited to Washington to consult the president. It is believed here that he will at once accept the proposition.

Joy in Mining Regions. Wilkesbarre, Pa., Oct. 14, 3 a. m.—There is joy in the mining region over the news from Washington, and an acceptance by the miners of the operators' proposition is believed certain, although President Mitchell refused to commit himself positively on the subject.

To Be Considered To-Day. The question of acceptance of the arbitration plan will be discussed today at a meeting of the district president. President Mitchell was calm and cool when the news came that the operators at last had agreed to arbitration. Asked whether he would order the men back to work pending a decision of the points in dispute and settlement of the board of arbitrators, he said he would make reply when he received the official notice.

Rejoicing at Headquarters. There was great rejoicing at the headquarters over the news. It is now admitted by many of the leaders that the strike is over, but whether the miners will return to work at once or wait until the board of arbitration makes a decision is the all-important question now.

## WORK OF A TORNADO.

Many Buildings Wrecked in Two Towns in Illinois and Several Persons Are Injured.

Quincy, Ill., Oct. 14.—The storm which raged here Sunday night also visited sections of Missouri and Illinois. Reports indicate the complete or partial destruction of more than 100 houses. Many people were hurt, but strange to say there were no instant fatalities. At Camp Point the southeast corner of the town was practically destroyed and 20 or more houses are in ruins. The flour mills were unroofed and the electric light plant of the village in ruins. Henry Vander's home was among those destroyed, and afterward Jacob was found crawling over the ruins on his hands and knees. He is completely paralyzed from nervous prostration and may die. Robert Garrett was sick in bed. His house was unroofed and park number, but may die from exposure. Mrs. Robert Tribue was buried in the ruins of her home, and may die.

Two Men Killed. Springfield, Ill., Oct. 14.—Two men were killed and four fatally and others seriously injured in an explosion at Victor mine, Pawnee, 15 miles from here. The dead are: W. V. Overcast, aged 30, single; Henry Vorja, aged 27, single.

Fate of Aged Couple. Dead Bodies Found Under Circumstances Pointing to Wife Murder and Suicide. Indianapolis, Ind., Oct. 14.—The bodies of Pleasant Pruitt, aged 62, and wife, Winnie Pruitt, aged 47, were found side by side Thursday afternoon in the basement of their home, 220 East Ohio street.

Famous Ship Found. Belle of the Revolutionary War Discovered by Workmen at the Brooklyn Navy Yard. New York, Oct. 14.—After lying buried for over a century the famous English prison ship Jersey, in which several hundred Americans were martyred while the British held New York in the days of the revolution, has been accidentally discovered at the Brooklyn navy yard by the workmen who are putting up the launching ways for the battleship Connecticut. Historical associations have been searching for the wreck for 50 years. The half buried hull of the ship is lying under 12 or 14 feet of dirt and water, and is in perfect condition.

Grand Bodies in Sacks. Indianapolis, Ind., Oct. 14.—Four dead bodies were found tied in sacks in Georgia street and in the rear of the Central College of Physicians and Surgeons Monday. The bodies were identified as those of Mrs. Johanna Sitt, stolen from Ebenezzer cemetery; Miss Genevieve Gates, stolen from Anderson cemetery; Wallace Johnson, stolen from Ebenezzer cemetery; and Mrs. Catherine Doehring, stolen from the German Catholic cemetery. All these cemeteries are near the city line.

Tragedy at Washington. Washington, Oct. 10.—Miss Alice Fisher, a young woman employed in the government printing office, was shot and instantly killed at noon by William Dougherty, an employe of the same office. Dougherty then shot and killed himself. Jealousy was the motive.

Hong Transferred to Hong-Kong. Washington, Oct. 9.—Edward B. Bragg, consul general at Havana, has been transferred to the post of Chungking, and Mr. William Doughty, an employe of the same office, Dougherty then shot and killed himself. Jealousy was the motive.

Features of the Strike. The strike has been practically over for some time. The miners have agreed to arbitration and the operators have accepted the proposition. The only question now is whether the miners will return to work at once or wait until the board of arbitration makes a decision.

## EXPRESS CAR IS ROBBED.

Three Masked Men Successfully Hold Up Train on Burlington Road Near Lincoln, Neb.

Dynamite Safe and Secure Contents Reported to Have Secured \$50,000—After Stopping Train and Cutting Off Express Car, They Compel Messenger to Open the Car—Job Quickly and Neatly Done.

Lincoln, Neb., Oct. 13.—Dynamite robbers by some as high as \$50,000, most of it gold coin, was secured by four bandits, who held up the Pacific coast express on the Burlington road, just outside this city early Saturday morning. Officers claim the loss may not exceed \$5,000. The robbery was a bold one and carried out with a perfection of detail that prevented serious opposition by the train crew or the necessity for injuring anyone in either party. Officials warned in advance.

Officials of the railroad had been warned in advance of the intention to rob the train, which was to carry a large sum in gold. The plan was to commit the crime near St. Joseph, Mo., a section famous for such deeds, but apparently the gang learned that

## FACING A CAMPAIGN FUND FAMINE.

He wishes to maintain the religion of Mohammed. Cash sending letters. What we wish is war. We do not desire your friendship. Friendly Moros report that the sultan of Bacolod is fortifying his stronghold. It is expected that an American column will be sent from Camp Vickers to capture and reduce the Bacolod stronghold. It has not been decided when the move is to be made.

Creed by Drink. Ottumwa, Ia., Oct. 14.—Only the non-appearance of his wife and daughter and a letter prevented Thomas Doherty, a blacksmith of this city, from exterminating his entire family while in a drunken frenzy. He waited at the head of the stairs at his residence to pick them off with a gun as they came up. They fled to a neighbor's, and later when they reappeared Doherty opened fire. The shots went wild and, having but one bullet left, he fatally shot himself through the mouth.

President's Car Drive. Washington, Oct. 13.—Availing himself of the delightful weather which prevailed Sunday, the president took a long drive throughout the city and suburbs. He was accompanied by Mrs. Roosevelt. The wound on the president's leg is reported to be healing nicely and his general condition is said to be satisfactory.

Cotton Mill Combine Falls. New York, Oct. 13.—After repeated attempts to form a \$60,000,000 combine of the southern cotton mill promoters of this city, letters have been sent out announcing the abandonment of the scheme. It was stated that the promoters had decided that the mill owners expressed a desire to enter the combine.

Miners Seek New Homes. Bloomington, Ill., Oct. 13.—Miners from the anthracite district of Pennsylvania are flocking to the bituminous mines of central Illinois for employment. All that apply are being engaged, owing to the unprecedented demand for soft coal.

Triple Tragedy. Tracy, Minn., Oct. 14.—Ed Striebel shot and killed his wife and young son here, seriously wounded Frank McAllister and then committed suicide. Striebel and his wife had been living apart for two years.

A Fatal Blow. Dubuque, Ia., Oct. 13.—Dr. Wells, a restaurateur, was killed by a blow of his fist Friday night. The killing was the result of a quarrel between Dr. Wells and a man named...

## INSANE BOY'S DEED.

Youth Murders His Mother, Two Sisters and Injures Three Others at Homestead, Pa.

Pittsburg, Pa., Oct. 11.—While laboring under mental aberration, the result of the strain of perfecting an application for patents on an air-brake machine are pending in Washington, D. C., Charles Cawley, a 17-year-old boy, murdered his mother, two sisters and fatally injured three other children. He also tried to kill his two other brothers, but was detected, overpowered and turned over to the police. The weapon used was an ax, with which he crushed and lashed his victims beyond recognition.

The dead: Mrs. Hannah Cawley, aged about 40 years, head and upper portion of the body punctured almost to the heart; Belle Cawley, aged 12, who a jelly; Belle Cawley, aged 8, who a jelly; and three other children. The mother and two sisters and fatally injured three other children. He also tried to kill his two other brothers, but was detected, overpowered and turned over to the police.

Invites War. One of the rulers in the island of Mindanao sends a letter of defiance. Manila, Oct. 13.—The sultan of Bacolod, Mindanao, has rejected the friendly overtures of Gen. Sumner, commander of the American forces on Mindanao, in a defiant letter in which he invites war. The sultan says: "The sultan of Bacolod desires war forthwith."

## VETERANS ON THE MARCH.

Annual Parade of the Grand Army of the Republic at the Encampment in Washington.

The President Views the Pageant. Gen. Thomas Stewart, of Pennsylvania, Chosen as Commander in Chief—Muster Roll Shows 265,745 Members in Good Standing—Meet Next in San Francisco.

Washington, Oct. 9.—Under a cloudless sky 25,000 veterans, bearing aloft the remnants of many of the precious flags under which they fought to preserve the union, marched yesterday the length of Pennsylvania avenue. The occasion was the thirty-sixth annual parade of the Grand Army of the Republic.

Gen. T. J. Stewart, New Commander in Chief of the Grand Army of the Republic. Despite his injured leg, insisted upon leaving the house and then a part of the pageant. At night the veterans held camp fires in the big tents in the White lot.

Elmer O'Beers. Washington, Oct. 10.—The greater part of the afternoon session of the grand army encampment yesterday was devoted to the election of national officers; the result being as follows: Commander in chief, Gen. Thomas J. Stewart, of Pennsylvania; vice commander in chief, William M. Olin, of Massachusetts; junior vice commander in chief, James M. Averill, of Georgia. Gen. Torrance Speaks.

Gen. Torrance in his address made a touching allusion to the assassination of President McKinley, eulogizing in strong terms the dead president's character and condemning in bitter language the crime that struck him down. He advocated the enactment of laws by congress which should make certain the punishment of any person who should make an assault on the chief executive.

The Muster Roll. The report of Adj. Gen. Elias H. Tamm, of Minnesota, shows that on the 30th of June last the muster roll of the grand army contained 265,745 names of members in good standing, and there were 26,000 new recruits. The figures as to membership show a net loss since the preceding year of 5,804. The death loss for the year as shown by the report is 5,299.

Encampment Closes. Washington, Oct. 11.—The encampment of the Grand Army of the Republic for 1902 came to a close Friday, although a few social gatherings may assemble to-day. San Francisco was chosen as the next place of meeting and the election of officers begun Thursday, was completed. Resolutions were adopted by the encampment having in view the treatment of our veterans in the matter of public office and pensions. The kindred bodies to the parent organization also brought their several conventions to a close, the Sons of Veterans, Women's Relief Corps and other bodies closing offices for the ensuing year.

A Generous Combine. St. Louis, Mo., Oct. 12.—The Interstate Grocers' Association says that a combine to include every wholesaler of groceries in the United States is in the course of formation. The details of the great plan are not yet public property. They will not be until after November 2 next, when the initial steps toward forming the combination will be taken in Detroit.

Sues for Damages. Carbondale, Ill., Oct. 14.—John Bell, one of the colored drivers from Beasdale and whose property was destroyed by fire during the reign of lawlessness which caused Gov. Yates to send a company of United States National Guard to the scene, has brought suit against Salline county for damages.

Lived in Three Centuries. Dill, Oct. 13.—Probably the oldest voter ever registered in America, with his hair silvered by 107 winters, John Crump (colored) appeared at the court house and was registered as a duly qualified elector, while two good and lawful citizens swore to the truth of his age. All that apply are being engaged, owing to the unprecedented demand for soft coal.

Heavy Failure. Marshalltown, Ia., Oct. 13.—Edward Brothers, of Plover, Mo., one of the largest stock raising firms in Iowa, assigned for the benefit of creditors. The liabilities are unknown, but it is said will exceed \$100,000.

Acquitted. Metropolis, Ill., Oct. 11.—Elie Brannon, who has been on trial here for killing William W. Smith, while the two were working together at a bus factory, was acquitted Friday afternoon by a verdict pronouncing the killing justifiable.

GAMBLERS MUST GO.

Secretary Shaw Makes War on "Sporty" Treasury Clerks.

Even Man, for the Good of the Service, Has Instituted Some Antiquated Moral Reforms in His Department.

(Special Washington Letter.) THERE is a black sheep in the flock. There is an Arnold or an Isacariot for every age and nation. There is a dead fly for every ointment.

All along the shores of the great ocean of life, driven far upon the beaches of the coast, are the wrecks and remnants of those whose barbarization seemed to be under the benignant rays of the very star of hope.

Just as a little leaven leaveneth the whole lump, so a cunningly misdirected equity malador a whole class or caste. The embezzling, absconding Sunday school superintendent taints an honorable and thrice-thousandfold righteous workers for morality and religion. In like manner the thousands who serve the government in the executive departments of the nation are tainted.

There is a "poker's game" which shows a great head for the gambler in chief. He not only takes in money for drink, but he starts his victims to the game with their heads not a bit too clear.

When she brought it back to the white house, the president took it and wrote his name on the back of it. Handling it back to his caller, he said: "Put that note in bank, and if the young man don't pay it I will."

During recent years government clerks have been given a bad name locally, because a sufficient number of them have been indulging in gambling to give cause for general suspicion.

This condition of affairs was emphasized recently when the disbursing officer of the census office was found short in his accounts by the sum of upwards of \$2,000; and when this criminal lapse was followed by the discovery of a short-coming of a similar amount in an executive department.

Although the laws against gambling are rigidly enforced in the

made to Heath's place. The tug belongs to the proprietor of the gambling resort, and it alone brings him a constant revenue. As soon as a lead is aboard the tug strikes right out into the stream, and under the Aqueduct bridge, up the middle of the stream, puffing along in the shadow of the spires and minarets of Georgetown university.

Scrambling ashore all bent on winning, the modest, quiet-looking house is found to be a babel of voices. "Forty-eight, 61, 9, 15, 20—Keno!" is the first distinct utterance. The front door opens into the bar, and that

It is not only taken in money for drink, but he starts his victims to the game with their heads not a bit too clear. Back of the bar is the poker room. On the second floor we find roulette and craps, the cheap gambling hell showing forth in all its glory. Keno and hazard are in a room.

There is a "poker's game," with chips at ten cents each, the management being willing to take car tickets at five cents each. The floor is covered with sawdust and sputum, the air reeking with the fumes of cheap tobacco, consumed in these pipes or cheaper cigarettes.

Another suggestion that finds some favor is that a department of agriculture be installed, with one commissioner and a large staff, taking in its care the work now done by the dairy and food department and by the game and fish commission.

Additional proof that excellent apples can be grown in Minnesota by a center willing to make haste slowly is afforded by the ten acres of trees and the twenty varieties of apples now on the farm of Henry Bues, between the Rose Hill nursery and the state fair grounds.

Mr. Bues insists that Minnesota can produce as large and as good apples as any state in the union. But few years' patience is demanded here to raise trees from small beginnings, so that they may become hardy from their earliest youth.

Burglars entered the residence of Thomas Lewis in Minneapolis and secured \$6,000 worth of jewels. Eugene Roe, 14 years old, in jail at Minneapolis, secured a lot of papers and a passing business of a newsboy rode down the elevator and disappeared.

Olaf J. Swenson, son of Olaf Swenson, a prominent farmer of Lyon county, shot himself in the head with a revolver, death resulting instantly, at the home of G. L. Resall, nine miles south of Marshall.

The slot machines at Morris have gone out of business. A young rattlesnake, the only one seen for many years, was captured alive at Iridenthal's Springs, near LeSueur.

Marie Manak was savagely assaulted by an unknown man near her home in St. Paul. Her cries attracted help, but the assailant escaped.

The proposition of extending one of the street car lines in Duluth to the Catholic and the Jewish cemeteries, five miles distant, is being considered by the street railway company. It is expected that it will be brought to a speedy termination.

A serious accident happened at Kenyon, when Brin & Robb's threshing rig fell through the bridge over the Zumbro river and killed Iver Brin, the engineer, and seriously injured O. K. Hagen, the driver.

MINNESOTA NEWS.

President Roosevelt will hunt the big Moose in the northern Minnesota woods next November, if Washington can spare him for ten days.

A moose hunt has been arranged in his honor by Frank H. Kratia, mayor of Thief River Falls, and formal invitation has been sent to the president. The program submitted brings the president to Chicago Nov. 10, and St. Paul that night by the Chicago, Burlington & Quincy in a private car.

The president's invitation is done on birch bark, lettered and decorated by the burnt wood process. The necessary license for a non-resident hunter is sent with it, and is also on birch bark. The president will pay his \$25 fee for it, the same as any other hunter.

An steel beam holding up the second story of the Carnegie library building, because of construction in Minnesota, gave way, burying five men beneath the ruins.

The carpenters and bricklayers at the third floor heard a groaning sound, and looking up saw the immense steel beam supporting the story above bend beneath the weight of the masonry. In another minute the whole framework of the upper stories came tumbling down.

The workmen rushed out of the building. Five of them were hurled in the debris. Their companions extricated the victims as soon as possible, finding three of them seriously injured by the falling beams and masonry.

Propositions will be made to the next legislature to change the present tax system by which dairy inspectors and pure food regulations are grouped under one set of officials.

Friends of the dairy department should be created for the dairy inspector. It is argued that food inspection takes too much of the time of field men, that a separate department should be created for the dairy inspector.

Another suggestion that finds some favor is that a department of agriculture be installed, with one commissioner and a large staff, taking in its care the work now done by the dairy and food department and by the game and fish commission.

Additional proof that excellent apples can be grown in Minnesota by a center willing to make haste slowly is afforded by the ten acres of trees and the twenty varieties of apples now on the farm of Henry Bues.

THE NEWS IN BRIEF.

President and Mrs. Roosevelt are not to return to the city on Monday.

The transport Logan, with Gen. Grant on board, arrived in San Francisco from Manila.

Counterfeit American silver dollars are being made in China and circulated in Manila extensively.

Sir Michael Herbert, the new British ambassador, presented his credentials to President Roosevelt.

The socialists of the Fifth Indiana district have nominated James L. Blaine for congress.

Independent packers will hold a large plant at St. Joseph, Mo., to fight the so-called national packers.

London coal prices have advanced 24 cents to consumers and 20 cents to dealers on a strong foreign and domestic demand.

Garfield Burley and Curtis Brown, negroes, were lynched at Newbern, N. C., by a mob for the murder of a farmer.

Congressman John L. Sheppard, of Texas, died at Eureka Springs, Ark., after a long illness, aged 42 years.

Joe Gans, the lightweight champion, knocked out Kid McParland, of New York, in the fifth round at Fort Erie, Ont.

Gen. James F. Smith, of California, has been appointed a member of the Philippine commission to succeed Bernard M. Dwyer.

Associate Justice Oliver Wendell Holmes will not take his seat on the bench until the senate has passed on his nomination.

The Toledo (O.) plant of the Republic Iron & Steel company has closed down because the company was unable to secure coal.

Carroll D. Wright, head of the labor union, is to retire in order to center his attention upon his duties as head of Clarke college.

A warrant has been drawn for \$275 in tax on the Chicago government in settlement of the account growing out of the military occupation.

Judge Allan Byden, of Owensboro, Ky., was killed from a trolley near Louisville, Ky., as he rode to town to attend court. The assassin is supposed to be a political enemy.

Henry C. Mott, a teacher at Altoona, Pa., fatally shot two school trustees who criticized him, and killed himself.

Rear Admiral Bowles, in his annual report, says nondevelopment of structural work has delayed work on new vessels for the navy.

It is said unofficially that the British government will ask parliament to authorize the transfer of \$100,000,000 or more to be guaranteed by the imperial government.

The New Orleans street railway is to be sold to the city of New Orleans, accepting the ultimatum of 20 cents an hour wages with ten hours' maximum work. Accused men are to be taken back to jail.

After witnessing a bullfight at El Paso, Tex., in which two horses were killed, a Chicago lawyer, died of hemorrhage of the lungs. He was in El Paso for his health.

THE MARKETS.

Table with market data including LIVESPOCK, WHEAT, CORN, BUTTER, EGGS, CATTLE, PORK, and various commodities with their respective prices.

Mr. Shortpursue Entertains. Domestic—Begin your patient for interrupting you and your company, sir, but the grocer is here with this bill, sir, and—

Most Unusual. "I have here," said the city editor, "a most extraordinary item of news."

The Minister's Gripe. The minister was a great hand-shaker, shutting down like a vice.

Family Feud. Mrs. Timmins—John, I must say you are the narrow-minded man I ever saw.

An Additional Character. "And who was the teacher," comes after this that she ought to teach the young idea the value of the character.

Human Perseverity. How few are to give advice to you who do receive it. We give it gladly without price.

MIGHT USE A TELEPHONE. According to the English newspaper a man sitting down to be shaved handed the barber some money, saying: "Here, put this in your pocket for yourself."

Her Biggest Catch. The Mutual Friend (to a little woman) Now, Mrs. Stebbins, what was the largest fish you ever caught?

Arranging a Dividend. "So you've one of these people that favors a distribution of wealth," said Flooding Pete.

What It Were. "You say the evening wore on. What did it wear?" "It was the close of the day, of course."—University of Minnesota, Push Bowl.

Battle of the Tongues. Mrs. Tiptop—I am sorry you were not at my reception last evening.

On a Performer. Here Ben Otto Monk, who had the reputation of a crook.

ONE WAY. The story of a sensational elopement in which the girl involved does not move in the most exclusive circles of society.

Little of the profession—Oh, fama is so hard to obtain. It is difficult to get oneself talked about.

Who Does the Poor man eat, papa. Why does he eat for breakfast? "He has a man with a cabbage job who worked himself to death."

An Unfortunate Break. "Confound that wall-paper man!" "What he does now?"

He Took the Hint. "You went to see the girl's father?" "Jill—That's what I did.

Not a Tip. According to the English newspaper a man sitting down to be shaved handed the barber some money, saying: "Here, put this in your pocket for yourself."

Barber's Reply. The barber replied that he did not often receive his tip in advance. The customer frowned.

What It Were. "You say the evening wore on. What did it wear?" "It was the close of the day, of course."—University of Minnesota, Push Bowl.

# News of the Week.

Chips Picked up Around Town and Vicinity.

## NOTICE

Hereafter all matter for publication or copy for advertisements must reach this office by Thursday morning.

**Watch these columns for the Catholic entertainment to be given in Rath's hall, Thanksgiving Day.**

Paul Perkins and wife St. Paul, arrived in this place the first of the week to spend a short time with relatives and friends.

Get your fishing tackle and bass ball goods at the Drug Store.

LOST—Five Cape Collarets, Five—please return to Mrs. R. L. Wiseman and receive reward.

The Consolidated Telephone Co. have about finished the wiring of this place, and have their exchange in running order.

Famous Oranges and Choice Candy at the Drug Store.

Frank Smith, jr., who is employed by the Janney, Scoble & Hill Co., of Minneapolis, came up on Saturday and spent Sunday with his parents and friends.

All kinds of lumber and building material at the Big Store.

The Ladies Aid of the M. E. church will serve a twenty five cent dinner at the residence of Mrs. H. W. Harie next Wednesday evening from 5:30 to 7 o'clock.

Buy your mangle and rutabaga seed at Madden's.

Miss Carrie Perkins spent last Friday and Saturday in Grantsburg, the guest of Miss Maggie Payne who is there getting the telephone exchange in running order.

Have you seen that elegant line of ladies' fall and winter night robes at the Big Store.

The Womens Reading club will meet next Tuesday evening with Mrs. H. W. Harie.

Buy Golden Link flour, it's always the best. You can get it at Madden's.

Thos. Fitzgerald, who has been at work in Montana, prospecting, arrived home the latter part of last week to spend a week or ten days with his family. Tom's many friends are always pleased to see him.

You can get all kinds of feed at Madden's.

H. H. Seeger is making some improvements to his residence about two miles north of this place by the addition of a bow window and porch. When completed Mr. Seeger will have a nice home.

Mrs. Ladies' Boys' and Childrens Sewsters at the Big Store.

On Wednesday evening the Pine City Cornet band turned out, the occasion being the political speech of Marcus L. Fay, democratic candidate for Congress for this district, and Judge McMahon of Duluth. The hall was pretty comfortably filled and Mr. Fay addressed the audience in a pleasing manner. He is not much of an orator but seems to be honest in his convictions. Judge McMahon is more of an orator and together they make a good political team and form a good impression.

Do not delay, as the holiday season is fast approaching, and in remembering your friends do not forget that Miss Susan Shearer can supply you with material for all kinds of fancy work. Also notions and machine needles. Your patronage is solicited.

Tuesday evening Rath's hall was the scene of the opening of the campaign in this place when Messrs. Dahlgren, Bowler and Davis spoke on the issues of the day from a Democratic standpoint. Robt. C. Saunders acted as chairman of the meeting and introduced the speakers in his pleasing manner. Mr. Dahlgren is a Swedish man and his command of the English language is not the best, but he is all right as a Swedish preacher but as a politician he is a failure. Mr. Bowler is a fine speaker, no orator, but a good sensible talker, speaking as one man to another. He threw no dirt but gave his audience a plain statement of facts. Mr. Davis is a lawyer from Duluth and his remarks were in the interests of Marcus L. Fay, democratic candidate for Congress from this district.

**Dr. E. L. Irving, Dentist,** will be at his office in the Rybak Block, Oct. 21, 22, 23, 24, 25. Gas administered for the extraction of teeth.

Buy your flour and feed at the Mill. We can save you money. Prompt delivery to any part of the city. Pine City Mill & Elevator Co.

For sale, a handsome black horse, well bred, a stylish driver, eight years old. Has good sound feet and is in good health. For further particulars, write or call.

W. R. NEWMAN, Hinchey, Minn.

**In the Realm of Matrimony.**  
On Saturday evening between six and seven o'clock occurred a double wedding at the residence of Chas. Spearing, when Rev. Campbell, of the Presbyterian church, united in marriage Mr. Joseph F. Petchel and Miss Helen Sandberg, and Mr. Charles Peterson and Miss Lena Larson.

Mr. Petchel is well known in this vicinity, being the eldest son of Albert Petchel, who lives about six miles west of here on the Brunswick road, and is an honest, hard working young man, respected by all who know him. The young lady that he has chosen for a life partner is also well known in this vicinity, she having been born and raised at Grass Lake, twelve miles west of here, but for the past eight or ten years has made her home in this place, having worked almost continuously during that time for Hon. E. A. Hodge. She is a young lady that any young man should be proud to call wife, and her friends are only limited by her acquaintances.

Mr. Chas. Peterson is also well known to our readers as he has lived the greater portion of his life in this place, corner just east of Adam Blederman's blacksmith shop. Charlie is a young man that is respected by all who know him and will no doubt make the lady of his choice a good husband. Miss Larson has lived in this place for the past three years and is a young lady of quiet, unassuming manner, one that has not gone out a great deal and is therefore not as well known as she otherwise would have been, but those that know her intimately speak of her in the highest terms.

The Pioneer extends its congratulations to the newly married couples.

**MCGAUGHLIN—HAWLEY.**  
On Wednesday morning at 10:30 St. Mary's church was the scene of one of the prettiest weddings that has ever taken place in this village when Rev. E. Buchler joined in the holy bonds of matrimony Mr. R. J. Hawley and Miss Teresa McLaughlin. They were supported by

Mr. John Hawley and Miss Mary Hawley, brother and sister of the groom. Miss Carrie Perkins played the wedding march, and Miss Jessie Lambert and Arthur Olson sang the Mass, and each of them sang solo. Miss Lambert's being "Oh, Promise Me" and Mr. Olson's "Ave Marie." The singing was fine and added much to the ceremony. Miss Susan Shearer presided at the organ during the Mass.

After the ceremony a wedding breakfast was served at the home of the bride to the most intimate friends of the bride and groom. The happy couple departed on the limited for a wedding tour.

Mr. Hawley, the groom, is well and favorably known in this county, and in the state as well, having held the office of sheriff of Pine county ever since the death of Jas. McLaughlin and prior to his death he held the office of deputy sheriff for a number of years. R. J. is a young man of whom it is a pleasure to be a friend. He is a conscientious, efficient officer as is proven by the fact that in every election he has beaten his opponent by large majorities and at the coming election he has no opposition whatever.

Miss McLaughlin is a young lady that was born and raised in this place and is one of Pine City's fairest young ladies. She has a host of friends all over the county who wish her and the man of her choice a long and prosperous journey through life.

The Pioneer extends its congratulations.

Aesculapius is the best medicine the world has ever known for headaches, at J. Y. Breckenridge's Drug Store.

**WANT ADS.**  
Advertisements will be inserted in this department, under appropriate heading, for one cent a word. The first insertion and half a cent a word for each subsequent insertion. Cash to accompany order. Nothing accepted for less than 15 cents. Each initial and cash number counts as a word.

**FOR SALE.**  
4 buck lambs, North Star stock, large enough for service. Four dollars each. For sale by J. N. Saxou.

My entire stock of bees, consisting of 60 hives. Will sell for from \$2.00 to \$3.50, surplus boxes included. Also two extractors.  
Peter McKinnon.

An A number one improved farm about four miles from Pine City, with two good wells and buildings in good shape, except barn and material on the ground for new one. Reason for selling, going East. Inquire at this office.

For Sale—A house and four lots about five minutes walk from the post-office, will be sold cheap for cash or on time, or will be traded for farm land. Inquire at this office.

Good place for business at a bargain the Lovick property, three lots, one dwelling house, one business building and one barn. Will sell cheap or trade for outside property. Address—B. care Pine City Pioneer, Pine City, Minn.

# FEED!

Did you ever stop to think that the Bran and Shorts made by the Pine City Mill contained about

1-3 more nourishing food than that made by the city mills, and that you can get it by coming down to the Mill, telephoning, or by writing us a letter.

# THE STORY TELLER

## THE CHILD'S CALL.

He calls with quick impatient cry,  
He calls at work or play,  
And I must not put him by,  
And all my looks away.

He summons me from household cares  
Back to his sunny room,  
And up the stairs and down the stairs,  
In happy haste I come.

Swifter than lark and swift as dove,  
And sibilant like a snake,  
The little voice so shrill and clear  
That I must yet obey.

Write up the stairs and to the door  
My heart runs up in glee,  
I hear a voice I know of yore  
That never calls for me.

Ever through shadow-time and sun  
I hear a baby call  
That is not you, my precious one,  
That is not you at all.

Alas, where Heaven's waters flow,  
Mid Paradise I came,  
All on a ward where lilies blew  
The Shepherd courts His lambs.

Afar beyond the wintry cold,  
Upon the Heavenly hill,  
A little lamb a few weeks old,  
Bleats for his mother still.

O mother's love and mother's joy!  
But while I come in haste,  
I leave another little boy with whom  
I cry from the lonely place.

And while I kiss your curls aside,  
And hold you to my breast,  
I kiss the little boy that died,  
That will not let me rest.

Katherine Tremain, N. Y. Observer

# Love and Lucanidae

## A YOUNG MAN'S PREFERENCES

CONCERNING Roland Macdonald, Prof. Westall had much to say of a distinctly favorable nature.

"I have noticed very many young men," he remarked, "I am of an observing disposition, and long and careful study of mankind has enabled me to form a tolerably accurate opinion of the character of those with whom I am brought in contact. I am aware that I am not what is called a man of the world—that is, a man of affairs. I have not taken an active part in the common and sordid occupations of men, but my very aloofness has qualified me to judge dispassionately and

"I CAME TO HAVE A LITTLE TALK WITH YOU."

impartially where others would be more or less biased by prejudice, born of haste and lack of concentration."

"I should have thought you would be a better judge of boys than of folks," observed Mrs. Westall, looking up from the dolly she was embroidering.

Prof. Westall was an ardent entomologist, the author of several valuable works on the diptera and the lucanidae and of a famous monograph on the blatta germanica or domestic cricket bug.

"You don't seem to quite catch my reply, my dear," he said, indulgently, in reply to his wife's remark. "I least I am not mistaken in young Macdonald. He has modestly and intelligently and benevolently an appreciation of the benefit to be derived from the society of those older than himself. I don't mean to say," he continued, "that the benefit or, at least, the pleasure, is not mutual. I like to have the boy around, and since he got to calling so regularly—"

"He does call pretty regularly," interrupted Mrs. Westall, still smiling. "Do you really think he is interesting in entomology?"

"Well," ejaculated the savant, "I never noticed that he did much more than to listen to you."

"I should think you might consider that a slight sign of interest," said Prof. Westall, with mild sarcasm. "If he shows a disposition to learn and—or—listen, I am not inclined to find fault with him for that. He might fritter away his time like other young men, at the theater and at baseball and golf and tennis and trivial things like that. Instead of coming over and spending his evenings with me. I wish, by the way, that he were more robust."

"He looks strong and hearty enough."

"He does, but he generally seems fatigued at night. I can seldom induce him to go out with me, and he would be an invaluable assistant. I had traced quite a little stretch of woods last night—and, by the way, I didn't get it. It's a beauty. Well, I wanted him to go with me, but he said he was tired, and he believed he would

sooner sit out on the porch and wait for me."

"He waited, didn't he?" asked Mrs. Westall, with a smile. "You were so late I got tired and went to bed."

"Certainly," replied the entomologist. "He was there and I don't think you would have accused him of any lack of interest if you had seen him when I showed him my boxes. I filled 32. He's coming to-night to try the labels for me."

"Not at all," said Mrs. Westall. "What do you mean by that tone, my dear? I think you must suspect him of some ulterior design."

"I don't think so," said the entomologist. "I believe she was, too. I'm not quite sure. Why? Oh, I must not get that feather-winged moth."

"Yes, comes Mr. Macdonald now," said Mrs. Westall, gathering up her skirts.

"I'm glad you came, my boy," said Prof. Westall, genially, as he led the way to his study. "I wanted to show you something that I know you will appreciate. That petrophilum?"

"I came in this evening, sir, to have a little talk with you," said the young man, who seemed rather nervous.

"Glad you did," said Prof. Westall, cordially. "I was hoping that you would be coming to say that—here it is. You see that the protheca in the specimen is not merely rudimentary, while the antennae, pectinated, as you see—"

"You cannot be surprised—" began the young man.

"I'm glad you know that," said Prof. Westall, genially, and after him, Erichsen and Boisduval, maintained that the protheca—"

"If you cannot be surprised when you hear that I—that—at what I tell you."

"What are you talking about?" asked the wondering savant.

"About Mabel."

"Mabel? Do you mean my daughter? What has she got to do with it?"

"Everything," replied the young man. "I want to ask your permission to marry her."

"You want to ask your permission to marry her?"

"Yes, sir," said the young man, firmly. "I don't think your wife was altogether displeasing to you, since you and Mrs. Westall have been kind enough to allow me to—though, of course, I have not taken an active part in the common and sordid occupations of men, but my very aloofness has qualified me to judge dispassionately and

impartially where others would be more or less biased by prejudice, born of haste and lack of concentration."

"I should have thought you would be a better judge of boys than of folks," observed Mrs. Westall, looking up from the dolly she was embroidering.

Prof. Westall was an ardent entomologist, the author of several valuable works on the diptera and the lucanidae and of a famous monograph on the blatta germanica or domestic cricket bug.

"You don't seem to quite catch my reply, my dear," he said, indulgently, in reply to his wife's remark. "I least I am not mistaken in young Macdonald. He has modestly and intelligently and benevolently an appreciation of the benefit to be derived from the society of those older than himself. I don't mean to say," he continued, "that the benefit or, at least, the pleasure, is not mutual. I like to have the boy around, and since he got to calling so regularly—"

"He does call pretty regularly," interrupted Mrs. Westall, still smiling. "Do you really think he is interesting in entomology?"

"Well," ejaculated the savant, "I never noticed that he did much more than to listen to you."

"I should think you might consider that a slight sign of interest," said Prof. Westall, with mild sarcasm. "If he shows a disposition to learn and—or—listen, I am not inclined to find fault with him for that. He might fritter away his time like other young men, at the theater and at baseball and golf and tennis and trivial things like that. Instead of coming over and spending his evenings with me. I wish, by the way, that he were more robust."

"He looks strong and hearty enough."

"He does, but he generally seems fatigued at night. I can seldom induce him to go out with me, and he would be an invaluable assistant. I had traced quite a little stretch of woods last night—and, by the way, I didn't get it. It's a beauty. Well, I wanted him to go with me, but he said he was tired, and he believed he would

impartially where others would be more or less biased by prejudice, born of haste and lack of concentration."

"I should have thought you would be a better judge of boys than of folks," observed Mrs. Westall, looking up from the dolly she was embroidering.

# LIVE STOCK

## SPLENDID HORSE STALL.

Of the Many Forms of Stalls Now in Use, the One Here Shown is the Best.

All stall floors should be laid lengthwise of the stall. The boards should extend the full length of the stall. When badly worn they can be hinged and for end and if turned over much extra wear is obtained. Soft wood, like pine or even elm, is superior to oak. There is less danger of the horse slipping when he gets up.

The most important part of the stall is the hay rack and manger. When the hay is thrown into a deep manger where the horse has free access to the entire quantity, he tosses and mixes it over many times to select

PLAN OF THE HORSE STALL.

the most desirable portions. Often a large share of it is thrown from the manger to the floor. In the illustration the manger, B, is only 14 inches wide at the bottom, and 1 foot high. It is made from 2-inch oak plank, with a strip of well-worn tire nailed on the upper edge.

The hay rack, A, is outside the manger. It should be 2 1/2 to 3 feet wide and 18 inches deep. If fodder is fed from above, the chute should extend up to the floor. The wooden gratings are at least 8 inches apart, so that the horse may easily pass in his head up to the eyes if he is, but by making the bottom of the rack pitch, at sharp angle toward the manger all litter, etc., will fall into the manger. In this form of rack low horse grates, a mouthful of hay, pulls it from the rack and holds it over the manger while eating. It is plain that all loose particles fall into the manger and are eaten at leisure. The wooden partition in rack is not muzzed over. The feed box at A is made in usual manner. If horses are in the habit of throwing out the grain, nail a strip over the edge of box, letting project inward about 1 inch. By the use of a door at C the grain is fed without entering the stall.

The form of stall division is important and the one shown is O. K. The shoulder at A (too low in engraving) is very convenient to hang blanket on or to temporarily lay the brush or currycomb on or even parts of harness. For any cleaning of stable floor boards in rear of stall should run in the direction shown at A, as the sweepings are usually disposed of at one end of stable, and are more readily pushed lengthwise instead of acrosswise of a board floor.—L. D. Snook, in Orange Judd Farmer.

**Sawdust for Horse Stalls.**  
Sawdust for bedding horses was used by me one summer. It is cooler than straw which is used in summer and in midsummer but would be objectionable in a cold stable in winter. If it can be obtained from a mill near by it is much cheaper than straw. Hardwood dust is not so good an absorbent as that from pine or hemlock, but when it decays it will be of some worth as a fertilizer. The dust from soft wood is of little value, except in rendering clay soils more friable. Its fertilizing value would bear the same difference to hardwood dust as ashes from the same quantity of wood of each kind.—J. H. Andre, in Farm and Home.

**Bell Sheep as Cuv Leaders.**  
A story comes from Halley, Idaho, about three ewes and a wether that have been taught to lead sheep into pens in which they are to be loaded. On each of the leaders is a bell. The sheep that are to be loaded follow one of these bell sheep into the pen. The owner goes with the leader and keep the bell from ringing when the pen is full, and the bell sheep is going out, as that might cause the sheep to get out again. The wether has been taught to lead flocks of sheep through the town to the stock yards. For these services the owners receive a small fee, ranging from 25 to 50 cents per trip.

**Money in Macaroni Wheat.**  
Extensive investigations in macaroni wheat made by Prof. Mark A. Carlton, of Manhattan, Kan., the wheat expert of the United States department of agriculture, and several other experts of the world, have disclosed what he believes to be a very important source of income to the farmers of the United States, which will in all probability result in a very large increase in the wheat crop of the country. It may also result in the introduction and general use of the new and wholesome as well as pleasant flavored variety of the staff of life—Lithal Wheat.

**Fall sown wheat will resist drought better the more compact the soil is before seeding.** A loose soil delays the evaporation of moisture.

## CLIPPING THE HORSES.

It is a Humane Practice, Not a Cruel One, as Some Wisacenes Would Have It Believe.

Those who say that clipping the horse is a wrong practice because contrary to nature might take exception with any physician who would not have his horse groomed in the winter for the same reason, says a writer in the American Cultivator. As the horse was one of those with hair about six inches long, he certainly did not look very neat when on the street. He might also have objected to the harness, as the colts were not born with any arrangement for attaching to the carriage, or to wearing clothing himself, because horses were not clothed when born. In fact, our whole life is a struggle to improve upon the processes of nature to a civilized human being and the wild beast to the domestic animal, used for the best of his own good.

The clipped horse does not perspire as freely when working as the long-haired animal, but it keeps it quickly evaporates and does not leave him with a thick coat saturated with moisture to get cold and chill him before the heat of his body can dry it out. When he has to stop for a time on the street in a cold wind, the driver is more apt to remember to put a blanket over him than if he had the long hair on him, and yet he would scarcely feel the cold as much as the coat was in the way and he is heated by his drive. When he returns to the stable he can be quickly rubbed dry and warm, and in a warm stable he is all right.

Of course, we do not mean to apply this to the horse that is driven slowly with a load and then must stand while the driver is loading or unloading. It might be better for him also if care was taken to blanket him well at every stop, but the driver would not do that. It does not drive fast enough to keep a clipped horse warm when moving or to sweat a long-haired horse. But the driving horse, if he is clipped in winter if he would not suffer.

## PRACTICAL HOG HOLDER.

A Contrivance Which Does Its Work Well Without Inflicting Any Unnecessary Pain.

We take an ax helve that is useless for that purpose any more, saw off the part that was in the ax and bore a three-quarter inch hole in the flat part remaining, about two inches from the end. Put a rope or cord, of sufficient length to make a loop eight or ten inches long, through the hole in the helve and tie the ends together in a square knot. There is very little trouble placing this nose. It is tight when in place by twisting the helve. There is little danger of the hog's biting one's hand when using it. When we use the contrivance on the head that balks we call it "parmander." In this case it is used on the under jaw. By twisting it mercifully a minute, more or less, the horse will bark as well as cry. We used it on one of our horses quite a number of times. Have no use for it now.—A. C. Hilbard, in Ohio Farmer.

## ROOTS IN HOG RATIONS.

So far as economy is concerned little can be said about roots in the ration for the hog. But they have a value in addition to the nutriment that is in them. It takes from six to eight pounds of roots to equal in feeding value one pound of mixed grain. But the feeding of roots keeps the animals in good condition, which in turn helps them to use to advantage the grains they receive. They prevent young and growing pigs from getting too fat. Hogs as well as other animals seem to want some bulky feed and the roots supply that need. In fact, the amount of the hog was given him to permit him to dig into the earth after roots, and we can well imagine that they are therefore a natural part of his diet. There is little doubt that roots are not fed to hogs in America as freely as they should be.—Farmers Review.

## DO YOU BELIEVE THIS STORY?

The oldest chestnut about the dog which could count sheep any bark which he uttered as he passed through the gate has been improved upon somewhat. The latest version is that of the man who owned a bitch and a pup. The bitch was running past the mother gate a gap for every 50 sheep that passed, and the pup instantly made a scratch on the ground with its paw. Thus the dog could count down through, all the man had to do was to count up the pup's licks to arrive at the total number of sheep. It is said that there are some people who have not themselves seen this remarkable instance of canine sagacity who don't believe the story.

More than 4,000,000 farmers in the United States now have mail delivered daily at their doors.

## IN A BAD WAY.

Night after night with rest and sleep broken by urinary troubles. Painful passages, frequent calls of nature, retention, make the day as miserable as the night. Man, woman or child with any wrong condition of the bladder and kidneys is in a bad way. Don't delay! All dangerous Diabetic cases. Cure the trouble before it settles into Bright's Disease. Read how certain are the cures of Doan's Kidney Pills and how they last.

John J. Scharsching, a retired farmer, residing at 474 Concord St., Aurora, Ill., says: "Three years ago I was a sufferer from backache and other kidney disorders and for months exhausted all my knowledge of medicine in an endeavor to obtain relief. Doan's Kidney Pills cured me, and time has not diminished my estimation of this preparation. Not only did Doan's Kidney Pills cure me at that time but although over three years have elapsed there has not been a symptom of a recurrence of the trouble. I consider this preparation to be a wonderful kidney remedy and just as represented."

A free trial of this great Kidney medicine which cured Mr. Scharsching will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

ANAKESIS  
THE GREAT  
CURE FOR  
PILES  
AND  
HEMORRHOIDS

A. N. K.—O 1910

WHEN WRITING TO ADVERTISERS please state that you saw the Advertisement in this paper.

EIGHT Issues Free.

HOSE who subscribe at once to The Youth's Companion for 1903 will receive all the issues for the remaining weeks of 1902 free from the time of subscription, in addition to the 1903 Volume. (SEE OFFER BELOW.)

The November and December issues will contain a number of noteworthy articles and stories by prominent writers, a few of whom are mentioned below:

THEODORE ROOSEVELT contributes an article of unusual public interest on the Presidency. This highly important article was written before Mr. Roosevelt received the nomination as Vice-President.

C. A. STEPHENS, That Merry Gleaner Wedding. A series of unusual stories.

THE DUKE OF ARGYLL, The Venjures of Robert Bruce.

JUSTICE DAVID J. BREWER, The Supreme Court.

SARAH ORNE JEWETT, A Thanksgiving Story.

T. P. O'CONNOR, Prime Minister's Wives.

WINSTON SPENCER CHURCHILL, M. P., On the Flank of the Army.

HENRY VAN DYKE, Keeping Christmas.

PROFESSOR SIMON NEWCOMB, Are Other Worlds Inhabited?

SARAH BARNWELL ELLIOTT, A Christmas Story.

Full Illustrated Announcement of the 1903 Volume sent with Sample Copies of the Paper to any address, free.

## Annual Subscription Offer.

Every New Subscriber for 1903 who will cut out this slip and send it at once with name and address and \$1.75 will receive 1902 and 1903 issues of the Companion for the remaining weeks of 1902. FREE—The Thanksgiving, Christmas and New Year's Double Numbers. FREE—The Companion Calendar for 1903, illustrated in 12 colors and gold. And The Companion for the fifty-two weeks of 1903—more than 200 stories, 50 special articles, etc.—till January 1, 1904, for \$1.75. RICHARD B. GARDNER, THE YOUTH'S COMPANION, BOSTON, MASS.

## WINCHESTER

### METALLIC CARTRIDGES.

URING our 30 years of gun making, we have discovered many things about ammunition that no one could learn in any other way. Our discoveries in this line, together with years of experience manufacturing ammunition, enable us to embody many fine points in Winchester Metallic Cartridges for rifles and revolvers which make them superior in many ways to all other brands upon the market. Winchester cartridges in all calibers are accurate, sure-fire and exact in size; being made and loaded in a modern manner by skilled experts. If you want the best INSIST UPON HAVING WINCHESTER MAKE OF CARTRIDGES.

# PINE CITY FAIR

The next Fair Day Will be

**TUESDAY**

**OCTOBER 28th.**

This will be the Largest and Best Fair ever held in the Northwest.

**Prof. R. E. Cousby**

and his Band of Darkies will Sing and Play on the streets during the afternoon, and will furnish the music for the

**Grand Ball in the Eve.**  
IN RATH'S LARGE HALL.

Tickets for the Dance \$1.00  
Those wishing supper can secure it at 50c per couple.

**48**

*per cent. Dividends.*

**Spindle Top Lands Have the Only Gushers.**

No other field on earth can compare with its already enormous output. 500,000 barrels were produced and consumed in 1901.

**WE OWN OUTRIGHT ONE-HALF ACRE OF THE CORE.**

Most companies own 1-16, 1-32 or 1-64 of an acre of proven oil land on Spindle Top. We lead all Minnesota companies.

**A Home Company and a Home Market.**

Minnesota business men control the affairs of the company and we have already established a market for the oil in St. Paul, Minneapolis, Red Wing and other Minnesota cities.

**The Minnesota Oil Co., of Texas,**

If you cannot call 403 Bank of Minnesota Bldg. write for particulars. ST. PAUL, MINN.

**Burlington Route**

**Library Buffet Smoking Cars**

On Burlington Route Limited trains afford the traveler all the comforts of a good club. Easy chairs, a writing desk, current periodicals and duplicate whist are provided.

People of the kind you like to meet are the patrons of these cars. That means a pleasant evening before retiring to the sleeping car.

A competent attendant serves light lunches and refreshments from a well-stocked buffet at moderate prices.

ASK YOUR HOME AGENT TO TAKE YOUR TICKET READ BY THIS LINE.

The Worst Form.

Multitudes are singing praises of Kodol, the new discovery, which is making so many sick people well and weak people strong by digesting what they eat, by cleansing and sweetening the stomach and by transforming their food into the kind of pure, rich, red, blood that makes you feel good all over. Mrs. Crumhull, of Troy, I. T., writes: "For a number of years I was troubled with indigestion and dyspepsia which grew into the worst form. Finally I was induced to use Kodol, and after using four bottles I am entirely cured. I heartily recommend Kodol to all sufferers from indigestion and dyspepsia." Take a dose after meals. It digests what you eat. John W. Breckenridge.

Pine City, Minn.

Natural Anxiety.

Mothers regard approaching winter with uneasiness, children take cold so easily. No disease costs more little lives than croup. It's attack is so sudden that the sufferer is often beyond human aid before the doctor arrives. Such cases yield readily to One Minute Cough Cure. Liquefies the mucus, allays inflammation, removes danger. Absolutely safe. Immediately. Cures coughs, colds, grip, bronchitis, all throat and lung trouble. F. S. McClinton, Hampton, Ga.: "A bad cold rendered me voiceless just before an important contest. I intended to withdraw but took One Minute Cough Cure. It restored my voice in time to win the medal." John W. Breckenridge.

**REVIVO**  
RESTORED VITALITY  
Made a Well Man of Me.

**PERINCE REMEDY**  
restores the system in 30 days. It acts generally and quickly. Cures when all other fail. Young men will regain their lost manhood, and old men will recover their youthful vigor by using PERINCE. It is equally efficacious for nervousness, Loss of Vitality, Impotency, Slight Emission, and Lost Power. Failing Memory, Wasting Dreams, and all effects of self-abuse or excess and indigestion. It will cure you for study, business or marriage. It not only cures by acting at the seat of disease, but it is a great nerve tonic and blood builder, bringing back the pink glow to pale cheeks and restoring the fire of youth. It works of itself, and does not require the aid of any other medicine. It can be carried in your pocket. 25 cent bottles. Sold by all druggists. Write for a full and free written guarantee to cure or refund \$1.00 per package, or \$10 for \$5.00, with a post paid order to **Dr. J. V. Breckenridge, 100 N. W.
