NEW FEATURES IN WHEAT.

New Crop Month Jumps Dollar Mark. All Reports as End of Receipts. Rate War Fails to Make Western Corn Holder Let Go.

Weekly review of grain trade and exceptional market conditions furnished exclusively to THE PINE COUNTY PIONEER by the Honorable E. F. Mason & Company, Board of Trade Chicago.

There is squirming in the wheat trade as if to get away from some of the conditions which the country has to face in the next three months. The chief incident for the week was the jump in the July wheat price from 98 1/2 to \$1.02, now \$1.02 1/4. Many in the professional trade and over the country sold July wheat because it looked harmless. They thought all wheat prices too high. They feared the power of the big holders in May contracts. They said "short" the wheat under the ice in the winter crop states. It develops now that May and July may be closely linked in the general shortage.

If old reserves run very low and winter killing and misfortune come to the growing plant, the speculator who looks ahead sees a continuation of high prices into the next harvests. This view started the July shorts covering. There is just a suspicion that the bull leaders in May contracts may be interested in the rise in the July. Analyzing the May wheat position, a leader writes: "At present there is practically only 1,000,000 bus. of contract wheat here that can be had. With the Wall street clique scalping the market on a large scale, it becomes congested every twenty-four hours."

There is nothing else in the trade situation so important as the movement to market from spring wheat states. Northwest reports for a month or more ago said supplies from first hands at an end. They also say country elevator supplies are at an end. But the wheat comes to Minneapolis at over 200 cars a day. If receipts continue all season, will make Wall Street long grain with a good lead.

If the supply stops, the big holders will be right and the will be but one side to the market. Total Western receipts fell 900,000 bus. short of previous week, 1,300,000 short of same week 1904. This is not enough. Stocks are not decreasing at a rate to suggest the scarcity so long talked. The miller and consumer must make a big hole in visible stocks to justify prices. It is certain by a situation for traders to study.

In corn the unexpected happened. With rail rates cut deep from the West to the seaboard, total receipts were but 2,000,000 bus. less than the week before. All Western markets had 700,000 bus. less receipts than last year. On the other hand, exports from all ports were the greatest in six years, over 5,300,000 bus. The cut rates and the raised bids for corn over the Western states failed to start the flood of corn expected. The owners of corn reserves see enormous feedings are educated to higher prices and advise say farmers view are very firm. Already there is talk of reducing rates. If the war of the Gulf lines and the eastern trunk roads ends without the country selling freely, then the speculator will feel that there is little hope for a bear campaign.

The drive at the May rate price put it to the test without dislodging holdings to any extent. The trade is entering the period of greatest consumption. Stocks are decreasing. Any price of improvement may get larger receipts. Market gives little promise of good production.

TEAM OF HORSES STOLEN WEDNESDAY.

Nervy Gentlemen Hires Livery Rig of John Humphrey and Disappears As Though The Earth Had Opened Up And Swallowed Him.

Wednesday evening, last week, at about 7 o'clock a fellow who has worked in the woods in this and adjoining counties, and who was known as Fred Johnson, or Halmer Johnson, went to John Humphrey's livery-barn and hired a team and a cutter to drive to Quamba—a village about six miles northeast of this place. Two days later Mr. Humphrey was informed that the gentleman had taken the opposite direction, having stopped at the Bronson farm, near this village, and asked the road for St. Cloud, saying he was from the village of Tamarack, and that is the last and only trace of him that the authorities have been able to discover. Since that time telephone and telegraph messages have been sent broadcast over the northeastern part of Minnesota, and Mr. Humphrey left Monday morning for Milaca, Foley and St. Cloud, in an endeavor to locate the team and driver, but up to the present time nothing has been heard of either.

Johnson was a man 23 or 24 years old, with smooth face, sandy hair, about 5 feet 9 inches in height and weighed about 165 or 170 pounds. The team consisted of a bay horse, with small white star in forehead, eight years old, weight about 900 pounds, and a mare trim built, about 10 years old, weight about 800 lbs. The team was hitched to a common box cutter, and the driver was supplied with two blankets, a robe, and a Russian calf-skin coat.

Rath received the report Tuesday. Sandstone appears to have the largest death rate, but the quarry located there is accountable for a number of these deaths. From a comparison of statistics Kerriek leads in general healthfulness, with only one death and 20 births. Kettle River with its eight deaths and only five births would lead one to believe that race suicide had hit that locality proper unless we take into account the general laxity of returns of births. The showing made over the entire county is very gratifying, the low death rate indicating that Pine county is indeed imbued with a most healthful elixir of life. Following is the report:

The K. of P.'s Entertainment.

A most enjoyable social event was the K. of P. lodge entertainment and party given last evening to Castle Hall. J. Y. Breckenridge was chairman of the evening and after giving a short opening talk in his usual becoming manner, announced the program in the following order:

Violin Solo—"Longing for Home"
..... J. H. Claggett
Address—"Phytianism"
..... R. C. Saunders
Soprano Solo—"Song of Waiting"
..... Miss Hattie Pennington
Reading—"The Renunciation"
..... Miss Bigler
Soprano Solo—"For Love of Thee"
..... Miss Beasie Lambert

After the conclusion of this short but exceedingly interesting program the Chairman thanked the guests for their attentiveness and appreciation.

Progressive check and "Broom" were the prevailing games. And we sincerely hope that no separations will occur on account of the latter contentious pastime.

At the usual hour supper was served in the hall by the Wilcox House caterers.

The Knights are entitled to a gold medal and many congratulations for their cordiality and ability as hosts.

Births and Deaths for 1904.

Hold pull out from under the cow as much as possible.

Don't use cloth in washing milk utensils. Experiment has proved that cloth apparently clean do contain germs.

Don't use soap in washing milk utensils.

Use a brush and then a damp cloth to clean the cow before milking.

The milker should wear jacket and overalls that can be washed and that are washed often.

Milker's hands should be clean.

As soon as possible after milking, the milk pail should be rinsed in cold water, then washed with hot water, in which has been dissolved some alkali powder, as Wyanodrite washing powder, gold dust or common washing soda. Use a brush to do this cleaning, instead of a cloth. Rinse out and finally seal with boiling water. Dry without wiping.

See that all seams are soldered on the inside and are smooth.

Crackery is not so good as tinware, because of the minute cracks which soon come.

School Notes.

The 5th, 6th, and 7th grades have done an unusual amount of reading this year. After exhausting the regular supply they attacked the high school classics, Hiawatha and Evangeline were read in both rooms, The Christmas Carol in the 3th and The Last of the Mohicans in the 7th. The 5th will read The Great Stone Face & Grandfather's Chair, and other American classics, while the 6th and 7th grades will be provided with DeLoe's Robinson Crusoe, Dickens' Cricket on the Hearth, and Scott's The Talesman.

Misses Barnum and Day are using the Ward Method as an auxiliary to the word and sentence method heretofore used in reading. It is expected that progress in reading will be materialy increased thereby.

The A 5th will shortly take up 6th grade work.

The A 4th have completed 4th grade arithmetic.

The B 3rd started out last fall to catch the A class and if Jove will determination will do it; they stand an excellent chance of gaining their half year before they enter the 5th grade, at least as they are already even in arithmetic and spelling, and are a close second in reading and language. We would rather they caught up than fell behind.

The Tooloon class and a number of others are studying the genus homo.

The High and Grammar schools have achieved excellent progress in music this year. Miss Follansbee, as conductor of the work, is deserving of congratulations as the class is of praise.

A tall from the Kinnor for collar belonging to Ione Abreth, Tuesday morning. If stolen, the culprit had better make restitution before his guilt is established.

Messrs. Axtell, Greig and Greenley visited schools, Tuesday.

Annie Ausmus entered the 8th grade this week.

D D—DAIRY DON'TS.

Following were some of Prof. Van Norman's dairy epigrams that will interest many readers of the Live Stock World.

In most cases milk from a healthy cow is free from germ when it leaves the cow.

One germ, if it double itself in an hour becomes 14,000,000 germs in 24 hours.

Therefore keep them out. Keep them out by a low temperature and clean barn.

Have the cow stand on a raised platform, six to eight inches high with hind feet reaching to edge of platform.

The smaller the opening into the milking pail the better. Much dirt

About twenty-five Pine Cityites took advantage of the "new" sleighing and braved the fall of the beautiful, Wednesday afternoon, to attend the meeting of the Ladies Aid society which convened at the home of Mrs. H. Taylor two and a half miles south of town. An elaborate luncheon was served and a good meeting reported.

The "Old Timers" ball at Rath's hall last Friday evening was not all that the title would signify. A majority of the attendants were of the elder class, but there was a goodly sprinkling of the younger element present who enjoyed the occasion together with the older ones. The Stumme orchestra furnished very good dance music. A midnight supper was served by the ladies.

The annual meeting of the Pine County Teachers' association will be held at Hinkley, Saturday, Feb. 18th. Every teacher in the county is a member of the association and all should make it a point to be present if possible. A very interesting program has been arranged, both for afternoon and evening sessions. Superintendent Blankenship is now in correspondence with State Superintendent Olsen, and the latter will be present or send his assistant, P. G. Schultz, to deliver an address. The principle event of the convention will be a speech by Dr. W. A. Shoemaker, president of the Normal School at St. Cloud, who will appear during the evening session. Stray wolves are being departed to the land of rest quite frequently of late by Pine county farmers. Jos. Gross brought in a wolf hide to the auditor Saturday and Wm. Fogler and J. L. Vaagorden each followed his example Sunday. A total of \$22.50 was paid as bounty money by the county as a result of the three wolves extermination.

Promoters of dancing parties have done more than their share of bustling lately. Last Friday evening two of those merry fantastic and frolicsome parties were held in different localities of the city, and on Wednesday evening another one occurred. One other, a Club hop, was enjoyed by the 'young bloods' Wednesday the 1st inst. All of these dances were well attended and thoroughly enjoyed.

Rufus A. Hoyt, of St. Paul, secretary of the State Humane society, was a Pine City visitor the fore part of the week, coming up to investigate the charge against Thos. Gill for cruelty to a boy he had taken to assist him on his farm. The hearing was had Wednesday afternoon, but there was not sufficient evidence to warrant proceedings, and upon Mr. Gill promising never to take another child the matter was dropped.

The concert by the Midland Quintette Tuesday evening was exceedingly good. The different members of the Company rendered their solos and cantata parts in a pleasing manner and their good work left a favorable impression with their audience. Mr. Vance Evans, the basso, was especially the star. His voice is rich and beautiful and his stage presence in his designated part was most suitable. The Quartette entertained at Hinkley Wednesday evening and at Willow River last evening. The ladies of the M.
