A medical authority says that in railway collisions passengers who are asleep escape the bad effect of shaking and concussion.

An engineer declares that 50,000 people now do the work with the aid of machinery which needed 16,000,000 people to do a few years ago.

The total length of the Russian railway system on January 14 was 37,574 miles. In 1904 there were thrown open to traffic 97 miles.

It has been found that all the gun-ights on the King Edward VII. of England's most powerful battle ship are incorrect. She will have Portsmouth to have them corrected.

The organization of chemical study and research in Germany for industrial purposes was begun by Prof. Justus von Liebig, who set up the first up-to-date university laboratory at Giessen, about fifty years ago.

The Simplon tunnel engineers knew their business. Boring parties started at each end of the 13-mile run in the Bois de l'Alps, and the tunnel day they met midway. The other means great things for Italy and Switzerland, whose governments have guaranteed the cost, which is placed at \$150,000,000.

With the increased realization of the benefit accruing from the handling of forest tracts by professionally trained foresters, they will develop a large demand for young men who have taken up this new and interesting active profession which so happily combines scientific study and commercial ends and has the attraction of an active, out-of-door life.

The Carnegie institute, which has the spending of the \$10,000,000 donated by the great ironmaster, has been asked to set aside a good-sized appropriation for the research work to discover an antidote for snake venom. It is probable that for thousands of years the secret has been sought in vain.

Dr. William Osler, of Johns Hopkins University, has also shaken safety on its foundations by the declaration, in a scientific lecture, that nothing is accomplished in the world by a man more than forty years old; that men of sixty years should be retired or chloroformed; that American medical colleges are teaching hybrid systems of medicine; and that the best chief of the United States in medical universities.

Several spots have lately been discovered on the sun, one of which, at least, is remarkable for its enormous size of 70,000 miles in diameter. This terrestrial globe might be dropped into the central chasm as a pea into a chalice without touching the sides. The whole surface is covered with breaking up constantly. The other spots are two in number, each 40,000 miles in diameter, one at each side of the 70,000-mile spot.

Forty, as a matter of fact, is the age to begin, not the age at which to end. At 40 a man begins to realize that life is real, that knowledge is the only thing worth while. The man of 40 should begin his real life, his real study, his real thinking and his real work. If he has done anything before that and got a good start, so much the better. But he no more think himself mature at 40 or past the age of work and achievement.

The appropriation of \$1,000,000 of the Peabody educational fund to the George Peabody School of Teachers at Nashville is a step by the trustees towards the dissolution of the trust which was administered the fund since it was created by George Peabody. The donation was subsequently increased to \$1,000,000, and placed in the hands of a carefully selected board of trustees, who have been using the interest of the fund for the education of both white and colored children in the South. Peabody was greatest of our early philanthropists.

John P. Wallace, the chief engineer, thinks a sea-level canal better than a lock canal. According to the estimate of the present canal commission, a canal 90 feet above sea-level could be built for \$200,000,000 in ten years; for \$250,000,000 in ten years; for \$300,000,000 in ten years; and for \$350,000,000 in ten years. These figures are somewhat in the nature of guesses.

The convention convened in London by Manchuria, the human misanthrope, is still unbroken. The convention, now in its 94th session, has elected as its president the distinguished Chinese statesman who has been in office since he was elected to the position in 1902. It is the first time since the convention was organized in 1895 that a Chinese has been elected to the position. The convention is now in its 94th session, and is expected to continue for several more years.

# THE JAPANESE WIN A GREAT VICTORY

## RUSSIAN ARMY SUFFERS COMPLETE ROUT AND CITY OF MUKDEN FALLS.

Kuropatkin Executes a Masterly Retreat and Reaches Tie Pass with But a Remnant of His Army—Losses on Both Sides Enormous.

Tokio, March 11.—Mukden fell at ten o'clock Friday morning. The Russians are panic-stricken. Thousands of prisoners and enormous quantities of stores and guns have been captured. Fushun was occupied by the Japanese Thursday night. The fighting continues on the heights north of Fushun.

Oyama Takes of Capture. Field Marshal Oyama telegraphed as follows under Friday's date: "We occupied Mukden at ten o'clock this morning. Our surrounding movement, in which we have been engaged for some days past, has now completely succeeded. The fiercest fighting continues at several places in the vicinity of Mukden. We captured a great number of prisoners, enormous quantities of arms, ammunition, provisions and other war supplies. There is at present no time to investigate the number of these."

A Masterly Retreat. St. Petersburg, March 11.—Official information from the Russian headquarters in the field, supplemented by dispatches from correspondents with which the army of the Russian empire, show that Gen. Kuropatkin, after suffering by far the most severe defeat of the war, has succeeded, as he did after the battle of Liaoyang, in extricating the remains of his army from a position which military experts 24 hours before believed would result in its annihilation or surrender. The retreat from Liaoyang was considered the most masterly ever executed, but it is far overshadowed by this latest feat of the Russian general, who has taken personal command of the troops after fighting for nearly three weeks, losing in killed, wounded and missing probably a third of his army, or nearly 100,000 men, and a fourth of his artillery. Kuropatkin gathered what was left together north of Mukden and is taking them towards Tie Pass through a rain of shrapnel, which is being thrown on them from both right and left.

Will Raise New Army. St. Petersburg, March 11.—The immediate news of the Russian government to the defeat at Mukden is an announcement that a new army will be raised and the forces in the far east reorganized. The Russian government will be ordered to sail on and try conclusions with Togo, and that the war will be prosecuted to the bitter end.

St. Petersburg, March 11.—The Russian general staff reports that "the main body of the rearguard squadrons are falling back towards the city of Mukden," the "main body" or the "rear guard" consists of has not been definitely fixed, but from the dispatches from correspondents with the Japanese and Russians, and the combined must be but a small portion of the army which Gen. Kuropatkin had gathered along the banks of the Shahn and Hin rivers. And yet those who have reached Tie pass, worn out from days of fighting and retreating, are not out of danger. The Japanese, it is reported, having already started another turning movement which will force the Russians on to the plains north of Tie pass, where in the opinion of the general staff they would be easy prey for the victory-flashed soldiers of the mikado. The men who escaped are strengthening their fortification in Tie pass, but it is hardly possible that the pass can be held in the face of the overwhelming forces opposed to the Russians, and it is not likely that they will resist satisfied with his victory at Mukden, as he did after Liaoyang.

The Losses Enormous. As to the losses, Gen. Kuropatkin now admits that 50,000 wounded were carried off the field. This, with the 26,500 dead left on the field, the 40,000 prisoners and the wounded left in the hospitals, comes somewhat nearer the latest Japanese estimate that the total Russian losses were 125,000. At this rate Japanese losses could have more than 100,000 effective fighting men with him. The Japanese losses have been remarkably light in view of the length and severity of the fighting. The total loss is reported at 41,222. In all the speculation as to peace the point of view coming to the front is that Russia would prefer to negotiate directly with Japan without the aid of any third nation. This is in line with the views of many leading Russians, and the natural allies of the far east are Japan and Russia, they believe the only nations whose domains border on Korea and Manchuria, both having other interests besides those of trade.

Wants to Realign. London, March 11.—The St. Petersburg editor of the Times says: "Gen. Kuropatkin has asked the emperor's gracious permission to hand over his command, alleging that he is in urgent need of physical and mental rest."

"I learn on the best authority that Japan view has been approved Russia through informal channels, and that the first of peace negotiations, but that in such case the proposal failed because Japan demanded an indemnity and a share of the spoils of the Far East, which was in the Pacific for 25 years. The Japanese insistence on indemnity reinforces the Russian government that

her pecuniary resources are exhausted and that by continuing the war only a few months longer Russia will get better terms."

## DEATH OF SENATOR BATE.

Attack of Pneumonia Ends the Career of Well-Known Tennessee Statesman.

Washington, March 10.—United States Senator William Brame Bate, of Tennessee, twice governor of his state, a veteran of both the Mexican and civil wars, rising from private to major general in the Confederate army in the latter and for 18 years a conspicuous member of the upper house of congress, died at his hotel apartment in this city Thursday, aged 78 years. Death was due to pneumonia and defective heart. Senator Bate attended the inauguration ceremonies on March 4 and his death is believed to be due primarily to exposure on that occasion.

Senator Bate took his seat in the senate in 1857 and was sworn in last Saturday for another term of six years. He was the ranking minority member of the committee on territories, military affairs and agriculture and forestry; also a member of several minor committees and chairman of one of the minority committees.

## BRIDGE COLLAPSES.

Structure Undermined by Flood Falls Into River in Los Angeles—Two Lives Lost.

Los Angeles, Cal., March 14.—The Seventh street bridge over Los Angeles river fell Monday, carrying with it into the flood-swelled river 12 to 15 persons, two of whom are believed to have been drowned. Five persons were injured. The high water in the river had attracted a number of sightseers to the bridge. The buttresses of the bridge had been weakened by the flood and, when a sudden swelling of the waters came, the supports were carried away and the bridge collapsed. Flood conditions in Los Angeles and vicinity are the worst known in many years.

Along the coast various other towns have suffered. At Santa Monica two persons were killed, and the damage \$200,000. At Long Beach the damage to the wharf and to small boats is estimated at \$24,000.

## NOTED WOMAN GONE.

Death of Mrs. Hallman Who Opened First Kindergarten Training School in United States.

Lafayette, Ind., March 11.—Mrs. Endora E. Hallman, of this city, who with Elizabeth E. Peabody, opened the first kindergarten training school in the United States, died at North Reading, Mass., Friday. She was 82 years old. Her husband was born at Evansville, Ind. She wrote several books on kindergarten subjects and had been at the head of kindergarten training schools at Lafayette, Ind., Washington, D. C., Boston, Mass., and Dayton, O. Her husband, Dr. William N. Hallman, was commissioner of the commonwealth during the administration of President Cleveland.

## Legislature Must Decide.

Denver, Col., March 14.—The Colorado supreme court Monday ruled that the joint convention of the legislature cannot adopt the report of Senator Alexander, of the gubernatorial control committee, declaring that neither Alva Adams nor former Gov. Peabody was elected governor at the November election. It is the decision of the supreme court that the assembly must decide the contest between the contestants, and cannot consider seating Lieut. Gov. McDonald, as governor.

## Died of Broken Heart.

Provia, Ill., March 14.—Declaring that he had nothing more to live for, John P. Reynolds, aged 71, a pioneer merchant, took to his bed after the funeral of Mrs. E. A. Havens, a life-long friend, last Wednesday and never arose. He passed away at the Cottage hospital early Monday.

## Strikers Admit Defeat.

New York, March 13.—Admitting defeat in their fight against the Interborough company, the old employees of the subway and elevated railway crowded Friday the offices of the company seeking their former positions. Some 3,000 men applied for reinstatement, but not more than 500 were accepted.

## Tragedy in Indiana.

Fort Wayne, Ind., March 11.—Joseph Jobst, 44 years old, a driver of a brewery wagon, shot his wife Friday and then committed suicide. The woman was 19 years old. He had applied for a divorce from Jobst.

## City Treasury Robbed.

Colon, March 14.—The municipal treasury of Colon was robbed Sunday night of \$5,000. The money was taken from a safe in the city, notwithstanding the fact that the building was guarded by police.

## KUROPATKIN IS NOT THE ONLY ONE WHO HAS TROUBLE AT THE REAR.

## DECLARES DEATH IS DUE TO POISON

CORONER'S JURY AT HONOLULU RETURNS A VERDICT IN THE STANFORD INQUEST.

Finds That Strychnine Was Placed in Bottle by Unknown Persons with Felonious Intent—No Motive Yet Known for the Awful Deed.

Honolulu, March 11.—The coroner's jury Thursday night returned a verdict that Mrs. Jane L. Stanford died of an unnatural death. The verdict says that death was due to strychnine poisoning, the poison having been introduced into a bottle of bicarbonate of soda which was used by Mrs. Stanford for medicinal purposes. The end of the inquest with a positive verdict of murder leaves the police of Honolulu as much without a clue as when Mrs. Stanford died. The jury returned their verdict after two minutes' deliberation.

## Sublet of Adverse Criticism.

The verdict of the coroner's jury to the effect that the death of Mrs. Stanford was due to strychnine poisoning is the subject of much adverse criticism here. Many persons declare that the evidence was lacking to sustain the conclusion of the jury as to a felonious intent. The verdict was written out with the knowledge and assistance of Deputy High Sheriff Rawlins and the jurors, who took less than two minutes to arrive at the verdict, immediately signed the names.

## To Be Thoroughly Probed.

San Francisco, March 11.—The fact that the coroner's jury at Honolulu decided that Mrs. Jane Stanford was murdered by means of strychnine has added interest to the mysterious case. A conference was held here Friday between District Attorney Byington and Montford Wilson, attorney for the late Mrs. Stanford, at which all the phases of the situation were discussed and it was determined to probe the matter to the bottom. No intimation of the proposed course of action has yet been given.

## No Motive Yet Discovered.

"We will not make any arrests to-day," declared Capt. Burnett. "and perhaps not for several days. We simply do not know who did it, and we cannot hold. Of course we are satisfied now that a crime has been committed. The one gap in the case here is the Honolulu end of the case. Detective Reynolds of this department, and Capt. Callaghan will work to bridge it over. It is not until March 17, and the police have arrived at a conclusion as regards the motive behind this crime. We are as much in the dark relative to this important phase as we were earlier in our investigation. Neither is it true that the detectives have been sent to Honolulu to bring Miss Berner back. So far as our investigation goes there is less interest against Miss Berner than any of those who occupied the Stanford residence on January 14, the date of the first attempt made to poison Mrs. Stanford."

## Awful Ravages of Plague.

Calcutta, March 13.—Deaths in India from the bubonic plague last week numbered 34,000. Statistics show that the deaths from bubonic plague in India within a few years reach nearly 3,000,000. In 1903 the mortality in India from the plague alone was 850,000.

## Paper Mill Burned.

Baltimore, N. Y., March 14.—The strawboard paper mills owned by John Leggett & Son, at Middle Grove, were destroyed by fire Monday, entailing a loss estimated at \$50,000.

## Robbers Make Rich Hand.

Toledo, O., March 14.—Sunday night four men blew open the vault in the bank at Grand 15 miles east of here, and secured \$5,000 in cash and carried away papers valued at \$75,000.

## Signed Many Bills.

Washington, March 13.—During the session of congress which closed on the 4th inst., President Roosevelt signed 1,242 measures passed by the senate and house of representatives.

## MRS. CHADWICK GUILTY

Verdict May Mean Sentence to Long Term in Prison and Fine of \$70,000.

Cleveland, O., March 13.—Mrs. Cassie L. Chadwick Saturday night was found guilty on every count on which the jury was allowed to judge her—seven in all. The general charge was conspiracy to defraud the United States by plotting to obtain the certification of checks on a national bank when there were no funds in the bank to her credit. The woman can be imprisoned two years on each count, or fined not more than \$10,000 on each, or both fined and imprisoned. If the maximum penalties allowed by law are imposed Mrs. Chadwick will be sentenced to 14 years imprisonment and fined \$70,000. The jury reached its verdict in two hours. On learning the verdict Mrs. Chadwick became hysterical, shouting that she was innocent, and begging the officers to let her go. She was returned to jail.

The next step in the Chadwick case will undoubtedly be the trial of Dr. Leroy S. Chadwick, Mrs. Chadwick's husband, in common pleas court on the indictment in which he and his wife are joint defendants in the forgery of the \$5,000,000 "Carnegie" note which was held as security by Iri Reynolds. He may be tried alone, and Mrs. Chadwick may be a witness. Attorney General Will probably be called as a witness.

## DEADLY REVENGE.

Man in Wichita Kills Head of Firm Through Whose Failure He Suffered Loss.

Wichita, Kan., March 11.—J. C. Casey, head of the Casey Wholesale Mercantile company, was shot through the head and instantly killed by James Oliver Ferry, Oliver lost \$25,000 in the failure of the Casey & Galt Mercantile company a few months ago, and the misfortune preyed on his mind. He demanded the money when the firm was reorganized, and had several heated arguments with Casey over the loss. Friday, while Casey was seated at his desk, Oliver charged up behind him and fired three times without warning. Oliver walked to police headquarters and gave himself up. Casey was prominent in church and society circles.

## Despite Granted.

Jefferson City, Mo., March 11.—Following the decision of the supreme court refusing to grant a rehearing to William D. DeLoach, convicted of the murder of Detective Charles Schumacher, at Union Mo. Gov. Polk granted a respite of 30 days. Rudolph was sentenced to be hanged on March 17, and the pardon for the respite was signed by a large number of Irish Catholics, who claimed that an execution in St. Louis on the morning of St. Patrick's day would cast a gloom over the celebration planned in honor of Ireland's patron saint.

## New Equipment for the Rock Island.

It has been announced that to provide for the increased volume of traffic on the Rock Island line, a large amount of new equipment will be delivered, during the month of March, on cars placed several months ago. It is indicative of the industrial and commercial prosperity of Rock Island that this new equipment, in receipt of the new equipment, it has been found necessary to place another large order for delivery in the early summer. The rolling stock which will be placed in service consists of 20 new 70-foot pattern passenger cars from the Pullman shops, which embody a new and more comfortable and more spacious design, a distinct advance in day passenger equipment. Ten of the cars will be 70-foot chairs, furnished with 64 twin reclining chairs, seating as many people. The cars are equipped for lighting lights by Pintsch gas and electricity and are fitted with electric fans, for ventilation and cooling.

The other ten cars are 70-foot vestibule coaches, which are to be added to from time to time, plus the Rock Island's new 70-foot tank among the transportation facilities. The freight manifest in this new equipment, and adequately providing for the exigencies of increased traffic, is characteristic of the progressive policy of the Rock Island management.

day Saturday. He expects to move with his family to St. Paul soon.

North Branch Review. Mr. Drews went to North Branch again last Saturday to dispose of his residence property in that place. He has severed his connection with the Hurley Harness store where he has been employed during the past two years or since the business was established.

Hans has a host of friends in Pine City who regret his departure, but who wish him and his family every success in their future home.

### News from Greeley.

Carl Swanson has gone to Rush Lake, to work.

Mr. Amerin moved to the Walbury place last Wednesday.

John Lindgren was a business caller at Pine City last Saturday.

The ladies' sewing society met with Mrs. David Anderson last Tuesday.

Eric Wahlstrom attended the Buttermakers' convention at Wyoming last week.

Mrs. Thomas, of Minneapolis, is spending a few weeks with her parents, Mr. and Mrs. John Anderson.

Noah Johnson, who has been visiting his uncle, David Anderson, has returned to his home in Minneapolis.

A lot of good intentions were spoiled last Friday evening, and not many from here attended the basket social at West Rock.

Mr. Lohm gave a party at Clint last Saturday evening. A large number from here attended and all report a very good time.

The saw mills around here are finishing up this winter's run. Chas. Lindner closed down on Saturday and Lohm, Alden & Co., on Tuesday.

Eric Colin is running the creamery this week while Eric Wahlstrom is in Pine City getting that creamery in good running order. In a short time they will change places and Mr. Colin will take charge of the Pine City creamery. Mr. Colin is a young man that has grown up among us, and has the respect of every one in the community. He received his training as a creamery man from Mr. Wahlstrom who is as good an all-around creamery man as there is in the state. Last winter he attended the State Dairy School at Minneapolis and has tried in every way to perfect himself in his chosen profession. We have confidence that he will be successful.

### GREELEY SCHOOL NOTES

Arrum Svedberg is back at school.

The total enrollment last month was 54. The average attendance was 54.

Lizzie Stralow, Louise Drews and Henry Swanson have returned to school after being absent on account of sickness.

Those who lost no time from school last month were, Charley, Ernest and Arthur H. Anderson, Selma Linder, Margaret and Blinnie Heller, Ida and Minnie Daurer, Elsa Drews, Joseph Boesh, Christine, Esther, and Henry Olson, Willie Linder, Annie and Willie Studt, Harry, Esther, and Ruth Polin, Geo. Warburg, Eric Lindgren, and Fritcheff Nordeen. The children as well as the teacher are proud of the record they are making. There are nine that have lost no time since school commenced last fall.

### Birch Creek News.

We are having a cold spell but no snow.

Election was very quiet this spring.

Miss Esther Lief left for the City Monday.

Chas. and John Kron left for Minneapolis.

The Erickson Bros. have a very sick horse.

Ray, O. G. Gustafson, of Moose Lake, will preach Sunday, the 19th inst. in the Swedish Lutheran church. All are invited.

Swan Kron and family will leave for Minneapolis to make that city their future home. Mr. Kron is one of the old settlers in Birch Creek and he will be missed. We wish him success in his future home.

### ANOTHER CORRESPONDENT.

Otto Anderson living in Sec. 18 lost a \$100.00 horse the other day. Cause, blood poisoning.

A baby girl arrived at the home of Mr. and Mrs. Nels Johnson a few days ago. Mother and child are doing well.

Why not begin to discuss something on the co-operative plan. Farmers do you think a cheese factory on the co-operative plan would be a great thing in this locality.

And now boys how about that Farmers Telephone line? Are you going to drop it? Keep talking it up, and sometime in the sweet by and by you may come to an understanding.

There is a rumor of a railroad coming through the northwest corner of this county on its way to Duluth. Well if there is any truth in the report, the town of Birch Creek will be in it.

At the annual town meeting, \$300 was voted to be expended on roads this summer. Now boys work out this money in such a manner that when fall comes you will be proud of the way you spent it.

### By the Tonic Route.

The pills that act as a tonic, and not as a drastic purge, are DeWitt's Little Early Risers. They cure Headache, Constipation, Biliousness, etc. Early risers are small, easy to take and easy to act—a safe pill. Mack Hamilton, Hotel clerk at Valley City, N. D., says: "Two bottles cured me of chronic constipation." Sold by J. Y. Breckenridge.

# 1905 CROP THE LARGEST EVER RAISED.

## Prices of All Farm Products are the Highest in Ten Years.

How would you like to read the above headlines in your paper next October. If you know the above to be true would you not do a great many things which you will not do on account of the uncertainty connected with the raising of a crop?

No doubt you will say it all depends on the weather for a good crop and on the war continuing in the far East for good prices, but this is not true in either case.

A merchant may have a large stock of the very best of goods, but if he does not open his store with regularity, use his trade right and let the people who buy know he is doing these things he will never be successful. In other words, if he wants the business he has to go after it.

A farmer may have the best land in the state, the weather may be the most favorable, but if he doesn't plant GOOD seeds and give his crops his attention he will not get an abundant yield or the best quality. Any farmer who will plant poor or dirty seed on his valuable land is not entitled to a good crop and

should not expect it. There is a certain amount of speculation in every line and the farmer has go his share. Of course the results depend a great deal upon the system employed and how it is carried out, but it is a matter of chance to a great extent.

The one thing a farmer can do is to plant good clean seed. This kind of seed can be bought at the seed store which is located in the Rybak block, Pine City, Minn., and owned by the Pine City Milling & Electric Co. They have men whose daily work is to handle grain of every kind. These men select the seed grain that is offered, and you can feel assured that it is the best that can be bought.

You will be well repaid by a visit to this store as the line of seeds exhibited is without doubt the largest and finest this side of the twin cities. The fact that you do not live close to Pine City does not prevent you from buying at this store as your mail order will have the same careful attention that you yourself would get were you here. Shipment will be made the same day order is received. A postal card addressed to them will bring a complete price list. Allen's Flour, Feed and Seed Store.

question causes a little whisper, but the majority of the voters seem to appreciate the joke. A list of the officers has been in another column of this issue.

John Saffery is confined to his bed up to the present writing we have been unable to learn the complaint.

Frank Otis is noticed on our streets quite frequently. He travels until he comes to a certain point then he makes a right oblique move and halts at a place where there are two very fine ladies, one of which has some land for sale. Probably that is what he is after.

The drama which was pandered in Hesse's hall last Friday evening by one of our young people was a success in every essential. Their play and the mastery with which they handled it would have done credit to others more experienced. This was their first experience. The drama was entitled, "An Indiana Man."

We understand that that the W. C. T. U. society is doing very well, but at the last two meetings there was not a very good attendance. It seems to us that every mother of a family of boys should exert themselves to their utmost, letting those boys know that they were fighting their enemy. It is a good work and ought to be kept on the increase instead of waning.

We understand that the W. C. T. U. society is doing very well, but at the last two meetings there was not a very good attendance. It seems to us that every mother of a family of boys should exert themselves to their utmost, letting those boys know that they were fighting their enemy. It is a good work and ought to be kept on the increase instead of waning.

Bill Pence was a rich but miserly old skin flint, would shave notes at a big discount, but would never lend money. One of his farms joined with the widow Grimes and was continued in hot water believing that the line fence was a few inches on his land. He was strenuously opposed to public improvements on account of high taxes. And the widow was uneasy all the time fearing old Pence would do her harm. Finally, after thinking the matter over old Pence met her and told her that he thought the best way to settle the difficulty was to join hands and farms and live together. After a little consideration she consented. We would like to have given a more detailed account of it, but space forbids.

We were a little amused when we read the two editorials in the last issue of the Pioneer, one of which was copied from the Enterprise, concerning the booming of Pine County. Say, you fellows up north and down south must think you are the whole push. Just let me tell you that we Brookparkites have taken a hand in that direction occasionally during the past few years. If you will cast an eye up to the northwest corner of the Brookpark Press you will find a standing boom which goes to show that we are here and in business. Talk about strawberries. Why, neighbor Miller raised several bushels two or three years ago that were so large that he had to load them into a wagon to bring them to market. And now he is realizing several hundred dollars a year above expenses with just a little patch of berries. No, you don't want to go to booming the north end of the county on the strawberry question, for we claim that we have the soil that is better adapted to berry culture than any other portion of the county. Nor is this all. We boast of being able to raise the best wild and tame grasses. And as for vegetables, you fellows up north among the tamarack swamps, are nowhere. If you would give us a little booming, talk about you fisheries, you might interest a few of the anglers of the state. Yes, when it comes to booming the county for what it is worth for agricultural and stock and berry-raising you should always give Brookpark first place. Now, please be good and love one another. Selah!

A Safe Cough Medicine for Children.  
In buying a cough medicine for children never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it and it is always sure to follow. It is especially valuable for colds, croup and whooping cough. For sale by L. E. Breckenridge.

If taken this month, keeps you well all summer. It makes the little ones eat, sleep and grow. A spring tonic for the whole family. H. H. Hest's Rocky Mountain Tea. 35 cents. Tea or Tablets, L. E. Breckenridge

Pineapple for Consumption.  
It has long been known by the natives of South America that the juice of the fruit of the ripe pineapple being of such antiseptic qualities, will thoroughly destroy the germs of croup, consumption and grippe. A preparation known as Syrup of Pineapple Expectant, prepared by Dr. Hest & Co., contains these essential qualities. It is sold by L. E. Breckenridge for 50 cents.

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.  
"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John Shenick, 220 So. Peoria St., Chicago. "Two years ago during a political campaign, I caught cold after being overworked, which irritated my throat and I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in the council." This remedy is for sale by J. Y. Breckenridge.

It will bring rain, and blood, from head and hands. That's what Dr. Hest's Rocky Mountain Tea will do. Taken this month, keeps you well all summer. 35 cents. Tea or Tablets, L. E. Breckenridge.

A Destructive Fly.  
To draw the fire out of a barn, or heal a cat, without leaving a scar, use Dr. W. H. Wiley's Head Salve. A specific for piles, J. L. Tucker, editor of the Harmonizer, Centerville, Mo., writes: "I have used Dr. Wiley's Head Salve in my family for Piles, cuts and burns. It is the best salve on the market. Every family should keep it on hand." Sold by J. Y. Breckenridge.

The reason that coughs and colds produce constipation and weaken the lungs is because they interfere with all digestion. That new discovery known as Kennedy's Laxative Honey and Tar cures all Coughs, Croup, Whooping Cough and Asthma, in expelling colds from the system by gently moving the bowels. It is pleasant to take and contains no opiates. Sold by J. Y. Breckenridge.

Night Prowling Thieves.  
Croup and Whooping Cough come like a thief in the night, stealing in to fasten the fangs of mortal disease upon the children as they peacefully sleep in their little beds. Kennedy's Laxative Honey and Tar, the new discovery for Coughs and Colds, will drive out these death-dealing demons before the doctor can arrive. It protects the lives and health of the little ones, containing no opiates. Keep it handy. Sold by J. Y. Breckenridge.

Champion Liniment for Rheumatism.  
Chas. Drake, a mail carrier at Champlin, Minn., says: "Chamberlain's Pain Balm is the champion of all liniments. The past year I was troubled a great deal with rheumatism in the children as they peacefully sleep in their little beds. Kennedy's Laxative Honey and Tar, the new discovery for Coughs and Colds, will drive out these death-dealing demons before the doctor can arrive. It protects the lives and health of the little ones, containing no opiates. Keep it handy. Sold by J. Y. Breckenridge.

Pleasant and Harmless.  
Don't drug the stomach to cure a cough. One Minute Cough Cure cures the mucous, draws the inflammation out of the throat, lungs and bronchial tubes, heals, soothes and cures. A quick cure for Croup and Whooping Cough. Sold by J. Y. Breckenridge.

For Sale in Pine City by J. Y. Breckenridge.
