### HOME TRADE ADVANTAGEOUS

#### MAIL ORDER HOUSES CHEAT CONSUMER SAYS MR. ULERY IN THE ST. PAUL TRADE.

St. Paul, March 27.

"We are in receipt this week of an interesting communication from one of our subscribers with regard to mail order competition. The letter is sent in by Isaac Ulery, a general merchant in an interior town, who says, among other things:

"Local merchants have surely learned that much trade they should be supplied by Chicago firms who are catching the public with cheap goods at cheap prices.

"I have talked with large manufacturers in regard to the class of goods handled by mail order houses. They all told me that in the first place the mail order houses take all the seconds the factories have, and order more, directing that the weight be lightened or less work done on the goods or otherwise to cheapen them."

Mr. Ulery cited the well known binding twine and sewing machine examples. "In the former," said Mr. Ulery, "the manufacturer testified that the catalogue house made the price and he made the twine to suit the price offered. Of course the twine was made at any price. Sewing machines are quoted from \$6.80 up. If you order one of the \$6.80 kind you will receive several letters wanting you to try the better ones. They say they will sell you a machine for \$18 as good as the local dealer charges \$35 for. Local dealers have machines from \$12 to \$15, with liberal discount for cash. No standard makes of machines are sold cheaper one place than another.

"It is on stoves or other articles in which there is much iron or steel that the mail order houses practice their greatest deception. They offer a stove that appears like a standard make \$18 to \$22 stove for \$8. If they have a stove for \$8 or \$10 as good as the one the local dealer sells for \$16 or \$18, the latter would gladly buy them by the car load of Mr. Mail Order house. But they haven't. They have underlined, light weight, pot metal, makeshifts that a local dealer wouldn't dare to handle. The difference in weight between a first-class iron and coal burner and a mail order burner said to be 'just the same' is 215 pounds, which at 7 cents a pound, the price of standard castings, would make \$17.05. Scrimping is done in the nickel parts that cost from 15 to 25 cents a pound. Then there is the difference in workmanship and material, the one party trying to make the very best goods that money and skill can produce and the other trying to see how cheap he can turn out his goods. There must be figured the freight, drayage, mounting, blacking, extra pipe, damper and delivering. Very often," says Mr. Ulery, "we have to go out and shove up a fire hole, or put the pipe out of a fire hole a little and a great many other things that we have to look after which adds on hard good stoves or ranges from \$5.00 to \$6.00 each. If you will buy the same goods under the same conditions your house merchant can take better care of you than one several hundred miles away."

"Mail order stoves are made in foundries where the makers will not do business for good castings. Once poured the outside work is done, and the iron is left to rust. Defective castings all enter into stoves. If there are big air holes in them they are plugged with rivets and the small holes are filled with 'gunbo' a preparation that answers the same purpose for the stove maker that putty supplies for the carpenter or painter.

"Contributing Mr. Ulery says, 'There are very few people that always have the cash to pay for goods. It comes handy to have a house merchant. Then give him a fair show by giving him

your cash when you have it. The home merchant helps you in trying to give you your money's worth as he expects to see you again. He helps to consume your produce or to find a market for it. He is asked for contributions to help build churches and other things for which you would not think of going to Chicago and asking.

"When I was in Chicago some time ago I made a careful inspection of goods handled by mail order houses. They handle some good goods, but most of them are very cheap and dear at any price.

"As a stove example, a woman bought a stove of a Chicago mail order house for \$7.65. It weighed 145 pounds and had a 14-inch oven. Without any intention of deceiving her choice, we ask that anyone think for a moment of a cookstove weighing 145 pounds. The lightest one we found in a large hardware store was 270 pounds and had a 14-inch oven. He calls it a 'cheap' stove. He will sell it for \$11.70 cash. It has an 18-inch oven—four inches wider than the other, but that only half tells it. The 18-inch oven is almost square, while the 14-inch one loses a third of its length for practical use by the fire box being over the front end of it. The Chicago stove is sold 'sight unseen.' In mere weight alone I can remember good castings cost 7 cents a pound the good stove has an advantage of more than twice the metal for only half more money. The cost is over a cent a pound in favor of the good stove. But, after all, the real test is in quality. There are castings sold for a cent or two cents a pound. They are old iron recast, and stand any price. Pot metal that will stain rather than burn fire."

**A Print Shop Tragedy.**  
A mad subscriber came to town to wipe a print shop out. He said he'd clean the printers up and put them all to rout. But the editor looked at him so sharp, it made this mad man quiver. And the devil grabbed the office towel and stabbed him through the liver. —Millersburg (Mich.) Enterprise.

**Fair Day Enterprise.**  
The Pine City Mercantile Co. offered prizes to those who brought in the largest number of eggs on Fair Day, last Tuesday. The regular market price was paid by the Co. in addition to the prizes. First prize, \$2.50. Mrs. John Johnson, about 14 miles northeast of Rock Creek, 40 doz. Second prize, \$2.00. Oscar Sundeen, route 2, Pine City, 39 doz. and one egg. Third prize, \$1.00. Mrs. Kate Wosnek, two miles north of Pine City, 37 doz. and one egg. The plan proved very successful as over 600 dozens of eggs were marketed at the Big Store on the above mentioned day.

The foregoing paragraph goes to show what can be done by a little enterprise, and we would gamble that the Big Store realized a good business from their egg traders, who in turn were satisfied with value received. Many good inducements for spirited contest along this line could be thought of by our enterprising merchants for each Fair Day, which would tend to induce more interest into the farmers for their Day out. Bear in mind the fact that fairs occur on the last Tuesday of every month, and that it is for the village and farm business more interests that the two get together and make it a gala day of the month. Strive to do good for the town and vicinity.

If you cannot get sleep or work, feel nervous, cross and agitated, take **Holler's Rocky Mountain Tea** this month. A remedy for the sick. There is no tonic equal to it. 35 cents. Teas or Tablets. L. E. Breckenridge

### LIFE BUT A MEMORY.

Miss Lizzie Spearing Passes Over the River to Join the Majority, Loss Deeply Mourned by Family and School Mates. Funeral Held Thursday.

Scidion does duty call upon us to chronicle the sad departure, from earth to the great unknown beyond, one whose illness was of such short duration that the stern reality of death seems but a dream when linked with one whose age had barely reached its teens. And the heralding of such tidings is a most sorrowful task.

The subject of this necrology was Miss Lizzie Spearing, the 14-year old daughter of Charles Spearing. She died Tuesday morning at 9:30 o'clock from the after-shock occasioned by a surgical operation which she had undergone Saturday morning of last week. The disease which necessitated the operation was an aggravated case of appendicitis from which she had suffered only about a week. The operation was successfully performed by Dr. Stephan with the assistance of Dr. Wiseman and R. H. Blankenship, and she was much improved up to Monday evening at about eight o'clock when a pain for the worse took place and she died Tuesday at the time aforesaid after suffering most excruciating pain.

Miss Spearing was born in the Province of Pommern, Germany, May 9th, 1890. Her parents, together with family, emigrated to this country about a year after her birth and removed to this village. Her mother died about eight years ago. She is survived by a sorrowing father, sister and four brothers, and a host of school mates and other friends who will not soon recover from the shock of her early demise.

The funeral was held yesterday (Thursday) afternoon at two o'clock from the German Lutheran church, Rev. G. Huebner officiating. Many beautiful floral offerings were displayed upon and about the handsome white casket, and the school children, among whom she was a popular favorite, were present to tender their last respects for one they held most dear. The remains were interred in Birchwood cemetery. Those who acted in the capacity of pall bearers were, Ross Rath, Chester Jackson, Arthur Hoffman, Marion Langley, Thos. Henderson, Ernest Berchers.

The Pioneer joins in tendering its heartfelt sympathy to the bereaved ones.

### Tuxedo Club Buys Bergman Resort.

A deal, which has been pending for several months, was consummated Tuesday, whereby the Tuxedo club gain possession of the Pokegama summer resort, including 80 acres of land at Pokegama lake. The price paid for the site was \$8,000, and work will be started to improve the condition of the resort just as soon as the ice goes out, so as to allow proper navigation on the river. The Tuxedo club has plenty of ice stored for summer use and other similar arrangements have already been made. The club is meeting with greater encouragement every day and promises for a very successful initial season (1905) are very good.

### A NEW ENTERPRISE.

Dr. Lyons Has Decided to Put in a Hospital in the Old O. K. Saloon Building.

Otto Kowalke has, this week, commenced work on his old saloon building, fitting it up for Dr. Lyons, who will use the same for an office and hospital.

The lower floor will be used as reception, consultation, electrical appliance and operating rooms. A partition will extend through the center of the building from east to west and each hall will be subdivided. The front part of the building on either side of the partition will be used respectively as a reception room on the north and a consulting room on the south. Back of the consulting room will be the room for steaming and electrical operations. The rear room will be used as an operating room, and back of the reception room will be the stair way leading up to the second floor which will be divided into four rooms the same as the lower floor, each room to contain three or four single beds.

The doctor intends to make a specialty of treating rheumatism, kidney, liver and stomach troubles. He has all the latest improved apparatus to be found in the larger hospitals of the twin cities, and intends to give massage treatment.

Pine City is to be congratulated on having an institution of this kind in her midst, and when everything is in working order those from out of town who need treatment as well as local residents. The doctor will have nurses and assistants so that they can place their cases in his charge will be sure to receive the best of medical treatment and care.

### Jurors Appointed for Spring Term of Court.

The annual April term of the District Court will convene at the court house in this village, Tuesday, April 11th, when the grand jury will meet to make disposition of the cases within the calendar. Twelve cases of a criminal nature are bound over to await the jury's action, in which seven persons are directly involved. Judge Crosby, of Hastings, will preside at this term of court. The petit jury is called to appear for service, April 25th, two weeks after the grand jury meets. The following have been named as the grand and petit jurors.

A Hungarian blacksmith recently sent, as a present to the emperor of Russia, a horseshoe, a pair of pinners, a file and a knife, all ingeniously nailed to a goose's egg, without the egg being broken. The emperor sent in return his photograph, a gold medal and 20 ducats.

According to the bureau of statistics of the department of commerce and labor, the world's coal production in 1903 reached the enormous total of 845,000,000 long tons, of which the United States produced 219,000,000 tons, Great Britain 230,000,000, Germany 140,000,000, Austria-Hungary 30,000,000, and France 25,000,000.

But few people have any conception of Florida's extent. Jacksonville is about as far north of Miami as it is south of Charlotte, N. C.—about as far north of Key West as it is north of Danville, Va. Ignorance of the extent of Florida leads to many unwholesome mistakes. It takes over 24 hours to go from Pensacola to Miami. A land trip from one end of Florida to the other is as long as from the lakes to the Gulf.

With its 34,000,000 inhabitants in 1905, which are growing at the rate of 15,000,000 every decade now, the United States is the largest civilized country in the world except Russia. With its \$10,000,000,000 of property in 1905, as compared with \$55,000,000,000 for Great Britain and Ireland, \$50,000,000,000 for France, \$18,000,000,000 for Germany, and smaller figures for the rest of the countries, it is immeasurably the wealthiest of the world's nations.

Canned tomatoes and other red vegetables and other red colored with eosin; preserved peas and beans, as is well known, have the green color fixed and accentuated by the use of a very objectionable substance, namely, sulphate of copper. Added red coloring matters are often found in wines. "Fighting battles is much less dangerous," fighting battles may not really be less dangerous, but it is certainly less vexatious than conducting a newspaper in the czar's dominions. The editor must lay himself out to please, firstly, the imperial court; secondly, a dozen ministers of state, individually and collectively; thirdly, half a dozen officers; and fourthly, the public.

The length of time man has been known to inhabit the earth has been proved to be 8,000 years. A. M. Here he has found prehistoric tombs, and from their contents he knows that they date back 8,000 years. From a study for the explorer, the Egyptian of that day thought of death as a state so closely allied to life that he would have found of all the things that would be comfortable to be used here, and these were entombed with his body.

One of the greatest battles in history occurred on October 14, 1513, at Salpica, when Napoleon was defeated by the allied European armies. During the last few years fossils have been discovered all over the globe, sufficient in number to provide for man's use the exception of an immense monument in commemoration of this great battle. This gigantic monument, which will be the greatest in the world, is now under construction, and it will be the first to be carried on to sea. At the 100th anniversary of the great battle.

# WARSAW UNDER A REIGN OF TERROR

### BOMB IS THROWN INTO A POLICE STATION AND SEVEN PERSONS ARE INJURED.

While Baron von Nolken, Chief of Police in En Route to Scene, He Is Wounded by Bomb Thrown Into Carriage—Car Marked for Death.

Warsaw, March 27.—A bomb was thrown into the carriage of Baron von Nolken, chief of police of Warsaw, at eight o'clock Sunday evening. It is reported that the bombing was severely wounded. The attack on Baron von Nolken was the result of an elaborate conspiracy of the revolutionary party. Shortly before eight o'clock Saturday night an elderly dressmaker went to the police station at Praga, a large suburb of Warsaw, on the other side of the Vistula, and threw a bomb into a room of the station, wounding seven persons, two of them dangerously. The man started to run away, but was caught by the captain of the station. He was found to be a Jew, but his identity has not yet been discovered. He was immediately sent to Baron von Nolken at the city hall, informing him of the outrage.

**Policeman Killed.**  
Baron von Nolken, accompanied by a police officer, took a carriage and started immediately for Praga. When passing the castle where the government general resides a man standing on the pavement threw a bomb at the carriage. Baron von Nolken, who was sitting on the side nearest the assailant, escaped with a slight injury. The bomb, while his companion escaped unhurt. The coachman was thrown from his box and the carriage was smashed. Baron von Nolken was moved to the city hall and doctors were summoned, who found he had received injuries on the head, neck, arm and leg which are believed to be serious.

**Policeman Killed.**  
Meanwhile the police official accompanying Baron von Nolken saw the bomb thrower fleeing, and pursued and caught up with him, but the criminal proved the stronger and tore himself away. Another policeman fired twice after him, but the rest of the party was found dead in Sowa street, who proved to be a plain-clothes policeman who was sent pursuing Baron von Nolken's assailant. The police believe that the latter turned on the policeman and shot him dead. A girl who was passing the spot when the bomb was thrown was injured by splinters, and had to be taken to the hospital.

Baron von Nolken is very unpopular. He is hated by the masses of the Polish population, who hold him responsible for the sanguinary suppression of the disturbances here at the end of January. He has been here only a year, having come from St. Petersburg, where he was chief of the mounted division of the police.

**Car Marked for Death.**  
St. Petersburg, March 27.—It is reported that the police believe the fighting with the social revolutionists has passed sentence of death on 30 high personages, the list being headed by the rest of the Grand Duke Alexis and ending with that of the dowager empress. Eighty bombs were found on the Warsaw police. The news of this fact has caused the greatest concern here.

# THE LAST RITES.

### Remains of the Late Mrs. Stanford Commended to Her Final Resting Place.

Stanford University, Cal., March 25.—The body of the late Mrs. Jane Stanford, who recently died at Honolulu, now rests in the Stanford mausoleum between the bodies of her husband and son near the institution of learning that bears his name. Before the final commitment of Mrs. Stanford's body to the stone sarcophagus simple services were held in the great Memorial church erected by her in loving memory of her husband. The church was filled with thousands of people from all over the state, who came to pay their tribute of respect.

**Mexican Ambassador Dead.**  
Washington, March 25.—Senator Don Manuel de Arriola, Mexico's first ambassador to the United States died at the Mexican embassy at 4:55 p. m., surrounded by the members of his family. **Eight Killed in Landslide.**  
Berlin, Hungary, March 27.—A great landslide occurred here Sunday, a squad of soldiers who went to the scene to bury the dead were killed, eight of their number being killed and 19 injured.

**Passed Away.**  
Freepport, Ill., March 25.—William W. Smith, who built the platform for the Lincoln Douglas debate in 1858, died at the 100th anniversary of the great battle.

# RUN ON A BANK.

### Depositors of Institution in Cincinnati Demand Funds—Over \$200,000 Paid Out.

Cincinnati, March 27.—With a crash that took the doors of the Union Savings & Trust company's bank and shingles a panic-stricken army of depositors crowded into the institution Saturday morning shortly before the time for the opening of the bank. All day the run continued, and by one o'clock (when the bank closed for the day) more than \$200,000 in small amounts had been paid out. The run has been developing for the past two days, assuming enormous proportions and developing many dramatic incidents. A half dozen women depositors were crushed into unconsciousness in the crowd and were removed to the city hospital. More than 50 fainted while trying to squeeze up to the paying teller's desk and a number were robbed of their purses by pickpockets who mingled in the crowd just after they had taken it from the bank for fear of loss.

# MRS. CHADWICK PAID USURY

### Cleveland Woman Declares It Cost Her 50 Per Cent to Get Money from Financiers.

Cleveland, O., March 27.—The examination of Mrs. Cassie L. Chadwick in bankruptcy proceedings showed that she practically paid money lenders 50 per cent interest for every dollar she borrowed. She declared her total indebtedness would not exceed \$750,000, that of this sum, borrowed from various persons, she had received but \$517,000, leaving \$233,000 for commissions to the money lenders. In enlarging on this declaration, she said the note for \$190,800, held by Herbert D. Newton, of Boston, represented but \$78,000 in money actually received. In addition to the Newton transactions, Mrs. Chadwick said she paid James A. Friend, of Pittsburgh, \$75,000 for a loan of \$150,000, and W. A. Coons, of New York, \$24,000 for a loan of \$109,000.

# PERISHED BY FIRE.

### Two Small Children in Wisconsin and Two Others in Michigan Burned to Death.

Brule, Wis., March 24.—Two small children of E. Syring, a farmer living near here, set fire to the house in the absence of their parents and burned to death in the flames. A child fled from fear of a whipping for starting the fire.

Howard City, Mich., March 24.—Two children of Mr. and Mrs. George Hyndell have been burned to death in their home at Alanson, where the father is a mill employe. The mother upon discovering flames in the house rushed out for help, leaving the children, a four-year-old and four-year-old boy asleep in bed. The roof fell in just as the mother returned and the children perished.

# FIVE MEN DROWNED.

### During Heavy Fog Yawl Capsize Near Charlevoix, Pa., with Fatal Results.

Charlevoix, Pa., March 24.—During a heavy fog Thursday William Higgins, a ferryman at Lock No. 4, attempted to row five men across the Monacaque river in a skiff. When in mid-stream the ferryman lost his way, and the boat was carried over the dam and capsized. The occupants were thrown into the swollen stream, but before their call for assistance could be answered they were swept out of sight. Several hours later the ferryman's yawl was located over a mile below the dam, but none of the bodies have been recovered.

# Resigns as Governor.

Nashville, Tenn., March 25.—The resignation of the Tennessee Senator-elect, James B. Frazier as the governor of Tennessee, was formally delivered Monday afternoon by his secretary to Speaker Cox, of the state senate. The fact Speaker Cox briefly announced to the senate, and at once proceeded to take the oath as governor, to which office he succeeds under the state constitution.

# Acquitted.

Pomero, O., March 27.—The jury in the noted county treasury robbery case returned a verdict of not guilty in the trial of Treasurer J. C. Chase. The trial grew out of the robbery of the county treasury of nearly \$120,000 last September, in which Chase claimed he was held up by masked men and robbed.

# Aged Seminole Chief Dies.

Seminole, Fla., March 27.—Halpulta Mico, chief of the Seminole Indians, died here, aged 75 years. Mico served in the federal army during the Seminole war, a hand to his tribesmen. He became a Baptist minister several years ago, although he could not speak a word of English.

# Found Guilty.

New York, March 25.—George Russell, who was a greater Roumanian, was convicted Monday before Recorder Con of having sent with malicious intent an infernal machine to the United States. He was sentenced to 10 years in the city on May 5, 1903. The maximum penalty for the offense is five years imprisonment.

**Was Once Speaker of the House.**  
Auburn, N. Y., March 25.—Theodore M. Housh, who served in the house at the end of the fortieth congress, died here Thursday in his eightieth year. He was a member of the banking firm of Housh, Stewart & Co. and first vice president of the American express company.

# PRISON AWAITS MRS. CHADWICK

### UNLESS HIGHER COURT INTERFERES SHE MUST SERVE A TERM OF TEN YEARS.

### Judge Taylor Passes Sentence Upon Her, and Trial at Cleveland Is Ended—Resigned to Her Fate—Attorneys Will Appeal.

Cleveland, O., March 25.—Unless the higher court interferes, Mrs. Cassie L. Chadwick will spend the greater part of the next ten years in the Ohio state penitentiary. A sentence of ten years was imposed on her by Judge Robert W. Taylor, in the United States district court at five o'clock Monday evening. The sentence came at the close of a busy day for the court in hearing arguments on a motion for a new trial, which lasted all day. The motion was overruled. Mrs. Chadwick was convicted on seven counts and sentenced to ten years in the Ohio state penitentiary. For four of these counts a sentence of two years each was imposed. Upon two counts a sentence of one year each was imposed, making a total sentence of ten years.

# Attorneys Will Appeal.

Either Judge Francis J. Wing or Mr. Dawley will go to Cincinnati to make arrangements for a review of the case by the United States circuit court of appeals. The first step taken by the defense will be to ask for a stay of sentence until the appeal is tried out. There was an understanding with United States Marshal Chandler, United States Attorney Sullivan and the court to the effect that there would be no attempt to execute the sentence until the defense had an opportunity to carry the case to the higher court and there obtain a suspension of the sentence. Mrs. Chadwick will be detained to the last court.

# How She Received Sentence.

Mrs. Chadwick was not particularly affected by the action of the court Monday, as seemingly she had resigned herself to any action that might be taken. When she was told that the motion for a new trial had been refused she merely nodded her head as if she already knew. The court asked her if she had anything to say why sentence should not be pronounced. Mrs. Chadwick said she had nothing she cared to say herself. Her attorneys made no appeal to the court. Mrs. Chadwick was immediately imprisoned. By good behavior Mrs. Chadwick can reduce her term to imprisonment to eight years and four months.

# Her Crime.

Mrs. Chadwick was indicted by the United States grand jury, at a special session ordered by Judge Francis J. Wing, who has, since his retirement from the federal bench, become her associate counsel, on seven separate charges, each relating to her connection with the failure of the Citizens' national bank of Cleveland, of which she was Cashier. Both the president and cashier were jointly indicted with the woman who bore the responsibility of dollars of the bank's money. She was convicted under the indictment in which she was charged with conspiracy—conspiracy with Beverly H. Spear to convert her checks when she had no money in the bank. This is a transaction prohibited by the government for the protection of the depositors and stockholders of a national bank.

Mrs. Chadwick's trial began March 6 and the jury returned a verdict of guilty March 10. She was given a sentence of two years on each of four counts and one year each on two others. The first disclosure of Mrs. Chadwick's remarkable financial career was made when suit was brought by Herbert D. Newton, of Brookline, Mass., last December to recover the sum of \$190,800 said to have been loaned by Newton to Mrs. Chadwick. It was after the hearing of that suit Mrs. Chadwick went to New York and, after establishing her worth, she returned to Cleveland on December 10 by special agents. Within a few days she was brought to Cleveland and the hearing on the bill passed by the legislature.

# DEATH OF JULES VERNE.

### Famous Novelist Passes Away at Amiens, France—Short Sketch of His Career.

Amiens, France, March 25.—Jules Verne, the famous novelist, died here Friday. His family was at his bedside. Verne was born at Nantes in 1828. Like many other famous authors, he began his career by studying law, but he found this profession not congenial and began to gratify his taste for writing. At that time the stage offered the best inducements to a young author, and he wrote plays and librettos, and for a time was secretary of the "Theater Lyrique. In 1858 he published his "Five Weeks in a Balloon," and this decided his future. He had discovered his power to combine in the form of a story large flights of the imagination with the operation of the laws of nature. He rewrote his stories many times, having made ten copies of the manuscript of one book before he got it to his satisfaction. For 37 years he wrote an average of two stories every year. His most popular books are "A Journey to the Center of the Earth," "Around the World in Eighty Days," "Twenty Thousand Leagues Under the Sea," "The Mysterious Island," "Michael Strogoff" and "From the Earth to the Moon Direct in Ninety-Six Hours, Twenty Minutes, and a Journey Around It."

# SNUBS UNCLE SAM.

### President Castro, of Venezuela, Refuses to Arbitrate Issues with United States.

Washington, March 25.—Minister Bowen asked President General Priu until the appeal is tried out. There was an understanding with United States Marshal Chandler, United States Attorney Sullivan and the court to the effect that there would be no attempt to execute the sentence until the defense had an opportunity to carry the case to the higher court and there obtain a suspension of the sentence. Mrs. Chadwick will be detained to the last court.

# Presidents May Meet.

Laredo, Tex., March 25.—Efforts are being made by local parties well known in Washington and the City of Mexico to bring about a meeting between President Roosevelt and President Diaz, when the latter comes to the southwest early in April. In the event of a meeting being arranged the two presidents would grasp hands on the International bridge over the Rio Grande river, each remaining on his respective side of the boundary line.

# Fire in Costly.

St. Louis, March 27.—The freight depot of the Alton-Buch Brewing association, located in the center of its immense freight yards in the southern part of the city, was totally destroyed by fire Sunday, together with 17 refrigerator cars, the property of the St. Louis Refrigerating Car company, of which Alton-Buch is the president. The total loss is estimated at \$125,000.

# Passed Away.

Freepport, Ill., March 25.—William W. Smith, who built the platform for the Lincoln Douglas debate in 1858, died at the 100th anniversary of the great battle.

# Killed by a Street Car.

Burlington, Ia., March 27.—Mrs. W. H. Schwering, the wife of the president of the German Methodist church, was run down and instantly killed by a street car here.

# Best Part of Town Burned.

Montgomery, Ala., March 25.—The business portion of the town of Faunsham, Ala., was mostly wiped out by fire Monday. The approximate loss is given at \$15,000.

What the Doctor Says.  
Toledo, Ohio, March 27th.—(Special)—Harry T. Lewis, the well-known dentist of 607 Summit street, this city, is telling of his remarkable cure of Kidney Disease by using Dodd's Kidney Pills.  
"I was flat on my back and misty as I had almost given up all hope of ever getting any better."  
"My kidneys had troubled me for years. The pains in my back were severe and I had to get up several times at night. I tried different medicines but kept on trying worse till I was laid up."  
"Then a friend advised me to try Dodd's Kidney Pills and in about two weeks I started to improve. Now I am glad to admit I am cured and I cannot praise Dodd's Kidney Pills too highly."  
"I have taken Dodd's Kidney Pills when your kidneys first show signs of being out of order, you will never have Bright's Disease, Diabetes, Dropsy, Gravel or Rheumatism."

# OPERATION AVOIDED

### EXPERIENCE OF MISS MERKLEY

### She Was Told That an Operation Was Inevitable. How She Escaped It.

When a physician tells a woman suffering with ovarian or womb trouble that an operation is necessary, the thought of the knife and the operating table strikes her with terror. Her friends and her husband are all for women coming for ovarian or womb operations.

There are cases where an operation is the only recourse, but when one considers the great number of cases of ovarian and womb trouble cured by Lydia E. Pinkham's Vegetable Compound after physicians have advised operations, no woman should submit to one without first trying the Vegetable Compound and writing Mrs. Pinkham, Lynn, Mass., for advice, which is free.

Miss Margaret Merkley of 275 Third Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham—  
"Loss of strength, extreme nervousness, shooting pains, and the pelvic organs bearing down pains and cramps compelled me to seek medical aid. The doctor after making an examination, said that ovarian trouble and ulceration advised an operation. To this I strongly objected and decided to try Lydia E. Pinkham's Vegetable Compound. The ulceration quickly healed, all had symptoms disappeared and I am once more strong, vigorous and well."

Ovarian and womb troubles are steadily on the increase among women. If the monthly periods are very painful, or too frequent and excessive—if you have pain or swelling low down in the left side, bearing down pains, leucorrhoea, don't neglect yourself; try Lydia E. Pinkham's Vegetable Compound.

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for afflictions of the throat and lungs," says Hon. John Shenick, 820 So. Dear St., Chicago. "Two years ago during a political campaign, I caught cold after being overheated, which irritated my throat and I was finally compelled to stop, as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I think this medicine that I won my seat in the council." This remedy is for sale by J. Y. Breckenridge.

**LIVER TROUBLES**

"I had Thedford's Black-Draught a good medicine for liver disease. It cured my case and has saved 100 with doctors. It is the best medicine I know of." - MRS. CAROLINE MARTIN, Parkersburg, W. Va.

If your liver does not act regularly go to your druggist and secure a package of Thedford's Black-Draught and take a dose tonight. This great family medicine frees the constipated bowels, stirs up the torpid liver and causes a healthy secretion of bile.

Thedford's Black-Draught will cleanse the bowels of impurities and strengthen the kidneys. A torpid liver invites colds, biliousness, chills and fever and all manner of sickness and contagion. Weak kidneys result in Bright's disease which claims as many victims as consumption. A 25-cent package of Thedford's Black-Draught should always be kept in the house.

"I used Thedford's Black-Draught for liver and kidney troubles and found nothing to equal it." - WILLIAM COPPERMAN, Marshfield, Ill.

A 480 ACRE FARM YIELDS 25 PER CENT. PROFIT A YEAR.

What a Mercer County (Ohio) Farmer Received from One Year's Crop.

Extracts from an interesting letter from F. H. Ryland, of Girard, Manitoba, Canada, gives an excellent idea of the prosperity of those who have come from the United States to Canada. He says:

"I bought, August, 1903, 480 acres of land, paying \$12,000 for it. We threshed 2,973 bushels of wheat and between 1,200 and 1,300 bushels of oats and barley from 200 acres. Part of the wheat went down before filling, and was not harvested except for hay. The crop was worth at threshing time \$10,000. Besides 120 acres laying idle, except a timothy meadow, which is not included in this estimate. Counting the value of the product and the interest on the land will pay me more than 25 per cent. on the investment. Two brothers in the same neighborhood bought 300 acres each six years ago. They have not done a single thing to this land except to fence it and break and cultivate about one-half of it. Harvested last year 28 bushels wheat per acre. This year 27 bushels per acre. They can get any day \$35 per acre. These are only a few of many hundreds of such chances. It looks like bonanza, but truth to be told, it is the world ought to know it, especially the home-seeker. I know of quite a few farmers that have made fortunes in from 10 to 20 years, retired with from \$20,000 to \$100,000."

Writing concerning another district in the Canadian West, S. L. Short says: "Dear Sir—I have to inform you that I have just returned from the Carrot River land in Saskatchewan, where I located land of the very finest black vegetable land, which I am proud of, and will move in the spring. Farmers are still moving there. A mild climate and beautiful country to behold. Cattle are fat and running outside. Wood and water good. Saw oats worth 45 pounds to bushel. Potatoes large and well ripened, also wheat that brought 82 cents. The country exceeded my expectations. Saw oats in stock, thicker on the ground than appears in many of the illustrations sent out in descriptive pamphlets. I have been in many western states, but the soil excels any I ever saw. The Canadian Government Agents at different points report that the inquiries for literature and railroad rates, etc., to Western Canada are the greatest in the history of their work."

### And No Wonder.

"I never before so touched the audience," said a well-known lecturer a friend after a lecture. "They were entranced, I felt that every eye was upon me from the first word to the last." "No wonder," said the friend. "Your gloves were inside your coat when you took it off, and they remained on your head all through the lecture."—Caswell.

### Effects of Prosperity.

In the six years of the country's greatest prosperity, from 1897 to 1903, average prices of breadstuffs from 65 per cent. to more than 100 per cent., dairy and garden products 60.1 per cent. and clothing 24.1. All these were products of the farmer and stockman who profited more than any other class of the community by these advances. The miner benefited 42.1 per cent. by that advance in the average price of metals. The only decrease in the average prices of commodities in that period was in railway freight rates, which decreased from 798 per ton-mile in 1897 to 703 in 1903, a loss of 4.4 per cent. The report of the Interstate Commerce Commission shows that the average increase in the pay of railroad employes in that period was a trifle above 8.5 per cent.

### THE FIRST CAT.

The Ark on the dark, multitudinous waters was tossing; the rain in a calarad poured. But Noah, his lady, their sons and their daughters, and all the whirving stock were safely aboard. They were a much assemblage, in spite of the weather. And their cramped quarters, they'd food to eat. And all things were lovely, when a rattle came from the galley, a rattle that was the first of its kind. They murmured—yes, like a warren of rabbits. And such were their simply unpeakable habits. That poor Mrs. Noah was well-nigh in a swoon, so in language untrammelled and forestal. And what might have happened, the Lord only knows. When Noah, the kindly and ever resourceful, went up to the linen and took his nose. Then, thrice he sneezed the linen and forth from the feast. His majesty sneezed with, there leaped in a fit. A silky-haired, dagger-clawed bristly little creature. And was to the ravaging legions of mice! In twentys, in thirtys, in fiftys she slew them. Behold Mrs. Noah had to say "Heil! 'Aha!" laughed the Skipper, who watched her pursue them. "I don't day one of the boys had to get a skeleton from a doctor and carried it to an old straw stack about a mile from town and buried it in an old pine box. We had the circle and sawed the spirit on the line. All of us asked questions in a rather loud voice, and which were easily overheard by our man in the next room. He immediately answered through the garden hose telephone and his voice sounded so unearthly that it made little chills run up and down our backs. The spirit told us he had been murdered years before, and his body buried in the old straw stack. It said it recognized old man Brown as a former very dear friend, but knew none of the others. Well, sir, old Brown was just happening. He wanted to hike out right after the old straw stack, and the newspaper correspondent was as bad. We got a lot of lanterns and started. We took the worst road we could find, and by the time we got there all were pretty muddy. Then we found that we had left town without a guide to dig with. The correspondent walked long muddy mile back to town for the spade, and he certainly made record time. When he at last reappeared, we voted to let him do the digging. He dug over the whole territory before he at last located the skeleton. Dragging it out, he looked at the innocent-looking thing and said: 'Boys, I've got a beat. Don't say a word.' We shouldered that old skeleton and waded back to town. It was placed in the window of an undertaker's shop, and people came from all over the country to see the remains of the victim of a horrible murder. The papers from all over the country to the other were full of it. We let it run along about a week, and then let up. I was sending out a little stuff to newspapers once in a while, and I wrote up the book. All the papers printed that. None of the papers reached here except what I received, and I kept them hidden so no one would see them. We were wondering how to put him on, when one of the boys saw him coming up the street. Grasping that little gutta-percha skeleton, he walked down the street swinging it between his fingers. The old man saw it, and turned white. He came up to where we were and I handed him a paper with the whole thing in it. He read the article through and then turned around and looked at each of us individually and collectively. He walked away, and never spoke to one of us again. 'Where is he now?' Down in the Lexington asylum, where he ought to have been a long time before."—Kansas City Star.

### SKELTON OF A SOMEBODY SUGGESTS THAT WE SHOULD BE OTHER CIRCLE IMMEDIATELY TO SEE IF THE OTHER CIRCLE LET US SOMETHING OF HIMSELF. THAT NIGHT, WHEN THE CIRCLE MET, KENNEDY TOLD HIS GAMES UP TO THE ROOM, AND WHEN THE RAPS BEGAN COUNTING HE LEVELLED HIS PICTURE MACHINE AT THE DARKNESS UNDER THE TABLE, AND LET 'ER GO. NEXT DAY KENNEDY DEVELOPED A REALLY GOOD ILLNESS OF THE OLD SKELTON. THE WHOLE GANG OF US THEN WENT RUNNING DOWN TO SEE MR. BROWN AND SHOW HIM THE PICTURE. THE OLD fellow was overworn, and told us he recognized that skeleton as that of a very dear friend of his who had disappeared some years before. # MISS BULL RECOVERS

## FEARFUL DECLINE OF STRENGTH COMPLETELY ARRESTED.

Medical Skill Had Almost Exhausted Treat in Vain Attempts to Relieve Her Remarkable Health.

The recovery of Miss Gertrude L. Bull is of great interest to the medical world. A very bad cough followed a severe attack of pneumonia. It seemed impossible to break it up or to restore her strength, which had become entirely undermined. In spite of the best efforts of the doctors and the use of several advanced modes of treatment her condition grew more serious. She finally discontinued all medicine and gave herself up to despair.

"What was your condition at this time?" she was asked.  
"My stomach was so weak I could not keep food down. I suffered from constant nausea. My feet and ankles were in terrible condition. My feet and ankles were so swollen so badly that it pained me even to stand on them. I was very ill. My heart was in the hands of the doctors. I could not go up and down stairs or stand any exertion or sleep in a natural position."  
"It seems a wonder that you should ever have recovered. How did it happen?"

"You may well call it a miracle, but Dr. Williams' Pink Pills worked. Some of my friends thought I would live many months longer. My parents had no hope. Just then a pamphlet advertising Dr. Williams' Pink Pills for Pale People was thrown in my door. It was a great event for me. These pills saved me from the grave. Within a week from the time I began to take them I felt better, and in three months I was entirely well. I cannot praise Dr. Williams' Pink Pills too highly and I dearly hope that my experience may bring good to some other sufferers."

Miss Bull, who was so remarkably cured, resides at Union Grove, Illinois. Dr. Williams' Pink Pills act immediately on the blood, purifying and enriching it. In all debilitating diseases, such as lung troubles, grip, fevers, and in all cases in which the system is thoroughly run down, these pills perform wonders. They are sold by all druggists throughout the world. A valuable booklet on diseases of the blood, will be sent to any one who will apply for it to Dr. Williams Medicine Co., Schenectady, N. Y.

The fashion writers agree that small checks will be in style next year. The new woman will be satisfied with anything less than big checks for her gown. Washington Post.

**Salzer's Home Builder Corn.**  
So named because 50 acres produced so heavily that its produce would equal 100 acres. See Salzer's catalog. Yielded in Ind. 157 bu., Ohio 100 bu., Tenn. 188 bu., and in Mich. 220 bu. per acre. You can beat this record in 1905.

**WHAT DO YOU THINK OF THESE YIELDS?**  
120 bu. Beardless Barley per acre.  
310 bu. Salzer's New Normal Corn per A. A. 80 bu. Salzer's Spitz Nussel Wheat. 1,000 bu. Peligres Potatoes per acre.  
14 tons of rich Hutton extra Grass Hay. 6,000 lbs. Victoria Beans for sheep per A. 100,000 lbs. Toronto the fatted weight. 64,000 lbs. Salzer's Super-Feeder Corn—rich, juicy fodder per A.  
Now such yields are made in 1905, if you will plant my seeds.

# THE ROOM IN THE ROOF.

## Some Suggestions for Turning Bare Attic Space Into a Delightful Little Lounging Place.

Does anyone realize how charming the despised attic can be? What a delightful place to linger in, to sit in, to sleep! The isolation of it lends charm, and the very slope of the roof seems tender in its close embrace. Drape the slope with lace, silk and ribbons, and behold the prettiest sleeping place in the world.

Does anyone accept of wretched knickerbocker beds? It is not recommended that they should be dressed under the slope, or that that particular corner should be chosen for standing upright in. Lie in the cosy corner under the slope, and cover it up as much as possible with a soft, light drapery.

Suppose that on the farther side of the room the doors in the middle, facing the window, then on one side of the door there be a wardrobe and on the other a writing table. The illustration shows an original plan for the back of the room, and it would be just suitable for a girl's or boy's attic. The veredos (so to speak) of fluted silk, arranged on brass rods fastened to the back of the veredos, the sides being made to move like the fittings of an Italian bedstead. This back to the bureau, as well as being decorative is useful, because it enables many treasures to be kept together, preventing the meaningless spread of photographs, miniatures, etc. all over the room.

This attic should be ivory white and rose color, to allow for the garden on the roof, which is nearly always possible on leads outside an attic window. This should, in the summer, be planted with

WRITING TABLE IN AN ATTIC BED-ROOM.

ivy geraniums of a brilliant rose color, backed with geranium. The walls of the room must be of pale cream color, the rose being introduced under the lace of the quilt and of the toilet cover, in the silk at the back of the bureau, and in the carpet. If the attic is large enough to admit of a bed, two of the ottoman kind, which will open and hold skirts laid at full length. There will be no more charming bedchamber than the room in the roof.

# WITH THE BEAUTY DOCTOR

## Some Hints as to Keeping and Getting Well and in Good About Aids to a Good Appearance.

The teeth are usually brushed across, they should also be brushed up and down, as this will move any foreign substance that the cross stroke has missed.

For a rough skin lather the face well with a good soap and a drop of glycerin, rinse off and dust the face with oatmeal, rinse again and dry with a soft towel.

The exercise of keeping the elbows straight and throwing the arms back until the back of the hands just touch below the waist line is good to strain loose the shoulders.

In researches on different methods of preparing food, a physician has proved that both beef and fish are more digestible in the raw state than cooked, that beef is in general better digested than fish and that fish is more digestible smoked than in any other form.

Every child should be taught that quick quenching does not depend so much on the quantity of fluid that is swallowed as on the length of time during which the liquid is kept in contact with the sense of the mouth and throat. A small quantity of water used as a mouth and throat rinse will relieve more than a pint swallowed hastily.

No domestic remedy can equal hot water in cases of congestion of the lungs, rheumatism or sore throat if tried promptly and thoroughly. An acute attack of cold can be usually relieved in ten minutes if a towel or strip of flannel folded lengthwise and dipped into hot water, then slightly wrung out, be placed around the neck of the sufferer and covered so as to retain the heat. The same placed over the seat of pain will in most cases quickly give relief in neuralgia and toothache and laid over the stomach acts like magic in attacks of colic. Headache almost always yields to the simultaneous application of hot water to the back of the neck and to the feet.

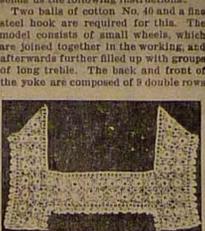

**Hellotrope Sachet.**  
Hellotrope is one of the sweetest of perfumes and is composed of four ounces of rose petals, two ounces of tonka beans, eight ounces of orris root, one ounce of vanilla, one-half dram of musk and four drops of oil of bitter almonds.

**Vogues of Betulic.**  
The fashion of carrying reticules, or wrist bags, is on the increase, although a little while ago it seemed as if there were no room for increase. Some of the prettiest are of gun metal with work elaborately jeweled with exquisite red stones.

# CHEMISE TOP IN CROCHET.

## Lace of This Sort Is Again in Fashion and Highly Prized as Trimming for Fine Underwear.

There is every indication that the revival of the fashion for crocheted lace will gain ground steadily. A delightful adaptation of the work, practical as well as ornamental, is suggested by the chemise top, for which a corresponding set of the following instructions is given. Two balls of cotton No. 40 and a fine steel hook are required for this. The model consists of small wheels, which are crocheted together in the wrong end and afterwards further filled up with groups of long treble. The back and front of the yoke are composed of 8 double rows

CHEMISE TOP.

of wheels. The sleeves of one row of 17 and of 15 wheels.

To Make the Wheels—Make a chain of 12 stitches. Join the chain to form a treble, 2 long treble, keeping the last stitch on needle, then draw through all. \* 5 chain 3 long treble (keeping last stitch on hook as before), repeat from \* 10 times—12 groups of 3 long treble with 5 chain between—join with a slip stitch, slip stitch to top of 5 chain. Repeat \* 11 times in loop of 5 chain. Repeat from \* into each loop, join and fasten off.

To Join the Wheels—Leave 4 clear loops of 7 chain. At either side of previous wheel make 3 chain, catch fourth of 7 chain. Three chain, 1 double in loop of 5 chain. Repeat from \* once. Make 3 bands of 15 double rows from \* 2 wheels at either end of the second band.

The lower part of the sleeve is now added. Nine more wheels for the inner circle, and 7 more for the outer circle of sleeve. The gusset is formed by adding the odd wheels at intervals to make a square corner, exactly the same as the corner of neck part of yoke. This when folded gives the point.

To Draw the Wheels into Shape—Catch on at second loop on second wheel at neck part. \* 5 chain 1 double in next loop 5 chain. 3 long treble, keeping last stitch on needle, then draw through all. 3 long treble in next loop repeat from \* all round. At corners make 3 groups of 3 long treble, the middle group being on the sleeve wheel. Catch 1st of 5 chain, then make a row of cross treble thus: 3 chain, miss 2, 1 treble, 5 chain, 1 treble on last made treble, 2 chain, miss 2, 1 long treble, work of one loop, miss 2, 1 treble in next, the work of all loops. Repeat from \* at end catch top of 5 chain. At corners put half a cross treble without the 2 chain. Edge—1st row, 5 chain to form a treble, 3 long treble in 1st cross treble, 3 chain, 4 long treble in same place, \*

SECTION SHOWING GUSSET POINT OF SLEEVE.

3 chain, 1 double in next cross treble, 3 chain, 4 long treble, 3 chain, 4 long treble in next cross treble, repeat from \* at end catch top of 1st long treble—2nd row, slip stitch to top of 3 chain 1 double, \* 7 chain pick back to 6th from needle, 1 chain, 1 double in loop, repeat from \* 4 times more; 5 chain, 1 double, in next loop; repeat from \*.

The same is put round outer edge of sleeves. The first two rows are put round lower part of yoke and inner part of sleeve. The corners are the same as at neck part of yoke, and at musket point put 2 groups of 3 long treble in loop of chain, with 5 chain between. This part is finished by adding 2 rows of doublets. Draw in at corners and put 2 trebles in 1 stitch at gusset point of sleeve.

To Fill in the Wheels—Draw through the cotton at a loop of 7 chain, make 5 chain, 2 long treble in same place, 5 long treble in each of next 3 loops of 7 chain. Draw 1 stitch through all, and fasten off. Fasten off all ends. Ribbons may be run in lines of cross treble.

**Trunk-Tray Sachets.**  
Trunk-tray covers are among the very latest fashions to make for yourself and for your friends. They are made of China silk or silkoline, double, with a layer of cotton batten between, thickly powdered with wash ribbon to which are bound with and if wished the whole surface is quilted or tufted. One for each tray is the best way to arrange.

**A Home-Made Calendar.**  
An artistic calendar can be made from wall paper. Select a piece which has not too large a design, one showing flowers like the yellow daisy, or pink and yellow chrysanthemum, makes an effective application, and put the picture on carefully. Have a fair amount ready and paste the flowers on. Add a calendar pad and how of ribbons and loon to hang it up by.
