SEWERAGE AND WATER WORKS.

DIAGRAM OF CITY AND WATER MAINS FOR THE PROPOSED ADDITION TO PINE CITY. A MUNICIPAL AFFAIR OF GREAT IMPORTANCE.

The diagram of the city and plans for the proposed new sewer and water works systems have been received by the proper officials of the city this week and it has been the general topic of discussion among some of our prominent business men during the week.

The project of these two metropolitan additions has been bubbling almost to bursting proportions for some time and now that the initial step "onward and upward" has been taken it is the duty of every citizen to foster the good work and strengthen our municipality.

TO THEIR MEMORY.

SOLEMN EXERCISES HELD AT BIRCHWOOD CEMETERY MEMORIAL DAY.

Appropriate exercises were held at Birchwood cemetery Tuesday afternoon, in due respect to our departed and living heroes of the Civil war.

The day dawned bright and cheerful and more pleasant weather could not have been hoped for. The crowd began to gather in town early in the day and by noon throngs of people sparsely intermingled with Civil war veterans were upon the streets and within the borders of Robinson park.

The parade formed at the G. A. R. hall and marched directly to the cemetery. The parade was led by Comrade Gupill as Adjutant and D. Greeley, Marshal of the Day. Following the leaders was the Pine City Cornet Band; then in order came the Fire Dept., Workmen lodge, Bohemian lodge, Grand Army Post, Ladies of Riverside Circle, in carriages, school children and citizens.

R. C. Saunders delivered the address at the cemetery and held the vast crowd's undivided attention from start to finish. A male quartette was present and rendered several selections. Miss Agnes Hunt spoke an excerpt from Lincoln's famous Gettysburg speech. The benediction was pronounced by Rev. Geo. Parish.

Before the exercises commenced the school children of the lower grades decorated the graves of the sleeping heroes with flags and beautiful flowers after which they approached the platform and sang an appropriate song for the veterans present. The band, under the leadership of Mr. Claggett, played a couple of numbers which were highly appreciated.

After the exercises, the band, lodges and fire department escorted the old soldiers back to their headquarters and there broke ranks and dispersed.

Card of Thanks.

One behalf of E. F. Davis Post No. 137, G. A. R., and the Riverside Circle, Ladies of the G. A. R., we thank the different Lodges, organizations, school children, and teachers for their loyalty and devotion and their splendid exercises toward us on Decoration Day. We heartily thank you one and all.

J. E. Netzer,
 Post Commander.
 Mrs. J. Y. Breckenridge,
 Circle President.

those who have not investigated the matter, a bond floated at this time will work wonders in putting the entire city affairs on a solid basis, will give to Pine City the improvement most needed, and the tax levy will not be increased one farthing.

A sewer system is very desirable at the present and within a comparatively short time will be an absolute necessity, and now is the time to conduct the affair properly by laying the foundation for both sewerage and water.

The propriety of establishing the systems is perfectly feasible and should be adopted by the city.

FOR THE FOURTH OF JULY.

Committee Selected to Arrange for the Proper Celebration of our Natal Day.

At a meeting of the Commercial Club held at the Pine City State Bank last Monday evening it was decided to celebrate the 4th of July this year.

It will be a typical Pine City Fourth, only on a grander scale than ever before. Last year we and our visitors enjoyed one of the best Independence Day celebrations ever attempted in the county and this year a greater effort than ever will be made to create a very successful demonstration, and it only takes the united efforts of our business men to make it such.

After the usual discussion the following general committee was selected: J. Y. Breckenridge, chairman; F. E. Smith, A. Cranton, J. J. Madden, and W. P. Gottry. This committee held a session directly after the adjournment of the Commercial Club and aside from appointing a couple of committees nothing of importance was transacted. The committees appointed were: Soliciting—Oto Kowalek, chairman; H. J. Rath, advertising—W. P. Gottry, chairman; I. H. Claggett, N. Neilson. The work of the aforesaid committee will be to ascertain the amount of funds that can be made available for "fourth" expenses, and to give the enterprise as much publicity as possible.

The general committee decided to meet next Monday evening to further their plans and to appoint additional committees.

Now that it has been decided to observe our Independence Day in a fitting manner, let all our residents, big, little, good bad, and indifferent, broad and narrow, long and short, fat or lean, become so very patriotic that the "shades" of '76 will look down and say, "Well done!"

Help the committee! Be a factor! Let us boost and have the best celebration ever enjoyed by a Pine county crowd.

ACCIDENT RESULTS FATALLY

Clair O. Greig Dies Wednesday Morning After a Short Illness. Funeral this Afternoon.

Clair O. Greig, the youngest son of Mr. and Mrs. Robert O. Greig, died at his home just southwest of this place Wednesday morning at seven o'clock. The cause of his death was peritonitis superinduced by an incision of the abdomen accidentally made by a pair of sheep shears while occupied in shearing sheep at his home Tuesday, May 23rd.

Clair was born in Grafton, Sibley county, Minn., on the 31st day of May, 1886, and was therefore just nineteen years of age at the time of his death. Nine years ago this spring he moved to this county with his parents, brothers and sister, and had since resided here. He had a beautiful disposition, was kind, patient and gentle, and his life could be made an example for others to emulate. He had no bad habits and was steady and industrious at all times, and a bright future has been blotted out by the inevitable Reaper. Clair was a favorite with all of his near acquaintances and was held in high esteem by his many other friends.

The accident which caused his early demise was an exceedingly peculiar one, and although it will probably never be known exactly, it is surmised that he had laid the shears upon the table and they became covered with wool and while attempting to subdue a struggling sheep he fell over the shears, one of the blades penetrating his abdomen and causing the wound that no human aid seem able to contend with.

The puncture benumbed him at first and as he fell no pain and did not discover his injury he could not explain just how the accident happened.

Immediately following the accident he took to his bed and everything possible was done to relieve his pain, and to eliminate the poison-nature of the wound but all to no avail, and Friday evening peritonitis set in from which he gradually grew worse and from which he died as aforesaid.

His demise is mourned by a host of friends who extend their sympathies to the sorrowing parents, sister, Mrs. Levi Archer, and brothers, Major and Shadrach.

Clair and those about him during his last days were resigned to his fate and he selected those whom he wished to be his pall bearers, as follows: George and Bert Taylor, Frank and Fred Rite, Clarence Daley, Andy Connaker; honorary bearers, John Buckley and Royal Hunt.

The funeral will be held this afternoon from the M. E. church, Rev. J. J. Parish officiating, and the remains will be laid to rest in Birchwood cemetery.

A BEAUTIFUL LOCATION.

The Selection of the Bergman Resort a Wise Choice. Place Remodeled. It's Guests, Present and Future.

Fortunate indeed are those who have had the means and the opportunity to visit at Pokegama lake, a lake known not alone throughout this state but in others, to be one of the most picturesque, historic and beautiful bodies of water within the borders of our fair Minnesota.

On the west bank of the lake, situated about on the dividing line of the center, is located the site of the new Tuxedo Club, an organization made up mostly of the elect who hanker for exclusion—who wish to be carried away from their office toil and drudgery, by the beautiful scenery and healthful elixir of a dreary, pine aired corner of Nature's own garden.

We could elicit many attractive features of this beautiful haven of rest and recreation but the limited space allotted such articles in anything but a magazine or work of history compels this humble writer of facts—not fiction—to pull the string and make a long story short by giving an account of what he saw and heard while at the Club a few days ago.

As the "Tuxedo Belle" with its passengers, steams into view of the dock, one can see at a glance that "improvement" has been and is the motto of the new management. Any one familiar with the grounds, past and present, will readily note the improved conditions that bob into view with every renewed wink of the eye.

A new walk gradually leads the passengers up to almost within the level of the hotel. The boats along the shore are always ready for service, they are well cared for and look neat and safe.

As we approach the main building or Club house we notice that many new tents have been erected and upon examining their interior we find that they have been converted into veritable palaces in comparison to their seeming rough surroundings.

The cottages have been renovated and are particularly clean for particularly cleanly people.

The main building, formerly known as the Bergman hotel, has been remodeled and is now a thoroughly modern, three-story lake side hotel. A screen enclosed porch extends from the side door on the south to the extension, made this spring, on the north.

Mr. Cooley informed the writer that water works and electric lights would be installed at some future date, and every effort will be made by the officials of the Club to make the place the pride of the lake.

For the benefit of those who have not already become informed as to the principles of this Club as to host-guests we will state here that only those who are members of the organization and their families will be recognized at the Club. Of course Club members are permitted to entertain their friends at the resort as their guests at any and all times.

Among the guests which we found while at the Club were, Col. E. M. Newport, a St. Paul banker, Misses Alice and Ella Pendergrass, of St. Paul, Mesdames Ed. Donahue, P. Egan and Philip Geib and Miss Caulfield. Many of the accommodations at the club have already been booked, some of which are: Thos. H. Quinlan and family, of St. Paul, who will occupy the north cottage during July and August; S. E. Lewis and family of the Nicollet Hotel, Minneapolis; and Mr. Miley, of St. Paul. Also large numbers have been slated from various points in the south.

Over seven thousand miles of railroad will be constructed during 1905, the greatest mileage of new line since 1857. In the latter year, 12,083 miles were built, but that figure has not been approached since. The plans for the present year, according to a railway publication, provide for 6,000 miles, and it is estimated that more than 7,000 miles will be actually graded and the steel laid.

Take a map of the United States, and with ruler and pencil, block out a rectangle, with the northern line parallel with Cleveland, the southern boundary passing through Cincinnati, the eastern border in the neighborhood of Harrisburg, Pa., and the other ending upon the western boundary of Ohio. For that rectangle is the baseball belt—the country which now produces the great professional ball players—and from the circumference area every high-class baseball organization in the country now draws its chief supplies.

James H. Hyde, the storm-center of the Equitable fire, is reputed to have the most splendid stables in America. There is a special room devoted to the harness, spools and shining as table silver. In a case are curls, bits, bells, stirrups and whips. There are carved wooden cases, containing a veritable museum of old stirrups, postilion whips and hunting horns, and a great hall containing not less than 25 carriages. The stables are ruled over by Francis Gullott, a true Parisian, who served W. K. Vanderbilt for ten years. Mr. Hyde has an office in the stable handsomely furnished and equipped with telephones and electric bells.

A recent and most curious discovery made in connection with the study of radium is its peculiar property of destroying the poisonous effect of the venom of serpents. This was ascertained in France by Prof. C. Philidel. He states that, an exposure of from fifty to sixty hours to the rays of radium is sufficient to destroy the poisonous character of the poison of the viper, and the same is true of the poison of the cobra, which is interesting in view of the fact that the latter poison resists the action of heat much longer than any other.

RUSSIA CRUSHED

Staggers Under Terrific Blow Dealt by Admiral Togo.

Annihilation of Rojestvensky's Fleet Is Result of the Naval Battle.

Without Material Damage to Themselves, Japs Sink or Capture Nineteen Vessels.

Personal Fate of Russian Admiral Unknown—He May Have Perished.

Admiral Nebogatoff and Over 9,000 Russians Are Taken Prisoners.

In the great naval battle fought Saturday and Sunday in the straits of Korea the Russians obtained a complete and overwhelming victory. Late advice shows that Rojestvensky's fleet, composed of all his most effective and powerful ships, was completely shattered. According to the latest information two Russian battleships, one coast defense armor-clad, five cruisers, two special service ships and three destroyers were sunk, and there were captured two battleships, two coast defense armor-clad and one special service ship. Rojestvensky's flagship escaped badly damaged, and, with other vessels of his broken fleet, is being pursued by the victorious Japanese. Rear Admiral Nebogatoff, however, was captured with 3,000 other prisoners. It seems probable that in their crippled condition other Russian vessels will fall into the hands of the Japanese before they can reach Vladivostok. White London rumors say that several Japanese vessels were lost. Admiral Togo officially reports that his squadron was not damaged. A number of Russian vessels still remain near Shanghai, but it is evident that as a fighting force the great fleet has been destroyed. No details of the battle have yet been furnished, and the Japanese censor, but Tokio dispatches make it clear that Admiral Togo is pressing his advantage and harassing the Russian vessels which are being driven to the refuge at Vladivostok, and make more complete his already sweeping victory.

Official Reports.

Washington, May 30.—The following official report from Tokio was received at the Japanese legation Monday:

Tokio, May 29.—Reports received from Admiral Togo at the Japanese headquarters:

First report received morning May 27th—Immediately upon the receipt of report the Russian squadron was in sight our combined squadron started for attack. Weather is fine to-day, but with heavy seas.

Second report received night May 27th—Combined squadron attacked Russian squadron to-day near Okino.

In the battle the Russian battleships Borodino and Alexander III, the armored cruisers Admiral Nakahmoff, Dmitri Donskoi and Vladimir Honomach, the coast defense iron-clad, Admiral Gromov, and the coast defense iron-clad Admiral Sentavin and General Admiral Apraxine were captured.

Eight Captains Drowned.

London, May 29.—A dispatch to the London Evening News from Tokio says eight captains of Russian warships were drowned during the naval battle of Saturday in the straits of Korea.

According to exchange reports on the Japanese side three cruisers were sunk and a dozen torpedo boat destroyers were sunk or disabled.

Flagship Reported Sunk.

Reports were current on the stock exchange, purporting to be from authoritative private sources, to the effect that Vice Admiral Rojestvensky's flagship (Kniaz Souvovoff), was among the vessels sunk, and that the Japanese were following up the Russians and picking off their ships one by one.

Victory Is "Absolute."

Washington, May 30.—Mr. Takahira, the Japanese minister here, has received a cablegram from his government relative to the naval engagement of Saturday and Sunday which, he said, while lacking in detail, covered the information that the Japanese victory had been "absolute and overwhelming."

Depression in France.

Paris, May 30.—The magnitude of the Russian naval disaster has fairly paralyzed public opinion which had hoped that late advices would show that Japan had also suffered some share of the losses. However, dispatches showing that the Japanese fleet escaped practically unscathed, and, in consequence, dispelled the hope entertained that Vice Admiral Rojestvensky by sacrificing a portion of his fleet, had succeeded in crippling Vice Admiral Togo's fleet to such an extent that the Japanese would be placed in a position of inferiority. Therefore the disaster is generally recognized by the officials, the public and the press in a tone of depression, the prevailing view being that the Russian fleet will be compelled to seek some means of terminating the war.

War Must Now End.

Paris, May 30.—The late dispatched advices showing the crushing defeat of the Russian naval fleet have led to the comment that Russia has played her last card and must

before the final results can be known. Flagship Badly Damaged.

According to advices received by the navy department from Tokio the Japanese, in addition to the ships already captured, captured the Russian battleship Sissoi Veliky, and the Russian flagship was seriously damaged.

May Have Lost Three More.

Tokio, May 30.—The number of Russian vessels of all descriptions sunk and captured by Admiral Togo's fleet now stands at 19. It is possible that three additional warships were sunk in the late Saturday night attack. The navy department refrains, however, from crediting reports of this nature until it is assured of their correctness. It is believed the total in the name of the captured transport which has been omitted in the list previously cable.

Fate of Rojestvensky Unknown.

Tokio, May 30.—The personal fate of Vice Admiral Rojestvensky is not known. There is some belief that he possibly perished.

Jap Losses Reported.

St. Petersburg, May 30.—The St. Petersburg telegraph agency has received the following from Shanghai: "News has been received here that seven Japanese ships, two of which were destroyed, and four Russian ships, which have been sunk. It is confidently believed here that the Japanese are awaiting the publication of Vice Admiral Rojestvensky's official dispatches from Vladivostok before admitting the extent of their own losses."

Admiralty Gives Up.

St. Petersburg, May 30.—After waiting vainly all day and evening for direct news from the scattered remnants of Vice Admiral Rojestvensky's destroyed and beaten fleet, the Russian admiralty at daylight no longer attempted to hold out against the overwhelming evidence pointing in from all directions that the fleet on which all their hopes were centered had suffered a greater disaster than did the combined French and Spanish fleets at Trafalgar. More bitter even than defeat is the Japanese claim of the virtual annihilation of the Russian fleet with practically no loss on their side, and many officers cling doggedly to the belief that Vice Admiral Togo might have suffered fatally.

Japan Master of Sea.

With every ship of Rear Admiral Nebogatoff's reinforcing division either sent to the bottom or forced to strike its flag, the last of Rojestvensky's original 16 fighting ships absent from the list of the vessels sunk or captured, and with the Japanese pursuit still continuing, no naval authority has the temerity to dream that Russia can again attempt to wrest the mastery of the sea from Japan in the present war. The captured warships alone will furnish Japan with ready-made reinforcements which will be more than a match for the fourth Pacific squadron now about to sail from Cebu.

Nebogatoff Among Prisoners.

Tokio, May 30.—Rear Admiral Nebogatoff (former commander of the fleet on the Pacific coast) and recently commander of the information squadron, composed of scouts and merchantmen, with 3,000 other Russians, is among the prisoners captured by the Japanese. The last report Saturday morning and the Japanese are still in pursuit of the Russians.

In the battle the Russian battleships Borodino and Alexander III, the armored cruisers Admiral Nakahmoff, Dmitri Donskoi and Vladimir Honomach, the coast defense iron-clad, Admiral Gromov, and the coast defense iron-clad Admiral Sentavin and General Admiral Apraxine were captured.

bring the war to a close. The official Temps makes an urgent appeal on the subject voicing the sentiment of the allied nation that Russia should abandon a struggle which has become hopeless and make the best peace possible. The paper says Admiral Rojestvensky is the last hope and his defeat leaves Japan free to force the issue. The paper says the Russian navy or army achieving a victory.

Greatest Naval Action in Years.

Berlin, May 30.—Naval critics here declare the war has entered upon the last phase in which the Japanese command of the sea will continue until the end. The battle of Saturday is called the greatest fleet action for 100 years, or since Trafalgar, and is classed here as being immensely greater than the Atlantic sea fight of 1866 or the naval battle of Santiago, in 1898. While the details are too few to enable the whole picture to be reconstructed enough is evident for the expert commentators to think it indicates a decisive defeat of the Russians and the probability of the final destruction or surrender of the fugitive remnants of Rojestvensky's fleet.

OREGON EXPOSITION NOTES.

Sutter's Fort, where gold was first discovered in California, 67 years ago, will be reproduced at the Lewis and Clark exposition by the Sacramento Valley development association.

There will be a riot of roses in bloom on the grounds of the Lewis and Clark exposition the opening day, and for many days thereafter. The rose exhibit will show forth the glories of the Oregon climate as a producer of roses and perfume.

Abraham Lincoln's old home at Springfield, Ill., the only piece of real estate ever owned by the martyred president, will be reproduced as the Illinois state building at the Lewis and Clark exposition. Many Lincoln relics will be exhibited.

Every day during the four and a half months of the Lewis and Clark exposition one or more excursions to Portland, on account of special events, will be run. It is estimated that 1,000 visitors will reach Portland daily on excursion trains alone.

ATAXIA IS CURABLE

REPORTED CURE STANDS TEST OF FULL INVESTIGATION.

A Former Victim of Locomotor Ataxia Now Free from Suffering and Actively at Work.

"Yes," said Mr. Watkins to a reporter, "it is true that I have been cured of ataxia by Dr. Williams' Pink Pills."

"Are you sure you had locomotor ataxia?"

"The doctors themselves told me so. Besides I recognized the symptoms."

"What were they?"

"Well, the first indications were a stiffness about the knee joints that came on about four or five months after that appeared, my walk got to be uncertain, shuffling-like. I lost confidence in my power to control the movements of my legs. Once when I was in the cellar, I started to pick up two centimes of coal, and my legs gave way suddenly, and I tumbled all in a heap in a heap. I couldn't pick up my legs and keep my balance to save my life. Then I had fearful pains over my whole body and I lost control over my kidneys and my bowels."

"How about your general health?"

"Sometimes I was so weak that I had to keep my bed and my weight was reduced twenty pounds. I could not pick up my legs until I ran across a young man who had been cured by Dr. Williams' Pink Pills and who advised me to try them."

"Did these pills help you rightaway?"

"I didn't see much improvement until I had used six boxes. The first benefit I noticed was a better circulation and a picking up in strength and weight. I gradually got confidence in my ability to direct the movements of my legs, and in the course of seven or eight months all the troubles had disappeared."

"Do you regard yourself as entirely well now?"

"I do the work of a well man at stand up. I can close my eyes and stand up all right and move about the same as other men. The pills are all gone except an occasional twitch in the calves of my legs."

Mr. James H. Watkins, resident No. 73 Western street, Albany, N. Y. Dr. Williams' Pink Pills can be obtained at any drug store. They should be used as soon as the first signs of locomotor ataxia appear in a peculiar numbness of the feet.

GREAT DISASTER MAY MEAN PEACE

ITS EFFECT A TERRIBLE BLOW TO RUSSIAN GOVERNMENT.

CZAR WEEPS AT THE RESULT

M. Delmas, French Foreign Minister, May 20.—The emperor was completely prostrated by the news of the naval disaster and, according to reports, he broke down in tears. The effect of the disaster will be a terrible blow to the government. The fatality of trying to stagger on land is everywhere recognized, and the cry for "peace" is sure to be raised. This time it is believed the government cannot resist such a cry. Indeed the radical liberals are openly rejoicing in this news of their country's humiliation. They declare that the disaster means peace and a constitution, and that the deaths of thousands of their fellow countrymen and the loss of over \$100,000,000 worth of warships is not too big a price to pay. The friends of peace in the government are already approaching the war party with forcing the issue between Tsar and Rojstevsky, when the fleet appeared in the Straits of Malacca they tried vainly to persuade the emperor that the time was opportune for the opening of peace negotiations, but the war party, headed by his majesty and Rojstevsky, for the honor of the navy, insisted that the fleet should be given a chance to retrieve the disaster suffered on land.

Peace Is Urged.
Diplomats entertain no doubt that the belligerent faction will continue to urge that the war be fought to the bitter end, but the friends of peace abroad, and especially France, are now bringing overwhelming arguments to bear in favor of peace. There is excellent reason to believe that the Russian government in this crisis will turn to M. Delmas, the French foreign minister, in whose ability and in whose loyalty as Russia's friend the emperor and his ministers have complete confidence. Some time ago it appeared likely that President Roosevelt would play a big role in the peace negotiations, but now his share is apt to be determined by M. Delmas's decision. The latter may, of course, consider it wise to place the negotiations in President Roosevelt's hands.

Conference at White House.
Washington, May 20.—Quick to realize the far-reaching effect of Admiral Rojstevsky's disastrous defeat in the Korean straits, and in keeping with his promise announced last week to do all in his power to bring the belligerents in the far east to direct negotiations at the proper time, President Roosevelt Monday night received a special appointment Mr. Takahira, the Japanese minister, and a conference followed for the greater part of the evening. Mr. Takahira called at the White House shortly after six o'clock in the evening and was immediately received. Earlier in the day the minister had called and left for the president a special appointment letter given out at the legation. Sir Mortimer Durand, the British ambassador, who is just back from London, where he was received by the king May 17, will leave for the president Wednesday, when the whole situation will be thoroughly discussed. Count Cassini, the Russian ambassador, said that he expected to see the president before the week is over, and Baron Sternberg, the German ambassador, who was early at the Russian embassy Monday, where he remained for some time in conference with the ambassador, is constantly in touch with the president through his intimate acquaintance with Mr. Roosevelt. He is at liberty to call at any time. The German ambassador is observing a discreet silence, but is thoroughly posted on both the Russian and Japanese points of view as represented here, and stands ready to give the president all assistance possible. The result of the conference at the White House could not be obtained at a late hour, but it is understood the minister assured the president that he had received official advice of the overwhelming character of the Japanese victory.

Dewey's Opinion.
Admiral Dewey expressed the belief that Admiral Togo has struck a powerful blow for peace, which he described to the Russian's best advantage. "It is the best thing of the kind," he said, "and I can see no other outcome than that Russia will sue for peace. It takes a long time to build a fleet, and I cannot see how Russia is in a position to continue her campaign by sea. Japan with the additional battleships captured by her and with the Russian ships sunk at Port Arthur, which she will doubtless be able to restore to usefulness, now appears to have the preponderating sea power."

Different View in Paris.
Paris, May 20.—It was stated in diplomatic quarters that while the result of the battle would contribute to international peace, it did not give any immediate prospect of the opening of negotiations to it. It was pointed out that the substance of the character of the Russian would probably compel them to have their hopes toward Lord Curzon. They hope to avoid the result of another land battle. It was said in this connection that the land situation would not be likely to permit Field Marshal Oyama to strike another decisive blow within two weeks, thus preventing his hopes of a final and effective peace negotiations to ask for peace.

AMERICAN YACHT A WINNER ATLANTIC CAPTURES RACE FOR KAISER'S CUP.

Crosses Atlantic Ocean in Twelve Days, Creating a New Record—Crews Cheered.

The Lizard, England, May 20.—The American three-masted schooner yacht Atlantic won the Kaiser's cup, the first Atlantic Ocean race for the cup. The yacht, owned by Wilson Marshall, New York yacht club, winner of the Kaiser's cup. The Atlantic passed the Wolf rock with every stitch of sail set. The spinaker was rigged to starboard and the American ensign was at her peak. Shortly afterwards the wind dropped and the spinaker was taken down.

SCHOONER YACHT ATLANTIC.
(Winner of Ocean Race for Kaiser's Cup.)
in. Capt. Barr was hailed by the correspondent's boat. He said the Atlantic had made an average speed of ten and a half knots since leaving Sandy Hook. As the Atlantic passed the line south of the Lizard lighthouse at 8:15 p. m. a gun was fired from the German cruiser Prell, the stake-boat, which arrived early in the evening, while the yacht was still in sight. The Atlantic proceeded for Cowes, Isle of Wight, intent on beating the record.

Capt. Barr and Wilson Marshall, the owner of the Atlantic, agreed that they had made a splendid passage, without a single mishap, only experiencing one strong gale, through which the boat rode admirably. The record set on one day was 341 knots, which Mr. Marshall believes beats anything hitherto achieved. This was made May 24. On May 25 the yacht made 282 knots, on May 26, 179 knots, on May 27, 142 knots, and on May 28, 213 knots, at Bridgeport, Conn., May 30.—When the news reached here that the yacht Atlantic was the almost certain winner of the trans-Atlantic race whistles were blown and bells all over the city were rung. Knobs of people around the newspaper bulletin boards repeatedly fought with swords. The amount written by the premium companies during business in the state was \$33,439,414 and the losses incurred amounted to \$1,777,922. The total admitted assets were \$2,479,716,868, liabilities \$2,229,652,200, and surplus \$214,064,665.

Life Insurance.
St. Paul.—Insurance Commissioner O'Brien issued a preliminary report of the condition and business of the life insurance companies doing business in the state for the year ending 1914. The amount written by the premium companies during business in the state was \$33,439,414 and the losses incurred amounted to \$1,777,922. The total admitted assets were \$2,479,716,868, liabilities \$2,229,652,200, and surplus \$214,064,665.

Business Openings.
It seems to me that the man with a small capital can find no better opportunity for investment and for the establishment of a small business than in some of the many growing towns of the Northwest.

Count Killed in Duel.
Buda-Pesth, May 20.—Count Stefan Keglevich was killed Monday by a duel fought with swords. The meeting was the outcome of a heated dispute in the chamber of deputies. Keglevich, who was wounded in the region of the heart, died almost instantly.

WORK ON NATIONAL RESERVE

A Leaflet Published Giving the Organization, Qualifications, Duties, and Salaries.

The Bureau of Forestry has published a circular giving information regarding employment on the National forest reserves. This circular explains how appointments to the Forest Service on the reserves are made, states the salaries of its members, and indicates the knowledge and experience required of rangers and supervisors, and the duties each must perform. The future organization will include Forest Supervisors at \$1,800 to \$2,500 a year; Deputy Forest Supervisors at \$1,500 to \$1,700; Forest Rangers at \$1,200 to \$1,400; Deputy Forest Rangers at \$1,000 to \$1,100; and Assistant Forest Rangers at \$800 to \$900.

The law requires that every applicant for a position in the Forest Service pass a Civil Service examination. Legal residence in the State or Territory in which employment is desired is generally necessary, since only where examinations fail to secure thoroughly satisfactory men are vacancies filled by the examination of applicants from other States. Appointments of Supervisors are made, so far as practicable, by promotion of competent rangers or forest assistants.

To be eligible as Forest Ranger, the applicant must be physically sound, accustomed to outdoor work, and know how to take care of himself and his horse in regions remote from settlement and supplies. He must know something of surveying, estimating and scaling timber, lumbering, and the livestock business. Some of the reserves require a specialist in one or more of these lines of work. The applicant must be thoroughly familiar with the region in which he seeks employment. The entire time of Rangers is to be given to the service. Rangers, under the direction of the Forest Supervisor, patrol to prevent fire and trespass; estimate, survey, and mark timber, and supervise its cutting; issue mining permits, build cabins and trails, enforce grazing restrictions, investigate claims, and make arrests for violation of the

laws. Forest Supervisors must have all the qualifications of Rangers, combined with superior business and administrative ability. They deal with the public in all matters connected with the sale of timber, the control of grazing, the issuing of permits, and the application of all regulations for the use and occupancy of forest reserves. Knowledge of technical forestry is desirable, but not essential.

Work upon the forest reserves offers good and increasing opportunity for men of the right sort. Requests for information about the times and places when and where examinations will be held should be addressed to the Civil Service Commission, Washington, D. C.

Tainted Money.

A good one has just been exploded concerning Rev. Clemens, president of the M. E. church. The Minneapolis Tribune is authority for the story as follows: The other evening at Richmond (Minn.) Rev. Mr. Clemens from DuRath was discussing the tainted money question in his spirited way. The returned gentleman was of the opinion that too much fuss had been made about nothing and was growing pretentious. "Why, gentlemen," he exclaimed, "if the devil himself should come to me and say, 'Brother'—and right there the audience was mean enough to clap so loudly that he became somewhat confused and finished hurriedly.

THE COW WAS DISCUSSED.

The Eastern Butter Makers' association held a successful meeting at Bath's hall last Saturday afternoon, and Seey, J. E. Lindberg, of Stark, reports that it was the most extensively attended meeting of any yet held by the association.

Those present from out of town were: E. O. Blomquist, Altonah; vice-president, J. E. Lindberg, Stark; Eric Wahlstrom, Greaser; Jonas Wahlstrom, Rush Point; Mrs. Matz Peterson, West Rock; F. M. Otis, Brookpark; Frank Shrewsbury, state inspector, St. Paul; H. P. Olson, editor Dairy Record, St. Paul; Henry Landholt, with Eld.—Ward Co., St. Paul; H. E. Schuknecht, with Worcester Salt Co., Minneapolis. The principal addresses were de-

livered by Seey, Lindberg, Inspector Shrewsbury, Hon. J. Adam Bode and H. E. Schuknecht.

The meeting was considered very profitable from an instructive standpoint, and the patrons, farmers and lecturers made the afternoon rapidly and pleasantly by the interest which they manifested throughout the session.

After the meeting in the hall the crowd went to the creamery where the results of the butter tests were announced. The contestants and their different marks follow: J. E. Lindberg, Stark, 93; E. O. Blomquist, Altonah, 94; Eric Collin, Pine City, 94; Jonas Wahlstrom, 93; Brock Wahlstrom, 93. Two tests of dairy butter were also made with the following results: Mrs. Matz Peterson, West Rock, 93; Frank M. Otis, Brookpark, 91.
