HOLES IN THEIR BATS.

Hinckley Ball Team Unable to Connect With Edin's Twisters and are Shut Out by the Barringtons.

Peter Edin, a Svenska polk of rather lengthy dimensions, was the main guy in last Sunday's ball game at Hinckley, this state, when that town's star aggregation of sphere tossers was humbled without the aid of a "ten-man aggregation." The fact of the case is, Hurley's Barringtons defeated Hinckley by a score of 5 to 0. A member of the Big Duluth team was in the box for Hinckley, and the latter's stock went up several notches in the estimation of the crowned heads of the former hab, until—the Pine City team pulled down the stock and paved the way to victory.

The game was a grand exhibition, in fact those at Hinckley, who are in a position to know, pronounced it the best game that has been pulled off in that place in many a moon.

Up to the sixth inning neither side scored and it appeared as if the boys were giving us a blankety-blank game, but the ice broke in the lucky (?) sixth owing to some hot foot circling by M. Barrister Hurley, assisted by a couple of accompanists and accomplished team mates. Our sympathy for Bro. Warren at this stage of happiness was beyond description.

The only opportunity given the tribe from up-country to do the prodigal act was in the seventh inning when Newton and Andrews made the only two safe bingles for their team. With these two world-leaders on the circuit, J. Urmann drove a high fly out to short left field. Schultz made a desperate effort to reach the flying orb which tricked him and scampered through his fingers, leaving three base runners all anxious to reach home. "Lest we forget" Davy Jones struck out just previous to this state of affairs and thus only one man was down with three men on bases. The noise at this stage of the game would remind one of a nursery full of peeps on a rainy day. The hot air and grammatical juggling, commonly known as rooting, became almost unbearable; and surprised this section of misfortune to hear so many lusty voices applauding on "the day of rest." But, the end of the season was equal to the occasion. With teamwork on bases Matt Edin struck out one guy, and with three leading toward home plate he handed the batter a beautiful strike which was shoved out to Matt Hurley who, after making a pretty catch, threw to second and retired the side. Hinckley never had a look in after that commendable performance.

The local team managed to score three times in the eighth and once in the ninth thus making their score a total of five.

While at Hinckley, the ball team was accorded the best of treatment, and have caught but praise to return for their friends' courtesies while in that town.

All of the bats played up to their usual good standard as the good seconds of them shows, but should Edin continue his batting stroke his position in the line line should be changed. His two batters came at unopportune times and might have done much toward increasing the score. M. B. Hurley's strike bases as usual and Payne held pitching record base at a premium.

MRS. C. A. HOYT

Department President Ladies of the Grand Army of the Republic, Visits Riverside Circle in Her Official Capacity, and Grants a Dispensation to Change the Name of the Circle from "Riverside" to Emily J. Stone Circle

The Emily J. Stone Circle was honored by an official visit from the Dept. President Tuesday, and at the close of a very interesting session in which the name of the Circle was changed, the G. A. R. comrades, their wives and invited guests went on an excursion to Tuxedo and took supper at that famous Club House.

There were about twenty-two in the party, which included guests from Sandstone and Rush City. They made a merry party on the steamer "Tuxedo Bell" which left in time to arrive at the club grounds in time for early supper. It being a G. A. R. affair, the Tuxedo Chef, Mr. Fred Aiken, prepared a feast of pork and beans such as only Fred, or perhaps comrade Stone, is capable of baking. It goes without saying that the trip was a pleasant one, the Dept. Pres., Mrs. Hoyt, and Mrs. Parish remaining over night as the guest of Mrs. Stone.

The change in the name of Riverside Circle is peculiarly pleasing to the family and friends of the late Mrs. Emily J. Stone, who took such a keen interest during her lifetime in the success and prosperity of Riverside Circle.

Such an honorable monument is seldom raised to the memory of a departed sister as has been erected in the form of the G. A. R. Circle.

The excursion returned to Pine City from the Tuxedo on the month waters of the Snake, having had a very pleasant outing.

TROUT FRY PLANTED.

Trout fishing in the several trout streams about here will be in good luck to come provided the efforts of a few of our true blue sportsmen pan out well.

Wednesday morning a representative of the state game and fish commission arrived here with 100,000 trout fry in response to a request for that amount.

The same were deposited by the following persons named: J. P. Holmberg, Hook creek; E. H. Blinn, Cushman; and C. H. Lasing, Bear creek. I. B. Claggert delivered some fry to Simon Derr at Beroun who in turn deposited them in Pokogama creek.

F. E. Stivers, of St. Paul, arrived here Wednesday to visit.

CAUGHT AT STILLWATER.

House Breaker Who Gives the Name of John Anderson Brought Here and Bound Over for Grand Jury's Action.

While the circus was in progress last Tuesday afternoon a sneak thief was plying his vocation in the homes of Peter Engel and Roy D. Beagle. The robbery was not discovered until some time after it had taken place. The authorities were at once notified and a thorough investigation and search was immediately instigated for the apprehension of the culprit or culprits.

H. S. Rowe, proprietor and manager of the Norris & Rowe circus, was given wind of the affair and it was due to his vigilant outlook for just such characters that the outlaw was captured.

Dispatches were sent to Stillwater where it was thought he was headed for and Wednesday he was approached and taken in tow by Chief Barnes of the Stillwater police force. Sheriff Hawley left for the prison city as soon as possible and yesterday brought his prisoner to this place where the hearing was held.

"Anderson" was bound over by Judge Potei to await the action of the grand jury and, in failing to get \$1,000 bail, was returned to the Washington county jail yesterday afternoon.

When taken the prisoner was searched and was found to have in his possession, a gold watch, a fawn colored pocketbook containing about \$20.00 and a 38 calibre revolver fully loaded, and also a pocket of cartridges. He is a southerner, coming from Osawatomie, Kan., and stated that he was working his way to the Minnesota harvest fields and stopped off here for the circus. Mr. Rowe differs with him in regard to this statement and informed the authorities that he had followed the show for about three days, and undoubtedly made a good haul at Clocquet where the circus showed Monday. Rowe had detective eyes spot him while here but could not get him.

Both of the houses which he admits having entered, were ransacked for valuables. In the Beagle home he stole Mrs. Beagle's gold watch and chain valued at \$50.00, several rings and \$3.85 which belonged to the hired girl. He made away with a little bank, containing between \$10 and \$15 from the Engel home, taking the bank to the railroad bridge, there breaking open the same and casting it into the river after pocketing the money. The bank was the property of Jimmy, the little son of Mr. and Mrs. Engel.

The McFee residence on the bank of Snake river was also entered on circus day and two banks similar to the one taken from the Engel home were carried off. The prisoner at first denied this theft but yesterday after some questioning admitted his guilt and stated that he broke the three banks on the rocks near the railroad bridge in order to get at the contents.

Anderson, which is very likely a fictitious name, gives his age at seventeen years but his appearance would indicate that he is about twenty-one. He was perfectly satisfied to return the valuables taken by him and says he will never be dishonest again. He stated that he had no confederates and that he did the work alone.

A NOTABLE EVENT.

Picnic at Fritzen's Sanatorium Sunday Last Largely Attended, Speaking by Prominent Spiritualists. Big Dinner and a Royal Good Time.

Sunday morning opened up bright and clear, and at 10 o'clock the Tuxedo Belle left her wharf with about seventy-five of the citizens of this place bound for the home of J. S. Fritzen, where was held a picnic under the auspices of Woodside society, a Spiritualistic organization.

The boat arrived at her destination in due time, and about half an hour after the McGrath tug arrived with about fifty more of our residents.

When dinner was announced at 12:30 it was estimated that there were two hundred and fifty people on the grounds. After all had partaken of the good things the society had prepared and the inner man had been satisfied, the speakers mounted the platform and the party were seated on benches, chairs and reclined on the ground to listen to the speaking and Spiritual tests.

The speaker of the day was Mrs. S. M. Lowell, who held the audience for about two hours in a very instructive and entertaining lecture on spiritualism and the relation of the creed to man. Her lecture was enjoyed by all those present, the lady has a good voice and a ready flow of language. She was followed by Mrs. Paul Beuhler, who gave a short address after which she occupied three quarters of an hour in giving tests. She went into a trance and made considerable sport by her tunny sayings and actions. Mrs. E. B. Manwell then took the floor and told that she had been very ill, laying unconscious for three months and had been restored to health through the instrumentality of Spiritual agency and Mrs. Dr. Fritzen. When she had finished describing her condition, and the wonderful things the spirits had done for her, she gave tests to quite a number of those present, which were listened to with marked attention. Mrs. Lowell then gave tests through the agency of flowers, which was very unique and interesting. All the tests given during the meeting were good, and showed that the mediums were all of the highest order. Singing was interspersed during the speaking and tests which added very much to the interest of the meeting, which was closed with the benediction by Mrs. Lowell.

At the close of the meeting the people dispersed, strolling about the beautiful grounds, and rowing on the lake, and not a few adjourned to the house where Mr. Roy Fritzen entertained them with selections on the piano, on which instrument Mr. Fritzen is a musician of no mean order and is ever willing and ready to play for the entertainment of his friends or guests of the Sanatorium.

A free supper was given those present at six p. m., after which those who went via the lake and river route, boarded the steamers and arrived home at nine o'clock having enjoyed the day very much, and voting the Fritzen home an ideal place to spend an afternoon.

WILLING TO BECOME A KING

IS PRINCE OF DENMARK, IF HIS MONARCH ASCENDS.

Some Members Are in Favor of Acceptance of Crown, but King Said to be Opposed.

Copenhagen, July 12.—It is understood that Prince Charles of Denmark, son of Crown Prince Frederic, will be willing to accept the crown of Norway if King Christian and the Danish government consent. Some of the members of the royal family are in favor of his acceptance of the crown, but King Christian is believed to be opposed to it. No decision, however, will be given out before his majesty returns from Garmunden, Austria, next week.

It has been confirmed that an offer of the Norwegian throne has been made to King Christian of Denmark.

May Fight Over Conditions. Stockholm, July 12.—Ridgud sentiment is rapidly crystallizing in favor of postponing a settlement of the union crisis until the next legislative session in January next. They want the restoration of the union on any conditions. They say that a people capable of the Christiania coup d'etat is absolutely not to be trusted to keep agreements in the future.

This deep-seated suspicion is certain to complicate the negotiations, inasmuch as Sweden will view with distrust any settlement that falls to paralyze Norway's physical ability.

Sweden seems definitely unwilling to fight for the union, but thoroughly determined to go to war for the imposition of the conditions on which she will allow disruption.

The postponement is desired because Sweden wants to gain time for the completion of such military and naval preparation as eventually may be necessary to enforce the conditions on which she is willing to recognize Norway's secession.

King Edward Favors Project. London, July 12.—The Associated Press in a special telegram from the prince that an offer of the Norwegian throne has been made to King Edward's son-in-law, Prince Carl of Denmark.

It is understood that King Edward and the British government are favorable to the project, but much depends on King O. G. of Norway's attitude on the subject. Consultations are now going on.

Prince Carl's mother was a daughter of the late king of Sweden. His wife is Princess Maria Alexandra.

WORK OF ASSASSIN.

The Work of Police of Missouri. Shot Down While Registering Petitions.

St. Paul, Minn., July 12.—Major Count Shovaloff, prefect of police here, has been ordered to attach to the military of the interior, as assassins yesterday morning while receiving petitions. One of the petitioners drew a revolver and fired three shots at the prefect, who fell dead. The assassin was arrested.

The assassin, who was dressed as a peasant, was in the Union National oil well No. 2 at Santa Maria, Cal.

Marital law has been abolished over the whole of Formosa and the Pescadore islands.

The seventh international convention of the Epworth league was opened in Denver, Col.

A tornado in Texas caused much loss of life and destruction of property in Montague county and the northern part of the state. Twenty-four are known to be dead.

The 24-year-old son of Samuel Squillman, of Seymour, Ia., and the four-year-old son of a neighbor, George Billings, were buried to death in a fire that destroyed Squillman's home.

Herman Menninger, chief of the Illinois (Wis.) fire department, died of heart failure of injuries sustained at a fire two months ago, when it was reported he inhaled acid fumes.

On July 17 the ninth annual convention of the National Association of Railway Agents will assemble at the Lewis and Clark exposition.

Steamers 500 miles apart in mid-ocean sailed by wireless relay.

Three railroad employes were killed and two injured and thousands of dollars' worth of property destroyed by a landslide on the Pittsburgh division of the Boston & Maine railroad near Washburn, Me.

S. L. Fester, of Chicago, when asked for an accounting by his partner in the brokerage business, fled, leaving an alleged defalcation of \$100,000.

The Washburn Railway company has discharged its superintendent of the new line, but the department had 121 men employed in detective work.

WASHINGTON LETTER

THE CHAIRMAN OF THE WAYS AND MEANS COMMITTEE IS A PICTURESQUE FIGURE

Washington Needs a Suitable Building for Great Gatherings—Quadrangle Convention Might Be Held Here—Confederate Flags

WASHINGTON.—It is rumored that when congress meets there will be some changes among the leaders on the floor, so far as an important committee chairmanships are concerned. It is reasonably certain, however, that the "floor leader," the Hon. Sereno E. Payne, of New York, will not be re-elected as speaker.

The late Nelson Dingley, of Maine, passed away, shortly after the enactment of the tariff law that bears his name. Mr. Payne has been chairman of the ways and means committee, a position which carries with it the floor leadership of the majority in the house. Mr. Payne is a distinguished lawyer, and a man of refined proportions, large head, rufous countenance and snow-white hair and mustache. Up until two years ago he wore a full beard, but has then made himself almost unrecognizable to old friends by shaving it off and appearing with only a mustache.

The late Speaker Reed used to refer to Mr. Payne as the "White-headed Mandarin." The parliamentary craft, however, could always depend upon the gentleman from New York to carry out the programme of the committee on rules. He has a big, resonating voice and a perpetual smile and the opposition might as well fight against a rock as against Sereno E. Payne when he is charged with carrying out the behests of his party, as expressed through the committee on rules.

Mr. Payne is a great traveler and will investigate the Philippines with Secretary Taft this summer. After he had accepted the invitation to some of his friends began to tell Taft what an elephant he had on his hands. They have given Payne a reputation that will strike terror into the passengers on the steamers he will travel on, and all the guests at the hotels as will patronize. They declare that he can move a Konger and louder than any man in the United States. His ability in this direction is a tradition among his colleagues.

Gen. Grosvonts, of Ohio, CONGRESS is to procure some figures which Gen. Grosvonts is to send agents to the end of the coming congress. Gen. Grosvonts and his ambition to serve 20 years the house, and this will have been the longest period in the next congress closes on March 4, 1907. He will be elected from the hall of the house as few members contribute to the majority of that branch of congress and have engaged in so many rough and tumble fights on the floor and come off in nearly every instance victorious. He promised his people, however, that if he would elect him to this congress he would not seek a reelection and he says he is going to live up to his promise.

Gen. Grosvonts has been a consistent advocate of severe punishment for violations of the postal laws by those who issue fraud letters and circulars. He was in the department the other day talking with Postmaster General Cortelyou about the latter's industry in bringing up get-rich-quick concerns with a round turn. He said that the postmaster general deserved great credit for his determination to enforce the law against using the mails for fraudulent purposes. "The people have to be protected against themselves," said Gen. Grosvonts. "There is no scheme so absurd that it will not lure money out of the hardworking and the industrious, particularly those who believe in some promise swift and remunerative returns for little capital and labor."

A Large Auditorium. INITIAL steps towards the erection of a large auditorium for the holding of conventions, future legislative halls and other large gatherings have been taken and there is good prospect of a large auditorium being a success. District Commissioner Henry Le West has taken his special care and the city of the last session has been particularly successful in furthering the project. He started in the right way and has interested the real estate men and land-holding men of the district so that a very encouraging subscription list is ready to appear. The amount pledged for the building is \$200,000.

WESTERN CANADA.

Free Homes for Millions in the Best Agricultural Country in the World.

There are to-day millions of people in the countries of Europe and the United States of America who are living on small worn-out farms, and even farms that are productive and valuable in so far as market prices are concerned, and millions more without properties altogether, but who would use them to their advantage if they had them, for whom the Canadian Northwest offers inducements that can hardly be reasonably estimated. That country has in the aggregate an area of 335,000,000 acres, and as not more than 100,000 farmers are on it to the present, unprecipitantly rapid as has been the settlement, the homes that still await the settlers are up in the millions.

As the entire country is inland wholly, without water communication with the outside world, the nearest point of connection being Port Arthur, at the head of Lake Superior, 400 miles distant, it can be readily understood that no matter how fertile its soil or favorable its climatic conditions for agriculture would be settlement because of lack of ingress and egress, was out of the question until rail communication was fully established.

It was not until 1850 that a railway tapped the country; then with a population that could have been easily numbered on four fingers, and now, mark the change, a population of 7,000,000 of 100,000 people, and an annual production of over \$60,000,000 worth of agricultural merchandise, and an export of over \$50,000,000. These figures most eloquently show that the country has long since outgrown everything in the shape of prejudice against it, and is a long distance on the road to unlimited advancement and uniform prosperity.

It was, of course, to have been expected that as Manitoba was created a province in 1870, and given full provincial autonomy, and had the right to the outside world in the Red River to St. Paul, in the United States, they would have made the first advance in settlement, and have had its lands taken up the earliest. Still it is estimated there are 1,500,000 acres of free homesteading land in that province, one-half of which is left in fit for cropping, and many millions more in the hands of the Hudson's Bay company, the railway companies and many other public and private corporations. It is, however, with the country further west we have to deal now.

Early Progress of the West.

In 1852, the first year the railway touched that country, it was divided into four territories, Assiniboia, Saskatchewan, Alberta and Athabasca, and given a primitive form of government which prevailed until this year (1905) when the four territories were converted into two provinces, Alberta and Saskatchewan, given full provincial autonomy and admitted as sisters into the Canadian Confederation. The entire growth and development of the country are all the result of these 23 years. In 25 years now less than 6,000 miles of railway have been built in the west country. Two of the systems have transcontinental lines, the C. P. R. and the G. N. R. and the third the Grand Trunk Pacific is now under way. Each of these main lines has branches in many localities. The companies are vying with one another to extend their systems to every point where there is settlement, so that as a matter of fact every settler of three or four years residence has a road within a reasonable distance of his door.

What is of equal importance to the farmers, there are buyers at every railway depot for everything they can sell, so that which at the nearest points is wheat only. At the close of last year

Acceptable Paternalism.

ROM time to time there is a cry raised that the government is tending too much toward paternalism. The drift in this direction has been gradual and seems to be satisfying to the majority of the people. Certain of the departments do a great deal for the people that is not fully done by private business enterprises. This is true in the production of books and pamphlets by the government printing office, their distribution under the franks of members of congress and high officials.

The war department has more than any other inspired the thought of paternalism is that of agriculture. An Indiana farmer last year gave a fair illustration of the concept of paternalism concerning the province of this department. He wrote to his congressman, saying: "Please send me a mule and a horse to help me plow. I have an idea that all his congressional had to do was to visit the agricultural department, put in this order and it would be filled at once. I have heard of seeds which the department furnished free, the trees and textbooks on various subjects until he supposed that Uncle Sam's concern for the department for the purpose of giving worthy agriculturists a start in life.

The farmers have received the larger attention of the help of the government, but the cities are now to get some attention. Congress last session appropriated \$100,000 to send agents to look up markets for American products. This amount will pay salaries and expenses to about six agents and their duties will be to visit countries where American manufactures should be able to compete with those of the world and by their investigations and research secure information that will be useful to American business men and manufacturers.

Problem to Return the Flags.

IT WAS a very pretty sentiment that inspired the last congress to pass a joint resolution authorizing the secretary of war to return the confederate battle flags captured by the union forces during the civil war.

Mr. Gen. Ainsworth, the military secretary of the war department, is finding this proposition more sentimental than practical. He has encountered great difficulty in having the confederate flags identified so that they can be returned to the owners to whom they belonged in war. The flag room in the war department is filled with these trophies and it seems impossible to identify all of them so that they can reach their former owners. In discussing his embarrassment, Gen. Ainsworth said:

"I am doing everything possible to identify at least the stars from which these unidentified flags came. Each flag is being carefully examined, but it now seems clear that a majority of the captured flags will go unclaimed unless some means of identifying them, now known, should present itself. Each one which is identified in some way it cannot be returned and will have to remain stored in its present place in the flag room of the war department."

Gen. Ainsworth was asked if there would be any particular ceremony in connection with the return of the battle flags so far as the honor of the confederates. There have been suggestions that the return might be made at some sort of reunion or anniversary, but Gen. Ainsworth said:

"There will be no ceremony at the war department in connection with the return of the identified confederate flags. All the ones are being written letters to the owners and the various States having flags here, notifying them, that in accordance with the provisions of a joint resolution of congress, their flags are returned."

In 1852, the first year the railway touched that country, it was divided into four territories, Assiniboia, Saskatchewan, Alberta and Athabasca, and given a primitive form of government which prevailed until this year (1905) when the four territories were converted into two provinces, Alberta and Saskatchewan, given full provincial autonomy and admitted as sisters into the Canadian Confederation. The entire growth and development of the country are all the result of these 23 years. In 25 years now less than 6,000 miles of railway have been built in the west country. Two of the systems have transcontinental lines, the C. P. R. and the G. N. R. and the third the Grand Trunk Pacific is now under way. Each of these main lines has branches in many localities. The companies are vying with one another to extend their systems to every point where there is settlement, so that as a matter of fact every settler of three or four years residence has a road within a reasonable distance of his door.

Free Homes for Millions in the Best Agricultural Country in the World.

There are to-day millions of people in the countries of Europe and the United States of America who are living on small worn-out farms, and even farms that are productive and valuable in so far as market prices are concerned, and millions more without properties altogether, but who would use them to their advantage if they had them, for whom the Canadian Northwest offers inducements that can hardly be reasonably estimated. That country has in the aggregate an area of 335,000,000 acres, and as not more than 100,000 farmers are on it to the present, unprecipitantly rapid as has been the settlement, the homes that still await the settlers are up in the millions.

As the entire country is inland wholly, without water communication with the outside world, the nearest point of connection being Port Arthur, at the head of Lake Superior, 400 miles distant, it can be readily understood that no matter how fertile its soil or favorable its climatic conditions for agriculture would be settlement because of lack of ingress and egress, was out of the question until rail communication was fully established.

It was not until 1850 that a railway tapped the country; then with a population that could have been easily numbered on four fingers, and now, mark the change, a population of 7,000,000 of 100,000 people, and an annual production of over \$60,000,000 worth of agricultural merchandise, and an export of over \$50,000,000. These figures most eloquently show that the country has long since outgrown everything in the shape of prejudice against it, and is a long distance on the road to unlimited advancement and uniform prosperity.

It was, of course, to have been expected that as Manitoba was created a province in 1870, and given full provincial autonomy, and had the right to the outside world in the Red River to St. Paul, in the United States, they would have made the first advance in settlement, and have had its lands taken up the earliest. Still it is estimated there are 1,500,000 acres of free homesteading land in that province, one-half of which is left in fit for cropping, and many millions more in the hands of the Hudson's Bay company, the railway companies and many other public and private corporations. It is, however, with the country further west we have to deal now.

clude the grain-growing province of Manitoba.)

The second great branch of the agricultural industry is live stock. It is conceded by stock men all around that Alberta and Southern Saskatchewan constitute the finest ranching country in the world. Here is an immense area of grazing land on which sheep, horses and cattle remain out all winter making their livings themselves on the open prairie. There is an immense area from the Pacific coast meeting the snow almost as soon as it falls and never leaving it any depth for more than 24 hours a time.

The reader will understand that it is much more difficult to get an accurate estimate of the cattle of the country than it is of the grain trade, but after conferences with dealers, railway agents and others connected with the trade, quite accurate statistics are produced.

These show that last year 1904, between the first of May and the 31st of October, the exports and local sales were:

Cattle 3,771
Horses 46,132
Hogs 18,826

Estimating the horses at \$100, cattle at \$40, sheep at \$15, all the total receipts were \$2,835,516, adding in the sales for the rest of the year, it could not have been less than \$4,000,000.

A MERRY GATHERING.

The Boot and Shoe Men Have a Glorious Outing at Tuxedo.

Editor's Note.—We publish the following at this late hour only on account of its newsworthiness. The article should have reached this date the week following the outing, but was delayed owing to the secretary's lateness in furnishing the report.

By MARK D. NODD.
The Northwestern Shoe & Leather association held its annual outing at Lake Pokegama "Tuxedo Club," June 24th to 27th. It was a grand success.

Although at the start it was rainy over one hundred were in attendance. 41 members from Minneapolis, 29 from St. Paul and more than 30 from Duluth, Superior, Pine City and other towns.

The Hon. L. A. Roseng, D. B. Finch and other Twin City and Duluth manufacturers and wholesalers chartered the party. Our worthy president, L. D. Siskids, and others, went ahead to "blaze the trail" and have Major Cooley, the genial manager of the Tuxedo Club, prepare for the hungry crowd that landed there at 7 A. m.

Ample arrangements had been made for those that wanted to sleep over a night of travel, six miles of which was via boat up the picturesque Snake river. But, they were not out for sleep and after a hearty breakfast, entered into the sports of the day, for which the following program was arranged:

9:45 a. m.—O. Westlake, 1st; E. Bates, 2nd; T. A. War, 3rd; men team—St. Paul won, with St. Paul, Minneapolis, Duluth and Superior competing.

10:00 a. m.—10 men team—Minneapolis won. Cities represented as above.

10:15 a. m.—E. Galtner and W. King, 1st; E. Bates and W. Evers, 2nd; Pat von race—G. W. Lezer, 1st; C. D. Ripley, 2nd.

Stack race—W. Evers, 1st; E. Grange, 2nd; St. Paul won. 1st—W. Bates, 1st; E. F. Lezer, 2nd.

Running broad jump—J. Ryan, 1st; E. Bates, 2nd.

Ball game—Golden Shoe Dept., St. Paul, vs. Home Trade Shoe Store, Minneapolis. Won by Golden Bules.

Here For Safe Keeping.

John Annewash was brought here late Saturday evening by Deputy Sheriff Chris Heister of Pine county and lodged in the county jail until the meeting of the Pine County grand jury in September. He waived examination on a charge of killing David Skunk at Dell Grove in the town of Grindstone, Pine county, July 5 and A Parish a justice of the peace, committed him to the jail here.

Both men are half-breed Indians. They had been drinking and it is said that a white fire was used in striking David Skunk over the head, crushing in his skull over the left ear.

Annewash spent Sunday in writing a letter of some length which was unintelligible to the sheriff who looked it over Monday. It was written in English characters but the letters were interspersed with dashes and spaces in a way that made it all Sioux to the sheriff.

DOES NOT LIKE JAIL.

John Annewash, the Indian in the county jail to await the action of the Pine county grand jury on a charge of killing David Skunk is fretting over his confinement. The sheriff has interviewed him relative to a letter written on Sunday and learns from the tenor of the writing that he does not like confinement and wants out to look after his wife and two little papooses.—Stillwater Gazette.

By It Now.

Now is the time to buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is certain to be needed sooner or later and when that time comes you will need it badly—you will need it quickly. Buy it now. It saves life. For sale by L. E. Breckenridge.

Pineapple for Consumption.

It has long been known by the natives of South America that the juice of the fruit of the pine-apple being of such antiseptic qualities, will thoroughly destroy the germs of catarrh, consumption and grippe. A preparation known as Syrup of Pine-apple Exportator, prepared by Eon Bros. & Co., contains these essential qualities. It is sold by L. E. Breckenridge for 50 cents.

INDIGESTION

"I was troubled with stomach trouble. Theodor's Black-Draught did me more good in one week than all the doctor's medicine I took in a year."—MRS. B. S. KAY, R. 2, SHIRAZ, Missouri, Ind.

Theodor's Black-Draught quickly invigorates the action of the stomach and cures every chronic case of indigestion. If you will take a small dose of Theodor's Black-Draught occasionally you will keep your stomach and liver in perfect condition.

THEODOR'S BLACK-DRAUGHT

More sickness is caused by constipation than by any other disease. Theodor's Black-Draught not only relieves constipation but cures diarrhoea and dysentery and keeps the bowels regular.

All druggists sell 25-cent packages.

"Theodor's Black-Draught is the best medicine to regulate the bowels I have ever used."—MRS. A. M. CRANT, Seneca Ferry, N. C.

Dividing the Boxes.

While worshipping in a little chapel-of-ease a few miles from Ruthin, on the Wrexham road, the sexes are so strictly divided that they cannot see each other. The building forms a right angle, and one arm of which the men sit, and the women in the other. It was built and endowed by a misogynist of the Stuart period, who objected to the having his devotions distracted by the sight of the hated sex, and, sympathizing with male posterity, stipulated expressly for this division in his deed of endowment.

Colds

Don't trifle with a cold; no one can tell what the end may be. Pneumonia, catarrh, chronic bronchitis and consumption invariably result from neglected colds, which can be compared with

Chamberlain's Cough Remedy

as a quick cure for colds and grip, and by its use the more serious diseases may be avoided.

Master Ralph is somewhat of a drummer and it has been arranged that he shall carry the drum in the parade. The drum is almost as large as Ralph, but he says that if he is not able to reach up and beat it he will get a rope and carry it on his back in the parade to the new state house.

Ten Years in Bed.

R. A. Gray, J. P., Oakville, Ind., writes: "For ten years I was confined to my bed with disease of my kidneys. I consulted the very best medical skill available, but could get no relief until Foley's Kidney Pills were recommended to me. It has been a Godsend to me."

CHOLERA INFANTUM.

Child Not Expected to Live From One Hour to Another, but Cured by Chamberlain's Colic Cholera, and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey, of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's colic, cholera and diarrhoea remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well. This remedy is for sale by L. E. Breckenridge.

No False Claims.

The proprietors of Foley's Honey and Tar do not advertise this as a sure cure for consumption. They do not claim it will cure this dread complaint in advanced cases, but do positively assert that it will cure in the earlier stages and never fail to give comfort and relief in the worst cases. Foley's Honey and Tar is without doubt the greatest throat and lung remedy. Refuse substitutes. J. V. Breckenridge.

Resolution.

Village of Pine City, Minn.,

July 11th, 1905.

Whereas the Village Council of the Village of Pine City in the county of Pine and state of Minnesota, deems it necessary and expedient to construct and rebuild the sidewalks hereinafter described and acting upon their own motion for that purpose.

Therefore, be it resolved by the Village Council of the Village of Pine City that sidewalks be constructed and rebuilt on the following street and avenue, and in front of the following described lots or parcels of ground within said Village of Pine City:

On the south side of Fourth Ave. and on the north side of lot numbered

twelve (12), block numbered thirty-five (35), and on the west side of Eighth

street and in front of lots numbered seven (7), eight (8), nine (9), ten (10),

eleven (11), and twelve (12), in block numbered thirty-four (34), as recorded

in the original plat of the Village of Pine City, Minnesota. Cement only shall be used in the construction and

rebuilding of said sidewalks. That all such walks so constructed and rebuilt in front of the aforesaid lots

and extend five feet into the street.

All such sidewalks constructed and rebuilt shall be laid to grade, established by the Village Council of the

Village of Pine City, according to the plat now on file in the office of the Village Recorder. All such sidewalks constructed or rebuilt shall be subject to the approval of the Village Council and may be constructed according to the plans and specifications governing the building of cement walks, on file in office of Village Recorder, and the resolution of said Council adopting said specifications.

Such sidewalks shall be completed on or before the 19th day of August, 1905.

The names of the owners of the lots and parcels of ground or part of lots fronting on Eighth street are as follows: Peter Engel, 100 ft. lots seven (7) and eight (8), block thirty-four (34); S. News of the Week.

Chips Picked up Around Town and Vicinity.

Frank Greenfield, of Minneapolis, is the guest of his brother Earl.

Yesterday was the hottest day of the year in this particular region of the earth.

Read the advertisements in the PIONEER and do not overlook the "Popular Specials."

Miss Bessie Dorsett left this place last Sunday to attend the summer school for teachers at Mora.

Mrs. Thos. A. Prendergast, of St. Paul, arrived here Saturday last to visit over Sunday with her daughter Ellen at the Tuxedo Club.

Rev. Jas. Kneener, pastor of the M. E. church at Pitaville, Wis., arrived here Tuesday and is visiting at the A. W. Piper residence.

Dr. VanAlstine was called here from Grantsburg, Wis., to treat a sick mare belonging to H. W. Harle. He arrived yesterday forenoon.

Miss Mae Buckler, of Washington, D. C., is the guest of Hon. J. Adam Bede and family. She will stay here for the remainder of the summer.

A. A. Hoyt, accompanied by his son Earl, was up from Minneapolis the first of the week visiting with his daughter, Mrs. Bert Greenfield.

Geo. Greenville left for his home in St. Paul yesterday. He will return in about five days to finish the plumbing job in the Hurley building.

Mrs. Tom Connors and child, who have been visiting with relatives for a week or more, returned to their home in Minneapolis yesterday afternoon.

S. B. Wells went to Minneapolis Tuesday afternoon to see his father who is seriously afflicted with heart disease. Mr. Wells returned home yesterday.

Jerry Connors has made application to the common council at Hinckley for license to conduct a saloon, and expects to occupy the old Baker building just east of the depot.

A dance will be given at the Gust Johnson's place, Meadow Lawn, tomorrow evening. A number from this place expect to attend. Dance tickets will be only 25 cents and good music and a good time is guaranteed.

Dr. E. C. Clemens, presiding elder of this district, will deliver the sermon in the M. E. church Sunday evening. The reverend gentleman will also administer the sacrament and hold quarterly conference on that evening.

The Big Store was closed from 1:30 to 4:30 p. m. Tuesday afternoon in order to give its employees an opportunity to attend the circus. The act was a very commendable one and was much appreciated by the employees.

Mrs. R. C. Saunders and three eldest sons departed for the East Wednesday to visit with relatives among whom is Mrs. Saunderson's mother. They will visit at Danforth, Princeton and Colts, Me., and at Providence, R. I., and expect to stay about six weeks.

The Pine City Steam Laundry is now ready for business, and will do family washings by the dozen, hundred or job. If you have work of this kind give them a call and get prices. Don't forget the place, opposite the Lambert property in the old Lovsie building. John Fisher, proprietor.

Fritz DeKoy, the old gentleman who was taken from this place to the poor farm this spring, is not expected to live. A telephone message to that effect was received here yesterday at about noon. Fritz complained of a pain in his side last Saturday afternoon and immediately took to his bed. Dr. Stephan was called and pronounced his ailment appendicitis, and no efforts have been spared to restore him to his usual health but his 81 years have made him too frail for more earthly strife and it seems impossible for him to withstand his present sickness. Last Sunday morning we visited with Fritz and he met us with his usual cordiality, but even one night's illness had wrought a change in him. He jokingly asked that he be remembered to his many young lady friends in Pine City, and told, in a happy vein, of many joyful incidents he had experienced while here and the good treatment that he had been accorded. Fritz's Pine City friends will long remember him with a marked degree of reverence.

Carl Brandes rooted for Pine City at the ball game in Hinckley last Sunday.

Mr. Robin and wife, of St. Paul, visited with Geo. Nichols and family over Sunday.

Miss Jennie Swedenborg has accepted a position as clerk in the Cranton confectionery store.

Wm. Tierney had an addition built onto the rear of his residence this week. Robt. Hoffman did the work.

Don't forget to remember that the mercantile concerns are closed on Tuesdays and Fridays at 6 o'clock p. m.

Miss Mayme Barcum returned from a visit to the twin cities Tuesday. She had been away since the Fourth.

John Emulsion, a prosperous farmer residing near Rush City was the guest of Pine City relatives Saturday last.

Miss Rose Flannigan, of Minneapolis is the guest of her friend, Miss Josie Buselmeier. She will remain here indefinitely.

Mrs. Julius Cooper, an old time denizen of this place, was a passenger on the "limited" Saturday, bound for St. Paul.

Mrs. A. B. Hartley left for a visit at her old home in Mount Vernon, Ia., Wednesday. She was accompanied by her three children.

Mr. J. H. Hay, wife and daughter, Joan, of Rush City, were in town Tuesday for the purpose of witnessing the Norris & Rowe shows.

The county commissioners adjourned Wednesday after a three days session. They will convene again next Monday as a board of review.

J. R. Shong and family, of St. Paul arrived here Wednesday to reside for the remainder of the summer. Mr. Shong is special agent for the N. P. Ry. Co.

Mrs. J. D. Vaughan and daughter, Alice, departed for Germantown, near Grand Rapids, to visit with Mr. Vaughan who resides on a homestead at that place.

W. W. Jesmer, of Sandstone, stopped off here yesterday while enroute for St. Paul where his wife is confined in a hospital. He reports here much improved in health.

C. A. Christopher, wife and son, of Seattle, Wash., were in Pine City yesterday. Mr. Christopher left here about seventeen years ago. He formerly conducted the drug store at this place.

The fact that a circus was in town Tuesday brought a multitude of people here from different parts of this and surrounding counties. The circus was first-class in every particular and was largely attended.

The Hurley building which is being remodeled into a hotel is fast nearing completion and Contractor Spahr is hurrying the work along as fast as possible. When finished the place will be known as the Hotel Agnes.

The case of J. T. Mider vs. Mrs. B. Tucker in Justice court which was to have been held Wednesday was continued until tomorrow owing to the absence of the prosecuting attorney, M. B. Hurley, who was in Duluth.

Hugo Wickstrom, wife, and daughter, arrived here from Grantsburg Tuesday afternoon to spend a couple of days with friends. Mr. Wickstrom went to Grantsburg last week to take charge of the telephone exchange at that place for a couple of months. John Axtell has charge of the local Consolidated exchange during his absence.

A few of the guests at the Tuxedo Club tendered a birthday party to J. Bennett Smith last Saturday evening. The occasion was in honor of the copper prospector's 71st birthday. About twenty-five of his intimate friends comprised the party among whom were a number from this place. "A happy time" was the verdict of the entire party.

Victor Olson and bride arrived here Tuesday from Cambridge, Ill., where they were united in marriage Sunday, the 2nd inst. Mr. Olson is a trusted employee of the Pine City Milling and Elevator Co. and his many friends wish him a long and happy married life with the one of his choice. They are at home in the Chas Peterson residence.
