

Five Co. Pioneer

W. P. GOTTLIEB, Publisher.
PINE CITY, MINN.

The emigration bureau of the Rock Island-Prisco system was opened in Cincinnati recently, with Bruce Carruthers in charge.

It is estimated that to collect one pound of honey from clover \$2,000,000 heads of clover must be deprived of nectar and 3,750,000 visits from the bees must be made.

A star-board girl, the daughter of a stage manager, failed to obtain admission to a Munich girls' school because her father's profession is considered "immoral."

Again the University of Chicago is getting a bit of free advertising. This time one of its professors has gone five in the woods to get away from the noise of piano players who disturb his heavy thoughts.

In consequence of the privileges of establishing themselves at Naples, several men were able to be executed there. The Ferrarese Italians are about to build a blast furnace, and the Milanese are building a branch works for making railroad materials.

The United States' trade with Asia is rapidly increasing. Our imports from China have grown from \$15,000,000 in 1924 to \$24,000,000 in 1924. Our exports to China, \$4,000,000 at the first of those years and \$10,000,000 at the last, have increased fivefold in the ten years.

Hens the other day scratched up \$1,000 in notes, bills and other negotiable paper which was stolen from the Prairie du Sac bank in a robbery two years ago. The \$100,000 had evidently been brought to Baraboo, Wis., and hidden under the elevator in an old bill book, where they remained untouched and safe until they were found beside the elevator.

The new 30-caliber tripod-mounted automatic gun was exhibited recently at the Springfield armory before a board of army officers. The gun weighs 114 pounds and the tripod (including spring, base and yokes) weighs 26 pounds. The bullet, powder charge and velocity are U. S. G. standard for the new Springfield rifle. The rate of fire is 750 shots per minute.

While a recent forgery prosecution was in progress in a Washington (state) court the accused calmly reached over, took the forged document from the table and set it before the astonished court officials ready to read sufficiently to interfere. Thereupon the prisoner's counsel promptly moved for his discharge, on the ground that there was no evidence against him. It was certainly a most effective defense.

A curious instance of the effect of the shape of the ground upon the wind blowing over it was recently noted by Miss in France. When a north wind fronted the kite the latter kept its balance easily, but when the wind came from the south or southwest the kite pitched and bobbed in a very singular manner. The explanation was furnished by the character of the surface over which the wind had passed.

Moral suasion once was relied upon to create temperance sentiment. There came an era of reliance on statute law. Now we are in an era of scientific education in our schools and popular enlightenment through literature. The coming era seems to be one in which commerce and industry will say to those whom they engage, who are the preponderating number of citizens in any community, "Your place in business is dependent on morality."

Prof. Joseph Levi, of Milan, Italy, the discoverer of the iodine cure of tuberculosis, in discussing his new method, said: "It is a well-known fact that iodine can immediately convert thin into fat and become a victim of the most active and deadly kind. It follows from this that a person affected with tuberculosis becomes capable of making by himself, and in himself, his own curative serum, ready for healing purposes when this iodine can circulate integrally in the blood. It is precisely this, which I have obtained by my new method."

Two generations of American scholars of high distinction are worthy of note. One of them is Dr. Francis A. March, 80, who in the fall will have reached his century as professor at Lafayette college. He is one of the world's best-known philologists, but a man whose industry has been equaled by his modesty. To have had the lasting affection of a steady stream of college boys for 50 years is a great achievement. Also in the front rank of American scholarship is Dr. William Brewster, professor of Ornithology at Johns Hopkins university.

The reason the "electric fan sold" is an article accompanied by one that, according to a doctor, when blown from him in any way makes the fan much more useful. The fact is, says this authority, that the air stirred by the fan is not, as we think, clean. It is backed up against an open window. When operating in an indoor room in similar places, where the air is not so fresh, the fan uses the same air over and over, and this air gathers up and sends in motion all the various dust.

SIX PEOPLE ARE BURNED TO DEATH

IN A FIRE THAT DESTROYED THE DEPOT HOTEL AT WABASHA.

One Man Lost Life Trying to Save a Woman. A Tramp Makes Hero of Himself in Perilously Rescuing Others.

Wabasha, Minn., July 16.—It is now definitely established that six people lost their lives in the frightful fire that completely destroyed the Depot hotel here at 2:30 o'clock yesterday morning.

The following are dead: Mrs. Fred Hoffman and 7-months child. Robert Johnson, express messenger, Owatonna, Minn. James H. Hill, the wife, Gertrude Stameshill, waitress. Rebecca Hammond, Nelson, Wis., domestic.

Hope for the recovery of Engineer Cook, who leaped on a pile of brick and was injured, has been abandoned. Two heroes one of whom ran into the burning hotel to save a woman and was burned to death, and another who saved half a dozen people by his presence of mind, and their wayward friend, a tramp, who saved the flames in the doomed hotel.

Michael Richard, a tramp, from his bed on the grass beside the railroad tracks, was the first to see the flames in the doomed hotel.

He burst into the building and in addition to making possible the safety of six persons by his cries of warning, carried one woman to the street.

James Hunt, bus driver, was the hero who sacrificed his life in an effort to save Mrs. Fred Hoffman, the wife of the proprietor of the hotel, whom he knew was cut off on an upper floor.

He entered the building when it was enveloped in flames and his body, burned so that it was almost unrecognizable, was taken from the ruins today.

The Depot hotel and eating house was a three-story building. The fire was caused by the explosion of a lamp in the kitchen. The fire quickly spread to the hallway, and thence to the second and third stories, completely shutting off all means of escape from the building.

The guests who were fortunate enough to escape jumped through the windows to a porch, from which they were rescued by firemen. Fred Hoffman, the proprietor, who lived with his family on the third floor, escaped with light injuries. When the fire broke out the guests were asleep, and it appears that some of them were never able to leave their rooms. A high wind fanned the flames, which quickly spread to every portion of the building, and in an incredibly short space of time the entire building was ablaze.

The hotel register was burned, and it is not known whether or not any other victims are in the ruins. The regular boarders have all been accounted for.

The funeral of the dead will be held today.

STATE OPENS CASE.

The Third Trial of Dr. Koch, For Murder of Dr. Gebhardt is Now Under Way.

Manitowish, Minn., July 15.—The third trial of Dr. George R. Koch of New Ulm, Minn., for the murder of his brother, Dr. Louis A. Gebhardt, on the night of Nov. 1, 1914, is now under way. The jury was completed this afternoon, and the case was opened for the state by County Attorney Wilson.

Mr. Wilson outlined some new evidence which the state has secured, and which has been kept a secret until this time. It relates to the account given by Dr. Koch of the manner in which he received the scratches on his face and hands on the Sunday before the murder. Dr. Koch always has claimed that he got the scratches in running through the bushes towards his horse, which had become frightened by the approach of a threshing machine. He had gone riding into the country with a young lady, and had left her holding the animal while he got out and hunted for it. In this connection the threshing machine came up.

The state now has evidence, it claims, that the story is not true. Mr. Wilson stated that the threshing machine crew members would prove innocent given by Dr. Koch to be a "romantic tale." Their testimony would be strengthened by that of a lady living near. All saw the occasion and would testify that there were no bushes where Dr. Koch was, and that he could not have gotten scratched.

Mania Dies on Train.

Duluth, Minn., July 15.—Peter Zolner, an Austrian, was pronounced insane at an examination conducted before County Commissioner C. R. Adams and who was ordered committed to the state asylum at Vergas Falls, died while en route for that institution. Zolner was in charge of a party of tourists who were shortly before the train reached Atlin, he showed signs of delirium and expired. Deputy sheriffs have retained the assessment of the Board of Civil Control, which since last year is \$1,000.

Must Pay Higher Tax.

Kansas City, Mo., July 15.—The county assessors have raised the assessment of the Standard Oil company from \$70,000 to \$1,100,000.

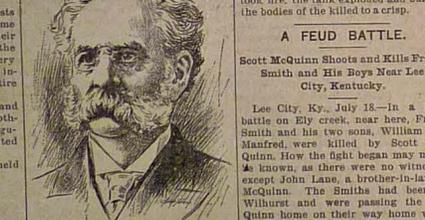

THE GRAND ARMY LOSES ITS LEADER

GEN. BLACKMAR, COMMANDER-IN-CHIEF, DIES IN BOISE, IDAHO.

His Death Was Not Anticipated—Remains Will Be Taken to Boston for Burial—His Successor—Brief Sketch of His Career.

Boise, Idaho, July 17.—Gen. W. W. Blackmar, commander-in-chief of the G. A. R., died Sunday of intestinal neuritis. His wife was with him during his illness. The body will be embalmed and taken to the home of the family at Boston. The general arrived here on July 16 on a tour, during which he intended to visit Grand Army posts throughout the northwest. He was ill when he arrived and gradually failed. The seriousness of his condition was kept from the public at the request of his wife.

Gen. Blackmar was born July 25, 1841, at Bristol Pa. He enlisted in the Fifteenth Pennsylvania cavalry, and subsequently joined the First West Virginia. He served with distinction

throughout the war and at Five Forks to the rank of captain. Throughout three administrations, those of Govs. Long, Talbot and Rice, he was judge advocate general of Massachusetts. At the last national encampment of the G. A. R. he was elected commander-in-chief.

Death of a Veteran.

Portage, Wis., July 15.—Mal S. S. Rockwood, aged 67 years, died at his home in this city Wednesday. He served with Gen. Custer in the Texas campaign and was mustered out in 1865. He had been prominent in educational circles. He was chief clerk in the department of agriculture under Secretary Jeremiah Rankin. For the past ten years he was secretary of the board of regents of normal schools in Wisconsin.

Bathers Perish.

Minneapolis, July 17.—Thomas McFadden, aged 15, and William Frank, 14 years, were drowned in the Menominee river Sunday, while bathing. McFadden was drawn down by an undertow, and Frank, while attempting to rescue him, met a similar fate.

Chicago's Population.

Chicago, July 17.—The new city directory, just issued, contains 2,280,000 names. It also contains 688,670 names, indicating that the present population of Chicago is approximately 2,370,000. The increase in the number of names since last year is 31,000.

Consensus Fund Grows.

Washington, July 17.—The contribution to the United States treasury consensus fund received Thursday carries the total amount beyond the \$100,000 mark. The consensus fund was established in 1911.

Fatal Explosion.

Anthony, Kan., July 18.—As a result of the explosion of the boiler of a freight engine at Anthony, Blackie, Daniel Tobias was killed.

BOLD SWIMMERS CONQUER RAPIDS

TWO ATHLETES PERFORM REMARKABLE FEAT IN THE NIAGARA RIVER.

Successfully Drest Swirling Waters of the Lower Rapids from the Whirlpool to Lewiston, a Distance of Four Miles.

Niagara Falls, N. Y., July 18.—Charles D. Graham of this city, and William J. Glover, Jr., of Baltimore, successfully swam the lower rapids of the Niagara river from the American side of the whirlpool to Lewiston Monday afternoon. The distance of four miles was covered in 25 minutes by Glover. The start was made at 4:02 p. m. from Flat Hook, which is on the American side. The swimmers did not venture into the upper rapids, where Capt. Webb lost his life. Both men wore life belts and inflated rubber rings around their necks. From the start Glover took the lead. He entered the rapids about a minute ahead of Graham. Until the Devil's Hole was reached the swimmers were in the grasp. At that point a swirling eddy caught Glover and he was down nearly two minutes. His life belts saved him. Graham by then the two men reached the end of the rapids, just above the suspension bridge at Lewiston, there was but a little distance between them. Swimmers took a swirling eddy which was hard for Graham, but evidently easy for Glover. At 4:28 o'clock Glover was pulled up on the dock at Lewiston. He drowned a strong fasting, the blue nervousness and that all-gone feeling. I was compelled to try Lydia E. Pinkham's Vegetable Compound, but it only cured my female troubles, but it has restored me to perfect health and strength. The boy who is younger days has returned, and I do not suffer any longer with my female troubles. I consider Lydia E. Pinkham's Vegetable Compound a boon to sick and suffering women.

ACKNOWLEDGES HIS GUILT

Man Wanted for Wife Murder Is Arrested in Colorado and Makes Confession.

La Junta, Colo., July 18.—John Schalkoska, a Russian, wanted at Belmont, Mass., for the murder of his wife last Wednesday night was arrested Sunday afternoon by Sheriff Prater at La Junta, Colo. The murderer confessed and gave the full details of the tragedy, which has been puzzling the Massachusetts police. He said that he and his wife were drinking and quarreling Wednesday afternoon and continued to quarrel at La Junta that night, when her taunts enraged him to such an extent that he cut her throat with a knife and threw the body into a gulch. She then started for the west, making no attempt to conceal his identity. The prisoner expressed his willingness to return without papers, as will be held by Sheriff Prater pending the arrival of officers from Massachusetts.

EARTHQUAKE SHAKES MAINE

Vibrations More Severe Than on Former Occasions, But No Serious Damage Was Done.

Portland, Me., July 17.—An earthquake shock affecting a large portion of Maine occurred at 5:10 a. m. Saturday and was noticed for about two seconds. It was said to have been more severe than the shocks of March 21, 1904, which occurred about one a. m. Saturday's tremor proved many persons from sound sleep. It was reported from Bangor to Kittery, and from above Farmington to the coast. Rockland, Portland, Brunswick, Lewiston and Waterville. Reports of the quaking were received from Kittery, York, Biddeford, Portland, Brunswick, Lewiston, Augusta, Waterville, Rumford Falls, Farmington, Skowhegan, Rockland, Belfast and Bangor, also Manchester and Concord, in New Hampshire.

Old Musician Dead.

New York, July 17.—William S. Withers, of Wakefield, who led the orchestra of Ford's theater, Washington, the night of April 14, 1865, when President Lincoln was shot, is dead at his home in that place at the age of 70. Wilkes Booth stabbed him after leaving from the president's box to the stage, and he was killed by the confusion of the moment. Many in the theater believed Withers fired the shot that killed Lincoln.

Workmen Poisoned.

St. Petersburg, July 18.—The Official Messenger reports an attempt to poison a number of railway workmen at Tiflis because they resisted revolutionary intrigues. The paper says that arsenic was placed in a bottle with which the workmen made ill and ten died.

Physician's Remarkable Ride.

St. Louis, July 17.—In the presence of her mother, Bessie Barnes, aged 15 years, was shot dead on the street in front of her home at No. 2702 Lucas avenue, Sunday. Mrs. Mary Carter, aged 20 years, is under arrest charged with the shooting, which is said to have been the culmination of ill feeling between the two families. Mrs. Carter is strapped to a cot at the police station, ravine over the shooting. By her side were three small children.

Kansas' Wilest Cop.

Topeka, Kan., July 18.—General Francis J. Counts, of the county of Santa Fe, has estimated the Kansas wheat crop this year to be at least \$25,000,000. It is distributed by the state over the state on that basis. Mr. Counts says that from the reports he received by his agents that wheat is bringing out exceedingly well.

Cure For The Blues

ONE MEDICINE THAT HAS NEVER FAILED

Health Fully Restored and the Joy of Life Regained

When a cheerful, brave, light-hearted woman is suddenly overtaken by that perfidious misery, the BLUES, it is a sad picture. It is usually this way: She has been feeling "out of sorts"

for some time; head has ached and back aches; is sleep poorly, but quite nervous, and nearly faints one or two times; head dizzy; heart beats very fast; then that bearing-down feeling, and during her menstrual period she is exceedingly distressed. Her doctor pleases her. Her doctor says: "Cheer up; you have dyspepsia; you will be all right soon."

But she doesn't get "all right," and hope vanishes; then come the brooding, morbid, melancholy, overcast BLUES. "Don't wait until your sufferings have driven you to despair, with your nerves all shattered and your courage gone, but take Lydia E. Pinkham's Vegetable Compound, as what it did for Mrs. Rosa Adams, of 819 12th Street, Louisville, Ky., niece of the late General Roger Hanson, U.S.A. She writes: "I cannot tell you with pen and ink what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered with female troubles, extreme lassitude, the blue nervousness and that all-gone feeling. I was compelled to try Lydia E. Pinkham's Vegetable Compound, but it only cured my female troubles, but it has restored me to perfect health and strength. The boy who is younger days has returned, and I do not suffer any longer with my female troubles. I consider Lydia E. Pinkham's Vegetable Compound a boon to sick and suffering women."

NOTES ABOUT NEWLAW.

More reward than horses, more sheep than owls. On pay days saloons are closed and savings banks open until midnight. Young farmers can borrow money from the government at three per cent. There is a telegraph box on every street car. Write messages, put on right number of stamps, drop in the box. Practical business men. Men perhaps the finest in the world physically. Army services universal; only 23 per cent. of youth rejected for physical defects. Health splendid. Death rate for men 15.3. Cause of dangerous fishing; of women, 16.2. Average expense of living less than any other civilized country, perhaps. Average wage earnings, \$88 a year. Illiterates—Two men in a thousand in Sweden, three in Norway and Denmark, 78 in Russia, which wants to "improve" Norway and Sweden by dividing and conquering them; 11.6 even in England.

THE TEACHER'S FOE

A LIFE ALWAYS THREATENED BY NERVOUS PROSTRATION.

One Who Breaks Down from Six Years of Overwork Tells How She Escaped Misery of Enfeebled Illness.

"I had been teaching in the city school steadily for six years," said Miss James, whose recent return to the work from which she was driven by nervous collapse has attracted attention. "I had been good, and I had been especially in the primary department of which I had charge, and I had been doing the work of two teachers. The strain was too much for my system, and two years ago the crisis came."

"I was prostrated mentally and physically, lost in my resignation and never expected to be able to resume work. It seemed to me that I was the most miserable woman on earth. I was tortured by nervous headaches, worn out inability to sleep, and had so little blood that I was as white as chalk."

"After my active life, it was hard to bear illness, and I felt discouraged to keep paying out the savings of years for medicines which did me no good."

"I had only got back to my usual health when I was again overtaken by the same ailment. After I had suffered for many months, and when I was on the very verge of despair, I happened to read the account of some cases effected by Dr. Williams' Pink Pills. The statement was so convincing that I immediately purchased a box of these pills with me."

"Dr. Williams' Pink Pills enriched my thin blood, got my back my strength, restored my appetite, gave me sleep, to walk long distances without fatigue, to sleep freely from all my anxious thoughts, to have my appetite fully restored, and I cannot say enough in praise of Dr. Williams' Pink Pills."

Miss Margaret J. James is now living at No. 123 City street, Dayton, Ohio. Many of her fellow teachers have also used Dr. Williams' Pink Pills, and are enthusiastic about their merits. Sound digestion, strength, ambition, and beneficial sleep are the results of their use. They are sold in every drug store in the world.

FEARS JAP TERMS MAY BE TOO HARSH

M. WITTE SAYS ENVOYS MAY BE UNABLE TO REACH AN AGREEMENT.

Says Impression that His Appointment Indicates Russia's Desire to Make "Peace at Any Price" is Without Foundation.

St. Petersburg, July 15.—M. Witte, the senior Russian peace plenipotentiary, called to interview Monday, had his direction called to the disposition of the foreign press to interpret his appointment as an indication that Russia had decided to make peace at any price.

"No," he said, "I am not straightening up in my chair and saying slowly and distinctly, as if weighing the value of each word, 'In the first place, I have been designated by the emperor as his ambassador extraordinary for your parties with the Japanese plenipotentiaries to ascertain whether it is possible to conclude a treaty of peace. My personal views are of secondary importance, but my ideas are in entire accord with those of my friend, Count Lamsdorf. In serving my emperor, I have received precise instructions from his majesty, and I shall follow them. The ultimate decision remains in the hands of the emperor, and it is for him to decide the destinies of Russia. The emperor is the friend of peace, and desires peace, but I do not wish to see that the Japanese terms will be such that we will be unable to reach an accord."

Favors Honorable Peace.

"Secondly, the world should disabuse its mind of the idea that Russia wants peace at any price. There are two parties to the issue. One favors the continuation of the war, a course which is a large and influential party. The other, to which I belong, favors peace. I give it frankly, because the truth is that I have always been my life in politics. I was for peace before hostilities broke out. When the war began, the situation changed. Even though there are two parties as to the advisability of ending the war in the present circumstances, both would be united if the Japanese demands wounded the honor and the future of a nation. I am glad to report that the conditions of Japan cannot be accepted. Russia will accept the verdict and the Russian people will be ready to continue the war for years, if necessary."

Russia Not Crushed.

Thirdly, Russia is not crushed, as the foreign press has led the world to believe. The interior situation is very serious. I do not desire to exaggerate what is happening in our country. Correspondents come here and talk with a few hundred people in St. Petersburg and Moscow, misinterpret what is happening and fill the world with false impressions as to Russia's future. Russia has little reason to expect that the Japanese will accept the conditions of the Russian people. It is necessary that one should have been here or lived many years in Russia. The customs, history and mental psychology of the people are entirely different from those of western Europe, and Russia cannot be judged by western standards. It is a vast, immense country, composed of diverse elements and interests. Yet the Russian people are like a great family. At present they are torn by internal dissensions, but these dissensions would disappear should the people really feel that the interests of the country and its future destiny were at stake. Russia is not on the verge of dissolution as a great power, and is not obliged to accept any conditions offered in the name of the military reverses she has sustained. We are passing through an internal crisis, which has been marked by far greater events than we have had many years ago. We have had many men still in store, but the crisis will pass, and in a few years Russia will again take her place as a preponderant power in the European concert."

Wants Japan an Ally.

St. Petersburg, July 15.—M. Witte's programme is to secure a Japanese alliance and to present the millicade with carte blanche in China and with railway rights in Sakhalin, Kamchatka and north Siberia. Russia will try to assume part of the Japanese debt and will avoid loans, cessation of territory or anything likely to hurt its prestige at home. Witte's popularity abroad is relied on to gain necessary support for this programme, while the treasury, which is strongly antagonistic to him, looks for his departure from Russia as a good opportunity for a formidable opponent.

Blotting Renewed.

St. Petersburg, July 15.—Blotting was resumed in Loda, Warsaw. The Caucasian province. Dispatches from Loda received full of bloody tales between Cossacks and revolutionists, with the slaughter of soldiers by rioters and the blowing up of government magazines and other buildings. Bombs were thrown in Loda Saturday morning and four police agents were killed. Several Cossack troops were blown to pieces in Loda, and in Moscow more than a dozen persons were injured in a cavalry charge on a mob. Cossacks in Loda killed three men and wounded six persons, including two women. In Loda a volley into a mob.

Russians Drive Back.

Tokyo, July 15.—It is officially announced that the Russian forces have driven back and recently was attacked July 12 and offered stubborn resistance. The attack was directed at dawn of July 12, when the Japanese destroyed the Russian, driving them to

NEWS OF MINNESOTA.

Half Fare Rates to Minn. St. to Fair.

There have been some misleading statements regarding half fare rates to the Minnesota state fair, the exact situation being made plain to the people of North-west. All lines of the Western Passenger Association have already granted the half fare rate. This includes the Chicago, Milwaukee & St. Paul, the "Northern Pacific" and "Omaha," the Great Western, the Burlington & St. Louis, the Burlington and the Wisconsin Central. It will be seen from this that half fares have actually been announced and are assured for all southern and central Minnesota, northern Iowa, eastern South Dakota and western Wisconsin. The Northern Pacific, Great Northern and "Soo" lines have held up the announcement of half fares pending arrangements for protecting themselves against the possibility of a fair ticket; but there is not the least chance that these roads will grant the rate as usual and that the official announcement will be made in a few days—perhaps before these lines reach the reader. The people of the North-west need have no fear that they will not get the usual half fare rate to the Minnesota state fair.

FOUR DEAD IN WRECK.

Error of a Train Despatcher Causes a Head-On Collision Near Opton, Ind.

Mount Vernon, Ind., July 15.—In a head-on collision between two freight trains on the Louisville & Nashville railroad near Opton Saturday four persons were killed, eight injured, one fatally.

The dead: John Spradley, Evansville; Leonard Price, Nicholasville; Ky. unknown train, who had lived at Nicholasville, Ky.; L. G. Coker, brakeman, McLeansboro, Ill. Fatally injured: Conductor Lawrence McClellan, Evansville, Ind. Seriously injured: Conductor T. E. Choler, Evansville, Ind., hurt internally; Cleve, Nicholasville, Ky., badly bruised; Carl Ballard, Cleve, Ind., injured about head; Brakeman J. M. Dewees.

Train Despatcher, It is said, mistook the number of the trains, and after they had started realized his error and telephoned to the telephone operator at Opton, who hastily summoned a number of persons to the train, but the collision occurred before those awakened could reach the tracks.

OHIO BANK FAILS.

Action Causes Great Excitement as Practically All of a Town's Funds Are Tied Up.

Springfield, O., July 14.—The Citizens bank of Young Springs, a private institution, failed to open for business Thursday morning. There had not been the slightest intimation that the bank was in trouble. The bank was a private institution, and in the absence of any statement, is thought to owe depositors between \$10,000 and \$50,000. It has a very good record as a financial institution. Its president, J. F. Stewart, S. Puckett, the cashier, and the latter's wife, Mrs. L. W. Puckett, are the owners. It had a large and school savings bank, practically all the lodge and church money and nearly all the individual deposits in the village. Business was practically suspended in the town and there is great excitement. It is thought that the notice was put up only about midnight.

BASEBALL.

Tables Showing the Standing of the Clubs in the Contests for Championship Honors.

The following tables show the number of games won and lost and the percentage of clubs of leading baseball organizations. National league:

Chicago	24	11	69
Cincinnati	23	12	65
Pittsburgh	22	13	62
Philadelphia	21	14	60
St. Louis	20	15	57
Cleveland	19	16	54
Boston	18	17	51
Baltimore	17	18	48
Brooklyn	16	19	45
Washington	15	20	42

HOLMES MUST SUFFER.

President Roosevelt Says the Man Responsible for Leak in Crop Report is a Scoundrel.

Oyster Bay, N. Y., July 15.—"I most earnestly hope that every effort will be made to bring Holmes to justice in connection with the crop report scandal. Please go over the papers yourself. The man is, in my judgment, a far greater scoundrel than I have had any stolen money from the government, as he used the government to deceive outsiders, and to make money for himself and others. The above is the text of the formal letter sent by President Roosevelt to Attorney General Moody in regard to the investigation into the cotton crop report leak."

Ex-Gov Yates Robbed.

Springfield, Ill., July 15.—Efforts of the police to locate a paroled negro convict named Arthur Groves, alias Henry Williams, has brought to light the fact that Groves recently stole \$3,000 worth of jewelry from the residence of former Gov. Richard Yates. Groves had been paroled several years ago, and was through the influence of the former executive, and was employed as a servant in the home of his benefactor, when he made away with the jewelry.

Sells Many Elevators.

La Crosse, Wis., July 15.—The S. Y. Hyde elevator company has sold 13 elevators in Minnesota between Rushford and Alton. The Hyde Elevator company, of La Crosse, Wis., the organization was \$75,000. The Hyde company is displaying of its line of elevators in Duluth, Minnesota, and the Dakota, valued at \$25,000, of which eight remain to be sold.

Murdered in Race War.

Chicago, July 15.—John Rakolich, 37 years old, a former member of the International Harvester company in North Chicago, was murdered by factions in a race war between rival gangs of Hungarian and Italian thugs and Irish in the Calumet river.

Awful Disaster.

Peru, July 15.—The roof of the chapel of the women's hospital fell in Peru Sunday during the celebration of St. John's Eve. Six women and 50 children and babies were

THE NEWS IN BRIEF.

For the Week Ending July 15.

Trade exchanges of the country may join in a crusade of extermination against the Chinese at Shanghai.

Richard T. Morgan, a wealthy lumberman and banker, died at his home in Oshkosh, Wis., at the age of 76 years.

John Miller shot and killed James O'Connell and wounded James M. Thomas during a fight in a saloon on Prayle creek, Lee county, Ky.

In a feud battle on Ely creek, near Lee City, Ky., Frank Smith and his two sons, William and Manfred, were killed by Scott McQuinn.

Auren Garrett, one of the plowboys of Illinois, and for 72 years a resident of Peoria, Ill., died from heart failure and senility at the age of 92 years.

Larry McCuen, 35 years old, and James Brown, 16 years old, were found dead under a tree near Janesville, Wis. The pair were shot by a farmer.

Dovager Queen Marguerita of Italy will go on an automobile tour through Spain and Portugal in September, and she will visit the United States.

An advertisement will be made in a few days by a prominent figure in the Berlin financial world and was a director of a number of banks in Germany.

The dates for the thirty-third annual convention of the American Bankers' association at Washington, have been changed to October 11, 12 and 13, 1909.

The Mississippi river steamer Clyde was struck by a tornado opposite Minneapolis, Minn., turned completely over and sank in 15 feet of water. The crew escaped.

Disgraced by revelations in a divorce suit, Louis J. Apgar, a manufacturer and a grandfather, who was named as coming so late in the season, the second crop will be light. The first crop, usually made in the latter part of June or first of July, is an important item of the North-western supply.

With this out of the price of grain grown on the higher grounds probably will be much higher than it has been within recent years. Farmers near the Twin Cities who are fortunate enough to have good hay crops are expecting higher prices than those now prevailing.

Labor Bureau.

Minneapolis.—At a total expense of \$170.35 the state free employment bureau, under the management of the state labor department, has effected a saving in the first month of its operation of \$860 to the unemployed in search of work and to those who have applied for employment. A total of 430 applications have been supplied with work, of whom 248 applicants were men and 83 women and girls. In all cases had the men applied to one of the regular fee employment agencies they would have been obliged to pay a fee of \$2 each. In addition those who are employed have been obliged to pay a fee. In the case of the women, those who hired them would have been obliged to pay a simple fee for their regular fee employment agencies.

Fish.

Minneapolis.—Minnesota fishermen need not worry about the stock fish in lakes and streams of the state, if the efforts of the state game and fish commission are as successful as they have been this season.

The commission will plant more fry this season than ever before. It is estimated 110,000,000 pike eggs and is distributing 6,000,000 trout fry to various points throughout the state. Both figures are far in excess of any previous year.

The distribution of the pike fry was finished about the middle of June, and since that time the Clear Lake, formerly clerk of the commission, has been engaged distributing the trout. He has finished the lake in the vicinity of St. Cloud, Clear Lake, Anoka, Winona and other points in the southern part of the state during the last few days.

Improving the Capitol.

St. Paul.—An imposing entrance to the grounds of the new capitol, which may require the vacation of that portion of Wabasha street from Central avenue to Rice street, will probably be the next important task undertaken by the state capitol commission or its successor.

News Notes.

THE NEWS IN BRIEF.

For the Week Ending July 15.

Trade exchanges of the country may join in a crusade of extermination against the Chinese at Shanghai.

Richard T. Morgan, a wealthy lumberman and banker, died at his home in Oshkosh, Wis., at the age of 76 years.

John Miller shot and killed James O'Connell and wounded James M. Thomas during a fight in a saloon on Prayle creek, Lee county, Ky.

In a feud battle on Ely creek, near Lee City, Ky., Frank Smith and his two sons, William and Manfred, were killed by Scott McQuinn.

Auren Garrett, one of the plowboys of Illinois, and for 72 years a resident of Peoria, Ill., died from heart failure and senility at the age of 92 years.

Larry McCuen, 35 years old, and James Brown, 16 years old, were found dead under a tree near Janesville, Wis. The pair were shot by a farmer.

Dovager Queen Marguerita of Italy will go on an automobile tour through Spain and Portugal in September, and she will visit the United States.

An advertisement will be made in a few days by a prominent figure in the Berlin financial world and was a director of a number of banks in Germany.

The dates for the thirty-third annual convention of the American Bankers' association at Washington, have been changed to October 11, 12 and 13, 1909.

The Mississippi river steamer Clyde was struck by a tornado opposite Minneapolis, Minn., turned completely over and sank in 15 feet of water. The crew escaped.

Disgraced by revelations in a divorce suit, Louis J. Apgar, a manufacturer and a grandfather, who was named as coming so late in the season, the second crop will be light. The first crop, usually made in the latter part of June or first of July, is an important item of the North-western supply.

With this out of the price of grain grown on the higher grounds probably will be much higher than it has been within recent years. Farmers near the Twin Cities who are fortunate enough to have good hay crops are expecting higher prices than those now prevailing.

Labor Bureau.

Minneapolis.—At a total expense of \$170.35 the state free employment bureau, under the management of the state labor department, has effected a saving in the first month of its operation of \$860 to the unemployed in search of work and to those who have applied for employment. A total of 430 applications have been supplied with work, of whom 248 applicants were men and 83 women and girls. In all cases had the men applied to one of the regular fee employment agencies they would have been obliged to pay a fee of \$2 each. ODD SCENES IN INDIA

THE NATIVE MANNER OF LIFE OF UNIQUE INTEREST.

He Uses Most Primitive Tools and Methods—Carriage Done by Bullocks—Eastern Admiration for Things That Are Large.

To the student of nature India is full of interest and full of surprises. A large portion of it is inhabited by an Aryan population, and, however we may disavow the relationship, our grandfathers were common with theirs. Not only so, but we know that, before the horse, whose sons we are, moved westward, a very advanced state of civilization had been reached. The students of philology inform us that agriculture—milling and plowing; at any rate—were well known before the great Aryan family separated. But the difference lies here—that, while we of the west, in colder climes and soil less fertile, have advanced in our knowledge and acquired sturdier methods, the eastern Hindus have kept to almost the same primitive tools and methods which they must have used in prehistoric times. Take, for instance, the earthenware, the essential structure of which is, in most cases, a stout beam to form plow-socket and handle; into this is fixed a pole to be scratched up to see something, and fixed below to act as a share—a primitive tool, and one serviceable enough when only the surface of the soil needs to be scratched up to see something, and when deep plowing is necessary.

No large estate is without its own carpenters, joiners, tailors, workers in metal, etc., who can at once repair any of the agricultural implements which get out of order. One may often see in a corner of the factory buildings a plow in course of being mended, or a drill under repair, which any tinker or ironwork, such as the making of boxes or iron-bound cases, can always be done on the premises, and well done, too, if somewhat roughly finished.

Most of the carting and other agricultural work is done by bullocks, but it is interesting to see sometimes a camel-cart, the local omnibus, used by natives mainly for taking servants and luggage to the station. Another instance of local manufacture is to be found in the potter's trade. The potter, a common sight in most villages, is to be seen sitting in the veranda of his house turning lumps of clay into pots of all kinds, or round tiles by means of a circular stone which he keeps continually moving with one hand, while the other, on the outside of the wheel, is constantly turning it when finished with a flat wooden trowel.

A curious instance of the magnitude of eastern agriculture and admiration for things that are large is the grain goah, to be seen at Bankipur in Bengal. It was built as a granary in 1783, but never used as such. Its walls are of masonry 12 feet in thickness, and it stands 90 feet high, with a circumference of 430 feet at the base and

of 430 feet at the top. It is a fine specimen of the architecture of the East. The granary is built of brick and is 12 feet thick. It stands 90 feet high, with a circumference of 430 feet at the base and of 430 feet at the top. It is a fine specimen of the architecture of the East.

Dr. Lonia Zoro, a dentist who in 1903 shot and killed Albert Sechrest, his wife and child in Kansas City of murder in the second degree, and sentenced to 15 years in the penitentiary.

Rev. Father Andrew Morrissy, president of Notre Dame at South Bend, Ind., has obtained leave of absence for two years because of ill health, during which he will be succeeded by Rev. Father John Cavanaugh.

Judge DeHaven, of the federal court at Portland, Ore., overruled every motion made in the interest of John H. Mitchell, the convicted United States senator, giving his attorney only a few days to prepare his bill of exceptions.

Richard W. Day, a former member of the Knights of Pythias, died of heart failure at his home in Rock Island, Ill. He was 70 years old and was the last survivor of the original members of the original lodge organized at Washington, D. C., in 1862.

Unusually heavy rainstorms are reported in various parts of Germany. Along the Rhine above Cologne the rain was the heaviest ever known, and enormous damage was done to vineyards, and many factories were undermined and fell in.

What is your idea of a climate? "A classic," said Mr. Chalmers, "is something you have to listen to be aware of it." "I said it was good!" —Washington Star.

LADY'S NORFOLK SWEATER.

These Garments Continue to Stay in Fashion with the Outdoor Girl.

Lady's Norfolk sweater (for 36 inches bust measure). Material: Five hanks German knitting yarn, 1 pair of medium sized needles, 1 medium-size crocheted needle. Cast on 54 stitches and begin at the bottom of back.

First row—k 2, p 1, k 3, p 1, repeat across row.
Second row—k 2, p 1, k 3, p 1, repeat across row.
These two rows constitute the pattern, and the back is knit 23 inches long or longer if desired. It is always well to measure the length before continuing the work.

Shoulder—Slip the first 23 st on an extra needle or safety pin, bind off 23 st in the center for the neck and continue working on the last 28 st for the one shoulder. Begin by increasing 1 st at the neck end of the needle on every row until the V is finished and enough

stitches added to reach the front, making 58 st on the V. Continue knitting in the pattern until the shoulder front (measure from where the neck was bound off) is 6 inches long. Then cast on 18 st for under-arm. Knit the front to the desired length and bind off loosely. Repeat for second front.

Sleeves—Begin with 28 st and increase one at beginning and end of each row until there are 88 st and work the rest of the sleeve without increasing until it is 18 inches long. For the drop or pouch effect bind off the first 8 st work to within 8 st of end and bind them off. Work back and bind off 8 st at each end and continue in this way until there are left only 2 st in the middle of the sleeve. Bind off and pick up all the stitches at bottom of sleeve with steel needles.

First row—Knit first 50 st plain, then 2 and 2 together and last 2 st plain.
Second row—k 2, p 2, repeat across row and knit a ribbed cuff to the depth of three inches.
Adjustable plates—Cast on 18 st.
First row—k 2, p 2, k 2, make one and k 2 together, k 5, p 2, k 2.
Second row—P 2, k 2, p 10, k 2, p 2.
Third row—K 2, p 2, k 3, make one and k 2 together, k 5, p 2, k 2.
Fourth row—P 2, k 2, p 10, k 2, p 2.
Fifth row—K 2, p 2, k 4, make one and knit 2 together, k 4, p 2, k 2.
Sixth row—Like second.
Seventh row—K 2, p 2, k 5, make one and knit 2 together, k 4, p 2, k 2.
Eighth row—Like second.
Ninth row—K 2, p 2, k 6, make one and knit 2 together, k 4, p 2, k 2.
Tenth row—Like second.

Eleventh row—K 2, p 2, k 7, make one and knit 2 together, k 4, p 2, k 2.
Twelfth row—Like second.
Belt—Cast on 20 stitches and make a strip, with one cable in center, as long as necessary.
Sew up under-arm seams and put in sleeves. Make straps and sew in middle of back and at under-arm seams. Slip belt under arms and fasten with buttons and buttonhole.

December Milk.
Best thing in the world for a complexion that is yellow or speckled with freckles or dulled with tan. Also very nice to use as a cleansing agent. Slices but do not peel three good-sized cucumbers; add half a cup of water and boil until pulp is soft, strain and cool. To 15 ounces of the cucumber juice, add an equal amount of alcohol. This makes three ounces of cucumber essence. In this dissolve one-fourth of an ounce of powdered castile soap. Let stand over night, next morning adding eight ounces of cucumber juice, one-half ounce of oil of sweet almonds and 15 ounces of tincture of benzoin. Pour in the oil very slowly, shaking the bottle well. Keep in cool place.

Braid Garniture.
Braids are much used this summer and principally upon traveling dresses. They are worn, though, a great deal upon street gowns and there are times when a bit of braiding does very well upon a dinner waist. In the last named instance the braid must be very fine and put on in designs into which are worked lace flowers and beaded flowers and every other pretty embroidery device.

Had for Complexion.
The art of rouge and powder is very injurious to the complexion, especially the pores of the skin, causing blackheads and a dull, sallow look that is far from pleasing. Many of the face powders contain lead which is very injurious to the system. The new skin beautifier has been known to cause serious results.

Hair Tonic.
An excellent hair tonic for general use is composed of 80 grains of bay rum, 80 grains of castor oil, ten grains tincture cantarides.

THE 100 SWEATER.

News of the Week.

Clips Picked up Around Town and Vicinity.

Miss Lillian Lambert is visiting with relatives in Red Wing.

Mrs. J. L. Stutsman is employed as a nurse in the Pine County hospital.

Miss Ethel Gosdel, of Barum, is the guest of her friend, Miss Minnie Parish.

Capt. Clements and wife, of Rock Creek were county seat callers Wednesday morning.

W. H. Hamblin, a traveling salesman from Duluth, called on Pine City customers yesterday.

Mrs. M. R. Webster returned home yesterday from a visit with her mother at Leaf River, Ill.

Jas. McGrath was up from Stillwater from Saturday till Monday p. m. looking after his lumbering interests.

Miss Ida and Bertha Weendlandt, Otto Weendlandt and wife, all from Duluth, were guests at the Burge home Saturday.

Miss Jessamine Allen is spending the week in Minneapolis. She will return to Pine City tomorrow to resume her piano teaching.

W. A. Howard, attorney, and editor of Enterprise at Mora, is sojourning in this village and vicinity. His wife accompanies him.

A 10c ice cream social will be given by the Young People's society of the Presbyterian church, Friday evening, July 28th, on the church lawn.

Miss Clyde Pennington returned to her home in St. Paul Monday afternoon after an extended visit at the Pennington home in this village.

Mrs. Connaker who has been very ill for some time, and who was removed to the Pine County hospital, last week, is improving rapidly under the care of Dr. Lyons.

Ed Nutscher had the misfortune to fall while at work at the Jerry Collins mill, Thursday evening and dislocated his right shoulder. Drs. Lyons and Wiseman were called who put the bones in place, and Ed is doing as well as could be expected.

Prof. and Mrs. J. H. Hay and two children, and Mrs. M. A. Nason, of Rush City, have been visiting with relatives and friends in this place this week. Next week they will prepare to leave for Thief River Falls where Mr. Hay will superintend the city schools.

Morris Edwards arrived here Wednesday afternoon from Royallton, this state, where he held a position on the "Banner" since his retirement from Pine City affairs. He has spent most of his time at Glenwood. He expects to remain here for some time to fully recuperate from a recent illness.

The moon light excursion given on Tuesday evening was a decided success, both socially and financially. The boat left the wharf at 8:45 with about sixty passengers on board. They arrived at the Tuxedo in due time where a pleasant hour was spent. And arriving home at about 12:30. All enjoying the trip.

Invitations have been issued for the marriage of Miss Mary Rosamond Barnum to Mr. Livingston Lang Sellers. The wedding will occur Wednesday afternoon, August 2nd, at two o'clock p. m., and the couple will be "at home" after Sept. 1st at Detroit, Washington. Miss Barnum is the youngest daughter of Dr. and Mrs. E. E. Barnum. She is an accomplished young lady and has a host of friends who will wish her every success and happiness. Mr. Sellers is one of Pine City's native sons; he is a pleasant young gentleman and will undoubtedly prove a good husband for the woman of his choice.

Fritz DeRoy died at the poor farm at Hinckley last Friday morning after an illness of about a week. The remains were brought to Pine City and the funeral services were conducted in Birchwood cemetery by Rev. J. J. Parish last Saturday afternoon. Kind and loving friends saw to it that his last resting place should be fitting to his memory and it was due to these friends and Mr. DeRoy's kindly past that his remains were not allowed to remain at Hinckley. Many beautiful flowers adorned the casket, and the services were as impressive in their simplicity. As was stated in the Pioneer last week, he was 81 years old on his last birthday and was a resident of Pine City about thirty-three years.

Ross Rath returned from a couple days visit in St. Paul Tuesday.

Miss Minnie Wolfe of Harris visited with relatives Tuesday.

A daughter was born to Mr. and Mrs. R. D. Beagle last Sunday evening.

Miss Helen Parish, of Sandstone, spent Saturday and Sunday at the Greeley cottage, St. Elmo.

Misses Clara and Agnes Moritz, of St. Paul, are the guests of Mrs. Gustave Kruse at the Schoettler home.

Miss Rose Flannagan returned to Minneapolis Saturday last after a two weeks' visit with Miss Josie Duemelner.

Misses Mayme Pennington and Lucy Wiseman returned Tuesday from a week's visit in the twin cities and Stillwater.

Ed. Hughes, of the the Home Plate Buffet, who went to Stillwater Saturday last to visit with relatives, was reported quite ill.

Misses Alice and Evelyn Prendergast returned to their homes in St. Paul Tuesday. The latter has been spending the past month at Tuxedo.

Miss Gladys Webb, of Montevideo, is visiting with her sister, Mrs. I. H. Claggett, and expects to remain here during the remainder of the summer.

Next Tuesday, July 25th, is Pine City Fair Day. All those interested should bear it in mind, and at the same time remember that the Big Store is offering special bargains for that day.

Misses Jo. McAllen and Anna Dempsey departed for their homes at Bristol, S. Dak., Wednesday morning. They had been guests of their uncle, P. W. McAllen, about three weeks.

The Norris & Rowe circus, which exhibited here on the 11th inst., is in Sundbury, Ontario, Can., today. They will show in Ontario during the remainder of this month according to the official route card.

Dr. E. C. Clemens delivered an able, interesting and instructive sermon at the M. E. Church last Sunday evening. Miss Mae Buckler, who is visiting at the Bede home, also added much interest to the meeting by the rendition of a beautiful vocal selection.

Severn N. Swardling, of Spokane, Wash., was the guest of his cousin, Miss Theresa Erickson Saturday. They went to Rush Point Saturday evening and visited with their uncle, John Sulene, until Monday a. m. when Mr. Swardling departed for his home in the west. He had been visiting at his former home, Duluth, the week prior to his visit here.

Cards were received here this morning announcing the marriage of Carl Holmberg to Miss Herring, of Rush City. The wedding occurred in St. Paul on July the 5th. Mr. Holmberg is the popular clothier with the Big Store and has many friends who congratulate him and wish he and his bride a long, prosperous and happy journey through life. They will make their home in Pine City.

J. Bennett Smith the Pine City Copper King has reached the 71st mile stone in the race with time for sterility. Ben is still hale, hearty and has the same amount of emphatic assurance that characterizes ambitious youth. The guests at the Tuxedo last Saturday night planned a surprise party for him to celebrate the event which occurred Saturday. There was music, dancing, toasts and a banquet and a general all around good time. There was a cake sent up from St. Paul which was decorated with 71 candles emblematical of the lapse of time since Ben began. It was a nice little event and Mr. Smith seemed to enjoy it as much as the younger ones who were the authors.—Rush City Post.

A man who was too economical to subscribe for his home paper sent his little boy to borrow the copy taken by his neighbor. In his haste the boy ran over a one dollar stand of law and in ten minutes looked like a warty summer squash. His cries reached his father, who ran to his assistance and falling to notice a barbed wire fence, ran into it, breaking it down, cutting a handful of flesh from his anatomy and ruining a five dollar pair of pants. The cow took advantage of the gap in the

fence and got into the cornfield and killed herself eating green corn. Hearing the racket, the wife ran and upset a four gallon churn of rich cream into a basket of kiln-dried corn, the whole flock. In her hurry she dropped a twenty-five dollar set of false teeth. The baby, left alone, crawled through the spilled cream and into the parlor, ruining a twenty dollar carpet. During the excitement the oldest daughter ran away with the hired man, the dog broke up eleven settling hens, and the calves got out and chewed the tails off five shirts.—Kansas City Journal.

Popular Specials.

Lost—A rat terrier, about 11 mths. old. License tag No. 36. Flinder please notify Chas Spearing.

You can get great bargains at the Big Store next Tuesday, it being Pine City fair day.

We receive fresh consignments daily of ye Old Tyme Bakries, White and Rye bread and buns. Pine City Hotel and Restaurant receive fresh consignments daily of ye Old Tyme Bakrie, of Minneapolis. White and Rye bread and buns.

CHOLERA INFANTUM.

Child Not Expected to Live From One Hour to Another, but Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey, of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's colic, cholera and diarrhoea remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by L. E. Breckenridge.

A Revelation
If you will make inquiry it will be a revelation to how many succumb to kidney or bladder troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. Foley's Honey and Tar contains no opiates and can safely be given to children. Sold by J. Y. Breckenridge.

IN THE PUBLIC EYE.

Rev. Joseph W. Cross, the oldest living alumnus of Harvard college and the Andover Theological seminary, celebrated recently his ninety-seventh birthday.

Miss Minnie Baldwin is president of a bank in Water, I. T. She is also among the incorporators of the institution and will assume direct management. The concern has a capital of \$25,000.

Brig. Gen. T. J. Wint has taken command of the northern division of the United States army, with headquarters at Denver. His career covers almost half a century of strenuous service. He is a native of Pennsylvania, having served through the civil war with the Sixth Pennsylvania regiment.

H. P. Bledsoe, son of the man whose life suggested to John Jay the poem "Ode to the Prairie Belle," is living in Denver. The elder Bledsoe lived in Wisconsin all his life and was a famous character among river men in the old days. The old man, who died three months ago, always kept up correspondence with Mr. Jay.

Mrs. Howard Gould has the finest private collection of birds in the United States. In some respects exceeding the aviaries at the New York zoological gardens. Not only has she made it a pastime to gather from all the quarters of the globe remarkable and beautiful specimens of the feathered tribe, but she has also made it a study and a science.

Everybody knows Russell Sage as a financier. Only a few remember that at one time in his career he represented a New York district in congress. He was elected to the thirty-third congress as a whig, taking his seat December 5, 1853. On the second day of the session he participated in a discussion regarding the creed of a clergyman who had been suggested for chaplain of the house. From that time on he took active part in all deliberations of that body, proving himself a strong debater, but doing his best work in committee.

BITS OF FLAG LORE.

The simple striping of the red and yellow in the flag of Spain was suggested by the arms of Aragon.

The strangest flag under which man ever fought is that of the Massachusetts insurgents. It is red on one side and black on the other.

The crescent, moon and stars were adopted by the Turks as their device on the capture of Constantinople by Mohammed II in 1453.

The white cross on the red field of the Swiss flag has a religious meaning. It was adopted as an appeal to heaven in 1233, when the stout Swiss fought and won their first great battle.

Peter the Great is said to have borrowed the idea of the Russian flag from the Dutch, among whom he learned shipbuilding. He simply turned the Dutch tricolor, red, white and blue, upside down.

In compliment to William, prince of Orange, their great leader, the colors of the houses of Orange were adopted by the sturdy people of the Netherlands, at the end of their long bout with Spain—orange, white and blue, but nobody knows how, in the centuries since, the orange became changed to red.

ADAPTABILITY.

Adaptability's sails are set to catch any wind that blows.

To the man with adaptation an emergency is an opportunity.

Adaptability is the ability to adapt yourself quickly to unexpected conditions.

Adaptability is always ready; it never takes a moment to be ready.

Adaptability is the great lightning change artist, and often turns hopelessness into a victory.

A general in battle, a statesman in office, or a financier handling large enterprises without the ability to readily adapt himself to suddenly changed conditions is a misfit.

When one plan fails the man with adaptation has 49 untried others waiting.

The bankrupt law is meant as an asylum for men who are without adaptability.

COMES A TIME

When Coffee Shows What It Has Been Doing.

LIVESTOCK

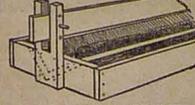

CLEAN WATER FOR HOGS.

How One of the Essentials to Successful Hog Raising May Be Easily Supplied by Farmers.

Farmers do not need to be told that the lot of the hog upon the average farm is a long way from being an enviable one. Compared with almost every other farm animal, there are some who make no effort to improve the conditions of their swine. On the other hand, there is an increasing number of hog raisers who are making efforts to improve the surroundings under which their swine are reared.

How to provide clean water for the hog is one of the problems. It is difficult to keep an animal which water can be kept before the swine at all times.

WATER TROUGH FOR HOGS.

And yet so arranged that the hogs will not wallow in it. It appears, however, as though a valuable suggestion regarding the solution of this problem had been made in a late issue of the Iowa Homestead by a Kansas farmer who suggested a plan from which the accompanying drawing is taken.

GOOD HORSE EVENER.

Device by Which Three Horses May Be Used on the Wagon or Disk Harrow.

While three save much horse power, a sandy or muddy road doubles the work.

The best drivers talk 1,000 to their animals.

Aluminum horseshoes have been thoroughly tested by the Russian army.

Good ventilation, clean bedding and plenty of light and comfortable stalls are also necessary.

It is desirable to have calves come in groups where a large number of calves are being kept.

It is better to have only two groups of calves, one in the spring and one in the fall.

The growing pigs may be helped along in two ways.

There is a reason. Read the little book, "The Road to Wellville," found in each pkg.

LAMENESS IN SHEEP.

Successful Management of Flock Requires Close Attention to the Feet of the Animals.

A very important item in the management of a flock is the condition of the feet. With those sheep that have been herded together during lambing season, it will be a wonder if there are not some cases of lameness.

Excelsior! Excellent! I shall take pleasure in making you an expert. Oh, how lovely you are, Mr. M. I wish you would like it if we didn't give you an opportunity to subscribe to our paper.

Facts Are Stubborn Things

Uniform excellent quality for over a quarter of a century has steadily increased the sales of LION COFFEE.

The leader of all package coffees. Lion Coffee is now used in millions of homes.

After a successful medical campaign against the "Lion" in Porto Rico, a similar one might be undertaken in this country.

When my sister was eighteen months old a humor broke out across the back. For two years it caused her intense suffering.

The great trouble with us nowadays is that we express our views so loudly that we feel no need of taking action about anything.

I am sure Bio's Cure for Consumption saved my life three years ago.

Don't blame a person for putting on airs. It is impetuous clothing, and better than nothing.

Grand Forks Experiment,
Continued from first

ing an ounce of salt for every pound of butter.

The butter should be packed neatly in jars and kept on ice or submerged in cold water until marketed. It is preferable to pack butter in three or five pound jars as it sells best to local trade in this form. Butter should be marketed every week.

Be clean and keep everything clean in butter making.

Set the milk as soon as possible after milking. Keep the milk and cream apart from all odors.

The quicker milk is cooled after milking and the lower the temperature the more cream will rise. Cream should be churned within twelve hours after souring.

Keep a thermometer and use it. Use a barrel churn and never use it for a buttermilk vat. It should be kept sweet and pure.

Churn three times a week in summer.

Get your butter to market in good condition.

Keep the creamery in view. Northeastern Minnesota will prosper more thru dairying than the mines of the past. A. J. M.

Heralded from Meadow Lawn.

Berries are quite scarce this year. Mrs. G. R. Laird is visiting in Meadow Lawn this week.

Mr. and Mrs. S. Heath visited at the home of Mr. O. Scofield Sunday.

Miss Clarissa Collet, of Hastelton, is on the sick list this week.

Mr. and Mrs. J. MacAdams visited at the home of Mr. and Mrs. Lahart Sunday.

Mr. and Mrs. G. Johnson and J. Jackson spent Sunday at Mr. and Mrs. Penhiter.

Miss Katie Penhiter returned to Sandstone last week after spending a few days with her parents in this place.

The farmers of Meadow Lawn are taking advantage of the fine weather this week. They are all busy putting up a good supply of hay.

The annual school meeting was held in the Hattie Town school house July 16th. It was voted to have 9 months school this term commencing Sept. 14th.

List of Letters

Remaining uncalled for in P. O. Pine City, Minn., for week ending July 10, 1905.

Mrs. E. Rand,
Mr. Charley Waklund.

Persons claiming above will please say "advertised" and give date of this list. L. E. BRECKENRIDGE, P. M.

Where are you sick? Headache, foul tongue, no appetite, lack energy, pain in your stomach, constipation. Hollister's Rocky Mountain Tea will make you well and keep you well. 35 cents. L. E. Breckenridge.

Chamberlain's Colic, Cholera and Diarrhoea Remedy - The Best in Existence.

T. M. Wood, manager of the White County News, Beebe, Ark., is a representative southern business man, who does not hesitate in expressing his good opinion of a well known remedy. He says, "It gives me pleasure to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy, having used it myself and in my family with the best results. In fact I believe it to be the best remedy of the kind in existence." Sold by L. E. Breckenridge.

Indigestion Cured.

There is no case of indigestion, dyspepsia or stomach trouble that will not yield to the digestive and strengthening influence of Kodol Dyspepsia Cure. This remedy takes the strain off the stomach by digesting what you eat and allowing it to rest until it grows strong again. Kodol Dyspepsia Cure affords quick and permanent relief from indigestion and all stomach troubles, builds up the system and so purifies that disease can not attack and gain a foothold as when in a weakened condition. Sold by J. Y. Breckenridge.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he can not be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by L. E. Breckenridge.

Summer Train Service.

National Encampment, Grand Army of the Republic, Denver Col., Sept. 4th to 7th. Tickets on sale Aug. 30th to Sept. 4th, 1905. Return limit October 7th. Round trip fare of \$19.05 from Pine City.

Bronchitis for Twenty Years.

Mrs. Muevra Smith, of Danville, Ill., writes: "I had bronchitis for twenty years and never got relief until I used Foley's Honey and Tar which is a sure cure." J. Y. Breckenridge.

The pills that act as a tonic, and not as a drastic purge, are DeWitt's Little Early Risers. They cure headache, constipation, biliousness, etc. Early Risers are small, easy to take and easy to act - a safe pill. Mack Hamilton, hotel clerk at Valley City, N. D., says: "Two bottles of these famous Little Pills cured me of chronic constipation." Good for either children or adults. J. Y. Breckenridge.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being the only constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75 cents.

Revivo RESTORES VITALITY

Made a Well Man of Me.

THE GREAT FRENCH CURE REMEDY

produces the above results in 30 days. It is powerful and quick. Cures when all other fails. Young men will regain their lost manhood, and old men will recover their youthful vigor by using REVIVO. It quickly and surely restores Nervousness, Loss of Vitality, Impotence, Nightly Emissions, Lost Power, Pining Anxiety, Wasting Illnesses, and all effects of self-abuse or excess and indigestion. It is the one for Grief, Passion or Marriage. It not only cures by starting at the seat of disease, but it is a great nerve tonic and blood builder, bringing back the pink glow to pale cheeks and restoring the fire of youth. It is a sure remedy for Catarrh of the Bladder, Gonorrhea, Stricture and Consumption. Insist on having REVIVO of either. It can be obtained in 50c and 1.00 packages, or in 2.00, 3.00, 5.00 and 10.00 packages, or in 25.00, with a post free warrant to cure or refund the money. No return of the free.

Caseola Blood and Rheumatic Cure.

It makes no difference whether you are suffering from inflammatory, acute, chronic, nervous or muscular, or any other form of rheumatism, or whether every part of your body is aching and every joint is out of shape, Caseola, Blood and Rheumatic Cure will positively give instant relief and effect a permanent cure. It cleans the system of all impurities, purifies the blood and restores the patient speedily to health. Sold by L. E. Breckenridge.

Treat your Kidneys for Rheumatism.

When you are suffering from rheumatism, the kidneys must be attended to at once so that they will eliminate the uric acid from the blood. Foley's Kidney Cure is the most effective remedy for this purpose. H. T. Hopkins, of Polar, Wis., says: "A terrance successfully doctoring three years for rheumatism with the best doctors. I tried Foley's Kidney Cure and it cured me. I cannot speak too highly of this great medicine." J. Y. Breckenridge.

Why in time do you want to hang on to that awful cough? Do you know that H. W. Barker's cough, catarrh and consumption remedy will knock it every time. Why there is nothing like it. At J. Y. Breckenridge's drug store. Manufactured at Sparta, Wis.
