THE COUNTY FAIR

Greatest Fair in History of Pine County--Fair Managers "Make Good"--Large Crowds in Attendance--Big Success.

EXHIBITS A REVELATION

Commendable Displays--Apple Entries Excel State Fair In Quality--Northern Pine County Makes Showing.

Senator Clapp Speaks--Excellent Band Concerts--Free Out-side Attraction Best Ever--Speed Contests Interest.

Mrs. L. H. McKusick and others received a big measure of commendation and the photographic display of D. Seely was as good as one might find anywhere. I. H. Claggett's handwork in amateur photography was also commendable.

Taken as a whole, the agricultural display demonstrated that this part of God's green footstool is fully adapted for diversified farming. The articles exhibited were fully matured, and proved conclusively that Pine county is as good as the best.

Tuesday afternoon was selected as the day for speechmaking, and J. Y. Breckenridge opened this interesting procedure with a short address, prior to introducing U. S. Senator Moses E. Clapp. Mr. Clapp's speech was brisk and to the point in every particular. It was truly agricultural, and was greeted with applause and agreeable assents. The only part of it that we didn't like was its shortness--most anyone could stand and listen to the senator for an indefinite period, and still be greatly interested in his assertions. Wisdom and wit were mingled together in such a manner as to produce the closest interest among his auditors.

He stated that J. Adam Bede, our formidable congressman, laid claims to being a farmer, but according to the senator's estimation M. E. Clapp was as much of a farmer as J. A. Bede--only that the latter had a nice herd of "Plymouth Rock" cows while the former had none. The former's "Holstein" chickens were also numbered with the dead. He predicted that this great northeast country between the Twins and the great lakes would some day be the greatest agricultural territory in the country, and his predictions are fast becoming a stern reality.

Owing to lack of space in the floral hall a large tent was secured from the state fair management, and this was used by a number of Pine City merchants for displays of their different wares. All of the exhibits were tastefully arranged. Breckenridge's Pharmacy was represented by drug signs, show cases with different articles adapted to the drug business. Smith, the hardware man, and D. Gresley, each had excellent hardware displays, and in connection cream separators and their operations and merits were illustrated by experts. The Big Store had a booth filled with cloaks, jackets, etc., representing some of their high grade articles. Outside of the tent was stationed the potato digger recently invented by J. D. Wilcox, which was given more than a passing attention.

The Carnival Co., with a bunch of picture machines, a Ferris wheel, snake den, pony allotment, and a minstrel show composed of three chocolate-colored beauties pulled stakes Tuesday night and departed to show at Grantsburg.

Everything passed off lovely, and the 18th Annual can properly be termed a very successful event. The crowds were large and agreeable, the exhibits were excellent, and everything went to make it the best fair ever held in this county. The management has built a fair foundation for succeeding occasions, and will keep their eyes open for opportunities to make the 19th annual fair a greater success than any.

ATKINSON-POFERL.

Two Well Known Pine City Young People Wedded at Sandstone.

Wednesday morning at nine o'clock at Sandstone, occurred the marriage of Charles P. Atkinson and Miss Mary Pofperl. Rev. Bucher performed the ceremony. The happy young couple returned to this place yesterday and have gone to house keeping in the Forstenburg house.

Both of the principals are so well and favorably known that it is unnecessary to comment extensively. Mrs. Atkinson is the daughter of Mr. and Mrs. Joseph Pofperl, and has spent nearly her entire life time in this place. Mr. Atkinson is the only son of Mr and Mrs. John Atkinson.

The newly-weds have the hearty congratulations of a host of friends, and the Promissus joins in wishing them long life and prosperity.

BACK IN THE JAIL

Men Arraigned in Pine City Plead Not Guilty and Will be Tried Later.

John Anewash, accused of manslaughter, Knute Maki, charged with assault upon his step-daughter and George Anderson, accused of burglary, are back in the Washington county jail, having been brought here from Pine City last evening.

They were arraigned yesterday in the district court of Pine county on indictments mentioned in their respective cases and entered pleas of not guilty. They will remain here until the court is ready to try them before juries.--Stillwater Gazette.

Village Council Proceedings.

The common council met in special session at the recorder's office on Friday evening, Sept. 22. The meeting was called to order by the president. Members present, F. E. Smith, president, M. Prochaska, J. J. Madden, Aug. Carlson and J. Atkinson, councilmen, and E. Pofperl, recorder.

Mr. Berkeley of the Northwestern Telephone Exchange Co., applied to the council for permission and resolution to place their poles and wires on the streets and alleys of the village of Pine City, and the following resolution was passed:

Resolved, by the common council of the village of Pine City, Minn., that permission be granted to the Northwestern Telephone Exchange Co. to erect its poles and lines within the corporate limits of the village of Pine City, Minn., beginning at the corner of First Avenue and Second Street, thence running west along the line of First Avenue to Fifth Street, thence to the hotel Agency, and that said poles shall only be erected at such places on the aforesaid streets as the village council shall designate.

No further business appearing, council on motion adjourned.

ERANK POFPERL, Recorder.

Growing Interest.

The \$100 diamond ring contest at Breckenridge's Pharmacy is growing interest and popularity day by day. The leading contestants are making a close fight and therein centers the greatest interest. Following are the standings up to this forenoon:

Lillian Perkins	304
Anna Kiel	281
Lillian Lambert	272
Georgia Chortner	172
Louisa Glasow	99
Florence Peterson	145
Aggie Stochl	23
Nellie Grealey	12
Fannie Ververka	14
Panna Kruse	23
Dorothy Laing	13
Susan Shaver	12
Selma Gustafson	10
Anna Ausman	9
Eva Madden	11
Rita Johnson	8
Annie Hoffman	6
Sadie Pennington	1

THE RACES.

The races were nearly all close and exciting, and considering the track, were quite fast. They were good drawing cards and were witnessed with intense interest. The summary:

RACES MONDAY

Free-for-all fun. Half mile heats.

Habe, (Connors)	1-1
Gray Prince, (Haller)	2-3
Queen, (Connors)	3-2

Best time--54.

Free for all trot. One mile heats.

Audition Boy, (McKusick)	1-1
Queen Day, (Soderbeck)	2-2

Best time--2:54.

For Sale Everywhere.

Pine City Milling & Electric Co.

The 18th annual fair of the Pine County Agricultural Society came to a close Wednesday afternoon, and it has been pronounced the best that has ever occurred in this part of the state. Weather conditions proved very good, although the outlook Monday was anything but bright, and the rainy weather Tuesday morning cut down the attendance considerably.

The new management "made good," and it is to their untiring efforts that the great success of the undertaking can be largely attributed. Within two or three years more this county will surely have a great fair if the one just past is indicative of future greatness--which it surely is.

Everything was conducted in a business way, yet in a manner that made every person feel social and pleased. There was room for everybody! No one needed to leave the grounds without having had a good measure of joy. The visitors came and went here and there about the grounds, in and out of the floral hall and the display tent, and the scene was an animated one to behold.

There was nothing dilatory about the several free outside attractions, the horse races were pulled off with precision, the tumbling artists gave prompt in their turn, and on Tuesday the balloon ascensions and high dives could not have been more aptly performed.

The Pine City Band furnished excellent music, and compliments from all sides were showered upon it for the concerted work.

During the entire three days the fair was absolutely devoid of any unpleasantness. No "shell games" or skin-finch organizations were permitted within the town or upon the grounds, and therefore we have not heard of any "shell-finch" howls.

The exhibits in the floral hall presented an attractive appearance. Although not as large as a great many fairs may boast of having, but surely as good in quality and numerous in variety were the different articles.

The apple display was a revelation to many who are not aware of the excellent soil conditions for this particular variety. Entries were made by E. C. Saunders, Geo. Rice, John Atkinson, D. Hoffman, H. Schultz, Mrs. Droschak, Meta Peterson, A. Lewis, Eugene Wilson, P. Sonnesson,

Henry Olson and H. Brandes. Of the latter's exhibit Judge Grosby is authority for the statement that it was the best he had ever seen, and the entire list of entries worth at least \$20,000 to this county. The possibilities for raising apples in this county are known to be unexcelled, and every farmer and gardener who has cultivated in the apple raising habit. Apples are healthy, and they can be made profitable to every man who takes advantage of the opportunity to raise them.

The entries in the vegetable department were numerous and as nearly perfect as possible. Great attention was attracted by the huge pumpkins, the warty squash, the cabbage heads, tomatoes, parsnips, cucumbers, potatoes, rhubarb, turnips, carrots, onions and other rarities. Displays showing that Bruno, Willow River and other northern points of the county, were strictly there with the goods, and gave the fair a stamp of greatness that heretofore has been entirely eliminated. A large number of entries were on exhibition from our northern brethren and some of the finest quality that we had ever seen were raised by H. H. Schunacher, at Bruno; Thos. W. Peters, of Pokegama was awarded the premium for the largest number of vegetable entries, with a list of twenty-nine.

The horses, cattle, sheep and swine display was larger than usual, but was altogether too small for the diversified farmers of this vicinity.

The chickens, ducks, geese, turkeys and also the rabbits attracted a great deal of attention, and the room with the chicken coops was almost constantly filled.

And the culinary department showed the gentler sex of our great county to be thoroughly able to make bread and cakes fit for a king. Bread baked as the dowry feathery of a duck was on exhibition, dairy butter, honey and canned fruits, pickles, baked beans and other deliciously prepared goodies made the display a veritable illustration of what "mammas used to prepare." There were fine specimens of home-made and homemade socks, mittens, clothing, etc. took up considerable room in the main building, and created but a little of interest. The fine arts department, under the supervision of Miss S. Shaver, attracted throngs of ladies and gentlemen. Some exquisite paintings by

News of the Week.

Chips Picked up Around Town and Vicinity.

H. W. Harts went to Duluth yesterday on business.

Pat Murphy, of Bruno, visited at the county seat Wednesday.

Miss Jessie Lambert will go to North Branch today to visit.

Chas. Tingley was a county fair visitor from Brookpark Tuesday.

The Misses Erickson and Myers, of Rock Creek, were in town this week.

H. H. Schumacher represented the Bruno county with a display at the county fair.

Miss Daily Norstrom left for Minneapolis Monday to attend school this winter.

Just Peterson and family were interested spectators and exhibitors at the fair.

Fitzhugh Burns, of St. Paul, has been attending legal matters at the court house this week.

Maurice King, of Hanning, is in town this week. He is interested in a civil action at court.

Misses Erickson and Russell were among the visitors from Rush City, who attended the fair.

Our old college chum, Ted Stollberg, of Harris, was the guest of Arthur Brandes Monday.

The Women's Reading Club will meet with Mrs. Butler at the Harte residence next Monday evening.

H. E. Clausen, representing the Segerstrom Piano Co., of Minneapolis, has been in town since Monday.

Mr. and Mrs. John Rohlf returned to Rush City yesterday after a few days' visit at the Julius Dosey residence.

Fred Dosey was the guest of his cousin, Ernest Dosey, this week. He returned to his home at Rush City yesterday.

Alyah Johnson, F. L. Dennie, Chas. Rheinholdson, of Sandstone, have been in town during the past week attending court.

T. W. Malcolm and wife, of Rush City, attended the fair Wednesday. Mr. Malcolm is the president of the Chicago County Fair association.

Mrs. John E. Norstrom returned home Saturday from Minneapolis, where she has been visiting her daughter, Mrs. Winchester, for several weeks.

Mrs. B. E. Hyde, of St. Paul, will organize a class in dress-cutting in a few weeks. All kinds of cutting taught from measure. Sessions not limited. 433 2t.

M. C. Dean, John Currie, W. C. Warren and father, H. Coffin, and wife, John Stanfield and wife, Ed. Goplovich, Morris Brennan, J. J. Mullen and John Craig "took in" the county fair.

Miss Emma Schultz returned from White Bear on Saturday last, and will return tomorrow to St. Paul to spend the winter. Her brother Wm. came home Wednesday from Minneapolis where he has been at work during the summer. Both are children of H. Schultz, of Pokegama.

Mrs. J. E. Neter was treated to a genuine surprise last Sunday afternoon, the occasion being the anniversary of the birthdays of Mrs. Neter and Mrs. M. C. Brackett. The guests were J. E. Neter, Mr. and Mrs. Ed. Neter and son Leo, Medonas Webster, Hodge, McKusick, and Breckenridge.

The Emily J. Stone Circle, Ladies of the G. A. R., served supper in their hall Tuesday evening. Large numbers of fair visitors and others accepted the invitation to attend and the good things dished up were highly satisfactory. The circle's name in connection with a meal is a big drawing card.

The concerts given by the Pine City band Tuesday and Wednesday evenings were greatly appreciated. The beautiful strains, taken both from classic and popular composers were played with such precision and melody that visitors could not help lending their voices in praise and even Pine City denizens were happily surprised to learn that their band was indeed a praiseworthy and noteworthy organization. The concerts were given from the balcony of the Hotel Agnes where special lights had been installed for the convenience of the players. Mr. Claggett and his entire band are to be congratulated for their efforts to please and their work is most assuredly appreciated.

F. V. Inakep, a Cloquet attorney, is a Pine City visitor.

Wedding bells will soon ring in the vicinity of Pine City.

Miss Joanie Neville arrived home from the twin cities this week.

Miss Muriel Murray was quite ill one day last week, but is up and around again.

Chris. Heisler, deputy sheriff, has been down from Sandstone during the past week.

Miss Lillie Luth, of Rush Lake, was the guest of Miss Louise Brackett Wednesday.

Charles Elmquist, attorney for Chicago county, was a court attendant this week.

F. M. Rodenberger has been attending court this week. He is a Partridge resident.

Owen George, court stenographer, has been employing his time at the court house this week.

Miss Elizabeth Brackett entertained her friend, Miss Anna Morison, of North Branch, Tuesday.

Fred Bordeaux is at home from the Metropolitan Business College, Minneapolis, for a week's vacation.

J. A. Oldenberg, Finlayson's most prominent business man, has been a county seat visitor during the past week.

O. P. Hoagland, Andrew Swanson and son Burr, of Henrietta, were sight-seers at the county seat Tuesday.

Miss Maud Gottle, of Washington, D. C., who is a guest of her aunt, Mrs. J. Adam Bede, went to Still water today to visit.

Marshall Riley was compelled to leave the road on account of a bad cold, and has been spending the week with his family.

Jos. Veverka has resumed business in his old stand, the City Restaurant and Bakery. Mr. Veverka's many friends are glad to see him back in business again.

A plate of fine winter apples are on exhibition in the show window of the Pine City State Bank. They were grown on the Pokegama Sanatorium farm.

The dance in Rath's hall Tuesday evening was largely attended. The music furnished by Barber and Lambert, of St. Paul, was very good, and everyone present seemed to enjoy the time immensely.

This week the following have been licensed to wed: Henry Van Goor and Elizabeth Huyser; Henry Schmidt and Alvina Hempel, Pokegama; Frank Johnson and Mary Schneider, Rock Creek; Charles P. Atkinson and Mary Pofor, Pine City.

Mrs. B. E. Hyde, of St. Paul, was a Wednesday visitor in Pine City.

Mrs. Hyde proposes to organize a class in dress-cutting here in the near future. She has had years of experience in her profession, and carries substantial recommendations from people of note.

Mr. Samuelson, one of the pioneer residents of this county, whose home is at Friesland, was a Pine City visitor this week. He was here attending to some legal affairs. This was Mr. Samuelson's first visit to the county seat in six years. He was pleasantly surprised at the improvements and growth of the town.

Proceedings have been dragging along slowly at the Court this week. The case of the Robt. Lumber Co., Minneapolis, vs. the Pine City Lumber Co., has been occupying practically the entire time since Tuesday. Judge Crosby will probably charge the jury this morning. The Pine City Lumber Co.'s personnel is Messrs. McGrath and Organ. The Robt. Co. charge a breach of contract on the part of the defendants. Several experts from Stillwater and Minneapolis have been here and have testified in the case as to the value of the lumber involved. The attorneys in the case are Jerlison & Lund, and E. C. Saunders for the plaintiffs, and Seales and L. H. McKusick for the defense. The original cases have been put over until October 24th.

THRO. F. KOCH LAND CO.,
No. 170 E. 3rd St., St. Paul, Minn.

A Laxative Cough Syrup.
"A cold or cough nearly always produces constipation—the water all runs to the eyes, nose and throat instead of passing out of the system through the liver and kidneys. For the want of moisture the bowels become dry and hard." Kennedy's Laxative Honey and Tar is the original Laxative Cough Syrup. It meets and corrects the above conditions by acting as a pleasant cathartic on the bowels—expels all colds from the system and cures all coughs, croup, whooping cough, LaGrippe, bronchitis, etc. Sold by J. Y. Breckenridge.

Good advice to women. If you want a beautiful complexion, clear skin, bright eyes, red lips, good health, take Hollister's Rocky Mountain Tea. There is nothing like it. 35 cents, Tea or Tablets. L. E. Breckenridge.

Always Biscosoful.
When indigestion becomes chronic it is dangerous. Kodol Dyspepsia Cure will cure indigestion all troubles resulting therefrom thus preventing Gattari of the Stomach. Dr. Newbrough, of League, W. Va., says: "To those suffering from indigestion or sour stomach I would say there is no better remedy than Kodol Dyspepsia Cure. I have prescribed it for a number of my patients with good success." Kodol Dyspepsia Cure digests what you eat and makes the stomach sweet. Sold by J. Y. Breckenridge.

Only Did His Duty as He Saw It
"I deem it my duty to add a word of praise for Chamberlain's Colic, Cholera and Diarrhoea Remedy," says J. Wiley Park the well known merchant and post master at Wiley, Ky. "I have been selling it for three or four years, and it gives complete satisfaction. Several of my customers tell me they would not be without it for anything. Very often to my knowledge, one single dose has cured a severe attack of diarrhoea, and I positively know that it will cure flux (dysentery)."

You are at liberty to use this testimonial as you please. For sale by L. E. Breckenridge.

Cured Hemorrhages of the Lungs.
"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I recommend it in advanced stages of lung trouble."

Foley's Honey and Tar is peculiarly adapted for chronic throat troubles, and will positively cure bronchitis, hoarseness and all bronchial diseases. Refuse substitutes. Sold by J. Y. Breckenridge.

Are you lacking in strength and vigor? Are you weak? Are you in pain? Do you feel all run down? The blessing of health and strength come to all who use Hollister's Rocky Mountain Tea. 35 cents. L. E. Breckenridge.

Numerous and Worthless
Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co. Chicago discovered some years ago how to make a salve from Witch Hazel that is a specific for Piles. For blind bleeding itching and protruding Piles, eczema, cuts, burns, bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. Sold by J. Y. Breckenridge.

"My feet were swollen to immense size, and I was confined to my bed and physicians were unable to give me any relief. My doctor finally prescribed Foley's Kidney Cure, which made a well man of me." Avoid serious results of kidney or bladder disorder by taking Foley's Kidney Cure. For sale by J. Y. Breckenridge.

STORIES OF THE FAKIRS

By J. P. JOHNSTON
Author of "Twenty Years of Hustling," "What Happened to Johnston," Etc.

"EASY MONEY" IN SPECTACLES.

A Yale Graduate's Grafting Scheme—Made 8000 Weekly Duping Women of Middle and Lower Classes—Six Days a Week, One a Society Man—Joining Worthless Classes on Business Men—Finished in Penitentiary.

(Copyright, 1925, by Joseph B. Rowles.)
Some years ago, while closing out a bankrupt stock of jewelry, I opened up a store on Sixty-third street, in Englewood, Chicago.

One day a very tall man, dressed in

SHE WOULD LOOK AROUND A MOMENT AND DECLARE THAT SHE COULD SEE JUST FINE.

overall, blouse, stogy boots and Scotch cap, came into the store. He carried in one hand two or three large potatoes. Stepping up to me, he extended his right hand and said: "How are you, J. P. Glad to see you, don't know me, do you?" At first I didn't recognize him, but when he introduced himself as Mr. I instantly remembered him. He was a former Chicago acquaintance who for several years had held a responsible position with one of the largest wholesale dry goods houses in the city. He was a Yale college graduate, of an excellent family. Of course I

RAISED UP WITH A PAIR OF NOSE GLASSES IN HIS HAND.

was astounded to see him in such a garb. "What in the world are you doing?" I asked. "Making \$25 per day," he replied. "How, selling potatoes?" I inquired. "Grafting," he went on, "just grafting." Talking me to the front door, he pointed out a rickety old peddler's wagon, loaded with choice potatoes, and drawn by a lousy old horse with a played-out harness. There was a colored boy on the front seat. "That's my lay-out," what do you think of it?" he said.

"But," I asked, "how can you do any grafting in the potato business?" Touching in his pockets, he produced several pairs of spectacles, and proceeded to explain his system of grafting. The colored boy drove the old horse, while he made house to house calls, always among the middle and lower classes of people. He would rap at the rear door, and the lady of the house would find him with both hands full of those very choice potatoes. He would offer to sell her a peck or half bushel at one-half or two-thirds the regular market price. As this class of women are invariably looking for bargains, he had no trouble in persuading them to make purchases. This much accomplished, he had gained at least one point, and often two. In the first place he had broken the ice, and in many instances he had an opportunity to size up the woman's financial standing. Should he have occasion to change a five or even a two-dollar bill, the prospects were good.

The potato deal closed, he would bring forth a pair of glittering riding bow spectacles from his pocket and say: "See what I found over on the boulevard a few minutes ago. Aren't they beautiful?" "My! My!" the woman would exclaim, and would immediately try them on. As they were but ordinary window glass, she would look around

a moment and declare that she could see just fine. "Are they gold?" she would invariably ask. "Can't you see what they are? I'll bet they never cost less than \$12 or \$15," he would answer. Then, as if about to take his departure, he would casually remark that he had so easily seen for them and would sell them cheap. "How cheap?" would usually come the query. In setting a price, of course the grafter would be governed by the general appearance of the woman and

often by his knowledge of how much cash she had on hand. His price was all the way from two to five dollars, though he would accept one dollar, but nothing less. Occasionally he made a sale at five dollars, but two dollars was the popular price. He further explained that he carried in his right hand, upper vest pocket a pair of lenses of the right refractive power for a person of about 40 years of age; in his left hand upper vest pocket a pair for a person of about 50 years of age, and in one coat pocket a pair for a person of 60, and so on.

Musicians All Cranks. Prof. Frank J. Fitzgerald, dean of the music department of the Iowa Institute of Professional Musicians, declares that and that many of them are insane. Pretty Good Indication. "Gerald—I wonder whether I shall be numbered with the sheep or the goats on the day of judgment?" "I am sure to number you with the sheep," he says. "That's the using radium to cure a wart"—Houston Post.

Should his spectacle transaction take place in the house where the woman would be likely to pick up a newspaper, he would thus be able to give her a magnifying glass. Should she remark that they were not just right, he would say that he was sorry and would place them in his pocket. Then, suddenly reaching to another pocket, he would bring forth another pair, either weaker or stronger, and say: "See here, I believe these glasses are all right for you; suppose you try them again. Perhaps you were a little nervous when you tried them before." And he would continue to make these shifts from one pocket to the other until the woman, impatient, at last, that she could see all right, and then, if possible, he would close a deal.

On the other hand, should the transaction take place in the street, he would introduce a pair of what are known as plano lenses, which are nothing more than ordinary window glass. With these no matter what her eyes, a woman could see off into the distance, and often brought them on the spur of the moment, believing they would also enable her to do close work.

All was fish that came to this grafter's net. The spectacles cost him \$2.75 each. The material was "Roman alloy" which will tarnish and get black within three days after coming in contact with the face. This man declared that he had for years been working on what he considered a paltry salary. His father, who had been well to do, had died leaving his estate so entangled that it would cost more to unravel it than it was worth. As a result the son had grown desperate and had started out to make a "killing." The following Saturday evening, while at the theater, I saw this grafter, and one of the boxes, with a party of society people. He wore a full-dress evening suit, an elegant silk-lined overcoat, and diamonds. Happening to spy me in the paragon, he placed the thumb and forefinger of each hand together, and laughingly held them up to his eyes, in a manner to suggest spectacles.

Two weeks later I opened a store under the Great Northern hotel. One Saturday afternoon, the "grafter" called on me. He told me that for the past three or four weeks his profits had averaged \$300 a week. On this occasion he was dressed in an up-to-date business suit, fine derby hat and low-cut shoes, and had the appearance of a well-to-do professional or business man. "J. P.," he said, "although I always take a vacation on Saturday, I nevertheless clear ten dollars or more. Not that I particularly need it," he went on, "but just to keep my hand in." So saying, he took from his pocket a half dozen pair of nose glasses, of the same quality as his spectacle stock. As we stood looking from my store window, he said: "I'll just watch for my man and show you in an easy way to make a dollar." Then he gathered some mud from his shoes and rubbed it over a pair of his eye-glasses. "Emeralds come my man," he cried, in an instant later. "Now watch me." Daring from the store, he quickly stepped into the gutter, in front of my store, and, reaching down, took a particular pains to attract the man's attention. He rose with the pair of nose glasses in his hand. Of course the mud and clay clinging to the glasses gave them the appearance of having lain for some time in the dirt.

The man was at once interested and, putting them on his nose, he took some printed matter from his pocket and began reading, saying: "They just fit me." "Well," said the grafter, "five or five dollars and you may have them, and I'll bet, they never cost less than ten dollars." "No," said the man, "I wouldn't do that, but I'll give you two dollars for them." "Make it three dollars and take them alone," urged the grafter. "No," hesitated the victim, "but I'll split the difference and give you two dollars and a half for them." "All right," laughed the grafter, "take them along; they are no good to me." The man paid the money and passed on with a satisfied smile. The grafter laughed immoderately at his success and declared that there was always something ridiculously funny in every deal of this kind. In selecting his dupes, he kept his eyes open for a well-dressed man of business-like appearance, and of about 50 years of age. The glasses were of the proper refractive power to magnify the letters for such a person. They cost him less than 20 cents per pair.

Twenty minutes later the "grafter" bade me good-by. Meeting another man not three rods away, he played the same trick on him, and handed him for two dollars instead of five minutes. Looking toward the store, where myself and clerks were stationed operators, he held up two fingers, indicating the amount of cash received. I last heard of our college graduate grafter two years later. I read a full account of his implication with a gang of "get-rich-quick" sharpers, all of whom had been sentenced to from one to five years each in the penitentiary.

An Exception. According to this paper, hot water will prevent wrinkles. Husband—So? Then how do you account for the numerous wrinkles I have? "How do I account for them?" "You, you keep me in hot water nearly all the time, you know?"—Tit-Bit.

The Place to Find It. Mrs. Wages (reading)—A well-known physician says that one should never go into the water after having a hearty meal. Wages—That's right. It's better to go into a first-class restaurant after it, when it happens to have the price—Tit-Bit.

WISHEED TO OWN THEM. Mrs. Nurtich—I want a pair of swell white gloves to wear to a ball. Shopman—Yes'm. How long do you want them? Mrs. Nurtich—Look here, young man, I ain't talking about rentin' 'em; I want to buy 'em.—Illustrated Bits.

No Energy. The nations some men have of "A Contented mind" are hazy. They claim they have contented minds when they are merely lazy.—Philadelphia Press.

Iron Nerve. "Ma," said the little boy, rushing in the kitchen. "Mrs. Trueme next door wants to borrow your flatirons. Says she wants to throw them at a cat." "The nerve of it," replied his mother. "But that ain't the worst of it, ma." "What else?" "It is our cat that she wants to throw them at."—Chicago Daily News.

Much Married. "So, he married that Chicago divorcee, eh? I suppose they're off on their honeymoon now." "No, they didn't go anywhere. It seems she couldn't find any nice places where she hadn't already been on a wedding tour."—Philadelphia Press.

First Cloud. "Emeralds," said the young husband, "let us have no secrets from each other. Do you like onions?" "Yes, indeed," answered the young wife. "Well, I don't."—Chicago Tribune.

HOW A FRIENDSHIP GREW

The Story

Whether Hand Sapollo got a more enthusiastic welcome in homes where Sapollo was an old and tried friend, or where it was a stranger, is a question. Where women had come to rely on Sapollo for rapid, thorough cleaning in every part of the house except the laundry, they commenced without loss of time, to avail of this new price. Grubby little hands, and stained, worn old ones, whitened, softened, and smoothed out as if by magic, callous spots disappeared, and complexions cleared. Children ceased their strenuous objections to the scrubbing up process, because it became a

Do you want a clear and healthy skin?

pleasure. It freshened up the hands after dish-washing, removing the most disagreeable feature of that necessary task. It was found to keep delicate baby skins from chaffing better than salve or powder, and the crowning note in the song of delight came when an adult member of the family used it in a full bath, and realized that a Turkish bath at a cost of one dollar was obtained by a small fraction of the little, ten-cent, velvety cake.

But, strange though it may seem, there were people who had not learned to prize Sapollo. To these the advertising thing of Hand Sapollo came as a surprise. Sapollo, a scouring soap,

adapted for the hands, the face, the general toilet? Impossible, it would be hard. Who ever heard of such a cake. Finally a bold shopper carried home a cake. Does it look like Kitchen Sapollo? No one is sure, and a cake of that is bought, and comparison made. Behold a family using both the Sapollo for every conceivable purpose, and comparing notes! After easily and quickly cleansing a greasy

pan with Sapollo, Jane thought the other would be gritty, and was astonished at the smooth, dainty lather. Another was certain it would harden the hands and could scarcely realize how soft and "comfy" they felt after the washing. Then began the excitement of adventure; what would the new soap do? A girl tried it as shampoo. Her hair, pretty as a picture, "went up," with none perfectly of the unmanageable age-ness.

WHY TAKE DAINTY CARE of your mouth and neglect your pores, the myriad mouths of your skin? HAND SAPOLLO does not gloss them over, or chemically dissolve their health-giving oils, yet clears them thoroughly by a method of its own.

cold cream afterwards. A pimply face was treated to a daily bathing with the full aids, and promptly became clear. Tarrar on the teeth yielded to it, and teeth that had a tendency to wobble loosened of the skin regained their natural condition, till another family had joined the chorus of friendly acclaim. And so it is everywhere, those who know the "elder brother" welcome it as a new comer for the sake of the first known, and those who meet both for the first time are plunged into a whimsical wry as if they had to make a choice.

TRY HAND SAPOLLO. Its steady use will keep the hands of any busy woman as white, unstained and pretty as if she were under the constant care of a city manicure. It's true! "The Dainty Woman's Friend," in the suburbs or the city. Those ugly dark brown streaks on the neck, arising from tight collars, and on the forehead, from the suburban stoop, can be wiped out by the velvety lather of HAND SAPOLLO. It is indeed "The Dainty Woman's Friend."

Hard Record to Beat. Friend—Do you think that automobiles will eventually take the place of the railroad? Auto Enthusiast (gloomily)—I hardly think so. The railroad has carried more people last year in this country alone—Chicago Tribune.

The Erie Railroad has arranged for the most liberal expenditure of \$200,000 for the installation of the most modern and electrical equipment that has yet been put on the market. It is known as the Hall Electric Company Normal Clear System, and will require five power plants for charging the batteries, which will be located at Erie, Buffalo, Jamestown, Hudson, Johnstown, Warren, and West Chester. The line between Buffalo and Erie, 22 miles, is to be equipped at once. The first 12 miles, between Buffalo and West Chester, of a mile apart, for the rest of the distance, about one and one-half miles apart. It will require five power plants for charging the batteries, which will be located at Erie, Buffalo, Jamestown, Hudson, Johnstown, Warren, and West Chester. The line between Buffalo and Erie, 22 miles, is to be equipped at once. One-half mile running race
 Gray Prince, (Holler) 1-1
 Babe, (Connors) 2-2
 Best time—1:08.

Brookparkite Dies.

Frank H. Hall, of Brookpark, died Sunday morning at 3:30 o'clock. His death was due to pneumonia, from which he had been suffering for about ten days.

Mr. Hall was 53 years of age. His residence was three miles west of Brookpark, where he had lived since three years ago, when he moved from White, S. D. A wife and one daughter are left to mourn his demise. The funeral was held Tuesday, Rev. Warman, of St. Paul, officiating.

Too Early to Suit.

Last Saturday morning about two hours after midnight the slumbering mortals within the portals of Pine City were gently awakened from out the Land of Nod, and were treated to one of the most souful, inspiring sism calliope events of the season. Nothing quite so impressive had struck our musically inclined (?) ear since bovhoo's happy days, when we were forced to listen to the early morning "bedlams" of the chickens, the cows, the dogs and the boss, and these were all shoved off the boards by one unearthly blast of

the straw-fod calliope on the morning in question. Those who slept throughout the sweet-sounding (?) orical were either luckly endowed with poor hearing or were too lightly held by Morpheus, the slumber king. After putting all the great composers on the shelf by superior strains of the stuff that "sooths the savage breast," the concert came to an abrupt end, having succeeded in spoiling about two hours and sixty minutes of good, peaceful slumber.

Upon investigation we heard that the "calliope" was none other than the whistle of a traction engine on the Stochi farm. A number of "terrible twins" and a "simple Simon" or two had put into practice their loftiest ambitions. They awoke, went to the engine, worked up steam and then manipulated the terrific terramule was indescribable—fact is, it covered every note known, and some that weren't known before. Firemen turned out looking for trouble, and timid persons smothered themselves 'neath the kiverlets as does the frightened ostrich on a sun-scorched desert.

A time-lock should be attached to those infernal machines that arouse the people before daylight and a hobble should be attached to the dear big youths who would rather spend their hours in "bombastical" amusement than do a minute's work in tending the earth with a hoe, or some other equally honorable employment.

A Relic of Early Days.

One of the curiosities at the Fair this week was an old map, older in fact than a big majority of those who saw it, or rather, those who overlooked it. The curiosity is a map of territorial Chingwatama, of the days when Indians were vastly more numerous in these parts than white men. Of course, what is now Pine City was nothing but pine timber or stumps those days. The map is the property of Emil Munch and was secured by Henry Rath for exhibition.
