The above is a picture of the Pine City High School Debating Team that have met every team in the Eighth Congressional District and defeated them all, their last victory was last Friday evening at Stokl's hall, when they defeated the strang team of the Duluth Central High School. In all of the contests the boys have had this winter they have been successful, only the one they were robbed of with Humbolt High, of St. Paul.

The boys have had both the affirmative and negative sides of the question and have been successful in both several times. The debate last Friday evening was the most closely contested of any the boys have had, as the Duluth team was by far the strongest team they have had to compete with this season, as they put up a much stronger argument than the Humbolt team, by whom they were defeated.

Pine City can well feel proud of her High School Debating team of 1909 and 10 and the Pioneer takes pride in again presenting their pictures to its readers.

CIVIL SERVICE EXAMINATION

A Competitive Examination Under the U. S. Civil Service Commission will be Held in this Place Saturday May 21, 1910

As a result of the examination it is expected that certification will be made for filling the position of carrier on rural route No. 3, and for other vacancies at that office as they may occur in the future, unless it shall be decided in the interest of the service to fill the vacancy by reinstatement, transfer, or promotion. Application for this examination must be made on the prescribed form, which, with necessary instructions and copies of the regulations, may be obtained from the postmaster at the office named above.

Applicants should forward their applications promptly. Unless applications are received by the Commission at Washington about ten days prior to the date of the examination it may be impracticable to admit the applicants to the pending examination.

Section 5 of the regulations contains all information which is furnished applicants relative to the scope and character of the examination.

For further information relative to the MANNER of appointing rural carriers, apply to the postmaster at the above-named office, or to the

U. S. Civil Service Commission,

MANUFACTURED AND ROUGH LBR.

Washington, D. C.,
April 14 '10.

The United States Department of Agriculture in connection with the study of the wood-using industries of various states is learning what part of the rough lumber output of our American saw mills passes thru a second process of manufacture before it is ready for the consumers. The study is regarded as having an important bearing on the extent to which more economical use of our forest resources can be had.

In the United States waste in the woods, the mill and the factory is so great that two-thirds of what was in the tree is lost on the way to the consumer. The heaviest part of this loss takes place in the saw mills. Much

of this mill waste is unavoidable under present conditions, but the greater the demand for the product and the higher its value, the better will economy pay. Waste in manufacture is very small compared with that at the saw mill. Study of the demands of wood-using industries may be a means of finding out how the mill may profitably market a part of what now goes to the burner in sawdust, slabs and trimmings.

Statistics of the wood-using industries of Massachusetts, Maryland, North Carolina and Wisconsin, lately gathered by the Department of Agriculture in cooperation with these states, show that of their total saw mill output 36 per cent. is used in the form of rough lumber and 64 per cent. is manufactured into other forms of output. If the same ratio holds for the entire country as for these states, about 13 billion feet of lumber is used yearly in rough form and 23 billion feet is further manufactured.

This is the first time that detailed figures have been obtained on the subject. The study that has yielded these figures has also in view to ascertain what commodities are made wholly or partly of wood, the various kinds of wood used, their origin and their cost, as well as other data of value to the growers of timber and to the sellers and buyers of lumber.

In making up the figures, lumber used as bridge timbers, house frames, farm fences, trestles, board walks, walls and similar classes of structures, with only such cutting and fitting as is given it by carpenters, was classed as rough lumber. That made into flooring, finish, siding, sash, doors, frames, panels, stairs, boats, vehicles, boxes, baskets, turnery, wooden ware, cooperage, musical instruments, farm implements, furniture, spools, handles and like forms, was placed in the class of finished lumber.

The present aggregate population of the four states is estimated by their respective state officials to be 9,165,975. The population of the United States in round figures is 90,000,000, according to recent estimates. The average lumber cut in the four states for 1907 and 1908 (the one an active—the other a dull year) was 3,763,283,000 feet. Calculated on this basis, the per capita use of sawn lumber in the four states was 410 feet. The per capita use in the four states of lumber further manufactured was 283 feet. These figures indicate a lavish use of lumber in the United States, for our per capita consumption is from three to ten times that of the leading nations of Europe.

P. C. MET DEFEAT.

Pine City High School Played Mora At Mora Saturday. P. C. Defeated By Score Of 11 To 2.

The Pine City High School baseball team met defeat in their initial game at Mora last Saturday. Altho the score was 11 to 2 in favor of Mora, the game was not so one-sided as it first appears. Mora succeeded in bunching their hits in the 1 and 8 innings, and by taking advantage of one or two errors on Pine City's part, netted all their runs in these two innings. Pine City, however, played steadily throught the game, and up to the last half of the 8, the game was undecided.

Howard Robinson, who pitched the 1 inning for Pine City, was replaced in the 2 by Clark Pennington. Pennington twirled splendidly throught the remainder of the game and by some clever head work, pulled the team out of several tight pinches. The Mora battery was strong and succeeded in striking out 19 men.

Another thing which contributed to Mora's success was the archibulatic backing they received from their school and the business men of the town. The entire expense of the game was met by Mora business men and no admittance was charged. Support such as this will encourage any team to win, and it is such support that our high school team is just now in need of.

Tomorrow the team will meet Rush City on the local grounds. They have a good chance to win, and respectfully solicit the support of the town.

THE NEWSPAPER GUY.

I find a man pushing his way through the lines

Of the cops where the work of the fire shines.

"The chief!" I inquire, but a fireman replies:

"Oh, no! Why, that's one of those newspaper guys."

I see a man walk through the door of a show

Where great throngs are blocked by the sign "R. O."

"Is this the man that no ticket he buys?"

"Star nothing! He's one of those newspaper guys."

I see a man start on the trail of a crook.

And he scorns the police, but he brings him to book.

"Sherlock Holmes?" I inquire. Some one scornfully cries:

"Sherlock h—! Naw: that's one of those newspaper guys."

And some day I'll pass by the great gates of gold

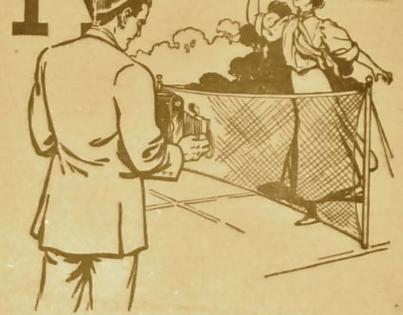

And see a man pass through unquestoned and bold.

"A Saint!" I'll ask, and old Peter'll reply:

"Naw, he carries a pass. He's a newspaper guy."

The Chorus Joins In

All our customers agree, with one accord, that this is the satisfaction lumber yard.

That's because we do our level best to give every man all that's coming to him when he buys here. The result is, that once we get a customer, we usually keep him. Our song is "Quality first. Price second." "Quality" has a loud voice. So has "price." But a duet between the two, such as is always sung at this yard makes everybody join in the chorus in proclaiming us the satisfactory lumber dealers.

Won't you join the chorus the next time you need lumber or building material? We know we can please you if you give us a chance.

New Orleans has a novelty in becoming. It appears that the great demand of that city is for babies, and to supply requirements recourse has been had to other localities where the infantile is larger. COL. ROOSEVELT REACHES BUDAPEST—IS GIVEN ROUSING RECEPTION.

VATICAN NUNCIO MAKES CALL.

Papal Messenger Sees Former President in Vienna—Incident Overshadowed Final Function Tendered Him by Emperor, With Whom He Dines.

Budapest, April 18.—Hungary capitulated to Colonel Roosevelt. The surrender commenced when he reached Wolosny, after crossing the little river bridging the dual kingdom, and continued in every village and town passed, climaxing with a tremendous outbreak at Budapest last night.

Thousands had waited for hours in torrential rain. When he appeared upon the platform they let loose enthusiasm such as never was before in the dual kingdom, either to king or citizen.

Colonel Feels at Home. Colonel Roosevelt was greatly pleased with the welcome. He voiced this pleasure when speaking at the station at Budapest, saying:

"I feel as if I am at home."

The reception at Budapest was riotous. The platform was thronged with officials when the colonel, dressed in a sombrero and his now famous khaki coat, appeared. Train hands turned the tops of near-by cars into an impromptu balcony, from which they sent up cheer after cheer.

Cheering is Unceasing. There was a perfect football rush to the waiting motor. The party was obliged to resort to strenuous shoulder work to get through in the drenching rain. The passage through forests paved with cheering thousands to the hotel, where the colonel, forced through unceasing cheering to come to the balcony overlooking the river, made a speech.

The Hungarians have viewed Colonel Roosevelt as the personification of the square deal and they remember every detail of his trip. Vienna was a fine show, but Budapest was determined to go one better or burst a trade. Today there is a strenuous program of five days in one.

Vienna, April 18.—While the banquet given by Emperor Francis Joseph at the palace was the final function of royalty in honoring former President Roosevelt, this government event, held in partial eclipse by the visit to Colonel Roosevelt by Mgr. Giovanni di Belmonte Pignatelli, the papal nuncio to Austria.

This incident is considered here as being of the greatest significance as a sequel to the Vatican's recent pronouncement.

Korens Gives Luncheon. The nuncio in the full ecclesiastical vestments of his office, and accompanied by his secretary, Mgr. Rudolf Stockinger, called upon the former president after the luncheon which Ambassador Korens gave in his honor.

After being presented by the American ambassador, the papal nuncio and Colonel Roosevelt withdrew. They talked together for twenty minutes, but what transpired it is impossible to state, as both conspicuously declined to give any information.

Dines With Emperor. Colonel Roosevelt and Kermit, in evening dress, went to the palace in a court carriage and were met by Count Bellegarde, master of the kitchen.

As the former president and his son reached the threshold the doors opposite were thrown open and the emperor, wearing the uniform of a field marshal, advanced to meet his guests.

After greeting the emperor, Colonel Roosevelt presented Kermit and in a few minutes the emperor, with the former president on his left, led the way through several splendorous apartments to what is called the "small gallery," which overlooks a garden.

Thirty-five additional guests at an expert in a New York shooting case, objected to taking the usual oath to tell the truth, the whole truth, and nothing but the truth. He said he was willing to tell all he knew, but that it was quite possible also that he might be mistaken, or that he was not acquainted with the whole truth. If all experts are as morbidly conscientious as this about their own fallibility, expert testimony is going to be revolutionized.

Colonel Roosevelt arrived at Vienna on Friday and was given a warm greeting by the people of the Austrian capital.

He was met at the railway station by Herr von Mueller, principal secretary of the foreign office, representing the Austrian government, Ambassador Korens, and other officials of the American embassy, and the civic authorities.

In the course of the morning Mr. Roosevelt made a formal call upon Baron von Aehrenthal, the Austrian-Hungarian foreign minister, and in the afternoon he was received in audience by Emperor Francis Joseph.

The rest of the afternoon was occupied with the reception at the American embassy, a visit to the military riding school, and an inspection of the houses quartered in this city. The day concluded with a dinner in honor of Mr. Roosevelt given by the officials of the foreign office.

SOUND SENSE FROM JIM HILL

IS OPPOSED TO SIX-FOOT CHANNEL FOR RIVER.

Archbishop Ireland and Gov. John Burke Among the Speakers.

St. Paul.—Hon. James J. Hill, empire builder and railway magnate, was the principal speaker at the opening of the new St. Paul hotel.

Surrounded by men prominent in every active walk of life, Mr. Hill discussed the problem of transportation in the Northwest with special application to the Twin Cities. He criticized the plan of constructing a six-foot channel in the Mississippi river from the Twin Cities to St. Louis, saying that less than a 30-foot beat was beaten by a bar every day in the week. He referred to St. Louis, where a 10 to 12-foot channel from St. Louis to New Orleans is the regular order, asserting that even under such conditions, less than 1 per cent of the straight business done out of that city was carried by water.

"If we could get a 14 or 15-foot channel it would do some good, but you might as well latch and plaster the river as to dig a six-foot channel. I built some boats on Lake Superior and they were the largest boats on the lake. They carried 3,000 tons. Soon I found that for \$28 a day more, I could run boats that carried 12,000 tons. A box car will beat any ten-foot channel on earth, but when you get a fifteen-foot channel, the boxcar is out of the running."

Speaking again of the waterways questions, he said that deepening the channel to 20 feet made Duluth the largest port in the world and yet the largest part of the lake business of the freight there is handled by rail.

Governor Eberhart, talked of the advantage St. Paul and Minneapolis hold in a commercial way and said that the Twin Cities were the key to the commercial situation in the Northwest.

The program of addresses was as follows: Toastmaster—Pierce Butler. "The Growing Northwest"—James J. Hill. "The Business League, Promoters of the New Saint Paul"—Paul Duff. "The State of Minnesota"—Governor Eberhart.

"The Future"—Archbishop Ireland. "The Sister City and the New Saint Paul"—Mayor James C. Hays. "The Press and the New Saint Paul"—George Thompson. "The Railroads and the New Saint Paul"—Howard Elliott.

Washington, April 15.—Representative Henry T. Rainey of Illinois by innuendo accused the president of the United States with being intimately concerned with the sugar trust and the sugar frauds.

Mr. Rainey referred to President Taft's message sent to congress about a year ago in which the president advised against an investigation of the sugar frauds by congress for the reason that "by giving immunity and otherwise it might prove an embarrassment in obtaining conviction of the guilty parties."

Wickersham as Trust Protector. Reviewing the history of the sugar trust and especially recent fraudulent acts in underweighing raw sugar for the purpose of defrauding the government of millions in revenues, Mr. Rainey said:

"Prominent stockholders and directors of the sugar trust were in grave danger not long ago; the doors of our penitentiaries were opening for many of them. They have succeeded, however, in obtaining the control of the Republican party in bringing about this most delinquent arrangement."

"The attorney general of the United States until his appointment was a sugar trust attorney familiar with the methods of the trust, exhibited by its officials in their difficulties."

GERMANY AND CANADIAN WHEAT

LOOKS TO THE CANADIAN WEST FOR HER SUPPLY.

A dispatch from Winnipeg, Manitoba, dated March 18, 1910 says: That Germany is "anxious to secure a share of Canadian wheat to supply her imports of that cereal."

The recent adjustment of the trade relations with Germany has made it possible to carry on a Canadian-German trade with much fewer restrictions than in the past, and considerable development of trade between the two countries is now certain.

The great men of the United States are alive to the wheat situation in this country now, and there is consequently the deepest interest in every feature that will tend to increase and conserve the wheat supply.

With its present 650,000,000 bushels of wheat and wheat and all efforts to increase it almost unavailing, and the rapidly growing consumption of its increasing population, there is certainly the greatest interest in every feature that will tend to increase and conserve the wheat supply.

The United States is to look to the Canadian west for her supply. The Americans who have gone to Canada, are to-day reaping the benefit of the demand for Canadian wheat and they will continue to gain in the benefits thus reached for a long many years. Splendid yields are reported from the farms of that country, and from that the government gets away with 100 acre blocks, and from other lands that have been purchased at from \$12 to \$15 an acre. James Munter, near Eyre, Saskatchewan, a former resident of Minnesota says:

"Last fall got over 30 bushels of wheat to the acre and had 30 acres of it; also 200 acres of a small farm on which I had six of which I got almost 20 bushels per acre. Had 20 acres in oats and got 70 bushels per acre and 500 bushels of potatoes on one and three quarter acre, and can therefore safely say that I had a fine crop and am well satisfied with my homestead."

It is considered a very breaking crop which I had six of which I got almost 20 bushels per acre. Had 20 acres in oats and got 70 bushels per acre and 500 bushels of potatoes on one and three quarter acre, and can therefore safely say that I had a fine crop and am well satisfied with my homestead."

The train carried no express matter. Four of the pouches have been recovered, but the robbers rifled the others and now are hiding in the hills and canyons between Marquette and Oakland. Sheriff's posse from two counties, detectives and post office inspectors on horses and in automobiles are engaged in the search.

The robbers were well armed and a battle is anticipated.

The passengers on the train were not disturbed. After getting the mail sacks the robbers cut the engine loose from the train and set it wild, throttle open, down the main track to the east.

In the direct path of the engine was a section of passenger train No. 5, west-bound, heavily loaded. But for the presence of mind of a telegraph operator at Salsola a serious collision would have taken place. The engine was thrown into a ditch in the nick of time.

The train robbery is the first in California for several years. It was plotted and executed in during spectacular fashion.

DETAILS OF I. C. FRAUD TOLD. President Harahan Has Full Confession of Employee Regarding Alleged Conspiracy.

Chicago, April 18.—President J. T. Harahan of the Illinois Central Railroad company is in possession of a full confession made by an employee of his road regarding the alleged conspiracy by which the company was defrauded of more than \$1,000,000 in connection with car repairs.

The employee who has given the information regarding the alleged frauds whereby several car manufacturing companies are said to have defrauded the company, was put through "third degree" for more than twenty hours. Steps soon will be taken to have the informant go before the grand jury to be taken before the grand jury for indictments. That the information involves officials of the Illinois Central, either now in the employ of the company or recently officials of manufacturing companies, is positively stated. Just how high the railroad officials stand is not disclosed, but it is stated that a sensation will be created when the names are disclosed.

STATE TACKLES OIL TRUST. Government Hedges Back to Give Tennessee Chance in United States Supreme Court.

Washington, April 15.—The government has for the moment given way to let the state of Tennessee wrestle with the Standard Oil in the United States Supreme court.

While the main attack upon the great oil corporation and the federal anti-trust law has been deferred for weeks, or perhaps even months, by the court's decision that the case must be argued as a subsidiary matter, it will be fought before the court this week over the attempt of Tennessee to oust the standard from doing business there because of alleged violation of the anti-trust statute of the state.

The state courts have held against the corporation, which now appeals to the federal supreme court from the judgment of ouster.

GERMANY AND CANADIAN WHEAT

LOOKS TO THE CANADIAN WEST FOR HER SUPPLY.

A dispatch from Winnipeg, Manitoba, dated March 18, 1910 says: That Germany is "anxious to secure a share of Canadian wheat to supply her imports of that cereal."

The recent adjustment of the trade relations with Germany has made it possible to carry on a Canadian-German trade with much fewer restrictions than in the past, and considerable development of trade between the two countries is now certain.

The great men of the United States are alive to the wheat situation in this country now, and there is consequently the deepest interest in every feature that will tend to increase and conserve the wheat supply.

With its present 650,000,000 bushels of wheat and wheat and all efforts to increase it almost unavailing, and the rapidly growing consumption of its increasing population, there is certainly the greatest interest in every feature that will tend to increase and conserve the wheat supply.

The United States is to look to the Canadian west for her supply. The Americans who have gone to Canada, are to-day reaping the benefit of the demand for Canadian wheat and they will continue to gain in the benefits thus reached for a long many years. Splendid yields are reported from the farms of that country, and from that the government gets away with 100 acre blocks, and from other lands that have been purchased at from \$12 to \$15 an acre. James Munter, near Eyre, Saskatchewan, a former resident of Minnesota says:

"Last fall got over 30 bushels of wheat to the acre and had 30 acres of it; also 200 acres of a small farm on which I had six of which I got almost 20 bushels per acre. Had 20 acres in oats and got 70 bushels per acre and 500 bushels of potatoes on one and three quarter acre, and can therefore safely say that I had a fine crop and am well satisfied with my homestead."

It is considered a very breaking crop which I had six of which I got almost 20 bushels per acre. Had 20 acres in oats and got 70 bushels per acre and 500 bushels of potatoes on one and three quarter acre, and can therefore safely say that I had a fine crop and am well satisfied with my homestead."

The train carried no express matter. Four of the pouches have been recovered, but the robbers rifled the others and now are hiding in the hills and canyons between Marquette and Oakland. Sheriff's posse from two counties, detectives and post office inspectors on horses and in automobiles are engaged in the search.

The robbers were well armed and a battle is anticipated.

The passengers on the train were not disturbed. After getting the mail sacks the robbers cut the engine loose from the train and set it wild, throttle open, down the main track to the east.

PINE CITY, MINN., APR. 22, 1910.

It is so stylish to kick nowadays that the average man kicks at his own good fortune.

ONCE in ten years the maiden lady of doubtful age is obliged to tell the year of her birth. The census enumerator is the custodian of many a secret.

With the prevailing prices of pork and wheat, the Minnesota farmer certainly has no kick coming. A glance at the bank book of many of our farmers would reveal a condition that would astonish the average man.

MR. MIDER said in the last issue of the Cooperator, in referring to the late dam article in the Pioneer: "Had they said something good about me, the people would have reason to be suspicious." That goes without saying as everyone knows that.

THE census taker is abroad in the land. Aside from the law requiring that full and complete answers be given to the questions asked, it is to the interest of all that the enumeration be as full and complete as possible and that the statistics be accurate and comprehensive. It should be remembered that the information given the enumerator cannot be used for any other purpose and that it is in no way connected with the taxing of property.

The report of the Commissioner of the Census when published will make a very interesting volume and is going to knock out some old doctrines of political economy. It will be interesting, for instance, to read the report on farm mortgages and the increase in the value of farm property in Minnesota in the last ten years. It would be interesting also, if it could be shown just how much money there is in the hands of the agricultural population of our state at the present time.

The Republican papers of our state, (some of them at least) seem to be worrying because of the "unrest" in labor organizations. The strikes of the past few months and the threatened strikes of the future should not worry the republican party. There is a reason for it; the laboring men of the country didn't strike under a Cleveland administration. They were too anxious to get a job at any price to think of striking for higher wages. Keep cool; don't worry. The laboring man knows which side of his bread the butter is on and he is going to stay by the party which has stood by him.

It is decidedly amusing to note with what warmth some of the papers in our state discuss the high prices prevailing at the present time. Of course these prices are charged to the republican tariff. It will be amusing to note the manner in which these same papers will try to square themselves before the voter between this and next November. Prices are high. Wages are high and every man in America who wants work can get it, and that is a condition which is nothing new under a republican tariff and under a republican administration. So what's the use of talking about it?

J. ADAM BREDI will be a candidate for the legislature. A large number of his friends have urged him to become a candidate. He has a large acquaintance and has a number of important messages he is interested in and would make a most efficient member from this district. Here's our hand Adam! Glad to see you run. Knowing well as we do that you will help this district as well as the state and nation, and spread the gospel of good cheer and sound sense where ever you go. The present representative, Mr. H. P. Waddy, has been a good able member, but he has extensive private interests and has served the public well for two terms and it is somewhat doubtful if he will care to return.

—Attorney S. C. Scott of Hibbing, is attending the spring term of the District Court which is in session this week.

—Miss Erickson, of Rock Creek, was in Pine City doing shopping Saturday. She returned home in the afternoon.

—Thomas Cosgrove, police chief, is relieved from that position for a short time, as he is busy taking the census of our village.

—The Pine City High School baseball team played a game with Mora at that place Saturday and were defeated by a score of 11-2.

—There will be English services in the German Lutheran church of this place at 7:30 in the evening, May 1, by A. J. Mueller, of Sandstone.

—Evangelist George L. Barker, who held services here last fall, is conducting meetings at Hibbing. Good success is attending his efforts.

—Mr. Vernon Vaughan, who has been employed in the Jumer Tonsorial parlors for the past two months, returned to his home at Rush City Monday.

—Regular services at the Methodist church Sunday. Preaching by the pastor morning and evening. Everyone is cordially invited to attend these services.

—On Wednesday night there were about three hundred transient people in town, owing to the court convening this week. They were either witnesses or jurors.

—Judge J. C. Nethaway of Stillwater came up in his touring car on Wednesday morning, he being counsel for J. A. Ingham, of Sandstone in his cases in the district court.

—Chester Jackson has opened a pool and billiard hall in the Pat Connor building on main street. He has a neat, up-to-date and respectable place and deserves his share of the business.

—Gust Wetberg, of Sandstone, and W. H. Barnik of Finlayson, who are petit jurors at the spring term of court which is in session this week, made the Pioneer a pleasant call Tuesday evening.

—Royal Hunt who has been in the west for the past five or six months, came home Sunday to remain for a few days visiting with relatives and friends. Royal is always a welcome visitor as his many friends are always pleased to see him.

—Arthur Hoffman, who has been in the northern part of the state running the crane on a dredging boat for the past year, returned home Thursday morning to spend a couple of days with relatives and friends. He will depart for the north again Tuesday.

—E. B. Killam, of Weirdale Florida, a nephew of J. Y. Breckenridge, who has been here for some time, left today for his home. Mr. Killam was in Pine City about ten years ago and notes with surprise the improvements that have occurred here during his absence.

—At St. Mary's Catholic church this week beginning Tuesday morning, they have been holding forty hour devotion. The altar was nicely decorated and five priests have been assisting Fr. Leo. They are: Rev. Fr. S. A. Irish of Duluth, A. Plachts of Royalton, J. R. Powers of Rush City, Frank Bousha of Lonsdale and Gospodar of Little Falls. There has been a fine choir in attendance at most of these services and the faithful have been in attendance at the church from 6:30 in the morning until 8:00 in the evening. The services closed last evening with the late services.

—On Tuesday evening the Pythian Sisters entertained a pleasant party at their country club. A. R. W. Olson

won the first prize by winning seven games and Mrs. Bernice Huber the booby prize by only getting one game to her credit. At the close of the game the ladies served a luncheon which was enjoyed by all. The ladies are pated for their entertainments and whenever it is known that they are to entertain, all who are invited are sure to present.

—Mrs. F. M. Smith and Mrs. Paul Perkins departed the first of the week for Stillwater and St. Paul. Mrs. Smith will remain for an indefinite length of time with relatives and friends at Stillwater. Mrs. Perkins is expected home the first of the first of the week.

WILLOW RIVER.

S. L. Mottle was in Pine City the fore part of the week on business.

The dance given by the base ball team was well attended. Those present report having had a fine time.

By the way things look at present we are going to have some cement sidewalks laid this summer. We hope that we will as they improve the looks of a town.

We had a nice snow storm Saturday evening and Sunday morning when our villagers awoke they found about three inches of snow on the ground, but it did not last long on account of the warmth of the ground.

Thos. Hady is getting his new soda fountain set up and in a short time our citizens will be enabled to get a cold refreshing drink of this popular summer beverage. We wish Tom success.

Willow River has organized a good base ball team for this season and at its close we expect to see them leading the teams in this neck of the woods.

Mr. Mottle was in Dunham last week and he thinks it is a fine place if the stumps were only taken out of the street. He says that it will take an exceedingly high stepping horse to clear them.

Would it not be a good idea for our Town board to take some kind of steps to fix up the sand hill so that ladies that have occasion to climb the hill with baby carriages can do so and not be obliged to wait until help arrives.

MEADOW LAWN.

Mr. Chalupsky, of Beroun, is around taking the census in this town.

Mrs. J. O. Clynne and niece, Effie, spent Monday with Mr. and Mrs. L. Clynne near Beroun.

Mr. and Mrs. Lahart returned Monday from Sandstone, at which place they were spending a few days.

Mr. Lyseth purchased a horse of Mr. Dosey Saturday. He also bot four cows from W. L. Cummings.

Mr. and Mrs. R. E. Hamlin attended the debate at Pine City Friday.

Miss Eunice Fisher will close her school Friday, with a program and picnic to be held at Mr. Sandberg's grove. If the weather is unfavorable it will be held at the school house at two o'clock. Everyone is invited to attend.

Mrs. McAdams spent Monday with Mrs. Livingston.

Chas. Franklin spent Sunday with his family.

ROCK CREEK

Mrs. Marie Hanson is very ill and is not expected to live.

There will be an ice cream social at the hall Friday evening, April 22, given by the Ladies' Aid Society for the benefit of the M. E. Church.

We are sorry to announce the death of young Albert Novak. He died last Wednesday at eleven o'clock p. m. He suffered with paralysis and rheumatism, which went to his heart. He was eighteen years of age and was an innuinate, hard working young man and beloved by all who knew him. He leaves his parents and a number of brothers to mourn his departure. We certainly feel for those who are mourning him and hope that his suffering has ended and that his spirit is with the one who called him from this earth. Internment was made last Saturday in the Bohemian cemetery at one o'clock in the afternoon. The funeral was largely attended.

DEER VALLEY

The late snow storm, accompanied by a heavy frost, did considerable damage to fruit trees and crops.

E. Johnson, of Rock Creek, shipped another car of cattle Saturday last. The farmers around here say that Mr. Johnson pays good prices for livestock.

What can be seen of the wheat and oat crops looks fine in the Valley and if nothings happens we will have a bumper crop this fall.

Chas. Heineman was in Minneapolis a week ago last Monday visiting his three sons. He reports having had a fine time. He returned home the following Wednesday.

Chas. Heineman has contracted with A. M. Challen, of Pine City, for several acres of land at Rock Creek on which he will build a residence, where he and his wife will make their future home.

While at the county seat last Friday Chas. Heineman called on his old friend, A. M. Challen, and found him doing a rushing business. It makes no difference where A. M. is in business. He will have a good trade as he is a practical business man.

There will be a petition presented to the Town Board at its next meeting to open up the road one half mile north from the corner of the school house, and if the board will heed the petition, we will then be enabled to get our mail by the rural delivery from Pine City instead of having to go eight miles to Rock Creek, and besides we would have a much shorter road to the county seat and not be obliged to go away around by the old government road.

At the meeting that the Town Board had with settlers on the east road, it was decided to put in a new bridge at the Richard Caroon place. E. J. Heineman took the contract to furnish the stone and Mr. Caroon the stringers. This will be a good, substantial bridge. Jas. Caroon is also going to put in two culverts near the school house and grade the road along his land in accordance with the survey. When these improvements are completed we will have a good road.

The debate held Friday evening in this place between Pine City and Duluth resulted in a decision of 2 to 1 in favor of Pine City. This makes the third defeat Duluth has received at our hands in the last three years. The Duluth boys came down seeking revenge but—

The game of base ball played at Mora last Saturday afternoon between the Mora and Pine City high school teams resulted in a victory for Mora. James Wandel, who caught for the local team the fore part of the game, received an injury that sent him to the bench. The boys speak very highly of Mora and its people and say they had a good time and were entertained in fine style.
