### COUNTY CONVENTION

The Republican County Convention Held at Hinckley Friday Well Attended Resolutions Passed and Delegates Elected

The Pine County Republican convention was held at Hinckley last Friday afternoon.

The meeting was called to order at 1:30 in the Village hall, by chairman of the County Committee, J. T. Craig, who read the call.

The names of Mr. Scofield, of Brookpark, and Mr. Johnson, of Nickerson, were placed before the convention as temporary chairman. Mr. Johnson, receiving the largest number of votes of the delegates present, each town and village being called and the delegates stating which candidate they favored, was declared elected. George W. Empey, of Hinckley, having no opposition as temporary secretary, was declared the secretary.

On motion a committee of three were appointed on credentials, and a committee of three on resolutions. While the committees were out the temporary organization was on motion made permanent.

The committee on credentials reported that they found forty-three delegates entitled to seats in the convention. J. T. Craig, chairman of the committee on resolutions, then offered the following resolutions which were unanimously adopted.

RESOLVED—That we, the Republicans of Pine county in convention assembled, reaffirm our allegiance to those well known principles of Republican policy which in state and national life have brought about the greatest development, the fullest prosperity known to any people in the world's history.

We appreciate the distinct services rendered to the people of the state and nation by our Junior United States Senator, Moses E. Clapp. We believe that his thorough knowledge of public questions and wide experience in public life equip him for still greater service to the nation in its highest legislative body, and we do hereby endorse his candidacy for re-election.

We heartily favor a reappointment of our legislative districts so that our newer and growing sections of the state shall have a more equitable representation in our state legislature.

We approve and heartily endorse the movement for the greater development of our state resources, and the advertisement of these resources, particularly our unoccupied farm lands to the outside world, and recommend larger appropriations by our state legislature for advertising the advantages of our state.

We approve of the movement for better roads in our rural districts, and believe in the extension of industrial and agricultural education in our schools.

After the reading of the resolutions and their unanimous adoption, a motion was made for the chair to appoint three delegates to adjourn and select ten delegates to the state convention, said appointments to be ratified by the convention if found satisfactory. This raised considerable excitement and a number of speakers spoke for and against the motion; in the end however the chairman announced that the motion had carried, and appointed three delegates, who named the following as delegates to the State Convention which was held in St. Paul Tuesday, who were ratified by the convention:

W. P. Hogan, Kerrick; George W. Empey, Hinckley; A. M. Challen, Pine City; J. Y. Breckenridge, Pine City; Edward Peterson, Cornell; Chas. Olson, Sturgeon Lake; D. W. Gowan, Sandstone; Edward S. Larson, Sandstone; J. T. Craig, Hinckley and Gust Anderson, Rock Creek.

There being no further business the convention on motion adjourned sine die.

### COUNTY S. S. CONVENTION

The County Sunday School Convention Was Held in This Place On Wednesday and Thursday.

The Sunday School convention held in this place Wednesday and Thursday was divided between the M. E. and Presbyterian churches. Wednesday at the Methodist church was a good day and much was accomplished, although it was very hot inside. The afternoon session was taken up with reports by the different officers and talks by Rev. Parkinson and Rev. Parish. The session closed with a singing service, after which Mr. Harris delivered an address of welcome.

Rev. Paddock addressed the assembly in memory of the late pastor of the M. E. church which was followed in turn by a response to the welcome address by Rev. Shortz, of Nickerson. Mr. Piper, Superintendent of the M. E. Sunday School in this place, then gave a very instructive talk. A. M. Locker then addressed the congregation and a duet by Miss Edith Hamlin and Joe McCoy concluded the program for the evening.

The morning session at the Presbyterian church was opened by a devotional service led by Rev. Fisher. After this came a duet by Misses Ball and Lind of Bruno. The duet was followed by a recitation by Zella DeVoe of Brookpark. The remainder of the session was taken up by short talks and a business meeting.

The afternoon session was taken up with devotionals, a reading by Miss Gunn and a solo by A. R. W. Olson. After the report of committee on courses, Rev. Jackson, of Hinckley, delivered the convention sermon. The delegates from out of town report a good time and many fine points gained.

### Rev. W. K. Gray Dead.

Rev. W. K. Gray who was pastor of the M. E. church in this place for the past year and eight months, and who left here two weeks ago today and was going by boat from Duluth to Buffalo, N. Y. When reaching Port Arthur, Miss Fannie, his daughter, who accompanied him, called a physician who said he had pneumonia and advised him to get off the boat and rest for a few days. He continued to fall and on Monday evening June 13th, 1910 he passed away.

When the report of his illness reached here it cast a gloom over the entire community, not only those who attended the church he served, but everyone, for during his stay here he made many friends.

Mr. Gray was an earnest christian gentleman, one who did his duty regardless of the smiles and frowns of all.

He has been a Free Mason for quite a number of years, and while living here joined the Knights of Pythias among whom he made many warm friends by his jovial nature, pleasant smile and hearty hand clasp.

The following is a clipping taken from an East Orange, N. J., paper: Word has been received in East Orange of the death at Port Arthur, Ont., on Monday evening, of pneumonia, of Rev. William K. Gray, brother of Dr. Thomas M. Gray, of Halsted street, and Mrs. R. M. Sanger, of Lenox avenue.

The clergyman was en route by steamer from Duluth to Buffalo, when it was necessary to remove him at Port Arthur. He was on his way from Pine City, Minn., where he had been pastor of a church for several years, to Pottersville, N. Y., to a church to which he had been recently called. He was accompanied by his daughter, Miss Francis Gray, while a son had preceded him to Pottersville.

Born in New York sixty years ago, Mr. Gray removed to Madison with his parents when a child. When sixteen years old he was graduated from Newark Academy. Soon after he re-employment in a large brokerage in Wall street and served in several capacities until he became assistant manager. He subsequently lived in Summit and East Orange. He took up the study of theology when thirty-five years old. He was later graduated from Drew Seminary and was assigned to a western conference.

He is survived by his widow, two sons and one daughter. A brother in Dr. Richardson Gray, of Beattystown, also survives.

# ELDEST SON OF ROOSEVELT WEDS

Theodore, Jr., and Miss Eleanor Alexander Are Married.

**CULMINATION OF LOVE MATCH**  
Former President Witnesses Ceremony in New York Church—San Francisco to Be Home of the Couple.

New York.—Of all the June weddings of 1910, the one that has attracted the most general interest was that of Theodore Roosevelt, Jr., and Miss Eleanor Alexander which was celebrated in the Fifth Avenue Presbyterian church on June 20.

Reading from left to right: Theodore Roosevelt, Jr., Mrs. Roosevelt, Mrs. Longworth, Larz Anderson.

of matrimony. The date of the wedding had been set to permit the attendance of the former president, and this was one of his very first social engagements after his return from abroad, for he landed in New York only two days before.

Mrs. Snowden Fahnstock, who before her own recent marriage was Miss Elizabeth Bertrou, was the matron of honor, and the bridesmaids were Miss Ethel Roosevelt, Miss Jessie Millington-Drake, Miss Janetta Alexander, Miss Jean Delano and Miss Harriet Alexander.

Rev. Henry W. Sanders, a great uncle of the bride, officiated, assisted by Dr. Gordon Russell of Cranford, N. J.

After the ceremony the bridal party was entertained at the home of the bride's uncle, Charles B. Alexander. At least a part of the honeymoon will be spent at Sagamore Hill, the country home of the Roosevelt family at Oyster Bay, Long Island. Later in the summer the young couple will start for San Francisco, where Mr. Roose-

The Roosevelt Home at Oyster Bay.

vell is to be in charge of the interior of the carpet manufacturing firm with which he has been associated for some time.

The love story of the young couple has been a quick-moving romance. Their engagement was announced only last winter, and the news was carried by Colonel Roosevelt, resulting in the speedy receipt of his approval and congratulations. The bride, who is the daughter of Henry Addison Alexander of New York, is twenty-one years old, of a little more than medium height, slender, and of very attractive appearance, having an especially beautiful complexion. She is an animated as her famous sister-in-law, the Miss Longworths, whose house she was for a time just before Mrs. Longworth called for England to join her father.

Theodore Roosevelt, Jr., strongly resembles his father in looks, but is decidedly reserved and is generally regarded as being far less democratic than his father.

family. As a boy he rode horseback and engaged in all the other outdoor pursuits of the juvenile Roosevelt clan at their home at Oyster Bay and he took some part in athletics during his preparatory school course at Harvard and his collegiate course at Harvard, but in the main he has been less enthusiastic on the subject of life in the open than his father and brother Kermit. He has always been of a studious nature and his romance with Miss Alexander is said to have had its beginning in the mutual love of these young people for music. For all that "Teddy, Jr.," has evidenced the sensational in outdoor athletics, he did participate two years ago in a balloon flight from Washington, in which he and the two army officers who were his fellow passengers had some rather exciting experiences.

There was no little surprise on the part of the public when Theodore, Jr., upon the completion of his college course two years ago, chose a business career as his life work, and still more wonder was aroused when he took employment in a Connecticut carpet factory in order to gather knowledge at first hand of the practical side of carpet manufacture. He started at the lowest round of the ladder, as an unskilled workman at a small salary. Of course he was promoted as he mastered the intricacies of the business,

and he continued to live quietly in a modest boarding house. Many persons were skeptical as to whether young Roosevelt would stick to so prosaic an existence, but he is evidently determined to win his fortune in this sphere.

The ff in flarington.

Mrs. Flarington, who is engaged to Mr. Tom Curtis, is the widow of the late Mr. W. E. Flarington of Warden, Lancashire. The spelling of this ancient name with the small "ff" found in old manuscripts is merely the retention of knowledge of the true origin of the name. The spelling of "George of Great Britain France and Ireland King," etc., the form could not therefore be due to ignorance, as has been said, for in days when gentlemen of estate were gentlemen of quality such a spelling in deeds could hardly arise from lack of knowledge of spelling.

The flaringtons of Warden had, in Lancashire, prefer, like several other well known families, including the folkes

The Roosevelt Home at Oyster Bay.

and themselves to retain the archaic capital "ff." The family traces their descent from Hugo de Moolle, who came to England with the Conqueror, and they have been associated for generations with the coast, army and church, and with public life.—From the Court Journal.

**Raven's Sharp Trick.**  
The best talking bird now to be had in the London Zoo is a raven who came to the aviary last year. "Hullo Juk!" is his favorite remark, and it is the voice of one who needs an unworthy bird. He, after he arrived he used his conversational powers with great effect upon a lamppost which shares his cage. The lamppost had a piece of rust which the raven desired, but he was unwilling to surrender it. The raven began to talk to the lamppost, and the lamppost, when he began to talk, dropped his dinner and fled. But the lamppost was a piece of iron.

# G. A. R. STATE CAMP

**WORLD MOVEMENT FOR DISARMAMENT HOLDS ATTENTION OF MEN WHO TASTED WAR.**  
L. W. COLLINS OPENS MEETING

Ovation is Accorded Prof. Maria Sanford When she Defends the Call—Hundreds of Supporters of the Union Meet.

Minneapolis, Minn.—Resolutions introducing the Minnesota delegates to the National encampment of the G. A. R., to urge legislation prohibiting the placing of statues or paintings of Robert E. Lee or any member of the Confederacy in any buildings or grounds owned or controlled by the federal government were introduced at the forty-fourth annual encampment, department of Minnesota G. A. R. Camp No. 8 brought these resolutions before the encampment. Hardly had they been read before a dozen delegates were on their feet demanding that the call be read and the attempt to place Lee's statue in a government building as a means of teaching false lessons of patriotism to the

L. W. COLLINS.

youth of the land; that the cause for which the Confederates fought was wrong and traitorous and that an attempt to recognize the flag and uniform of the Confederacy in this manner was an insult to the flag and patriotic Americans.

The delegates to the national convention were instructed by resolution to favor changing of the name, "United States avenue," at Gettysburg to "Hunt avenue," in recognition of the commander of the artillery at that battle.

Three reads from the flag of State Commander Loren W. Collins brought the delegates scurrying into their seats. Prayer was said, and then Color Bearer W. H. Delme marched from the entrance to the platform, flag staff in holster, and flag drooping. As he reached the steps leading to the platform, every one present stood, brought his hand to salute, and remained in that position until the colors were placed on the platform.

Commander Collins then made a brief opening address, and was followed by other officers, who read reports. Comrade Levi Longfellow made an address to the day. Miss Zadie McDonald gave a short recitation, and Miss Helen McDonald sang "The Star Spangled Banner."

Immediately after the convention was called to order at 2 p. m., Prof. Maria Sanford, who delivered an address advocating universal peace on Memorial day, took the platform.

"The proposition I make is that the Grand Army of the Republic ask the Confederate veterans to unite with them and that Theodore Roosevelt be invited to act as their agent in devising a plan for disarmament and obtaining for it the approval and acceptance of the nations," she said.

"General Sherman said 'War is hell,' and I know he was right," said Benjamin Franklin Curtis, commander of Class Post No. 22.

Talking not of the victories of war, but of a still greater victory of peace, not of the splendid battalions that marched under Grant, Sherman, and Sheridan, but of plans for universal disarmament, more than 500 veterans of the Department of Minnesota G. A. R. met in their forty-fourth annual encampment at the Princess Theater, Fourth street, near Central avenue at 10 a. m. today. The morning was devoted to the registration of delegates, the salute of the flag, and routine reports from the state officers. The afternoon session Prof. Maria Sanford made the principal address, urging the veterans to carry the universal peace propaganda to a successful conclusion.

**Leaving Cup for Carpenter.**  
Washington, D. C.—Frederic W. Carpenter, until recently Secretary to President Taft and now United States Minister to Morocco, has returned from a visit to his home in Washington. He will spend a couple of weeks here conferring with the state department regarding his duties and in closing up his affairs. He will be in New York July 7 for Taft. When Mr. Carpenter visited the White House he was surrounded by the clerks and messengers who presented to him a silver loving cup.

# NEW HOSPITAL DELAYED.

**Ruling Causes Cancellation of Contract For Inebriate Institution.**  
St. Paul.—The new state inebriate hospital provided for by the legislature of 1907, for which a contract was let, will not be erected until the new law corrects the law which is declared faulty by Attorney General George T. Simpson. As a result of his ruling the state board of control canceled the contract made with John Lauritzen, of Fergus Falls, for the erection of the building at a cost of \$180,000.

The hospital is to be at Wilmar and will be supported by a 2 per cent tax on all saloon licenses. This brings in about \$180,000 annually. There is \$38,000 in the fund at present.

Lauritzen's attorney concerning the contract. The attorney general says the state should not give the board of control the right to erect the building. Further he says the board cannot let the contract until the money is in hand. The board had decided to erect the building and make payments as the money came in.

The ruling does not do away with the institution, but stops proceedings and the attorney general will ask the legislature to correct the law and give the board the power to build and anticipate the payments from the licensees.

# NO FREE SHOWS FOR OFFICERS.

**Mayor Brown, of Fergus Falls, Leads Off In Another Reform.**  
Fergus Falls.—Fergus Falls has always been considered a highly progressive city, and when it comes to reform measures, can always be counted upon to lead the procession. The state anti-game law does not prevent the city officials from accepting circus tickets and passes of this character, the matter being called to public attention here through a letter written by Mayor D. M. Brown, to the members of the council.

At the next regular meeting of the city council an ordinance will be passed making it unlawful for the agent of any circus, menagerie, sideshow, wild west show, Indian congress, theater, baseball game, picture show, nickelodeon, merry-go-round, roller skating rink, or any other exhibition or game whatsoever, to give, directly or indirectly, to any mayor, acting mayor, alderman or city official of any kind, whether elective or appointive, any free pass or ticket of admission.

# BRVES IN PEACE JUBILEE.

**Chippewas in Paint and Feather**  
White Earth, Minn., June 16.—White Earth celebrated the forty-third anniversary of its settlement by the Minnesota Chippewas.

The day is arrayed in picturesque splendor with a large number of visiting Sioux and native Chippewas gorgeously painted, befeathered and arrayed in the glory of barbarous splendor as in former days of the warpath and life in the wigwam.

Five hundred Sioux and Chippewa braves took part in the interesting ceremonial, including the hicklet and smoking the calumet.

Peace making by white and Native Indians, Indian games, races and native dances, baseball and a sham battle constituted the day's program. Bowery dancing and fireworks were the feature of the entertainment. Perfect order prevailed.

# BIG CEREMONIAL SESSION.

**Twin City Shriners Will Unite In Observing Anniversary.**  
Minneapolis.—The Zohrah Temple of Minneapolis and Oaman Temple of St. Paul Shriners will have a joint ceremonial session June 17 at the hippodrome at the state fair grounds in honor of their twenty-fifth anniversary. Prominent men from outside the city will attend the Imperial Potentate Fred A. Hines, Los Angeles, Cal., Imperial Deputy Potentate J. Frank Treat, Fargo, N. D., Imperial Marabout Charles E. Ovenshine of Minneapolis promises that the work will be done on a grander scale than ever before attempted in the northwest.

**Tim Murphy Enters Prison.**  
St. Paul, June 17.—Timothy Murphy, former captain of the Volunteers of America, of St. Paul, convicted of embezzlement in the case of the Imperial Potentate, Fred A. Hines, Los Angeles, Cal., was recently imposed by Judge Hallam. He was found guilty of embezzling \$10,000 from the Imperial Potentate. Murphy had been collected by the Volunteers of America. His attorney will make an appeal to the supreme court for a new trial.

# Oaklis Is Declared "Wet."

Oaklis, Minnesota.—Judge L. I. Baxter of Fergus Falls has decided that Oaklis is "wet," overruling the decision handed down last August by Attorney General George Peterson.

**Forest Fires Again Threaten.**  
Duluth, Minn.—Another fire caused by a spark from an engine is raging in township 53, range 16, on both sides of the Cloquet river. It has been burning several days, and it is necessary to call out a large number of men to try to control the fire and save the settlers' homes. C. J. Carlson, a settler, has a large amount of machinery and tools to the amount of several hundred dollars. Oscar Anderson, another settler in that township, has been absent, lost everything is owned. For a farmer

# Farm School Letter

Interesting Information on Minnesota Agriculture by Our Special Correspondent.

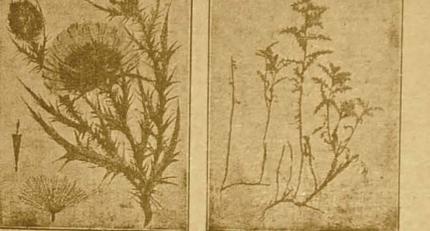

Canada Thistle, How to Exterminate. By J. E. Sundberg, Kennedy, Minn., in Minnesota Farmers' Institute Annual.

One of the greatest enemies that the farmer has to contend with is the Canada Thistle. It makes his land look bad, diminishes his chances of selling, and greatly reduces the crop yield. What shall we do to rid our selves of this awful pest is the cry of every industrious farmer? Many different methods of eradicating the Canada Thistle have been suggested by farmers and also by experiment station men.

The scientific man tells us to cover the patches with paper and then burn by another the plants. This is undoubtedly an absolutely safe method and would be practical if one only had a few small patches. But when your entire farm is overrun, such a method is entirely impractical. Others tell us

having 160 acres I would recommend the following:  
Divide the field into three parts. One part should be treated according to the first method, seeding either barley or early oats. Second part should be treated in accordance with the third method. The third part should be sowed down to timothy and clover. Cut the timothy for hay, for three years, and then break it up for the fourth year. It should be broken shallow in the spring, or early summer, after the seeding is over. Then it should be broken deep between July 25th and August 10th, and then dragged a few times in the fall. By adopting this plan one could get rid of this pest.

**Bordeaux Mixture.**  
The Minnesota Experiment Station submits the following formula for Bordeaux Mixture for potatoes:  
Five pounds of bluestone (also

Bull Thistle. The above cuts represent the Canada thistle and the Bull Thistle so common in pastures, and are published to enable Minnesota farmers to distinguish them.

to sprinkle salt on them. This again is an impractical method for a farmer who has a quarter section or more of land. No, we must look to some other way.

During the last eight years I have tried different methods and at last I believe I have struck a way of eradicating this pest that is practical.

First: I tried plowing shallow in the fall and then plowing again late in the spring and sowed barley. The barley gets ripe before the thistle. Harvesting did not kill all the thistle. But it did kill out the wild oats. Working the land two seasons in succession like that will completely destroy the wild oats, but not very many thistles are killed.

Second: I tried summer following. I endeavored to keep the thistle underground, which is nearly impossible. In 1900, I experimented with 50 acres. This piece was plowed five times and disced six times. The last time it was plowed in the latter part of October. The following spring I cross-seeded it with wheat, using two bushels to the acre. The thistles were annihilated. This method is all right in a dry season, though it is a very expensive one. But, if the season is wet, this course is of no avail, in fact, it will only spread the thistles because each time it is plowed the roots are cut and each root piece will grow. Because, if it is wet you cannot keep it underground and then the thistles get the start anew. No, this way can't be recommended.

Third: At last I believe I found the practical method. Let the land lay idle for one season. Between the 10th and 25th of July, the thistles are in bloom and the seeds are below. At this time the field should be cut with a mower, then raked and the weeds burned. The field can then lay till about the 1st of August. It should be plowed quite deep any time in August, but before the 25th. After plowing, drag it to start other weeds growing, and, later, drag again and destroy them. This plan I have tried for two years and it has proven an almost success. If there was a large number of thistles, it is indeed a very difficult matter to rid the farms of thistles. You can by the third method rid the piece of land that you start with, but then there are any large farms or speculators' lands lying near, the seeds, millions of them, blow out your clean fields and in a few years your land is overrun again. If there was a farmer on every 160 acres or 320 it would be an easy matter. Because then they could treat some land according to the first method and some according to the third and in that way completely exterminate the thistles.

**Effect of Sulphate Spraying.**  
To ascertain the effect of spraying with iron sulphate for the destruction of weeds, in Minnesota, a pound and a half of the chemical was used with each gallon of water, on the weeds named below, with the result shown: Canada thistle, plant above ground partially injured, kept from seeding; ragweed, plants killed; quack grass, leaves discolored, no injury; plantain, leaves blackened and dried, new leaves appeared; sweet clover, large plants sprayed, all leaves killed, new leaves appeared, and small plants killed; pigweed, no effect; chickweed, twenty per cent killed; fennel, severely injured, some killed; wild buckwheat, very little damaged; lambsquarters, not affected; Shepherd's-purse, plants killed; curled dock, leaves killed, new leaves appeared; kinkweed, small plants killed, leaves on large plants killed, new leaves appeared; sheep sorrel, quite effective; burdock, leaves blackened, no damage; corn cockle, plant somewhat injured; bull thistle, no permanent injury; pigweed, fifty per cent destroyed.

Besides copper sulphate and iron sulphate, other chemical sprays are sometimes used to destroy weeds, such as corrosive sublimate and sodium arsenite. They should be used only under exceptional circumstances and with full understanding of their poisonous nature.—W. L. Oswald, Minnesota Experiment Station.

**It is Loss of Money** according to reliable statistics received at the Minnesota Experiment Station for farmers to do business over roads as at present constructed in this state.

H. C. GORTY, Editor and Prop.

Published in the Post Office at Pine City as Second-Class Matter.

PINE CITY, MINN., June 24, 1910.

A Battle Cry.

There is no question in the minds of those who are keeping in touch with the trend of political thought that there is a gigantic political struggle about to take place. The forces have been lined up and the fight is now on. In our national politics there are no longer two parties but three. The so-called "insurgents" is no more a part of the Republican party than was the Greenback or Populist of the past. The state of Wisconsin, like the state of Minnesota, is supposed by some to be insurgent, but the people who have taken this view have not kept in touch with the trend of thought in the Badger state, nor do we think the state of Minnesota is in a different position. Down in Wisconsin the people went wild a few years ago under the leadership of LaFollette and passed one of the most radical primary election laws ever put on the statute books of a state. By it all caucuses and conventions were abolished and the party platform is made by the delegates chosen by party organization. This has resulted in the party taking the management of the party out of the hands of the people and putting it in the hands of the politician. This condition will never be tolerated in this state and the republicans have decided to stand together and bring the leaders of the party down to earth. A few days ago, the following address was given to the members of the party...

ROCK CREEK.

John Parent and daughter returned last Thursday from a sight seeing trip at Duluth. Edgar Hyde is ill with appendicitis. He will be operated on. Our merchants are shipping hay to North Branch. Miss Anna Johnson visited with Miss Alice Kucura at Pine City over Sunday. The members of the M. W. A., who live around here have decided to start camp at the Creek. They all voted in favor of the move. Miss Marie Erickson and her sister, our assistant postmistress, left a week ago last Tuesday for St. Paul to attend the wedding of Mable Radent and Gilbert Rodey both of St. Paul. The bride is well known in this place having lived here with her parents for a number of years. We join with the friends of the young couple in wishing them joy.

DEER VALLEY.

Chas. Heineman has received a dispatch from Geneseo, N. D. announcing the death of Mrs. Heineman's niece. We extend our sympathy to the bereaved ones. The manager of the Farmers Co-operative store at Rock Creek is taking an outing for several days, and is spending his vacation fishing. The gentleman needs a little rest and recreation. Messrs. E. J. Heineman, Bruce and Collins worked four days on the county road, covering the same with sand and gravel. It is now one of the best roads in this part of the county. These gentlemen certainly know how to make a good road. Saturday evening the 18th quite a crowd of ladies and gentlemen gave Chas. Olson, at the River Farm, a surprise party. There were friends from both sides of the St. Croix. They report having had a fine time. Mr. Olson certainly knows how to entertain, he has been there before.

There will be a grand 4th of July celebration at the A. E. Stevens place. Mr. Stevens has recently erected a large barn where dancing will be indulged in during the day and evening. Refreshments will be served also lemonade and all kinds of soft drinks. On the beautiful grounds there will be sports of all kinds, for which liberal prizes will be given. Everybody invited, all are welcome. Come one, come all, and don't forget the children.

Mr. H. S. Austin arrived in this place Wednesday with a car of household goods and will make this his home for some time. He has been away for about a year but, as there was no place quite like Pine City, he came back.

ed by the republican convention which nominated Mr. Taft. We believe further that the time has come when the republicans of this state choose representatives who are not office seekers or office holders to meet in convention and agree upon the principles for which the republican party of the state stands and select such men for office as can be relied upon to adhere to those principles and who will support the republican party in the state of Wisconsin and in our national congress. We can conceive of no greater violation of the confidence of the people than we see by those members in our national congress who have been republicans for office and are democrats in office. This is interesting in Minnesota only as it points out a way in which the loyal republicans of this state may gain recognition. Minnesota is for Taft and the republican party as it has existed since its organization. It is being misrepresented in Washington. Are we going to sit idly by and see our representatives in congress betray their trust?

De LAVAL Cream Separators. We have sold more De LAVAL Cream Separators so far this year than we have in any two years we have been in business. This goes to show that the man who buys the De LAVAL Cream Separator appreciates its Sterling Qualities. It is not necessary to say a word concerning this Separator, as every farmer can step into the nearest creamery and see one work. We have a new milk can. It gives satisfaction. For sale and kept in stock by Smith Hardware Company.

Lawn Mowers. There is nothing about the home more beautiful than a well kept lawn. A lawn cannot be well kept unless you possess one of my Easy Running Achillis Ball Bearing LAWN MOWER. THERE ARE REASONS; 1. My Lawn Mowers run so easily that it is a pleasure, rather than an irksome task. 2. The Lawn is left smooth and even instead of rough and with ridges. These Mowers are all well made. The blades in the revolving cylinder and bottom knife are made of the highest grade of steel carefully tempered. Let me quote you prices, they are very low considering quality. For Sale By W. A. SAUSER, Pine City. The Best Place In Pine County To Buy Hardware And Jewelry.

Kodol Dyspepsia Cure. Digests what you eat.

ABOUT THE TOWN.

Oh, the trials of the fat man these days. J. Y. Brackenridge spent the latter part of last week in Sandstone. Dr. L. R. Kowalko was a Sturgeon Lake caller on business this week. Miss Jessamina Allen went to Minneapolis yesterday to spend a day or two with friends.

Miss Nettie Miller, who is employed in the postoffice, is detained at her home on account of illness. We hope she will soon recover.

Mrs. M. K. Smith, of Meadow Lawn, departed Wednesday for Heron Lake to see her son Howard, who is very ill with tuberculosis.

Miss Louise Brackett, who has been teaching school at Eveleth for the past year, returned to her home here the fore part of the week.

Mr. Brooks, the Watkins man, fished trout east of Hinckley the fore part of the week. He brought back a dandy mess of fish. — stories.

Mesdames Newport, Conger, Serline and Williams, of Mora, were guests at the Pennington home the fore part of the week.

Misses Hattie and Sadie Pennington and Lillian Perkins arrived home Sunday from Eveleth, where they have been teaching for the past year.

These warm nights people in town are glad to have a porch to sleep on or a hook outside to hang from, as it is sure death to anyone who sleeps inside.

Earl Hunt, who has been in St. Paul visiting friends, came up to attend the marriage of his brother Royal to Miss Agnes Stochl. He will return to St. Paul Saturday.

Mr. H. H. Seegar of this place was affected by the heat the other day while in Minneapolis and had to be taken to the city hospital. He returned to this place Wednesday.

Dr. E. C. Clemens will be here a week from Sunday and will preach a temperance sermon at the M. E. church in the morning. In the afternoon he will preach at Meadow Lawn and in the evening joint services will be held in the village hall.

The Pine City baseball aggregation met the Hinckley team at Hinckley Sunday and danced to Hinckley's music to a tune of 9 to 4. Lack of space prohibits further mention of the game.

H. J. Rath was in Dakota the fore part of the week. He returned Wednesday morning, leaving for Duluth the same day. Mr. Rath has sold his place in this city and is now seeking a new location.

Frank W. Wiltberger and wife, of Minneapolis, are stopping at Tuxedo Inn, at Pokegama lake for a couple of weeks. Mr. Wiltberger is foreman in the composing room of the Minneapolis Tribune. We acknowledge a very pleasant call by the gentleman accompanied by Mr. Barrett, of The Inn yesterday morning.

The Children's Day exercises given in the M. E. church Sunday evening were well attended and enjoyed by all. The different drills and recitations were well rendered and the songs were very good. The "Rainy Day" brigade drill was one of the features. The little tots did very well and the instructors in charge considered themselves well repaid for their work.

MEADOW LAWN.

Wm. Newcomb, of Lakeville, is visiting at M. Lahart's for a few days. H. Parish, of Pine City, preached to a good sized audience at the Lawn school house Sunday.

Everyone is cordially invited to attend the celebration to be held in Sandberg's grove July 4. Come and bring something to eat and have a good time.

Mr. Lahart and W. Newcomb visited in Hustletown Monday.

Ole Halverson, of Dakota Co. is visiting at Lahart's.

Gertie Holler, who has been visiting in Pine City for a few days, returned to her home Friday.

If it doesn't rain pretty soon we will surely be burned up. Everyone is busy keeping fire from what little hay they have in the meadows.

D. W. Scofield and family attended the picnic at the head of the lake last Sunday.

Mr. and Mrs. J. O. Clyne visited at the home of their son Louis, near Beroun Sunday.

To Mrs. Wm. K. Gray and Family.

We, the undersigned, in behalf of the M. E. church, of Pine City, Minnesota, wish to express our sincere regret over the loss of our beloved pastor, who has been such a benediction and blessing to us as individuals and as a church, during his stay with us. We especially regret that as he has left us, God has seen fit to close his career and deprive the church in the future of the blessing of his life and work, which has been so highly appreciated by us.

We recognize that in his death, you have lost a beloved husband and father and that mankind has lost a friend. We assure you of our heart-felt sympathy in this—your great trial, and join in praying the richest blessings of the everlasting Comforter upon you in this hour of sorrow.

(SIGNED) 143, OFFICIAL BOARD.

Hunt—Stochl Wedding Wednesday.

Wednesday afternoon Mr. Royal Hunt and Miss Agnes Stochl were joined in the holy bonds of wedlock by Rev. P. Knutson, of Duluth.

The ceremony was a very quiet one and was attended only by near relatives of the contracting parties.

The bride is the youngest daughter of Mr. and Mrs. John Stochl of this place and is highly respected by all who are fortunate enough to know her. Miss Stochl has spent the greater part of her life here, where she attended school.

The groom is the oldest son of the late J. W. Hunt and is well known and respected by all who know him. He is an honest, industrious young man and will make a good husband.

Earl Hunt and Mrs. VanWold, brother and sister of the groom, were up from St. Paul to attend the ceremony.

Mr. and Mrs. Hunt went to the lake Wednesday evening, where they will remain for a week or two. It is understood that they will leave for the west immediately after their return from the lake.

The Pioneer joins with their many friends in wishing them a long and prosperous voyage on the stormy sea of life.

Order to Hear Petition for License to Sell Land of Minor, Etc.

STATE OF MINNESOTA. In Probate Court. In the Matter of the Guardianship of Joachim Hoesch.

On reading and filing the petition of Captain Quarles of said Minor, representing the various other heirs, that the said ward is a minor of certain real estate in Pine County, Minnesota, and praying for license to sell the same, it is ordered and directed that the next day to said ward, and all persons interested in said estate, appear before the judge of the court on Monday, the 26th day of July A. D. 1907 at 10 o'clock a. m. at the Court House in Pine City, in said County, and there to show cause, if any there be, why the said real estate should not be granted for the sale of said real estate, according to the prayer of said petition.

And it is further ordered, That a copy of this order shall be published for three successive weeks prior to said day of hearing in the Pine County Pioneer a weekly newspaper printed at Pine City, in said County.

Dated at Pine City, this 21st day of June A. D. 1907. ROBERT WILCOX, Probate Judge of Pine County, Minn. June 24 July 1-13.

NOMINATE A STATE TICKET

Minnesota Republicans Hold Convention in St. Paul.

EBERHART FOR GOVERNOR

Unanimously Chosen as Candidate to Succeed Himself—Senator Moses E. Clapp Endorsed—Samuel Y. Gordon Named for Lieutenant Governor and Julius H. Schmahl for Secretary of State—Iverson Again Nominated for Auditor.

THE TICKET.

Endorsed for United States Senator—Moses E. Clapp.

Supreme Court Judges—E. A. Jaggard, A. L. Brown, D. T. Simpson and F. E. Brown.

Governor—A. O. Eberhart.

Lieutenant Governor—S. Y. Gordon.

Secretary of State—Julius H. Schmahl.

Auditor—S. G. Iverson.

Treasurer—Walter J. Smith.

Attorney General—George T. Simpson.

Railroad and Warehouse Commissioners—Charles F. Staples.

Clerk of Supreme Court—A. C. Well.

St. Paul, June 22.—The Republicans of Minnesota, at the state convention held in this city nominated a full state ticket after a strenuous day's labor. The 1,078 delegates and nearly as many alternates sweltered in the terrific heat of the convention hall, but the interest was nevertheless kept up until the last place on the ticket had been filled.

The immense building was thronged with visitors from all sections of the state. There were politicians of all ages—bustling for their favorite candidates through the morning wait for the chairman's gavel to fall.

The reading of the regular call for the convention was dispensed with and the gathering got down to business at once. Herbert P. Keller, mayor of St. Paul, was elected temporary chairman. After extending a hearty greeting to the delegates he sounded

the keynote for the party in Minnesota. He said that consideration of national issues was not paramount to the deliberations of the convention. The great practical issue which confronted the Republican party of Minnesota, he said, is the development and conservation of the immense natural resources of the state. Mayor Keller insisted the party should be committed to a just and fair reappointment of the legislative representation and he advocated the adoption of a policy to universally advertise the mineral, industrial and agricultural advantages of Minnesota.

No Contests for Seats.

At the conclusion of Mayor Keller's address M. J. Dowling of Renville, A. H. Vernon of Little Falls, Harry West of Benton county and Farley Dars of Walker were elected temporary secretaries. Chairman Keller then announced that there were no contested seats in the convention and all the accredited delegates were seated.

The appointment of the committees consumed but little time. The most important of these, that on resolutions, was composed of twenty-five members, two from each congressional district and seven at large. Ex-Congressman Frank M. Eddy of Stearns county was the first of the delegates-at-large to be named and for that reason he was chosen chairman, according to custom.

The recent death of State Treasurer Clarence C. Dinsbarr was brought to the attention of the convention by Captain Henry A. Castle, formerly a well known Republican leader of St. Paul, who submitted a resolution of

An Almost Universal Prayer. "Among the late Bishop Fosco's anecdotes about prayer," said a Philadelphia Methodist, "is a very original and interesting one concerning a very original and interesting preacher.

"This preacher, in the course of a long prayer one Sunday morning, recited the many misfortunes and evils that had befallen him in the course of his long life. Then, sighing heavily, he prayed:

"Thou hast tried me with affliction, with bereavement, and with sorrow of many kinds. If thou art obliged to try me again, Lord, try me with the burden of wealth."

SKIN BEAUTY PROMOTED

In the treatment of affections of the skin and scalp which torture, disfigure, itch, burn, scale and destroy the hair, as well as for preserving, purifying and beautifying the complexion, hands and hair, Cuticura Soap and Cuticura Ointment are well-nigh infallible. Millions of women throughout the world rely on these pure, sweet and gentle emollients for all purposes of the toilet, bath and nursing, and for the sanative, antiseptic, curative of ulcerated, inflamed, weeping surfaces. Potter Drug & Chem. Corp., Boston, Mass., sole proprietors of the Cuticura Remedies, will mail free, on request, their latest 32-page Cuticura Book on the skin and hair.

Failed. She was an invalid of old lady, and volunteered much information to the fair stranger who had come down to see an important event in the country—the laying of the foundation stone of the new church.

"Yes," dratted the old lady, "that is the duke and duchess, and the couple behind them are the mayor and mayress; and those two to the right are the vicar and—er—vicar—er—Idena.

Pamela's Decision

By BERNICE C. BICKNELL

Pamela Hitchcock rearranged the pillow on her mother's chair and seating herself by the window looked out upon the fast fading day, which was changing to twilight. Presently she saw the tall, ungainly figure of Abner Brown coming down the lane. This was no unusual sight, for Abner came every Saturday evening and had been coming for a number of years; but this was Thursday. The unexpectedness of the visit and the fact that every movement of Abner's awkward figure there was an undefinable something, an animation to his gait that she had not noticed before, convinced her that something awful had happened.

"Abner," she gasped, "what's the matter? Is somebody hurt?" "No," he replied, and Pamela noted that an angry flush rushed to his face and his breath came in short, hard pants. "I just heard about that fellow that was being coming to see you. I told the boys it wasn't so. Is it?" Pamela stood in doubt a moment. Then with slow dignity she drew herself to her full height and answered stately:

"Abner Brown, I am surprised. It is not of your business who comes to see me. We are not engaged." "None of my business," he burst. "I'll make it my business. I think a man that has been coming steady to see you for years has some right to your confidence." "I have no confidence to give," she persisted. "Pamela!" he gasped in wide-eyed surprise. "Bring Abner in," called a voice from the sitting-room. "Since Mrs. Hitchcock wants me to stay, I believe I will."

"I want you to stay, too, Abner." "You do, eh?" he asked sarcastically and stalked into the house. Pamela noticed her mother's face brighten when Abner entered. "Good evening, Abner, my boy. Let me see, this is Thursday. Rather early

"That's My Business," She Retorted. In the week for you? Mrs. Hitchcock adjusted her spectacles to look at him quickly. "I had to go over to Ed Lamb's, and it being so close I thought it would be a shame to pass by. Crops are looking fine." Pamela smiled to herself at his feeble attempt to shift the subject. "It is a pretty sight to watch the roses and rows of ripening corn when a mite of wind is stirring, but I don't suppose I'll see it much longer, for—"

"Why? You aren't going away, Mrs. Hitchcock?" Brown asked in alarm. "Pamela's been—the old voice quavered and stopped short at a warning glance from her daughter. "Of course, mother, after corn husking there will be nothing but bare fields, but you are used to that," Pamela remarked.

"But there won't be even bare fields in— she continued. "Certainly not," interrupted Pamela. "How is Ed Lamb's folks? I have been so busy that I haven't had time to go there lately." "Far to minding. Ed is talking of selling his farm," Abner answered, absently gazing out of the window to where the old mill creek wound in and out of the little valley below. "So are we," Mrs. Hitchcock said without looking at her daughter. "Pamela didn't want me to say a word of what it until we had decided. Though I believe she has about made up her mind. But, law me, I don't believe in being so close mouthed to anybody like you, Abner, that I held in my arms when you were a baby. What do you think about it?" "I think it would be downright foolish to sell the farm that you have lived on so long. There are so many speculations about it that many a man would give it up for a deal of comfort. The city is no place for a woman like you, Mrs. Hitchcock, that has been used to the broad air of country."

HORTICULTURE

HORTICULTURAL NOTES.

The best growth of roses is in rich, moist and rather cool soil. The soil for roses is a rather stiff but deep and rich clay loam. As a rule roses do best when set out in the fall or very early in the spring. Grapes do far better when they are cultivated until the berries are grown. With dormant field roses, all of the brown and dried parts must be cut smoothly.

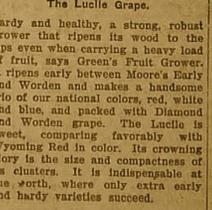

To produce finest and largest blossoms roses must be carefully pruned each year. When planting roses, avoid exposing the roots of the plants to the sun or drying winds. One should watch for black knot on the cherries and plums, and for pear blight, and at its first appearance "get on his job."

Plant cherry trees on your home grounds and thus give your people something to think about that is "not just cheerless." All of the roses should be cut early at the time of planting, except potted, growing plants, and perpetual bloomers should be cut back severely. With the exception of the ramblers, Rose rugosa, and a few others, roses are not grown as decorative plants for general effect, but for their blossoms only.

Profit in the orchard depends upon the perfection of the fruits raised and the quantity. And the trees cannot produce their full capacity unless they are well cared for. One is to be successful with the orchard he must start with the right varieties, poor kinds limit success. Good varieties have been brought to their perfection by attention.

It is a notable fact that properly sprayed orchards carry the leaves vigorous and green up to early autumn and winter, while unsprayed trees have shed their leaves too early for the proper food supply in the trees. The crown of the plant is but a storage of material with which the plant will push the next season's growth of fruit. How can the plants grow good crops with only an overdraw supply of fertilizer beneath them?

The Lucelle Grape is Excellent. It is Hardy and Healthy and Strong, and Robust Grower That Ripens Early—Fruit is Sweet. The Lucelle is the coming red market grape, says a friend who is a large grape grower in Chautauque county, New York. He says it is

hardy and healthy, a strong, robust grower that ripens its wood to the tips even when carrying a heavy load of fruit, says Green's Fruit Grower. It ripens early between Moore's Early and Warden and makes a handsome trio of our national colors, red, white and blue, and packed with Diamond and Warden grape. The Lucelle is sweet, comparing favorably with Wymont Red in color. Its crowning glory is the size and compactness of its clusters. It is indispensable at the north, where only extra early and hardy varieties succeed.

Thinning Fruit. The question of thinning apples, peaches, pears and other fruit is becoming of more importance every year. Not only do we get larger and finer fruit, but the curculio is working more seriously every year and in thinning fruit where the curculio is present every specimen that shows a sign of the curculio sting should be taken away and burned. The demands of the markets and the conditions of the eastern and southern fruit growers are such that they must thin their fruit if they are to succeed in holding their home markets. The demand is for larger and more shaly fruit and of better quality, but more particularly of fruit that has a fine appearance. Melons in Orchard. An Ohio orchardist writes us: "Last year we planted muskmelon in our peach orchard and treated each tree as the same as a hill of melon. The growth of the trees was remarkable. I shall try the same plan this year with a young apple orchard."

FIX OLD STRAWBERRY BEDS

How They Should Be Treated and Cleaned. We always have to fix the weeds in strawberry beds. They hinder much less in a season of abundant rainfall than in a dry one, and do special damage when fertility is lacking in the soil. So, if one wishes to prolong the usefulness of the old bed another year it may be done, providing it is not too old or has not become sodded thickly over. Wire grass is the worst enemy of the strawberry as the years advance, for the roots take complete possession of the soil. Other weeds, like daisies, yarrow, dandelion, etc., may be quite easily copied with. Rather than do without any of this delicious fruit next year the old bed had better be retained unless it is beyond all hope of production. If it is not closely mown after fruiting let this be done right away, drying, shaking and gathering the weeds, grass, etc.

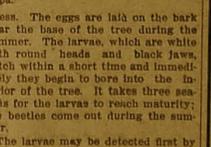

It may be burned over, but if near the barn this is impractical. It is a good plan to take off as much of the old top as possible in order to stimulate new growth. After raking it may be scarified with a harrow quite thoroughly. This will break the surface, letting in air and opening ways for the strength of a mature top dressing to enter. Now let an even coat of well-rotted stable manure be applied, thick enough to fertilize without shutting out the air. Rains coming on will fertilize the ground, so that much large crops will be grown by the plants that would be possible without it.

The crown of the plant is but a storage of material with which the plant will push the next season's growth of fruit. How can the plants grow good crops with only an overdraw supply of fertilizer beneath them? The top dressing will serve also to protect the plants during the winter. This treated one is sure of a much larger crop of strawberries next year than if the bed were plowed up and reset in August or September. Of course if the plants have been set too long, so that the bed did very poorly this year, not many berries can be expected next year, even with the treatment above recommended.

For the bed to be set next spring it is well to begin preparations now, or as soon as land and manure are ready. If the place is now in sod the sooner manure is applied the better. It will tend to rot the sod and help its decay after fall plowing. The pile of coarse manure that lies outside the stable door may be evenly spread on the sod, and the rains will help it to benefit the land. An excellent variety is shown in the illustration.

INJURIOUS TO APPLE TREES

Round-Headed Borer Does Much Damage and is Hard to Dislodge—Prevent Laying of Eggs. The round-headed borer is a very injurious beetle to the apple tree. The adult insect measures about three-quarters of an inch long, is brown and has two broad white stripes extending the length of the body, says Farm

Press. The eggs are laid on the bark near the base of the tree during the summer. The larvae, which are white with round heads, which have jaws, hatch within a short time and immediately begin to bore into the interior of the tree. It takes three seasons for the larvae to reach maturity; the beetles come out during the summer. The larvae may be detected first by the fluctuation of the bark and later by the exudation of a sticky substance pushed out of the burrows. The most effective remedy, as for the other tree borers, is the digging out method. Of course this means the making of additional wounds on the tree, which in some cases may be as bad as the borers. Protecting the trunks of the trees to prevent the laying of the eggs by the females is recommended. Berry Bushes by Themselves. There is very little excuse for having currant, gooseberry and other berry bushes in the garden on a farm. Give them a plot by themselves, and work every foot of the garden plot to vegetables.

Libby's Food Products

Libby's Vienna Sausage. Is distinctly different from any other sausage you ever tasted. Just try one and it is sure to become a frequent necessity. Libby's Vienna Sausage just suits for breakfast, is fine for luncheon and satisfies at dinner or supper. Like all of Libby's Food Products, it is carefully cooked and prepared, ready to serve, in Libby's Great White Kitchen—the cleanest, most scientific kitchen in the world.

Other popular, ready-to-serve Libby Food Foods are: Cooked Corned Beef, Peerless Dried Beef, Veal Loaf, Esterof Milk, Baked Beans, Chow Chow, Mixed Pickles.

Insist on Libby's at your grocer's. Libby, McNeill & Libby, Chicago.

Candor is ever the brightest gem of true criticism.—Disraeli. Our dearest thoughts are out of reach.—Van Dyke. Similarity. Eye—Then you are not, fond of pressed flowers? Jack—No, they always remind me of a kiss through a telephone. Eye—Gracious! In what way? Jack—They have lost their sweet-ness. High Dives. Ostend—And, pa, is there always water in the stock market? Pa—Yes, my son. Ostend—But how do you know, pa? Pa—Oh, because there is always some one taking a plunge there.

The Ruling Spirit. Husband (rushing into the room)—Come out, quick. Wife—What's the matter? "The house is on fire, and we will be burned to death if we hesitate a moment. Run, run for your life!" "Yes, I'll be out in a minute; but I got to tidy up the rooms a little so that I'll look decent when the firemen get here!"—Modern Society.

A Tart Tongue. Col. Robert C. Carter, at a Nashville banquet, was talking about campaign comrades. "Then there was Dash of Company A," he said. "Dash had the reputation of being the nastiest-tongued man in the regiment. "It was Private Dash, you know, who, out foraging one evening on a rich estate, came accidentally upon the owner's wife, a grande dame in evening dress. "Dash asked her for food. She refused. He asked again. But, still refusing, she walked away. "No," she said, "I'll give you nothing, trespassing like this. I'll give you nothing. My mind is made up." "Made up, is it?" said Dash. "Like the rest of you, eh?"

Post Toasties

with strawberries and cream. A delightful combination that strongly appeals to the appetite. The crisp, fluffy bits have a distinctive flavour and are ready to serve from the package without cooking. Convenient, Appetizing, Healthful food. "The Memory Lingers" Popular pkg. 10c. Family size, 15c. Postum Cereal Co., Ltd., Battle Creek, Mich.

# MOUNTAIN CLIMBING

## AN AMERICAN PASTIME

### ADIRONDACKS

Some people, to be sure, started their careers as mountain climbers in the United States and have confined their indulgence in the sport to the mountain regions of Yankeeedom, but they are surpassed numerically by the subjects of Uncle Sam who first became converts to mountain climbing in Switzerland or other foreign parts and then came home perhaps to discover that we have just as difficult peaks under the Stars and Stripes as can be found in any part of the old world.

Sometimes fate steps in and makes what might be termed an involuntary convert to American mountain climbing. A case in point is that of Charles E. Hughes, governor of New York, who has recently been appointed to the United States Supreme court. Mountain climbing is the pet hobby of Governor Hughes, and for years he spent every summer in Switzerland scaling the peaks. Then came his election to the gubernatorial position and with it new responsibilities which in effect made it impossible for him to engage in a prolonged vacation far from home. Thereupon Governor Hughes and his son—who is likewise a mountain climber—turned their attention to the Adirondacks and here he found peaks that aroused his enthusiasm, for they are clad in a dense forest growth that is quite as baffling in many respects as glaciers and crevasses and the governor discovered that a mountain 5,000 feet high may test the mettle of a pedestrian quite as fully as some more lofty peaks.

Mountain climbing in the Adirondacks, in the White mountains of New Hampshire and in the Blue Ridge of Pennsylvania, Maryland and Virginia has been an accepted summer sport for some years past, but it has grown tremendously in popularity of late. Some of the experienced climbers who enjoy the sport only when it involves hazards that test the steadiness of eye, clearness of head and sureness of foot in the maximum degree are wont to regard none too seriously the assaults of the mountains east of the Mississippi, but it must be admitted in defense of mountain climbing in the east that it has brought color to the cheeks and sparkle to the eyes of many a weary city dweller and in not a few instances it has served as a preparatory school for climbers who have later become experts in a more exacting environment. In the west, on the other hand, we have mountain climbing that, from every consideration of danger and daring ranks with any similar activity abroad, although, to be sure, newspaper readers hear much less about it. Perhaps this latter circumstance is due in part to the rarity in America of those harrowing accidents which cost the lives of so many mountain climbers in Switzerland. In the southwest the trip up Mount Wilson in California has become a popular diversion for both men and women and the Grand Canyon of Arizona—that great gash in the earth 13 miles wide and a mile deep—is affording an equivalent of mountain climbing that is without a rival or a counterpart, scenically or otherwise, on the other side of the Atlantic or indeed anywhere in the world.

The Yosemite valley, with its sheer walls of rock and other freaks of nature, offers problems that have commanded the respect and incidentally fired the ambition of mountain climbers of every nationality, while Alaska has in Mount McKinley a peak that is generally accounted one of the most difficult in the entire world. Generally speaking, mountain climbing in America has reached its most pretentious development in the Pacific northwest and in the Canadian Rockies. In the latter region—the Switzerland of America—there are glaciers as formidable and as interesting as any expanses of snow and ice in foreign lands and the snow-capped peaks of Mount Hood and Mount Rainier have afforded to the people of Oregon and Washington constant object lessons that have proven an incentive to mountain climbing. Swiss guides have been brought to the Canadian Rockies for the benefit of new

world mountain climbers, but to the credit of our patriotism it be said that most of the guides in our own western mountain regions are Americans. Several mountain-climbing clubs have been organized on the Pacific slope and climbing expeditions are carried out yearly, women as well as men participating in most of these excursions to great altitudes.

No mention of mountain climbing in America, however brief, would be complete without reference to the development of mountain climbing by

### SWISS CLIMBING

Some people, to be sure, started their careers as mountain climbers in the United States and have confined their indulgence in the sport to the mountain regions of Yankeeedom, but they are surpassed numerically by the subjects of Uncle Sam who first became converts to mountain climbing in Switzerland or other foreign parts and then came home perhaps to discover that we have just as difficult peaks under the Stars and Stripes as can be found in any part of the old world.

Sometimes fate steps in and makes what might be termed an involuntary convert to American mountain climbing. A case in point is that of Charles E. Hughes, governor of New York, who has recently been appointed to the United States Supreme court. Mountain climbing is the pet hobby of Governor Hughes, and for years he spent every summer in Switzerland scaling the peaks. Then came his election to the gubernatorial position and with it new responsibilities which in effect made it impossible for him to engage in a prolonged vacation far from home. Thereupon Governor Hughes and his son—who is likewise a mountain climber—turned their attention to the Adirondacks and here he found peaks that aroused his enthusiasm, for they are clad in a dense forest growth that is quite as baffling in many respects as glaciers and crevasses and the governor discovered that a mountain 5,000 feet high may test the mettle of a pedestrian quite as fully as some more lofty peaks.

Mountain climbing in the Adirondacks, in the White mountains of New Hampshire and in the Blue Ridge of Pennsylvania, Maryland and Virginia has been an accepted summer sport for some years past, but it has grown tremendously in popularity of late. Some of the experienced climbers who enjoy the sport only when it involves hazards that test the steadiness of eye, clearness of head and sureness of foot in the maximum degree are wont to regard none too seriously the assaults of the mountains east of the Mississippi, but it must be admitted in defense of mountain climbing in the east that it has brought color to the cheeks and sparkle to the eyes of many a weary city dweller and in not a few instances it has served as a preparatory school for climbers who have later become experts in a more exacting environment. In the west, on the other hand, we have mountain climbing that, from every consideration of danger and daring ranks with any similar activity abroad, although, to be sure, newspaper readers hear much less about it. Perhaps this latter circumstance is due in part to the rarity in America of those harrowing accidents which cost the lives of so many mountain climbers in Switzerland. In the southwest the trip up Mount Wilson in California has become a popular diversion for both men and women and the Grand Canyon of Arizona—that great gash in the earth 13 miles wide and a mile deep—is affording an equivalent of mountain climbing that is without a rival or a counterpart, scenically or otherwise, on the other side of the Atlantic or indeed anywhere in the world.

The Yosemite valley, with its sheer walls of rock and other freaks of nature, offers problems that have commanded the respect and incidentally fired the ambition of mountain climbers of every nationality, while Alaska has in Mount McKinley a peak that is generally accounted one of the most difficult in the entire world. Generally speaking, mountain climbing in America has reached its most pretentious development in the Pacific northwest and in the Canadian Rockies. In the latter region—the Switzerland of America—there are glaciers as formidable and as interesting as any expanses of snow and ice in foreign lands and the snow-capped peaks of Mount Hood and Mount Rainier have afforded to the people of Oregon and Washington constant object lessons that have proven an incentive to mountain climbing. Swiss guides have been brought to the Canadian Rockies for the benefit of new

world mountain climbers, but to the credit of our patriotism it be said that most of the guides in our own western mountain regions are Americans. Several mountain-climbing clubs have been organized on the Pacific slope and climbing expeditions are carried out yearly, women as well as men participating in most of these excursions to great altitudes.

No mention of mountain climbing in America, however brief, would be complete without reference to the development of mountain climbing by

mechanical means in this country. A cog railroad that carries sightseers to the top of Mount Washington, N. H., has for years been an adjunct of New England's highest peak and a comfortable hotel on the summit enables tourists to be content in this realm of perpetual frost and to enjoy the sunrise and sunset effects. A similar railroad, yet more remarkable from an engineering standpoint, carries non-athletic mountain climbers up Pike's Peak in Colorado and in the same state the Moffat road conveys tourists to the crest of the Great Divide in standard coaches driven by locomotives of the regulation type. There are "mountain climbing" railroads in California and similar highways have been proposed for the peaks of the Pacific northwest, whereas congress has been appealed to to permit a venture capitalist to install an inclined railway from the rim to the depths of the Grand Canyon.

Amidst the tawdriness, the racket and the alien squalor of our modern Whitechapel road stands a quiet, tidy, old Georgian house, and to one side of it an old-fashioned, oak-shuttered office, the London Chronicle says. Behind this unassuming exterior there still, in fact, prospers "the oldest established business of any kind in England," and that "business" is bound up with all that is highest and holiest and most endeared to the national heart. For over the door, in plain English—a refreshing change from the Yiddish posters that flare in the shop windows all around—we may still read the simple legend, "Messrs & Stationers' Bell Foundry, Established 1670."

Here, then—or, at any rate, not far away—while Shakespeare was still a schoolboy and two centuries before Schiller had arrived to immortalize the bell in splendid song on the eternal emblem of man's ascent from the earth to heaven—there was being molded the world's mightiest mello as may be seen even now hurrying themselves by pit and furnace in the actual foundry beyond a little courtyard.

To tell the exact truth, the original foundry of Queen Elizabeth's time was just across the way. It was moved to its present site in 1728, the existing house being at that time a country inn called the Artichoke, standing then among pleasant fields. Without a break from that time to this, though proprietors have changed once or twice, the work of bell founding has gone on and there is now quiet walls. The list of famous bells that have been, as one might say, "born" out of this foundry is so long that it is almost bewildering. For, indeed, at the present moment, there is only one other important foundry in England that, namely, of Loughborough—devoted exclusively to belmaking.

Thus the famous "bow bells" themselves, in reality among the sweetest and truest in the world, were made at Whitechapel. The present "tenor," as the deepest bell of a peal is always called, was cast here in 1738. It weighed 23 tons and it itself replaced a bell from the same foundry that had been founded in 1609. The legendary bells of Whittington's time can, of course, hardly be laid claim to.

Among other noted Whitechapel bells are the great bell of Westminster, weighing over 13 tons—the largest ever cast in London; the "clock bell" of St. Paul's, hung in 1780, and still in use; "Great Tom" of Lincoln cathedral, a famous bell that could be heard 13 miles off; "Great Peter" of

# THE CURE OF DISEASE BY MECHANO THERAPY.

(Written For The Public.)

Normal health is physical happiness, or freedom from pain. Disease is an abnormality. My business is aiding nature to dispose of this abnormality. I accomplish this by means of a physiological, scientific system of manual manipulation of the structure which, by accelerating the circulation, increases combustion and so facilitates the natural elimination of a diseased condition. In short, I make it possible for the body to purify itself by improving the circulation. This is the object and certain result of my treatment.

I start with a ground work of anatomy, physiology, pathology. I know the nature of the ailment, the structure of the parts and their functions in health. I proceed by a complete system, tabulated, verified and exact, to eliminate the diseased condition by mechanical manipulation of the entire body so that there are artificially simulated and intensified within the body pathological operations by which the organism would, if able, throw off the abnormal condition. In other words, I passively exercise your body centrally and equally. This promotes perfect circulation. Perfect circulation means complete combustion and complete combustion or oxidation of the effects, or waste matter of the body, means perfect health and, what is still more significant, immunity from disease.

With most of us it is not difficult to obtain proper food, pure food, adequate protection and cleanliness; but "exercise" is not so easily available. I supply you the exercise to order. You may think, if so disposed you can furnish your own exercise, but you will find this almost as impracticable and equally as unsatisfactory as making your own clothes. I furnish physiological exercise. It is a passive exercise of every muscle and fibre of the entire body so apportioned that all receive their just share of relaxed vital force and profit accordingly without detriment to any member. The result on the patient is extra ordinary. No other forms of exercise, because they are hasty and haphazard, can produce like effects. Walking, a supposedly perfect form of exercise, is, on the contrary, far from being perfect. The whole vital force is concentrated on the effort to keep the legs moving. Thus, for the time being, it is accomplished at the expense of other portions of the body.

Having nothing, it is not, to be able to take your exercise lying down in a comfortable, showy way and to save failure of life and energy—in such a manner get rid of your pains and aches and disabilities—put flesh on or off your bones all will, secure full sparkling eyes, red cheeks, a well formed body, and in short, become a complete instead of a deficient physical being? My aim is to get you into normal physical condition that

you don't know you have a body. Instead I give you a reservoir of pleasant sensations. That is health. Modern therapeutics, or the art of healing, proceeds in accordance with the laws of hygiene, and to I these adhere most rigidly—but not oppressively. Not a muscle or fibre of the body is slightestly injured. In fact, my treatment is pleasant—more than that—it is enjoyable. I use every natural weapon nature requires. Not a natural weapon nature requires. Not a muscle or fibre of the body is slightestly injured. In fact, my treatment is pleasant—more than that—it is enjoyable. I use every natural weapon nature requires. Not a muscle or fibre of the body is slightestly injured. In fact, my treatment is pleasant—more than that—it is enjoyable. I use every natural weapon nature requires.

But in this manner the curative process is begun. It is brought to a successful conclusion by specific centripetal manipulation of the diseased portions of the body. This has for its object nothing more than to bring them into condition favorable to their being incorporated into the surrounding healthy tissue, in which state they are absorbed by the veins like any other waste product of the body and so thrown out by natural channels. When this has been accomplished, a perfect cure, free from reaction or recurrence, has been effected.

Besides the cure of diseased conditions, I give attention to mechanical distortion. The parts are not only replaced in their natural positions, but the muscles on which their keeping that position must later depend are so strengthened by manipulation and the revitalizing effects of good arterial blood that, once restored, no anxiety need be entertained as to the permanency of that cure.

It would take too much space to describe all the methods employed to me in the treatment of disease, so I will confine the following description to a few of those more commonly employed.

The manual manipulations are given on the operating table. The treatment consists of scientific physiological exercise including Rubbings, Kneadings, Percussions etc., including a complete course of Swedish Movements, as perfected by Ling, the foremost expounder of this branch of modern therapeutics.

All these operations are distinguished by their gentle soothing effect on the invalid. Those in more robust health find they impart a delighted sense of vigor and exhilaration.

The time required for a complete treatment varies from one-half to one hour. Each case is treated separately by me. The charge for treatment is extremely reasonable. Consultations free.

DR. O. W. FISHER,  
MECHANO THERAPIST,  
Graduate American College Mechano-Therapy.

Free Lunch Always on hand.

LOUIS STEINPATZ

Good Combination Pool and Billiard Table in Connection.

PURE WINES, FANCY LIQUORS, FOREIGN and DOMESTIC CIGARS.

We carry a large variety of Bottle Goods. Bassettier Beer always on Tap. Phone No. 35.

## CUSTOM PLANING and FEED MILL

For work in either branch I am prepared to give entire satisfaction. A trial will convince.

J. W. AXTELL, PINE CITY, MINN.

Continued from 11th page.  
and 444 for Brown, with 539 necessary to a choice.

The real settlement of the day started, not as expected, when ex-Congressman Frank M. Eddy, chairman of the committee on resolutions, announced that his report was ready. The debate had been high all day in expectation of a lively scrap over the county option proposition and when the chairman had concluded reading the majority report everybody felt relieved that the fight was on.

As soon as Mr. Eddy had finished Judge Robert Thompson of Minneapolis read the minority report, which was signed by himself and seven members of the resolution committee favorable to county option. It is as follows:

**The Party of Freedom.**  
The Republican party was organized to give to this nation a great principle. It has ever since been the party of freedom and the "square deal." The Republican party recognizes that there is a strong and growing sentiment in Minnesota favoring a restriction of the influence of the liquor interest in the legislation of this state, and that this sentiment has been crystallized in a statewide movement in favor of county option.

We, therefore, pledge this party to a full, fair, and free consideration of any measure whose purpose is the adoption of county option legislation, and to continue the control of the affairs of this great commonwealth where they of right belong, in the hands of the people.

A motion by Judge Jamison to insert the county option plank in the minority resolutions was seconded by P. J. Youngdahl of Minneapolis in a vigorous speech. He is secretary of the county optionists and made a fervid plea for the minority report which was defeated by a vote of 638 to 440. The convention had scarcely time to breathe when Hugh T. Halbert of St. Paul was on his feet with a pair of resolutions, one commending the action of the congressmen and senators who voted against the Payne-Aldrich tariff bill and the other reaffirming support of the policies promulgated by former President Roosevelt. Mr. Halbert managed to secure the floor amid the greatest turmoil but the resolutions were voted down by an eye and a nail vote.

**Gordon for Lieutenant Governor.**  
When nominations for lieutenant governor were in order S. D. Catherwood of Austin placed W. A. Nolan in nomination. Frank Wilson of Red Wing, none other than the late Neil Frank Eddy nominated Cassius M. Sprague of Sauk County. W. H. Mc Bride of Fergus Falls placed Dr. A. B. Cole before the convention, and F. W. Murphy of Wheaton nominated Samuel Y. Gordon of Browns Valley. The first ballot showed 180 votes for Cole.

It was long past 2 o'clock in the afternoon when the delegates took their seats after recess. The first business transacted was the reception of the report of the committee on permanent organization which recommended that A. J. Rockne of Zumbrota be elected permanent chairman, and the four temporary secretaries made permanent. This was agreeable to the convention and in a stirring speech Mr. Rockne predicted victory for the party at the coming election.

It was all business from that on. United States Marshal W. A. Grisham of Minneapolis placed United States Senator Moses E. Clapp in nomination to succeed himself, and his motion was seconded by Senator Sullivan of Washington county. Hugh T. Halbert of Ramsey further seconded the nomination on the ground "that Senator Clapp is an exponent of the progressive spirit of the Republican party." It went through with a rush.

**Three Names by Acclamation.**  
Then came the judgeship fight. Mr. Spooner of Stevens county named Judges Edwin A. Jaggard and Alvin L. Brown to succeed themselves, and David T. Simpson of Minneapolis to occupy the new place on the bench after next January. The three nominations were made jointly by acclamation. Henry F. Morgan of Freeborn

Smith for State Treasurer.  
When the state treasurership came up a young Democrat from the Iron Range was uncovered. He is James P. Boyle of Eveleth, and he nominated his townsman, Walter J. Smith in one of the most aggressive speeches of the day. Senator "Andy" Stephens of Crookston nominated Al. Kaler of Clearwater. The Clippewa delegation withdrew in the name of W. G. Carl. Peter J. Schwarz, George E. Hanscom, John Sheehy and William Taber were also in nomination but their respective districts. When Yellow Medicine, the last county on the roll, had almost reached, W. J. Brown of Warren almost created a stampede for Smith by announcing that Marshall county had changed its

county then nominated Judge Charles L. Lewis to succeed himself and former state Senator J. L. Washburn of Duluth nominated Judge Dibel. Philip B. Brown was also nominated. On the first ballot Brown received 352 votes, Lewis 417 and Dibel 309. Judge Brown developed considerable strength on the second ballot, throwing many of the northern counties dropping away from Dibel. The count showed Judge Brown the nominee on a vote of 367 for Lewis, 166 for Dibel

and 444 for Brown, with 539 necessary to a choice. The real settlement of the day started, not as expected, when ex-Congressman Frank M. Eddy, chairman of the committee on resolutions, announced that his report was ready. The debate had been high all day in expectation of a lively scrap over the county option proposition and when the chairman had concluded reading the majority report everybody felt relieved that the fight was on.

As soon as Mr. Eddy had finished Judge Robert Thompson of Minneapolis read the minority report, which was signed by himself and seven members of the resolution committee favorable to county option. It is as follows:

**The Party of Freedom.**  
The Republican party was organized to give to this nation a great principle. It has ever since been the party of freedom and the "square deal." The Republican party recognizes that there is a strong and growing sentiment in Minnesota favoring a restriction of the influence of the liquor interest in the legislation of this state, and that this sentiment has been crystallized in a statewide movement in favor of county option.

We, therefore, pledge this party to a full, fair, and free consideration of any measure whose purpose is the adoption of county option legislation, and to continue the control of the affairs of this great commonwealth where they of right belong, in the hands of the people.

Murphy of Wheaton nominated Samuel Y. Gordon of Browns Valley. The first ballot showed 180 votes for Cole.

It was long past 2 o'clock in the afternoon when the delegates took their seats after recess. The first business transacted was the reception of the report of the committee on permanent organization which recommended that A. J. Rockne of Zumbrota be elected permanent chairman, and the four temporary secretaries made permanent. This was agreeable to the convention and in a stirring speech Mr. Rockne predicted victory for the party at the coming election.

It was all business from that on. United States Marshal W. A. Grisham of Minneapolis placed United States Senator Moses E. Clapp in nomination to succeed himself, and his motion was seconded by Senator Sullivan of Washington county. Hugh T. Halbert of Ramsey further seconded the nomination on the ground "that Senator Clapp is an exponent of the progressive spirit of the Republican party." It went through with a rush.

**Three Names by Acclamation.**  
Then came the judgeship fight. Mr. Spooner of Stevens county named Judges Edwin A. Jaggard and Alvin L. Brown to succeed themselves, and David T. Simpson of Minneapolis to occupy the new place on the bench after next January. The three nominations were made jointly by acclamation. Henry F. Morgan of Freeborn

Smith for State Treasurer.  
When the state treasurership came up a young Democrat from the Iron Range was uncovered. He is James P. Boyle of Eveleth, and he nominated his townsman, Walter J. Smith in one of the most aggressive speeches of the day. Senator "Andy" Stephens of Crookston nominated Al. Kaler of Clearwater. The Clippewa delegation withdrew in the name of W. G. Carl. Peter J. Schwarz, George E. Hanscom, John Sheehy and William Taber were also in nomination but their respective districts. When Yellow Medicine, the last county on the roll, had almost reached, W. J. Brown of Warren almost created a stampede for Smith by announcing that Marshall county had changed its

College Chap CLOTHES  
Brandegee, Kincaid & Co.

To lounge about in, to study in, to go to places in, for every use for which good clothes are required "College Chap" Clothes excel. They are for young men and for men who prefer to dress in a youngish manner. Never have such smart fabrics entered into garments, and never have the desires of critical fellows been catered to so well and satisfactorily as in the splendid garments produced by Brandegee, Kincaid & Co., in Utica, New York. Wouldn't you like to see these clothes and try some of them on? Glad to have you come, you'll like them.

## Pine City Mercantile Co.

### Flour, Feed And Poultry Supplies

We are in a position to give you better satisfaction in supplying your wants for goods in our line than any other else. Our stock is always on the move and we have no stale or shop worn goods. If you are not a customer of ours you will never be sorry if you start now.

ten votes to Smith. The Eveleth man had received 356 and was somewhat in the lead but lacked almost 200 to win. When the Marshall men changed to a mill tax and liberal legislation suit and his nomination was made unanimous. As Attorney General George T. Simpson had no opposition his nomination was made by acclamation, as was likewise that of Railroad and Warehouse Commissioner Staples. Mayor Keller of St. Paul nominated George P. Dix for clerk of the supreme court and Ripley P. Brower of St. Cloud thrilled the convention by his

speech nominating I. A. Caswell, F. A. Duxbury of California named O. K. Dahle of Houston county. The balloting had proceeded along towards the end when Mr. Dix realized that Mr. Caswell was so far in the lead that he could not beat him, so he moved to make the nomination unanimous. Then the convention adjourned sine die.

**Summary of Resolutions.**  
Platform Adopted by Minnesota Republicans.  
Following is a summary of the platform adopted by the Minnesota Republican convention at St. Paul: The resolutions commend President Taft and his efforts to carry out party pledges. Commend Minnesota's representatives in congress for their "untold" support of a tariff commission measure, also for trying to procure legislation in the interests of the people. The tariff plank was the longest. It approves tariff legislation of the sixty-first congress, especially whereby the president is enabled, by proclamation, to treat with foreign countries for the application of a minimum rate; and it believes in the revision of the tariff

resolutions in whole or in part, in accordance with the facts ascertained by a tariff commission. One resolution expressed the profound sorrow of the convention because of the deaths of Governor Johnson and State Treasurer Dinkelart. "Governor Eberhart," the resolutions declare, "called to the executive chair under peculiarly distressing circumstances, performed the difficult and delicate duties of his position with credit to himself and honor to the state." Reapportionment, for which the whole northern part of the state is clamoring is guaranteed at the hands of a Republican legislature next winter.

Fraising Roosevelt for his conservation efforts, a plank also commends the efforts of the national and state administrations along that line of endeavor.

**Good Roads Resolutions.**  
E. C. Dunn's good roads resolutions went through flying. One asks a constitutional amendment providing a 1-mill tax, the other for a legislative appropriation at the next session of a quarter of a mill tax and liberal legislative appropriations thereafter. Better methods of procuring desirable immigrants for the unsettled lands of the state are asked for in a strong plank on that question.

Manual training, rural township graded schools and the granting of liberal appropriations for the carrying out of advanced methods in the schools of the state are urged, along with a proposition for the extension of the agricultural school system.

The next legislature is asked to enact further suitable laws for the protection of laboring men and women in accordance with the report of the employments and labor commission, which will be made to it. The legislature is also asked to revise the primary election law so as to do away with some of its objectionable features. Taking up the transportation question the resolutions declare the right of the state and nation to regulate railroads, and at the same time affirm the rights of railroads to charge rates that will yield a fair profit on actual investments. On the temperance question the convention went on record in favor of strict regulation and control of the liquor traffic, and pledges the party "to a fair, full and free consideration of all legislation pertaining to the liquor traffic and its regulation."

Had Been Lost Thirty Days.  
Winnipeg, June 22.—Captain Rollans, one of the best known mining engineers in Canada, who has been missing for the past few weeks, following a trip to examine some mining property, was found alive by a party. He lived for thirty days on berries and leaves. He is eighty years of age, and is now in Port Arthur hospital.
