**Electric Light
 Draws Trade**
"Light Up"
 THERE'S no excuse for
 the small shop to lose
 business because of poor
 lighting.
 Poorly illuminated counters
 oblige customers to seek day-
 light either at the entrance or at
 a back window of the store to
 enable them to examine the tex-
 ture of goods. This is a nuisance
 which most customers will not
 tolerate.
 Intelligent customers—the class
 really worth cultivating,
 invariably trade at shops where
 they can see clearly the goods
 they wish to purchase.
 Edison Mazda Lamps afford an
 abundance of electric light at
 minimum cost. "Light up" your
 place of business. Our Lamp
 Experts will gladly help you on
 the path to profit.

 Those who took part in the special-

 and received hearty applause from the
 large audience that had assembled.
 The new hall is a credit to the church
 and the village. It is considerably larger
 than the old hall, as it will seat
 comfortably 400. The stage is large
 and roomy, with foot lights and the
 scenery is fine. The building is nearly
 fire-proof, and with the four exits
 makes it almost impossible for an ac-
 cident to occur in case of a fire. There
 is no danger of the floor giving down
 no matter how large the crowd, and
 taking it as a whole it is by far the
 first and safest opera hall between the
 twin cities and Duluth.
 Before the play commenced Fr. Leo

**How about your
 Complexion?**

THERE'S nothing quite so beautiful as human skin in its
 normal, healthy state, bearing the tint of the rose, the
 flush of the peach and the pearly whiteness of the cameo.
 If you desire a perfect complexion—commence using

Nyal's Face Cream

You have for some time been looking for the ideal face
 cream—here it is. Use Nyal's Face Cream and watch the
 great improvement in your complexion. Once you try it,
 you'll always buy it. For fifteen years this has always been
 the favorite face cream of discriminating buyers of toilet
 preparations.

Being greaseless, Nyal's Face Cream is readily absorbed
 by the skin. Inasmuch as it contains peroxide, it is thoroughly
 antiseptic. This cream is ideal for cleansing the pores and
 leaving the skin soft and velvety. Sure, it's just the thing for
 chapped skin, cracked lips, freckles, tan and sun-burn.

Be good to your skin. A good
 complexion can be yours—why not have it.
 Start using Nyal's Face Cream immediately. We
 are the agents for this celebrated skin tone.
 Buy it at our store. Nyal's Face Cream is sold in

**The Big Problem
 For Home Builders**

is the selection of material best suited to
 their individual requirements. Lumber is
 generally conceded the best all around
 material that can be used. Its use insures
 a sanitary, healthful abode and with it a
 home can be planned to come within the
 reach of all sizes of purses—subject to fu-
 ture day expansion as your family increases.
 There are many advantages we have dis-
 covered in our years of experience with
 lumber which we believe would be extreme-
 ly interesting to you—all of which can be
 had for the asking. At present our stock
 is well assorted and we can supply all sized
 bills without delay. Come in, look us over
 and let us tell you how you can utilize
 lumber to the best advantage. We want
 also to show you the difference in lumber
 and why grades determine price. This is
 worth knowing.

PINE COUNTY PIONEER

ED. C. GOTTRY, Editor and Prop

Entered in the Postoffice at Pine City as Second Class Matter

Pine City, Minnesota, April 11, '13

Twenty Five Years Ago.

Stephen O'Neil, of Sandstone, was in town on business the first of the week.

Dr. Thos. Zeien was in town for a few hours on business the first of the week.

Mrs. James Harley went down to North Branch Monday, to spend a few days visiting with relatives.

Miss Florence Hay of this village has secured the school at Mission Creek and began her term on Monday of this week.

Miss Alvena Brandes returned from a visit of nearly three months with relatives at Duluth, Saturday afternoon.

Jas. Harley, J. D. Vaughan, Prof. A. J. Houle and ye editor were among the Pine Cityites who transacted business in St. Paul the first of the week.

It is reported that Wm. Tierney will have his barn remodeled and converted into a house, which he will keep for rent. Let the good work go on.

Warren Axtell of this village spent a day or two in Sandstone the first of the week. Warren says there is plenty of work there, but there are also plenty of men.

Hugh Cox and family returned from Sandstone, where he has been engaged in lumbering, Saturday. We are pleased to learn that Hugh did quite well this winter.

H. B. Hoffman of this village is at present engaged as engineer in Ring & Tobin's mill at Sandstone. His son George will soon go to that place to accept a similar position.

Capt. E. Horton, of Rock Creek was in town on business Tuesday. The Captain's health has been quite poorly the past winter, but as warmer weather comes, we are pleased to see him out again.

MADDER-GLENNON.

Last Monday morning the 9th inst., at 9 o'clock John Madden and Miss Mary Gleennon both of this place were united in the bonds of wedlock at the Catholic church in this village by Rev. Father Lynch. The wedding was no surprise to our people, many of whom have been expecting the event to take place for some time. Both of the parties are well known in this village, the groom having been a resident of Pine City for a number of years, and for the past few years has represented this district on the Board of County Commissioners. The bride is a niece of M. Connor of this village and has resided here for the past two years. The happy couple took the morning train for Duluth, where they remained for a couple of days. Mr. and Mrs. Madden have the well wishes of a large circle of friends for their future happiness and prosperity.

HINCKLEY.

Miss Bertha Dunn has been quite ill for the past few days.

Dr. T. Zeien of Rush City has been in town on business of a professional nature several times during the past week.

Miss Maggie Horko of this village has been quite ill for the past two or three weeks. Her many friends hope to see her around again in a few days.

Mr. Dolson who recently moved to this place from Dakota has commenced the erection of a house on the west side of the railroad track, opposite Mr. Clint's house.

B. K. Erwin has been appointed special collector for a month, the crowd of transients and tramps being so great as to render it impossible for you officer to look after all of them.

The gun that was given away with a stick of gum, was disposed of last Saturday night at Brennan's store, amid considerable excitement among those who had squandered money on gum at the rate of twenty five cents per chew. Many of our citizens had squandered considerable money, in hopes of getting the gun, but after the numbers had all been sold and the envelope containing the number which was to draw the gun was opened it was found that the name of the editor of the Pioneer was set opposite the name.

ber, Chas. Ginder generously set up the cigars for the boys charging them up to us, but upon further consideration he came to the conclusion that the gun was his as we had traded numbers with Mr. Ginder the day the numbers were taken, and by our bargain lost the gun.

M. E. CHURCH LOCALS.

BY REV. PARISH

The pastor preached at both services last Sunday and will, all being well, preach at both services next Sunday.

Arrangements are being made for the largest Sunday School Banquet, in the history of our Sunday School. All members of the Sunday School and their parents are expected to attend this banquet. The date set, is May 7.

Let us have a record breaking attendance at all of our services next Sunday.

MILBURN

Inga Haug called on Hellen Brekke Sunday.

M. Vojta and wife visited friends in Pine City over Sunday.

Peter Sagonno visited with relatives in the twin cities the fore part of the week.

Some of the Milburn girls were seen out enjoying the spring weather Sunday afternoon.

Mr. Odegaard has purchased the Moberg and Erick Olsen farms, and expects to move onto the latter in a few days.

DECEPTION HURTS

A member of one of the large advertising agencies recently said: "Honest advertising is being given a severe blow" by the mail order houses.

When asked for an explanation he declared that advertising, to remain on a high level, must assure the customers an article which is exactly as expected.

"That is something the mail order houses are not doing," he added. "So many customers are being deceived by mail order advertising and buying so much stuff that does not come up to representation that they are losing faith."

Now, what the Chicago advertising man says meets exactly the Chicago or large center situation. He is telling of a situation that the honest manufacturer or jobber in the large cities is facing, due to fraudulent methods on the part of the mail order houses. But these same fraudulent practices in an advertising way only strengthen the position of the local merchant.

The local merchant advertises his bargains, and the customers can step into the store and see if the advertised representations are true. No fraud can be practiced by the home retailer. What he offers for sale must be exactly what he says it is through the columns of the local newspaper.

The oftener the people of our community who patronize the mail order houses get "stung" in their purchases, the sooner they will come back to the old basis of being strictly home buyers. What Abraham Lincoln said about "fooling the people" is true in the merchandising fields as well as in others, and the mail order institutions are the ones who are going to find out the truth of it. They can't continue to conduct fraudulent advertising methods and retain the confidence of their customers. However, the very thing they are doing is affording the home merchants the very best instrument of warfare in fighting the mail order evil.

Look Over The Famous Van Brunt Drills

Van BRUNT Light Draft Grain Drills owe their success to their practical working qualities. They were the first to overcome all objections on account of clogging, chocking up or poor seeding, and can be depended upon for working in mud, corn-stalks or trachy ground, as well as in clear, dry soil.

Van BRUNT Single Discs are of the closed delivery type, but with the seed discharge within the circle of the disc instead of the rear. All the grain is planted in the very bottom of the furrows and covered at an even depth. No seed touches the upward turning discs and thereby thrown out of the furrows. The disc bearings are case hardened and run in a bath of oil. They never wear out and require oiling only once a year.

The Van BRUNT Force Feed compels accurate seeding. It is adjustable for all desired quantities of seed or grain and is GUARANTEED to handle all kinds from kidney beans and peas to flax or alfalfa, without cracking or damage.

Let our Salesmen show you this Famous Drill Smith Hardware Co.

NEW INCOME TAX STARTS AT \$4,000

Elaborate Provision for Graduated Payment System in New Tariff Bill.

Washington, D. C.—Included in the Democratic tariff revision bill is an income tax section, which would require every resident of the United States who earns more than \$4,000 a year to pay a tax of 1 per cent on his earnings in excess of the exemption. This would exempt the man who earns only \$4,000 a year, but it would demand that one who earned \$4,100, for example, pay into the government treasury an annual tax of 1 per cent on \$100, or \$1.

The bill also would provide higher rates of taxation for persons with larger incomes, adding a surtax of 1 per cent, additional on earnings in excess of \$20,000; 2 per cent, additional on earnings in excess of \$50,000; and 3 per cent, additional on earnings in excess of \$100,000.

How Surtax Would Be Imposed.

Under the surtax provisions the man who earns \$20,000 would pay to the government each year at the rate of 1 per cent on \$16,000 (\$4,000 exempt), or \$160. If he earns \$30,000 he would pay 1 per cent on \$16,000, and 2 per cent on \$14,000, making his annual tax \$560. The person with a \$50,000 income would pay 1 per cent on \$16,000 and 2 per cent on \$34,000—a total tax of \$760. The man with an income of \$100,000 would be required to pay 1 per cent on \$16,000, 2 per cent on \$34,000, and 3 per cent on \$50,000, which would be \$1,520, bringing his total income tax to \$2,280.

This bill also would re-enact the present corporation tax law, imposing a 1 per cent tax on the earnings of corporations, stock companies, insurance companies and the like, but it would exempt partnerships. This is a flat tax, there being no graduated scale as the earnings increase.

The few changes from the present corporation tax act, concern chiefly the time of making returns and the time for collection.

The bill includes under its provisions the property and earnings in this country of persons who live abroad.

It is estimated by members of the ways and means committee that approximately \$100,000,000 in revenue may be derived from this new tax, including the corporation tax, that amount making up for the deficit in

revenue to be derived from imports by virtue of the greatly reduced tariff and the transfer to the free list of articles that are classed as non-revenue.

Incomes of taxable persons shall include gains, profits and incomes derived from salaries, wages or compensation for personal services of whatever kind and in whatever form paid, from professions, vocations, business, trade, commerce or sales, or a business, trade, profession, vocation, occupation, or service, also from interest, rent, dividends, securities, including income from property, income from the net value of property acquired by bequest, devise or descent, and also proceeds of life insurance policies paid upon death of persons insured.

Provision Made for Deductions.

The bill allows as deductions in computing net income all necessary expenses actually incurred in carrying on any business, not including personal living or family expenses, interest accrued and payable within the year by a taxable person on indebtedness of all national, state, county, school and municipal taxes, not including local benefit taxes; losses incurred in trade or from fire, storms or shipwreck not compensated by insurance or otherwise; debts actually ascertained as worthless and charged off; also reasonable allowance for wear and tear on property, but no deduction will be allowed for expense of restoration or improvements made to real property valued.

It excepts also, in computing net income, amounts received as dividends upon the stock of any corporation, joint stock company, insurance or insurance company which is taxable upon its net income under the corporation tax provision of this bill.

The bill excludes the compensation of the president of the United States during his term, that of Judges of the Supreme and inferior courts of the United States, and compensation of all officers and employees of a state or any political subdivision thereof.

System of Collection Framed.

It sets forth a system of collection of the tax at its source, requiring all persons, firms, copartnerships, companies, corporations, joint stock companies, associations, insurance companies, and all trustees, executors, administrators, receivers, etc., and officers and employees of the United States having the control or disposal of salaries, wages, interest and other profits and income of another person to withhold and pay to the collector the amount of the annual amount of income tax due from such person. All such persons or firms are made personally liable for such taxes.

It also makes every person liable to make return on incomes who fall to do so at a specified time, are made liable to a fine not exceeding \$500 and imprisonment not exceeding one year, or both.

In formulating this additional income tax, Chairman Underwood in his report, "the attempt has been made to provide not only a source of revenue, but also a means of redistributing income to the benefit of the masses."

It is pointed out that the burdens which result from the practice of basing the federal income entirely upon customs and internal revenue duties. This is a system of taxation which inevitably throws the burden of supporting the government upon the shoulders of the consumers.

It is pointed out that the burden of supporting the government upon the shoulders of the consumers.

Underwood's Defense of the Bill.

Spreads down and the graduated system proposed. Mr. Underwood declared:

"The progressive principle already has been sustained by the Supreme court of the United States in the inheritance tax cases and there can be no doubt that the same principle applies to the income tax included in this bill and will be fully upheld should it ever be called into question."

Referring to the tax on property taxation, the larger incomes in the United States have for many years been able to escape with less than their share of the general burden of taxation, and this inequity will be, it is believed, in part overcome by the plan proposed."

The bill provides that all taxable persons shall be notified of the amount for which they are liable under the law on or before the first day of June of each year and assessments must be paid on or before June 30. For delay in making payments and ten days after notice, there shall be added the sum of 5 per cent of the amount of tax unpaid and interest at the rate of 1 per cent a month from the time the tax fell due.

The corporation tax provision, it is directed, shall be computed on the basis of the net income for the year ending December 31, 1917, and for each calendar year thereafter. It is provided, however, that corporations may designate the date of the closing of the fiscal year and may have the tax computed on the basis of the net income ending on its designated day.

All other agricultural, horticultural, fraternal, religious and mutual benefit societies are made exempt from the tax.

ROCK CREEK

Mrs. Thos. Gill spent three days with friends in Rush City.

A. E. Stevens was a Pine City and Rock Creek visitor Monday.

John Carlson, the Rush City banker, was a Rock Creek caller last week.

Will Stevens and Jos. Parent Jr. were county seat visitors between trains Monday.

For several days past a young man has been here trying to get candidates for a new secret order but met with poor success.

A. M. Challeen, of Pine City, was a Rock Creek visitor last week. Chas. Heinaman and wife wish to thank Mr. Challeen for his gift of a beef's tongue.

Mrs. Anderson, of Willner, has arrived to visit with her son, Mr. Sorenson and family. The lady is enjoying her visit and may remain for some time.

The ladies held a working bee at the home of Mrs. Mortow one day last week. Quite a number were in attendance and enjoyed the afternoon very much.

Miss Maud Nelson, who is teaching at Sturgeon Lake, has been visiting here for a week, with relatives and friends. She returned to her school Saturday.

Chas. Heinaman made a business trip to the twin cities Tuesday. He went and interviewed the doctor under whose treatment, Mrs. Heinaman is rapidly improving.

Mr. Beggs, who resides at North Branch, and is one of the firm of Beggs & Co., produce buyers, of St. Paul, was up Saturday looking after the interests of the firm at this place.

Mr. Larson, who resides four miles east of here had a fine horse shipped to him from up north Friday. There is a great demand for horses in this vicinity.

Mr. Bakeman, who resides in St. Paul, arrived last week to visit his brother and family, who reside near the new Swedish Baptist church. He returned home Monday.

The new board of managers of the Farmers' Co-operative Mercantile Co., have held their first meeting and appointed A. P. Erickson as temporary manager. George and Sidney Leeneroth are let out. A gentleman from Pine City will take stock and expects to have the work completed the first of the week.

John Walton, of Minneapolis, is visiting his daughter Mrs. Chas. Peterson. Mr. Peterson is clerking

Frank Heath has moved his saw mill to the Buckaek farm.

Gust Strokirch, of Beroun, was a caller at the Lawn Sunday.

The Misses Martin and Sauer spent Sunday with Mrs. Aea Scofield.

A goodly number from here attended the Gibson sale in Hustletown.

Chas. Franklin is doing some carpenter work at Beroun this week.

William Hander, of Flandreau, S. D., bought Mr. Mercer's farm last week.

Mr. and Mrs. Elmer Caniner were Sunday callers at the R. E. Hamlin home.

L. L. Fhurman spent a few days the first of the week at his home in this place.

A number of the young people enjoyed a dance given at the E. L. Forsyth home last Friday night.

J. W. Holiday arrived home from Minneapolis Friday with a carload of stock and machinery, and is moving onto the farm he purchased from Mr. McAllen.

In the Farmers' store Mr. Walton was at one time a resident of Rock Creek, but has been away for a number of years. During his stay he will visit with his brother George and family who reside on a farm east of town.

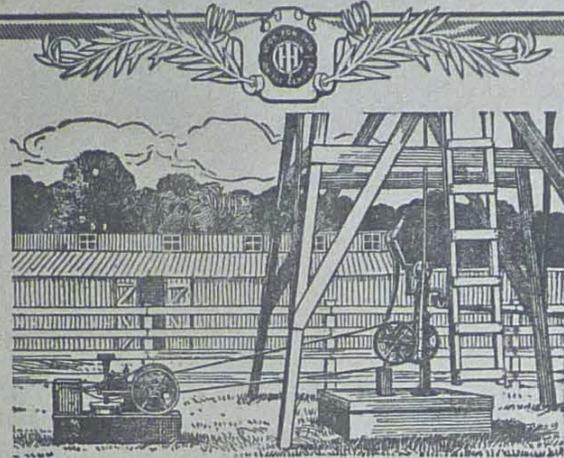

The play, basket social and dance given by the M. W. A. last Saturday evening was a success both socially and financially. Those who took part in the play acquitted themselves in a creditable manner. Mr. Cuti deserves the credit of keeping the play going by causing those who took part to attend the rehearsals.

Put the Load Where It Belongs

If you are to make the most of your time and opportunities, you must have efficient tools to work with. You have enough hard, tiresome work without wasting your time and energy at wood-sawing, water-pumping, grind-stone-turning and the like. Use an IHC engine to furnish power for such work. In less time, and with far less effort, the wood is sawed, the stock watered, the tools sharpened, all at one-tenth the expense of hand work. Put the load where it belongs. Buy and use an

IHC Oil and Gas Engine

It is the cheapest engine you can buy because it costs less per year of service than others. It is so powerful that it will carry a load ten per cent or more above its rated horse power. Perfect combustion makes it economical.

IHC oil and gas engines operate on gas, gasoline, naphtha, kerosene, distillate, alcohol. Sizes are 1 to 50-horse power. They are built in every approved style; vertical, horizontal, portable, stationary, skidded, air-cooled, and water-cooled. Sawing, pumping, spraying outfits, etc. IHC oil tractors for plowing, threshing, etc., 12 to 60-horse power.

See this engine at the IHC local dealer's place of business and learn what it will do for you. Or write for catalogues.
