Electric Light Draws Trade

THERE'S no excuse for the small shop to lose business because of poor lighting. Poorly illuminated counters oblige customers to seek daylight either at the entrance or at a back window of the store to enable them to examine the texture of goods. This is a nuisance which most customers will not tolerate. Intelligent customers—the class really worth cultivating, invariably trade at shops where they can see clearly the goods they wish to purchase. Edison Mazda Lamps afford an abundance of electric light at minimum cost. "Light up" your place of business. Our Lamp Experts will gladly help you on the path to profit.

NAVAL BOYS GET UNIFORMS

Last Friday evening Commander Eaton, and Lieut. Kelly and Rabideau, of the Duluth Division, were down and assisted the local officers in distributing the uniforms to the Pine City boys. A real interesting time was had getting the uniforms to fit, and even after the boys were fitted out, some of them presented a very amusing sight. The boys each received one blue suit and one white suit with hats to match.

Commander Eaton saw the boys drill for some time under the direction of Lieut. Rabideau, and expressed himself as much pleased with the progress being made by the local company. He told the boys that as soon as the ice went out of Lake Superior they would be taken to Duluth and given a short cruise on the "Gopher".

ROCK CREEK

W. C. Holmquist of Finlayson, was a caller at this place the fore part of the week.

A. M. Challen went thru here with his machine last Sunday enroute to Rush City.

We are pleased to report that Mrs. Doran is recovering from an all winter illness.

FOR THE BUILDING FUND

We, the undersigned teacher and school board of the East Reek Lake School District No. 77, Pine City, Pine County Minnesota, wish to thank the ladies and gentlemen and their children for the hearty support they rendered us in our entertainment and basket social, which was given on Saturday evening the 12th day of April for the benefit of the building of a county school exhibition building at the Pine County fair grounds, at Pine City.

We also wish to thank the ladies and gentlemen from Pine City who visited us at our entertainment and for their liberal financial support, Mr. and Mrs. Harte, Mr. and Mrs. Roy Carlson, Professor McAdam and Miss Southworth.

The entertainment closed with a splendid short address by H. W. Harte and Prof. McAdam.

Mr. Harte was asked to act as auctioneer and he sold thirty-four baskets for forty-three dollars and five cents. If you can find anyone that can beat him as an auctioneer at a time like this, then you will have to show us.

The program was nicely arranged by our teacher, Miss Edythe Robinson, and was as follows:

Song, "America" by all.

Song, "Welcome" by the school girls.

Recit., "The Dandelion" Rose Saumer.

Recit., "Selected" Anna Handuh.

Dialogue "Modern Humbergery."

Recit., "A Little Gentleman" La Monte Stuck.

Tableaux, "The Yankee Kitchen."

Reading, "When Sockery Joins the Lodge," Bennie Neville.

A "Two Act Comedy," Seven Girls.

Flag Drill.

Recit., "My Penny," Agnes Saumer.

Recit., "Little Willie," Theo. Hoffman.

"Good-night Song," School Girls.

Each and everyone that took part in the entertainment did, exceedingly well. The total proceeds were \$44.70, expense \$3.66, leaving a balance of \$41.04. We wish to thank you all again.

Yours Very Respectfully,
M. EDYTHE ROBINSON, Teacher.
JOHN SOUKKE, Director.
W. J. FRANTA, Treasurer.

MORGAN IS BURIED

FUNERAL SERVICES ARE CONDUCTED ACCORDING TO WISHES OF FINANCIER.

INTERMENT IS AT HARTFORD

Body of Late Magnate Taken to Connecticut by Special Train and Placed in Mausoleum at Cedar Hill Cemetery.

New York, April 14.—Following strictly the instructions left by himself, simple funeral services were held today over the body of J. Pierpont Morgan at St. George's Episcopal church, of which the late financier was senior warden. The church, which normally seats 1,500 persons, was packed and thousands were unable to gain admission. The streets in the vicinity were crowded with people and the police had difficulty in keeping a passageway for the mourners and friends.

Wishes of Financier Observed. The service, in accordance with Mr. Morgan's wishes, were conducted by Bishop Greer of the Episcopal diocese of New York, assisted by Bishops Lawrence of Massachusetts and Brewster of Connecticut, and Rev. Karl Zellander, rector of St. George's. The simple Episcopal burial service was followed rigorously.

Three hymns selected by Mr. Morgan—"Asleep in Jesus," "Lead Kindly Light" and the recessional "For All the Saints Who From Their Labors Rest"—were sung by the combined choirs of the church. Harry Burleigh, a negro barytone, of whose singing the financier was especially fond, rendered the solo "O God."

The remainder of the service included the usual burial chant from the Thirty-third and Ninetieth psalms, the "reading of the lesson" from the fifteenth chapter of Corinthians and the recital of the creed and prayers.

Many Notables Attend Services. The honorary pallbearers were George S. Bowdin, Lewis Cass Ledward, Robert W. de Forest, Henry Fairfield Osborn, Joseph H. Choate, W. Mark Eliot, Gray Seth Low, Morton S. Eaton and Elihu Root.

The pallbearers sat in pews directly behind the Morgan family, and behind them at the very end of the church. Most of the societies and organizations to which Mr. Morgan belonged were accommodated in the church.

Following the funeral services the body was removed to the railroad station, where a special train was waiting to carry the remains to Hartford, Conn. Upon arriving at Hartford a large number of citizens met the funeral party. The casket was removed and placed in a hearse which conveyed the body to a mausoleum in Cedar Hill cemetery, which Mr. Morgan had constructed some years ago in memory of his father and mother.

Clear University Man Who Killed Wrecker of Mill Home in Minnesota.

St. Paul, Minn., April 13.—The jury in the case of Fred Oscar M. Olson, formerly of the University of Minnesota farm school, charged with the murder of Clyde N. Darling, alleged wrecker of the Olson home, returned a verdict of not guilty.

Accompanied by his wife and his five-year-old daughter, Prof. Olson left last night for the home of his aged mother at Montevideo, Minn. Although Prof. Olson offered his resignation soon after the murder of Darling, it never has been accepted by the board of regents of the University of Minnesota.

"After drinking coffee for breakfast I always felt languid and dull, having no ambition to get to my morning duties. Then in about an hour or so a weak, nervous derangement of the heart and stomach would come over me with such force I would frequently have to lie down."

"Another lady who had been troubled with chronic dyspepsia for years, found immediate relief on ceasing coffee and using Postum. Still another friend told me that Postum was a Godsend, her heart trouble having been relieved after leaving off coffee and taking on Postum."

"So many such cases came to my notice that I concluded coffee was the cause of my trouble and I quit and used Postum for many years. I have pleased to say that my days of trouble have disappeared. I am well and happy."

SENATOR KEY PITTMAN

THIS IS 10,000 SHORT OF ESTIMATE OF SOCIALISTS WHO STARTED THE MOVE.

PEACE REIGNING THUS FAR

No Trouble or Inconveniences to Public—Clerical Press Terms the Movement as a "Pitiable Fiasco."

Key Pittman is the new United States senator from Nevada. He was elected by popular vote to fill the unexpired term of the late Senator Nye.

Brussels, April 14.—The strike of workmen in Belgium to force the government to grant manhood suffrage, has moved along quietly. It is estimated that 200,000 men throughout the country have quit work. This number is at least 10,000 short of the socialist predictions and the clerical press is beginning to call the movement "a pitiable fiasco."

Has Shown Great Strength, However. Nevertheless the strike has shown greater strength than was expected by impartial observers and because of the fact that the numbers have been increasing, it is generally believed the strikers will be reinforced by several thousands.

The strike, thus far, has been marked by neither disturbances nor any special inconveniences to the general public. The gas, electric and street car services have not been interrupted and railroads are in operation as usual.

Leather Factory Damaged. The only act of sabotage which occurred during the strike was the destruction of a leather factory where three big machines in a leather factory were damaged.

Brussels is not an industrial center. There are about 20,000 workmen here. The strike is complete in such places as the mining districts, but is scarcely discernible in some localities.

Reports from the provinces tell of complete or nearly complete stoppage of work at Liege, Charleroi, Mons, Louviers and smaller cities. At Mons there are 40,000 strikers and at Louviers 25,000, most of them belonging to the metal, carriage building and tobacco industries.

More Expected to Quit. The comparatively small number of strikers here is explained by the fact that many of the companies have been diverting so much business from this point in anticipation of trouble that there is little work left for them.

The number of strikers who have been arrested, although the clerical workmen's union is trying hard to break the strike by offering a bonus of two francs daily to every man working at the first week.

9,150 Idle at Ghent. Ghent, the force of the strikers were increased so that there are 9,150 on strike out of 30,000.

POPE PIUS HAS RALLIED Physiologists' Report Indicates Danger Point Has Been Passed.

Rome, April 13.—The pope has rallied in a wonderful manner from the serious attack from which he has just been released. The physicians' report indicates that the danger point for the present, at least, has been passed.

Throughout the day, the temperature has been broken, rising to about 85 and the respiration 24. This indicated a considerable amelioration in the bronchial symptoms, which are relieved by the easier breathing and freedom, for long periods, from coughing.

DAILY MARKET REPORT

Twins Plant and Other Buildings Destroyed—Inmate Convicts Panic-Stricken.

Kansas City, Mo., April 14.—A fire which started in the twine factory in the state prison at Lansing, Kans., threatened to sweep through all the prison buildings. The prisoners were removed from the buildings.

The fire destroyed the twine plant, the tinker shop and the power house. Fanned by a high wind, the flames threatened for a time the entire prison.

The more orderly prisoners helped fight the flames and did leave work. The flames were under control after a battle lasting several hours.

POPE PIUS HAS RALLIED Physiologists' Report Indicates Danger Point Has Been Passed.

Rome, April 13.—The pope has rallied in a wonderful manner from the serious attack from which he has just been released. The physicians' report indicates that the danger point for the present, at least, has been passed.

Throughout the day, the temperature has been broken, rising to about 85 and the respiration 24. This indicated a considerable amelioration in the bronchial symptoms, which are relieved by the easier breathing and freedom, for long periods, from coughing.

Twins Plant and Other Buildings Destroyed—Inmate Convicts Panic-Stricken.

Kansas City, Mo., April 14.—A fire which started in the twine factory in the state prison at Lansing, Kans., threatened to sweep through all the prison buildings. The prisoners were removed from the buildings.

The fire destroyed the twine plant, the tinker shop and the power house. Fanned by a high wind, the flames threatened for a time the entire prison.

The more orderly prisoners helped fight the flames and did leave work. The flames were under control after a battle lasting several hours.

Look Over The Famous Van Brunt Drills

Van BRUNT Light Draft Grain Drills owe their success to their practical working qualities. They were the first to overcome all objections on account of clogging, chocking up or poor seeding, and can be depended upon for working in mud, corn-stalks or trachy ground, as well as in clear, dry soil.

Van BRUNT Single Discs are of the closed delivery type, but with the seed discharge within the circle of the disc instead of the rear. All the grain is planted in the very bottom of the furrows and covered at an even depth. No seed touches the upward turning discs and thereby thrown out of the furrows. The disc bearings are case hardened and run in a bath of oil. They never wear out and require oiling only once a year.

The Van BRUNT Force Feed compels accurate seeding. It is adjustable for all desired quantities of seed or grain and is GUARANTEED to handle all kinds from kidney beans and peas to flax or alfalfa, without cracking or damage.

—See. Harte, of the Fair Association, this week received \$41.04 from school district no. 77, of which Miss Edythe Robinson is teacher. This money is to go toward the erection of the school exhibition building on the fair grounds. This amount added to the \$100 promised by the Pine City schools makes a total of \$141.04 for the fund.

—The forty hours devotion that have been held at the Church of the Immaculate Conception since Tuesday morning came to an end last evening with a sermon by Rev. Father Kinkead, of Rush City, which every person in Pine City should have heard, and the marching around the inside of the church of thirty-six little girls dressed in white and most of them wearing white veils, followed by the altar boys and priests, three of whom beside Fr. Leo took part in the service, which was very impressive and pretty.

—Louis Kline, of Pleasantville, Pa., arrived here Saturday while enroute for Duluth, and spent several days visiting with relatives and friends. Louis, as he is familiarly called was raised and educated in this village, but for a number of years prior to going east, a couple of years ago made his home in Duluth. We hope that Louis and family will again decide to make Minnesota their home.

—Dr. McLaughlin, the veterinary surgeon from Rush City, was in town Wednesday to examine the stallions owned by Messrs. Wiley and Schmidt, for the purpose of granting license for the season of 1913. While in town Dr. McLaughlin called at this office and informed us that he had decided to make this town regularly as soon as the rush of spring work is over with at Rush City. Notice will be made of his office days as soon as he gets his work well enough in hand to make this place.

Minnesota Legislature

Proceedings at the Minnesota State Capitol for the Past Week.

St. Paul, April 15.—The apparent lack of interest in the proposed constitutional amendments on the defeat of that bill at this session of the legislature.

Although the bill creating 10 congressional districts in Minnesota passed the senate with only five dissenting votes several days ago, the bill has not even been considered by the members of the lower house. The subcommittee representing the various districts to whom the measure was referred, have not even considered it, and much less make a report to the general committee.

Workmen's Compensation Passes.
Although they fought it continually for nine hours, the opponents of the Gillette workmen's compensation law were unable to prevent its adoption by the house. They felt, however, in securing the adoption of several amendments which make the bill more acceptable to organized labor.

Amendments proposed by Mr. Lundeen provided that employers will be required to furnish medical care and supplies to injured persons, and that injury, not after two weeks as proposed in the bill.

Almost Knocked Out.
The bill amending the primary law name very much being completely knocked out, when, in the same house, it failed of passage by thirteen votes. The friends of the bill were, however, later able to secure its reinstatement and it was made a special order for Wednesday. The conference committee amended the bill as it left the house by providing that the primaries shall be held in June and the first Tuesday in October. The bill, in its present form, provides for the nomination of county officers and members of the legislature on a non-partisan ballot.

The Salary Bill.
The salary bill as agreed to in committee provides that the governor's secretary and the clerk of the supreme court shall receive each a salary of \$4,500 a year. Hitherto they have been paid twenty-five and twenty-four hundred dollars, respectively. The increase is believed to have been much larger than this. The fees will be turned into the treasury. The governor's executive clerk will receive \$5,000.

The salary of bank examiner has been reduced from \$5,000 to \$4,500 with effect January 1, 1916. Increases in the salary of judges and departmental officers are made, but these generally represent what has hitherto been paid them as supplemental remuneration from contingent funds.

The following increases are proposed:

Secretary of state	\$3,500 to \$4,500
State treasurer	3,500 to 4,500
State auditor	4,200 to 4,600
Railroad and warehouse commissioner	2,600 to 4,500
Public examiner	4,100 to 4,500
Superintendent of public instruction	3,000 to 4,500
Adjutant general	2,500 to 2,400
Dairy and food commissioner	2,600 to 3,000
State librarian	2,000 to 2,500

Big Tax Increase.
An increase of more than two million dollars in state receipts is not sufficient to offset the increased expenditures and as a consequence four appropriation bills, three to be introduced today and one tomorrow, amount to a grand total which will necessitate a tax rate increase for current expenses of almost, if not, four-tenths of a mill. In these four bills are to be found the detailed list of approximately every cent of standing tax levies the state is to spend for all purposes during 1914 and 1915. The tax rate prevailing during 1912 and 1913 is 1.8 mill. That for the next two years is sure to be 2.25 and likely 2.3.

St. Paul, April 12.—The creation of a general public utilities commission is a dead issue before the legislature at this session. The only public utilities bill which has any chance of passage, the one presented by the committee on general legislation, was defeated yesterday in the house by the decisive vote of 78 to 30.

Helps Legitimate Bill.
This is believed to mean the passage of the Minette bill, putting telephone companies under the authority of the railroad and warehouse commission, which has been made a special order in the senate for next Tuesday.

The state will hereafter carry its own insurance, at least on an approved basis. The legislature has given the board of control authority to use its discretion with regard to insurance. The board has suggested that this be done so that the state may assume its own risk, at least on buildings.

Shipping Already Affected.
Antwerp, April 12.—There is a great diversity of opinion as to the extent here of the general strike. The local agents assert that there will be a cessation of all work, while business men are of the opinion that the strike will not last long. The menace of the strike has already caused 2-way losses to the ship owners and shipping agents by the diversion of their rights to other ports. It has not yet been determined whether the gas, electric and street car employees will join the strike.

ings of modern construction. The bill to amend the purpose, adopted by the senate some time ago, has now passed the house.

Given Anti-Cigarette Authority.
The house has adopted Mr. Sullivan's bill which gives to the dairy food department authority to enforce the provisions of the present state anti-cigarette law. It is believed that the house may later pass the measure which authorizes the sale of cigarettes to adults and provides for licensing of dealers in cigars. The fee to be paid being \$10 annually.

The senate also passed the Durn bill making an appropriation to pay the expenses of veterans who wish to attend the national convention of the battle of Gettysburg next July. The bill provides for the attendance of the governor and his staff.

The same laws have been so amended in the senate that a hunter may shoot the same kind of one, as at present. One buck and one doe may be shot.

Woodman Bill Carries.
The Woodman league has won the fight they have waged against the national organization since the beginning of the session when the senate yesterday passed the bill permitting the secession and the formation of a state Woodman organization.

Under the provisions of the bill reorganizing the Woodman league, the organization can take place any time after two years. In case a new organization is formed, the rates first levied would be the same as in 1913, but after 90 days they must be increased 10 per cent.

Practically all of the important measures proposed so far by the legislature were recommended in the inaugural message of Governor Eberhart.

St. Paul, April 11.—The house considered as a special order the so-called "efficiency" bill as amended by the committee on public accounts and expenditures which provides for the appointment of a joint committee of three from the senate and four from the house to investigate the various departments of the state government and recommend a system of reorganization with a view to a reduction of expenses.

Appointment Differences.
Difference arose as to who should appoint this commission, the minority wishing to give the authority to the governor, the chief justice and the attorney general. The bill passed the house by a vote of 111 to 67, except that the appropriation it contained, of \$30,000 was reduced on motion of Representative R. C. Dunn to \$16,000.

The house also passed the bill abolishing the advisory commission of the state sanitarium for consumptives, providing for state tuberculosis hospitals and providing a large army of inspectors for its use. There were 45 votes for the measure.

Senate Recall Bill Passes.
The house has passed the senate recall bill after amending it so as to permit of the circulation of petitions and placing a maximum of 20 per cent on the number of signatures necessary to bring about a recall election.

A bill by Representative Reed appropriating \$7,500 for a statue to Henry M. Rice in the National Statuary hall at Washington, D. C., was passed unanimously.

Saloon Reduction is Favored.
The house temperance committee reported this morning a bill designed to bring about a gradual reduction of saloons on a basis of one to every 500 of population. The maximum becomes operative in 1915.

Pass Joint Rate Measure.
The Cashman joint rate bill has passed both house and senate. It provides that a shipper shall be permitted to ship over two roads to the point of destination where the distance is less over two roads than over a single road or where the first road does not reach the point of destination. In such cases the railroad and warehouse commission is authorized to order a joint rate lower than the sum of the two local rates.

Money for Investigation.
The senate voted \$800 to cover the cost of the investigation of the conditions surrounding brewery owned saloons. This committee reported a bill abolishing brewery ownership which was passed by a vote of 11 to 10 in the senate and other providing for the licensing of places where liquors are sold in unbroken packages or by the gallon.

All of the sterilization bills introduced in the senate and the one that passed the house, were killed in the senate committee on penal institutions and will be reported out for indefinite postponement.

Promoting Model Stores.
New York, April 10.—The first of a chain of model stores where the minimum wage law is to be enforced is being opened. \$12 a week has just been opened. Light lunches, sodas, ice cream and candies will be sold, and the stores will be conducted by a stock company composed of persons interested in the social welfare of young women. William G. Meador, Secretary of the Treasury, will be the originator of the scheme. The company has a capital of \$72,500.

EXPLANATION OF HIGHWAY ROAD BILL

CAPITAL CORRESPONDENT TOUCHES ON ALL THE IMPORTANT PHASES.

NEW CHANGES ARE NUMEROUS

New Legislation Amends, Codifies and Reenacts all the Road Measures now in Existence in Minnesota.

The Dunn good roads law codifies, amends and reenacts all the road laws of the state. The changes made are numerous and important. It is proposed to touch briefly upon their more important features.

The First Division.
The first division of the law relates to the paving and maintenance of towns and municipalities. It provides that all the state roads shall be constructed, improved and maintained by the counties under rules and regulations made by the state highway commission.

All county roads are to be established, constructed and maintained by the county boards, which may appropriate from the county road and bridge fund within the limits that has been designated as a state road.

Town Roads are to be Established.
Town roads are to be established, constructed and maintained from the town road and bridge fund, with such aid as the county may extend. The town board may spend money on any road within the limits that has been designated as a state road.

Cities of the fourth class and villages are authorized to assist in the improvement and maintenance of roads beyond their corporate limits in their own or in all adjacent county.

The policy of the bill is that all road and bridge work involving the expenditure of any considerable sum of money shall be done by contract. When such sum is over \$500, this is compulsory. Before a contract for a bridge or a road can be let plans and specifications must be filed with the county auditor in the case of a town road and with the town or city clerk as the case may require, three weeks prior to the time when the bids are to be opened. In the case of such contracts bids must be advertised for in the local paper for three weeks.

The Second Division.
The second division of the law relates to the appointment and the organization of the highway commission. The law in this respect is not materially changed, the commission to investigate and determine the location of road material in the state, investigate laws, hold meetings, report to the governor and so on. The highway commission may be consulted at any time, and it is made its duty to give advice, assistance and supervision as may be required, and to render such engineering services as may be necessary.

The state road and bridge fund is to consist of the proceeds of the optional tax authorized by the adoption of the constitutional amendment at the last election. It is assumed that this fund will amount to between \$1,400,000 and \$1,500,000. The expenses of the commission, \$150,000 annually, do not come out of this fund, but are to be paid from the general resources of the state. The entire road and bridge fund is to be spent on roads and bridges.

This fund not less than one per cent nor more than three per cent can be apportioned to any county, as there are 86 counties in the state. This will leave 14 per cent of the fund to be apportioned among the larger counties, or to be expended in districts where the need of help is greatest.

Assuming the fund to be next year \$1,500,000, the least any county would receive would be \$15,000, the most, \$46,000. Of the fund \$210,000 would remain to be expended at the discretion of the highway commission.

Much Criticism Here.
This division is criticized more than anything else in the bill. It is defended on the ground that all counties share in the state aid liberally, and on the further ground that it would be unwise to leave, say, half the fund to be expended at the discretion of the highway commission. It would leave the road wide open for administrative extravagance.

It would be in the hands of the governor who might want to use the fund to serve political ends a lever which might be used to the public detriment in case he brought influence to bear on the commission to apportion the money to serve political ends. As it is now the counties will have the handling of the bulk of the road money themselves, and the commission will have to husband the resources at its command to meet the demands made upon it.

Assuming then that the allotment of state has been made as above indicated, the law proceeds to direct how the money shall be spent. One quarter of 10 per cent of the allotment to each county is to be used for the maintenance of state roads and bridges thereon. Not more than one-quarter of 25 per cent of the remainder may be expended on county roads. The rest is to be spent in state road construction.

Not to be Equal Amount.
In the larger and more populous counties to secure any given sum of

state aid, the county must itself raise an equal amount. In case its taxable property is less than \$1,000,000, the state will pay 50 per cent if the county raises just enough to equal the state expenditure. From \$1,000,000 to \$10,000,000 the state's proportion is 70 per cent; from \$10,000,000 to \$15,000,000, 80 per cent; and over \$15,000,000, 90 per cent.

The law, with regard to the designation of state roads, is changed to give the people more voice in the matter. The roads may be designated by the county board, provided the consent of the highway commission is secured. The law in this respect is amended to give more weight to the highway commission.

An Important Change.
An important change in the law governing state roads provides that any village or city of the fourth class may, in the exercise of the highway commission, designate a street as a state road, providing such street will constitute a connecting link with the highway system.

Assistant engineers are to be appointed to hold the service in each county. Their services will be available for all road work, but it is not made compulsory to consult them, except where state roads are concerned. They supervise all state construction.

Some Special Provisions.
Provision is made in the law for the construction of roads established by judicial proceedings, regulating the appointment of commissioners, hearing, trials, and so on; also with respect to money which may be spent on roads in an adjoining county, which, however, must not exceed \$20,000.

Authority is given to issue bonds for road purposes. Such bonds cannot be issued by the county board of its own volition, but must be voted by the people at a general or special election to be held on the petition of fifty freeholders. Bonds so issued must run 20 years and bear not to exceed 6 per cent. They must not be sold for less than par.

Road and Bridge Tax.
Besides the one cent tax referred to above the county is authorized to levy a road and bridge tax not to exceed 3 mills. The township may also levy a road and bridge tax, but their total not to exceed 15 mills. After the annual town meeting, in case of emergency, as where roads or bridges are in need of repair, the town may levy another tax not to exceed five mills to make necessary repairs.

There still remains to be mentioned another tax which is a compulsory one, namely, "the dragging tax." This is a tax on all mill, saw and taxable property, to be levied by the county auditor. The proceeds of this tax are to be kept in a separate fund, to be known as the "dragging fund," and to be expended by the town board only for the expense of procuring a suitable number of drags, and using the same on the roads.

In connection with the provisions for this fund the town board is directed to enter into contracts for dragging the roads, giving preference to the main travel roads, and roads constituting mail routes, the contract price not to exceed \$1.00 for each mile of road dragged.

Road taxes hereafter of whatever kind are to be paid in cash. The old system of commutation by labor is abolished.

Overseer Discontinued.
The office of the district road overseer is done away with. Each town is to constitute a road district. The town board will appoint a competent road builder as overseer for the entire town, who shall have charge, under the supervision of the town board, of the construction and repair of roads, and the maintenance and repair of all town and county roads in the town. The overseer is authorized to appoint such assistants as are necessary. Compensation is not to be more than \$3.00 a day.

The old road law authorized the receipt of the road tax by both parties. The Dunn law extends this to include deposits of any kind of material suitable to be used in the construction or repair of roads.

It is made unlawful to obstruct any public highway, or dig holes in them or secure earth, gravel or rock from them, or to obstruct or damage any ditch by the side of the road. These offenses are punishable as misdemeanors.

To Keep Roads Presentable.
Town boards are required to keep all highways in a passable condition in winter time. Men and teams may be employed by the road overseer to remove the snow. The town board may provide for the erection of snow fences when desirable.

It is expressly provided in the Dunn law that no part of the money to be repaid any of the provisions of the Etwell law, which authorizes the assessment of adjacent lands to raise funds to improve public highways, shall be "used for roads."

The third Tuesday in June in each year is designated as "Good Roads Day," and the governor shall, annually, on or before the first day of June, by public proclamation, request the people of the state to contribute labor, material or money toward the improvement of the public highways in their respective communities upon that day.

Winners. The directors of the Tri-County Fair association of this city have started a movement which it is expected will result in the erection of a fine exhibition building to be used in the fair to be held here next September.

Hairpins and Other Hints

Hairpins have been elaborated as a means of decoration since the ancient times. Particularly beautiful in the variety and delicacy of their workmanship, two of the finest specimens being the gold pins which were found at Salamis in Cyprus, and are now in the British museum. Even more handsome were the Saxon pins of a later date, with their shank of brass, head of gold, and establishment of garnets and pearls. There were, too, the larger sort of pins so conspicuously and frequently mentioned in the Bible. The instrument driven by Jael through the temple of Sisera was probably a tent-pin, while Delilah fastened the web of Samson's hair with a pin or button.

In the middle ages pins were a great fashion—indeed, a great necessity—in France, and we have it on record that in 1347, 15,000 pins were removed from the royal wardrobe for one of the French princesses. The convenience was probably a little later in reaching the United States, as we find Queen Catherine (Howard) importing pins from France. In 1560 the trade underwent considerable change, brass superseding steel, and at the same time the price was lowered.

Costs Less Than a Cent and Postage-Stamp

An average pair of shoes costs a cent and a third a pair is paid for the use of our machines in making two-thirds of all the shoes produced in the United States—assuming that all our machines are used. The most that can be paid for the use of all our machines in making the lightest-colored shoe is less than 5¢ cents a pair. The average royalty on all kinds of shoes is less than 2-3¢ cents a pair. From this we get our sole return for the manufacture and use of the machines, for setting them up in factories and keeping them in order. You pay two cents for a postage stamp on a yeast-cake and five cents for a carfare and don't miss it. Where do you get more for your money than in buying a machine-made shoe?

WOMAN'S ILLS DISAPPEARED

Like Magic after taking Lydia E. Pinkham's Vegetable Compound.

North Bangor, N. Y.—"As I have used Lydia E. Pinkham's Vegetable Compound for several years, I feel it my duty to write and tell you about it. I was afflicted with female weakness and had headache and backache nearly all the time. I was later every month than I should have been and to go to bed."

"Lydia E. Pinkham's Vegetable Compound has made me well and these troubles have disappeared like magic. I have recommended this Compound to many women who have used it successfully."—Mrs. JAMES J. BRYAN, N. Y., No. 4, North Bangor, N. Y.

Another Made Well.
Ann Arbor, Mich.—"Lydia E. Pinkham's Vegetable Compound has done wonders for me. For years I suffered terribly with hemorrhoids and had pains so intense that sometimes I would faint away. I had female weakness so bad that I had to doctor all the time and never found relief. I took your medicine to please my husband. I recommend your wonderful medicine to all sufferers as I think it is a blessing for all women."—Mrs. L. E. WICKOFF, 112 S. Ashley St., Ann Arbor, Mich.

There need be no doubt about the ability of this great old remedy, made from the roots of our fields, to remedy woman's diseases. We possess virtues of proof of this fact, enough to convince the most skeptical. Why don't you try it?

Usually Admired by the Fair Sex
HERE IS THE SECRET

The men of Chicago have suddenly acquired an attractive complexion. The reason for this is, that they are now shaving their faces with the new process, called "the Velvet-Edge Safety Razor Blade Sharpener," which gives that velvety smooth skin to the constant shaver.

You men who use safety razors and want a velvety skin, shaved with the delicate softness so much desired, with a keen cutting edge, send your dull safety razor blades at once to Chicago, and have them sharpened by the newest electrical process, which makes the dull blade cut better than the new, and your old blades are returned to you a perfect new blade.

Don't throw away your old safety razor blades, but send them today, well wrapped, and do not delay it until tomorrow.

Price 30c per dozen for all safety razor blades, which include Gillette's, Evs-Reedy's, Gem, Auto-Strap, Enders, Keen-Kutter, and all other makes. Your blades will be returned to you in a few days, charges prepaid. Send coin or money order. No orders accepted under 30c.

Wrap blades securely in a card board box. Do not send them in an ordinary envelope, the blades may cut through and be lost. Include your name and P. O. address on the package.

"My New Studebaker"

There's a note of pride in the remark. To own a Studebaker buggy is to own the finest, classiest looking, lightest running vehicle on the road.

Slender, yet sturdy wheels, flexible bent-reach gear of the new Studebaker pattern, well proportioned, graceful lines, upholstery of the kind that makes you want to lean back and enjoy yourself, and the Studebaker double ironed shafts, strong and shapely.

Why wouldn't any man be proud to own a Studebaker?

The Best Bargain You Ever Made

HOW do you measure the value of a bargain? Suppose you bought an engine that did practically all of your hardest work for you, sawing, pumping, grinding, etc., and that saved so much money that it soon paid for itself. Would you call that a good bargain? An IHC engine will do all that, and more. Having paid for itself, it works steadily year after year until, like our Clay County friend who has used an IHC engine for six years, you will say, "My IHC engine is the best bargain I ever made."

IHC Oil and Gas Engines

are thoroughly dependable, and unusually durable. The fine-grained, grey iron cylinders and pistons are worked together to a perfect fit. Ground piston rings insure maximum power from the explosion. The fuel mixer is the most effective known. Bearings are large and carefully fitted. No part is too heavy to be efficient, yet every part is amply strong.

IHC engines are made in all styles—vertical and horizontal; portable and stationary; air and water-cooled; in sizes from 1 to 50-horse power, to operate on gas, gasoline, naphtha, distillate, kerosene or alcohol. Oil tractors, 12 to 60-horse power, for plowing, threshing, etc.; grinding, sawing, pumping and spraying outfits, complete the line.

The IHC local dealer will show you all the good points of the IHC engine. Get catalogue from him, or write
