

THE PINE POKER.

PINE CITY, MINN., DECEMBER 28, 1922

No. 15

Vol. XXV

GROVER BERGDOLI HUNTED ON COAST

Slacker Reported, Making Effort to Slip into America.

San Francisco—Although federal officials declined to discuss them, reports were current that an extensive dragnet had been thrown out up and down the Pacific coast for Grover Bergdoli, rich Philadelphia draft evader, who had the country to escape punishment.

DENIES AMERICAN PLEA

Masonic Envoys Refuse to Attend Meeting of Sub-Commission.

Lansanne—The American plea for the establishment of an Armenian national home in Turkey will be presented to the Near Eastern conference by President Noradunghian Pasha of the Armenian national delegation. He was once minister of foreign affairs in the Turkish cabinet and has been invited to appear before the sub-commission on minorities to explain the desires of the Armenian people.

SIX SEIZED IN ROBBERY

Suspects in Looting of Truck Held on Tip Sent U. S. Marshal.

St. Paul, N. M.—Six men with heavy suitcases who arrived from Las Vegas in a car are in the county jail pending investigation in connection with the \$200,000 robbery of the United States Federal Reserve bank truck at the United States mint in Denver.

PANIC REIGNS IN DUBLIN

Irregulars Attack Like U. S. Indians, Firing From Ambush.

Dublin—The holiday season in Ireland was ushered in with a terrific wave of violence. The city was in panic for nearly 24 hours with looting and revolver fusillades.

BOAT WITH 8 MEN MISSING

Cleveland Vesselmen Believe Tug Was Burned as Searchers Return.

Cleveland—The mystery surrounding the disappearance of the tug Cornell, missing for four days, remained unsolved and for the first time it was considered by vesselmen that the tug, with its crew of eight, probably had gone down. Four tugmen, including Christmas making Lake Erie reported they had failed to find any trace of the missing vessel.

VIOLENCE OVER COUNTRY

Scores of Holdups and Slayings Mark Holiday Police Records.

Chicago—Kidnaps, deaths and violence took more than their usual toll despite the fact it was Christmas time. Scores of robberies, holdups and other crimes of violence had been reported in the last day or two in all the principal cities of the United States and every state.

WAR ON HOODED TERRORISTS

Arrests Ordered Following Finding of Bodies of Kidnaped Pair.

New York, La.—Wholesale roundup of terrorists in Arkansas, Mississippi and Louisiana was promised by state and federal officials investigating the murder of two men by a masked mob.

Iowa Corn Crop Record

December 1—A new high mark for 1922 corn was reported here when 1,250 bushels were sold at auction for 75¢, under a bushel.

264 Prisoners Pledge Allegiance

Dublin—Two hundred and sixty-four Republicans held prisoner in Mount Joy prison, were released, having signed a declaration of allegiance to the Free State. Four of those released were women.

Workers Buried Among Chinese

Portland—Mrs. Mary Barker has buried in the usual fashion the remains of a Chinese man who was killed by a train. It was by her request, made last night, that the body was buried.

Old Resident Laid to Rest

Mrs. Emma Marie Fisher passed away at 6:45 p.m. last Saturday, December 23, at her home at 933 Ashland Avenue, St. Paul, after a continuous illness since last August from pernicious anemia. The remains were brought here on the Sunday morning train. Funeral services were conducted by Rev. Thurston of the Presbyterian church Tuesday afternoon. Miss Geneva Therrien sang "Heavenly, Kindly Light" and "Blest be the Tie that Binds." These were the two favorite hymns of the departed. The remains were laid to rest in the Wreck plot in the local cemetery beside those of her parents and other members of the family. The casket was banked with beautiful floral offerings from mourning relatives and friends.

Mrs. Fisher spent most of her life in and about this place. Her parents moved from Clinton, Iowa to Rush Lake when she was a small child, and more than a decade later—50 years ago—moved to this place. Soon thereafter they purchased the home, which has remained continuously in the family and for many years has belonged to the deceased. Mrs. Fisher closed her home more than a year ago, renting the place and moving to St. Paul to be with her daughters. Since before leaving here she has been in poor health though it was not until midwinter that the fatal trend of her illness became known. She was 64 years of age at the time of her death.

She deceased leaves four daughters, and two sons—Irene, Anna, Marie and Catherine. Henry and Walter—Mrs. Minnie Walker of Chicago and Henry Wieck of Mahtowa. All of these were with her during much of her long illness.

Mrs. Fisher was a kindly, sympathetic and generous woman whose life in many ways added to the comfort of her friends and those who need. She is missed in the community where the greater portion of her life was spent and the sympathy of all who knew her goes out to those of her family who mourn her loss.

H. S. Loses to Cambridge

Before a crowd which thronged the galleries of Cambridge and Portum, the local high school aggregation saw the brand of victory snatched from their grasp in a snappy floor contest. The spectre of defeat, however, did not drive the aspirations of hope from the hearts of the Pine City boys until the final gun echoed out its ominous report. The score standing 10 to 12 with Cambridge on the long end.

Repairing Bank at Sandstone

A crew of men have been busy on the First National bank building for the past two weeks. A new roof has been put on temporary windows have been put in and the interior of the second floor is being partitioned off for office rooms. These will make the building heated and as they are very centrally located near the depot, it is quite certain that they will soon be occupied. It is understood that Dr. Gehring and Atty. Albert Johnson have already made reservations there—Sandstone Courier.

Invitations will be sent out soon

Ring out the old, ring in the new,
Ring, happy bells, across the snow;
The year is going, let him go;
Ring out the false, ring in the true.
Ring out the grief that saps the mind,
For those that here we see no more;
Ring out the feud of rich and poor,
Ring in redress to all mankind.
Ring out a slowly dying cause,
And ancient forms of party strife,
Ring in the nobler modes of life,
With sweeter manners, purer laws.
Ring out the want, the care, the sin,
The faithless coldness of the times;
Ring out, ring out my mournful rhymes,
But ring the fuller minstrel in.
Ring out false pride in place and blood,
The civic slander and the spite;
Ring in the love of truth and right,
Ring in the common love of good.
Ring out old shapes of foul disease;
Ring out the narrowing lust of gold;
Ring out the thousand wars of old,
Ring in the thousand years of peace.
Ring in the valiant man and free,
The larger heart, the kindlier hand;
Ring out the darkness of the land,
Ring in the Christ that is to be.

---Tennyson.

To Dedicate New Temple Friday

At the regular communication of the Masonic lodge Monday evening it was definitely announced that Contractor Gus Gierston would have his work completed and will be ready to turn over the new temple to the lodge next Tuesday. This was good news to the members as they have been meeting in the I. O. O. F. hall since their own lodge quarters burned during the recent fire.

The different committees reported that most of the new furniture and equipment would be here in a few days and urged that the building be dedicated as soon as possible. After some discussion, it was decided to hold the dedicatory ceremonies on Friday evening, December 29, so as to have it accepted in the same year that it was planned and finished.

This will be a big day for the Masons of Sandstone and vicinity as this is the first temple to be erected in the county and is the finest structure of its kind outside of the cities. Those who have seen it say there is no lodge building in the state that is any nicer, for its size, as it is as modern and convenient in every way as it was possible to make it, and it ought to be a real pride to every man who belongs to the fraternity.

The state Grand Lodge will be here to take charge of the ceremonies and delegates from all of the lodges in this part of the state have signified their intention to be present when the new building is dedicated. The program has not yet been completed but the committees are now at work and it is safe to say that it will be in keeping with such a fine structure. The ladies of the Eastern Star will have charge of the refreshments, and with their new kitchen and equipment, it is very certain that to one will go away the least bit hungry.

Invitations will be sent out soon

Dance and B. B. Game Saturday

Pine City Wins From Rush City

There will be a big dance and basket ball game in the armory on Saturday night of this week. The local Alumni team will play Mora the game to start at 8 o'clock sharp. Following the game, B. B. Giff's big annual New Years dance will be held, with a big supper to be served at midnight. Preparations are being made for a capacity crowd for both events, as this annual dance has become a big time in this region.

Nancy Chase and a list of celebrities from the stage world will be shown at the Family Theatre Sunday and Monday at regular times.

Jim Hawley went in for a few minutes in the last half, and finished in about as many minutes. Wendell Frisk got very old stride and scored 9 points also. The next game between these two teams is bound to be a "battle to the death."

Ichabod Crane in the Movies

Washington Iron's famous classic, "The Legend of Sleepy Hollow," is being brought to the screen under the title of "The Headless Horseman" with the inevitable Will Rogers in the role of Ichabod Crane, the lanky Yankee schoolmaster whose sentimental heart was not strong enough to stand up under the bewitching eyes of the fair Sleepy Van Tassel, the belle of Sleepy Hollow.

All the quaint realism of this great story, which has been more widely read than most of the classics, has been preserved in this film version and the original story remains intact.

In support of Will Rogers appear Louis Meredith, Ben Hendricks, Jr.

Christmas Party A Big Success

Last Saturday afternoon was a big day in Pine City, when business men of the village were hosts to over 1200 people at the Family theatre. Christmas party at the big Christmas party at the Family theatre. Christmas bags had been prepared for over 800 people, but they were soon exhausted and more prepared. Every child present was given a bag.

Many were the compliments from farmers of the community who expressed their appreciation of the party, and wish to thank those who contributed to making it a success. It was a big day, and a happy day, and that will undoubtedly be an annual event in the future.

Legion to Meet Tuesday

Cards are out announcing the first big booster meeting of the Legion at the Club Rooms on Tuesday evening, Jan. 2nd. First and foremost among the projects to be considered is that of the band. The Post officials plan and converting it into a Legion band. They believe that by doing so, they will be able to give Pine City a bigger and better band than the town has ever had. Committees for management and financing will be appointed at this meeting with orders to hit the ball at once. Then the plans of a membership drive will be taken up and discussed. Also renewal and new membership are coming in faster this year than ever before. The boys hope to make this community 100 per cent Legion in the shortest possible time. Every existing man should send a friendly message and sign up with the Legion.

Sing Christmas Carols

Members of the Presbyterian and Methodist Sunday schools surprised the people of the village on Christmas morning by practicing the old English custom of singing Christmas songs on Christmas morning. They started out at about six in the morning and went from house to house singing their carols. This custom will probably be an annual event on Christmas morning with the young people of the village.

J. S. Olson Holds Numbs

J. S. Olson of Henrietta, was the lucky winner of the beautiful dining room set given away by the Kunsch & Richards furniture store last Saturday afternoon. The lucky name was drawn Saturday while a number of patrons were in the store. It made a beautiful Christmas present for the Olsons.

Trade at the Fair and Save the Difference

Every day we save our customers many dollars by our system of doing business. Just think of it. We do not ask you to pay for delivery service, bookkeepers or dead accounts. That's why we are able to save you from 10 to 20% on your daily purchases

Specials for Friday and Saturday, Dec 29 and 30

- Fancy Mixed Nuts pound 22c
- Dates, fresh stock package 12c
- Large can Rumford Baking Powder . . . 19c
- Fresh bulk Mince Meat pound 25c
- Fancy Mixed Candy " 15c
- Electric Spark Soap bar 4c
- Jello, all flavors 8c
- Bulk Cocoa, for drinking or baking, pound 8c
- Good can Corn can 10c
- 1 gallon New Orleans Molasses 45c

PERPETUAL YOUTH

by CHRISTOPHER G. HAZARD
© 1922, Western Newspaper Union

TIME, to be ever young, is born again
With every year, and thus he flouts his youth.
Were he incarnate once alone, sure then
He evidently would be old, in truth.

Thus is he envious, yet all his frost
But pales the crimson banner of the rose;
It laughs upon his spiteful labor lost,
Renewed in fragrances when winter goes.

Nor knows the urchin the interior star
That, all untouched by him, will yet attain
To heaven, and from its glories bright afar
Will twinkle down and smile at him again!

Nineteen Twenty-Three

THEY friends are all important.
They wave a wand, and presto, you are old.
And that is all that counts, for you are old.
Last year you were young, and now you are old.
And that is all that counts, for you are old.
And that is all that counts, for you are old.

Happy, Though Older

NOT by mourning because life
cannot be all springtime. Not
by thinking that youth can be
possessed, retained, stored and ac-
crued into renewal. Not by looking
backward and living upon remem-
brance and the past, and thus
in foolish beauty life is on the
wing. As well try to change the course
of a river, or to make the sun hold
back the progress of his ages. Spring,
summer, autumn, winter are not only
for nature, but for human nature. No
one is devoted by tradition, when we
are not just as young as we need to be.
Fading pictures and a passing show,
"youth and arrows of outrageous for-
tune," are just the differences in the
course of life.

But it will be well not to get too much
faith in resolutions. Resolutions are
after the fashion of resolutions. They are
the embryos that succeed the last
stern, before the tears have dried up.
They are the basis that we place upon
our heads too soon. They are the thin
ice that glitters but lets us through.
There is more power in resolutions
if a man overcomes himself he has
conquered his worst enemy. He will
have to use both feet to knock himself
out and both feet to kick himself out.
He will have to get himself down and
sit upon himself before he can be
himself.

But every season has its own peculiar
charm. Every day of every year
is really a day of every year. There
is even a majestic and terrible beauty
in a storm. The long monotony of the
 doldrums at sea one could hold a
cylinder. In the dusty glare of pre-
sented thought a flower could be set
in a storm. In the touch of any woman
the wish arises for the rest of the pro-
gram. Change opens up new vistas
of the scenery of our histories. The
afternoon of life is meant to be a pleas-
ant outlook upon his harvest fields,
gathered in that wealth of produc-
tion that requires time and patient toil.
The enjoyment of that richness of
character that is given only to long
experience. Wisdom can never be
hastily acquired. Nothing can be done
in less time than it takes. Every day
that you wait will fall for a ripe apple.
Age marks progress and gives life
to look forward and go on with
power of choice. He who has had
to have time and opportunity to do as
one likes, rather than as he must,
also has acquired the power of acquir-
ing power of thought and to have time
for books to hobnob with a few
renown, to have a little something to
do, to sit on the porch and see the
world go by, to look beyond the set-
ting sun to a new day, and beyond the
setting winter to a new spring, these
and more may mean that age
has kept the best you will now!

Household Resolutions for Father

I WILL not complain. Never again will I
touch the guest towel, for I have
seen the cover of my wife and now
know that guest towels are to be
seen but not used, yet, not even for
newly shorn feet.
I will reverence the parlor. Verily,
verily, no cigar stumps nor ashes
shall I have behind me, nor shall
I lay my head upon the sacred em-
bossed cushion.
I will reform. The socks that are
torn off at night, or so shall they
be picked up by me and put into
the laundry basket.
I will be thankful. For the cut glass
berry bowl and the mahogany ser-
vice table, for the synthetic table
cloth, for the billigeret cigars, for
those Christmas gifts will I show
rejoicing.
I will not answer back. Yes, though
the hills of the New Year morning
are mountains, and I will walk
in the shadow of bankruptcy,
I will not complain. No, though
my wife will not complain. No, though
my wife and I are both to be
sent into the third evening, I
shall hold my peace, and my wife
for perdition shall be no more.
I will not struggle. That good-will
will abide throughout the coming
year. I cheerfully resolve to obey
all the rules of the institution which
harbors me. Amen.

NOBLE PURPOSES OF THE YEAR

A Guinea for Your Thoughts.
A revival from the days of our fore-
fathers to the new era formed from
ginnes feathers. Not only the feather
age, but the shape as well, is a reflec-
tion of long ago. The frame is such
that the fan folds within it, after the
fashion of the torgette.

THE CALENDAR

By MARTHA B. THOMAS
THE calendar is a curious busi-
ness document when you
stop to think about it. You get an
easier way of reckoning than
you take it means and uses,
and a very important matter it
is, too. A calendar is the direc-
tor of your life, the "con-
sulting engineer" always to be
consulted before arranging
your affairs. It is a business
appointment, a sign with the
calendar. It is the grand refer-
ence book; a silent, inanimate
thing composed of twelve pages
and sections with black marks on
them. Probably no other book
is so much read as the calendar.
It is the only book that every
reader or commands the re-
spectful interest enjoyed by it.
© 1922, Western Newspaper Union.

NEW YEAR'S PROMISES

The new year promises ample re-
ward only to those who honestly,
earnestly, and with intelligent
strive to accomplish the tasks that
lie before them. It promises nothing
to those who do not try to do what
is worth while.

PROGRESSIVE ROSPERITY

By
CHRISTOPHER
G. HAZARD

AS WE look into the immediate
future and greet a New Year
with its new figure, the way we
will see upon the field of
history, the figure of prosperity.
It may be that we think that
we do not see it while we are really
gaining upon a mirage. Hope al-
ways tells a flattering tale and is
ready to be the father of thoughts.
Imagination is akin to faith, but
requires no real basis. If our op-
timsim is not based upon the fact
of a prosperity that is to be real
because it will be the product and
the possession of us all.

Prosperity is the sum of co-
operative intelligence. All the capital
in the world could not be spent
without success, and all the talent
in the world could not do it with-
out capital. Life wealth has proved
no more than the sum of success-
fulness in eastern countries; men
have starved to death in the midst
of vast but unproductive natural
resources. While the employment
of money and the wise direction
of labor have given to the West its
immense advantage of social and
economic riches and well being.

Russia is perishing under the in-
fluence of a stagnant capitalism
that takes away the incentives of
progressive human beings. It is
upon past accumulations while
they last, and starves afterwards.
The interchange of abilities is cur-
bed, the social circulation of nec-
essary differences in people is ar-
rested, the rewards of a genius for
achievement withheld, production is
ended and property locked. It is
like a vast body wherein there is
no circulation of social life blood.

America has thriven and most
thrive upon the largest encourage-
ment of individualism that a true
collective mind can give. When the
crowd cannot navigate the ship
there is no advantage in killing
the captain. It isn't necessary to
have a captain, but society and business
must have leaders and governors,
and these must be two captains on
any ship.

After all, men hardly expect to
pass for more than they are worth.
The real kick in our democracy is
against the man who is not worth
the land of a fair chance. It is
the home of opportunity. No crowd
keeps their door. In an inter-
change of abilities every one who
has had and must have a chance
to make the most of himself.

In doing this, we will need and
use his fellows. No one ever suc-
ceeded in life without the help of
others as a result. We elude up-
on each other. It takes as well to
help and to be helped. A man
over himself and his fortune
to society in a very large degree.
Are we not all members of a great
wealthy body, where no one
can live to himself or die
without loss to the rest?

Let a dozen men, each man own-
ing his neighbor five dollars, sit in
a circle. Let one of these take a
five-dollar bill from his pocket and
pay his debt to the man next to
him. Let this man pay his neighbor
and the next man pay his until
the bill shall have gone round the
circle and returned to the man
who started it on its round. This
man may return the bill to his
pocket with the happy conscious-
ness that he has paid his debt and
also received what was due him,
and that every other man in the
group has the same satisfaction.
But if the first man had not started
the bill going there would have
been no such result. He would
then have illustrated Russia, in-
stead of America.

The secret of civilization is the
circulation of ability. It is the
secret of prosperity. Let every
man circulate his worth to society,
so shall there be a true commu-
nism, also a true capitalism. There
is a communism which asks why
one should prefer a dollar bill to a
gold dollar. The answer is, "Be-
cause, when you put it into your
pocket you double it, and when
you take it out you find it in
evidence." Prosperity progresses as
we pass on what we are and have.

A TIMELY RESOLUTION

"Ralph," said his father, "what good
resolutions are you going to make for
the new year?"
"I'm not going to talk with Frank
Hess any more," replied Ralph.
"I'm glad to hear that," said his
father. "But why did you say
that resolution?"
"Cause," was the answer, "I at
ways get licked."

COMES AND GOES

The record shows that the old year
goes out and the new year comes in
regardless of who is looking on, or
night as well as your usual sleep.

PINE POKER, PINE CITY, MINN.

BUILD POSTS TO STAND BIG PULL

Corner Must Be Constructed to
Resist Much Greater Strain
Than Other Parts.

WIRE IS STRETCHED TIGHTLY

Device shown in illustration is Made
of Reinforced Concrete With a
Vertical Section—Lumber
Forms Necessary.

The corner post of a fence must
be constructed to stand a much greater
strain than any other part of the
fence. When wire fencing, when
properly erected is stretched very
tightly; sometimes ordinary woven
wire fencing is stretched to a ten-
sion of several thousand pounds.
When this tension is transmitted to
the corner post from two angles it
means that the post has to be unusu-
ally solidly anchored if it is to re-

A Reinforced Concrete Corner Post

stain the strain. A very substantial
type of corner post is shown in the
illustration. It is made of rein-
forced concrete with a vertical sec-
tion 12 inches square and two wings,
each six inches thick, extending in the
direction of the two lines of fence
which meet at the corner.

To make such a post, forms are
necessary and the first step is the ex-
cavation to provide room for them.
Ordinary inch-and-a-half lumber is
good for use in work of this kind,
since it can be braced with little diffi-
culty. The forms are put together
so that the post, wings and all, is cast
in one operation. The reinforcing
for the vertical part consists of seven-
eighths inch, six-twentieths of an inch
in diameter, arranged on the two out-
side faces. During this time
about three inches, with about one
inch space between the bars and the
surface. Similar bars extend down
through the post and into the lower
part of the wings, two bars being used
for each wing.

The concrete mixture used is one
part cement, two parts of well-graded
sand and three parts of potash or
broken stone, with one part of water
one inch in diameter. This is a
rather "rich mixture," but since
it is reinforced with steel, it is the
proper one to use.

No strain should be put on the
post until it has hardened for at least
four weeks. During this time
it should be thoroughly wetted at least
once every day so the concrete may
attain its maximum strength.

FIGHT AGAINST TUBERCULOSIS

Huron County, Ohio, Dairyman Fi-
nances Their Own Campaign
Against Tuberculosis.
In Lyme township, Huron county,
Ohio, owners of dairy cattle organ-
ized an association through which
they financed their own campaign
against tuberculosis. The associa-
tion has already raised \$100,000 and
indemnity funds had run out. The
members were assessed \$2 a head for
grades and a head for purebreds.
One hundred dollars was set aside
to help with the cost of paying in-
demnities. The association has tested
its milk and found it all of which
reacted. The owners of the reactors
received the straight value of the
animals and a partial indemnity
of \$20 a head for grades. For pure-
breds the indemnity was doubled.
About 80 per cent of the herds in the
township were tested.

FEED COWS AS INDIVIDUALS

Trouble Results When an Owner
Does Not Know How to Care for
High-Producing Cow.
When a high-producing cow falls in
to the hands of an owner who doesn't
know how to feed for milk production,
trouble results. The basic principles
of feeding are simple and can be
made to understand and simple to
follow. It is necessary to feed the cows
as individuals and make necessary
the ration is necessary to care for the
individual's requirements, and to leave
a surplus of nourishment for pro-
ductive milk. Many dairy cows are under-
fed when they are overfed. When the
ration is balanced and composed largely
of good quality silage, cases of over-
feeding are rare.

MANURE IS SAVED

Tests made by the Ohio experiment
station prove that it is only more
manure saved from paved floors, but
that the quantity saved contained
higher percentages of phosphorus,
potash and nitrogen.

Potatoes as Stock Feed

Full potatoes may be fed to many
quantities to sheep in about the same
way as roots are fed to this class of
animals.

SOIL CONDITIONS ON NIGHT TEMPERATURES

Sandy Loams Store Up More
Heat During the Day.

Land in Use Should Be Well Drained
of Surplus Moisture to Avoid Dan-
ger of Formation of Injuri-
ous Frosts.

Prepared by the United States Department
of Agriculture.

A relation has been shown to exist
between the temperature of the soil
and the minimum temperature of
the air immediately above, says the
weather bureau of the United States
Department of Agriculture.
The soil in a sandy composition,
and truck farms may often be pre-
served by the selection of soil in
which the minimum temperature of
the soil is higher than that of the
air above, thus diminishing the prob-
ability of critical temperatures and
the formation of damaging frosts. The
land in use should be well drained
of surplus moisture, as wet soils are
invariably cold soils and must neces-
sarily be cooled by conduction to the
air above, thus diminishing the prob-
ability of critical temperatures and
the formation of damaging frosts. The
land in use should be well drained
of surplus moisture, as wet soils are
invariably cold soils and must neces-
sarily be cooled by conduction to the
air above, thus diminishing the prob-

New Year Purposes

The idea of good resolutions to be made January 1 used to be practiced by many people. Many thousands of men who used to be temperately or indulged in other vices have sworn off on that date. The custom has been ridiculed. It is absurd only to the extent that the making of good resolutions should not be confined to any one date.

The people who have accomplished things in this world made good resolutions on January 1 and also on other days of the year. It would never occur to them to limit their resolves to one artificial date, which is in no way different from the other 364 days of the calendar. They kept on making them, often falling down and disappointing themselves, yet rising and starting again with renewed determination. Success and happiness in this world is largely a matter of purpose. New Year is a good time to cherish new purposes, but in forming them one must expect that they will have to be renewed and dignified with equal energy at very frequent intervals.

Theatre Notes

Thursday & Friday—
 "The Prodigal Judge."

Saturday—
 Alice Lake in the "Golden Gift." Showing how a border town hall led to grand opera. Also a two reel comedy "Upper & Lower" and Movie Chats.

Sunday & Monday—
 Will Rogers in "The Headless Horseman." A familiarization of "The Legend of Sleepy Hollow" by Washington Irving. It will interest you to see the way the old Dutch settlers lived! You will see this famous legend actually brought to life! You will thrill at Ichabod's narrow escape from the midnight riding specter! Also a comedy and Fox News.

Tuesday—
 Katherine MacDonald in "Her Social Value." In a drama of the Want ads and the society page.

Art Acord in "The Winners of the West." Family night 44c admits the whole family.

Thursday & Friday—
 Wesley Barry in "Plugs to Riches" The story: A wealthy lad, determined, finding it to be impossible to have "fun" under the watchful eye of a governess, makes the acquaintance of a burglar under peculiar circumstances, running away with him. He falls in with an evil gang who plan to hold him for a ransom. Dumbell rescues the lad, taking him to a farm where they get jobs, finding themselves in a swirl of events that rushes to dynamic but happy denouement. Also "When Poppies Bloom."

CATHOLIC CHURCH NEWS

Father Leo, pastor
 Services at Pine City next Sunday at 10 o'clock. Sunday school at 9.
 There will be no services at Beuron on Sunday or New Year's. Services at Pine City on New Year's day at eight and ten o'clock. The music at the midnight mass on Christmas was the best since the dedication of the church. One of the largest crowds that ever went to the church attended the mass. The Pastor and members of the Sunday school wish to thank A. M. Challen for the apples they did not receive.

PRESBYTERIAN CHURCH NEWS

T. J. Buckton, pastor
 Services next Sunday at 11:00 and 7:30 p.m. Rev. T. Buckton will preach at the morning service and lead the new adult Bible class in the evening. Being a Bible-Come and worship with us.

METHODIST CHURCH NOTES

John Love, Pastor.
 Services for next Sunday as follows: Sunday school 10 a.m. Morning worship at 11. Evening service at 7:30.
 Prayer meeting Thursday evening at 8 o'clock.
 Everyone not attending church elsewhere is most cordially invited to come to any or all of our services.

LUTHERAN CHURCH NEWS

Paul Heinke, Pastor
 English services next Sunday at 10:30 a.m.
 Sunday school at 9:30 a.m.

Thirteen Receive Ribbons

Thirteen cows in the Brook Park Cow Testing Association of Pine County, of which Egbert Hedblom was tester for 1922, have qualified for ribbons of merit issued by

Holsteins, two are grade Jerseys, one a grade Guernsey and two are grade Shorthorns. The Guernsey is owned by Mrs. Anna Scott of Hinckley, and produced 382 pounds of butterfat during the year just completed.
 The high cow of the association for the year in this association is owned by William Lindholm of Brook Park, his grade Holstein, Lindy, having made a record of 431 pounds of butterfat. Frank Townsend, Hinckley, is the owner of a grade Holstein which made 379 pounds of butterfat during the year. Another grade Holstein owned by William Hageman of Hinckley made a record of 392 pounds of butterfat during the year's work.
 Fred Grant's grade Jersey, Du-De, produced 350 pounds of butterfat during the year. Another grade Jersey owned by Fred Grant of Pine City, produced 372 pounds of butterfat during the same time. A Shorthorn grade owned by M. Christanson of Hinckley, completed

her record with 368 pounds of butterfat for the year.
 M. C. Bahnenman of Pine City is entitled to four of Northwest Farmstead's ribbons of merit for a pound-a-day cows, having three of merit.
 138A.3 grade Holsteins which made, respectively 411 pounds, 406 pounds and 369 pounds of butterfat during the year, and one grade Shorthorn which made 400 pounds of butterfat in the year just passed.
 August Wiehstrom of Pine City, who has already received one ribbon of merit this year for the record made by his cow, Darkey, is now entitled to two more ribbons for his Grade Holsteins which have made respectively 376 pounds and 382 pounds of butterfat during the year's work just completed.
 M. C. Bahnenman of Pine City had 14 cows tested last year, which made an average of 315 pounds per cow. We would like to hear from anyone who has equalled or bettered that average, as we are anxious to publish all records.

Is Your Kitchen
 Infested With
 Evil Spirits?

If so, a Monarch Range will clear them out.
 And what's more, they will stay away, for a Monarch is not subject to the many ailments most ranges suffer when they get to be a few years old.
 The way to prevent trouble in future years is to build a range RIGHT to start with—so it will stay right.
 We sell the Monarch because we know it is built right. If you will come in, we will be glad to show you exactly what we mean. We will show you why the only way to build a range for permanent satisfaction is with a Monarch. It is made of metal and hand riveted at every joint. There is only one right way to do anything—and that is the right way to build a range.
 You will be delighted at the handsome appearance of the Monarch—and also to know how easy it is to keep it clean and looking like new. The moderate price will surprise you.

The World Moves and so do We

Let us do your hauling. We are equipped to do any and all kinds of hauling, if in need at any time our fast truck and teams are at your service. Let us move it for you

AMENDMENT OF ARTICLES OF INCORPORATION, CUNNINGHAM MERCANTILE COMPANY

We the undersigned, George H. Cunningham Sr., as President, and Merton M. Barnes as Secretary of Cunningham Mercantile Company, a Minnesota corporation, do hereby certify that at a special meeting of the stockholders of said corporation, duly called for that express purpose and held in its office in the Village of Sturgeon Lake, Minnesota at ten o'clock in the forenoon on Tuesday, December 19th, 1922, the following resolution was adopted by a majority vote of its shares and shareholders, namely:

Resolved that Article IV and Article VIII, of the Articles of Incorporation of said corporation be and hereby are amended to read as follows:

Article IV. The amount of the capital stock of this corporation shall be the sum of seventy-five thousand dollars which shall be paid for and issued upon such terms and conditions as shall be provided by the Board of Directors.
 Article VIII. The capital stock of this corporation shall be divided into seven hundred fifty shares of the par value of one hundred dollars each.

Witness the corporate seal of said corporation by the hands of its President and Secretary, this 19th day of December, 1922:

George H. Cunningham Sr., Its President.
 Merton M. Barnes, Its Secretary.

Witnesses:
 Charles Olson
 Glenn Olson
 State of Minnesota, County of Pine ss.
 On this 19th day of December, 1922, before me a Notary Public within and for said Pine County, personally appeared George H. Cunningham Sr. and Merton M. Barnes to me known to be the President and Secretary, respectively, of the above named corporation, and acknowledged the foregoing certificate as such officials, and that the seal affixed to said certificate is the corporate seal of said corporation.
 Notary Public, Pine County, Minn. My Commission Expires December 18th 1923. (Notarial Seal).

(First publication Dec. 2) Citation for Hearing on Final Account and for Distribution

Estate of Frank F. Parrish, deceased.
 State of Minnesota, County of Pine.—In Pursuance of the order of the Court in and for the County of Pine, Minnesota, made and entered on the 15th day of December, 1922, in the above entitled matter, I, the undersigned, do hereby certify that the following is a true and correct copy of the account of the said estate as required by the Probate Court in and for the County of Pine, Minnesota, in the above entitled matter, and that the same is true and correct as the same appears from the records of said Court, this 19th day of December, 1922.
 (Court Seal) ROBERT WILCOX, Probate Judge.
