Mrs. Chadwick Writes Letter

The following letter received by the Meadow Bank Get Together Club from Mrs. W. A. Chadwick will be of interest to the many friends in this community.

— Junction City, Ore., April 16, 1924.

Meadow Bank Get Together Club, Dear Friends,

I promised to outline our trip and will endeavor to do in this beautiful day.

We left Minneapolis March 30 and left with every thing whole and new. Everything looked beautiful for the rest of the way in Minnesota.

The first excitement a tall man left the train for a better 1 mile at Pullbrook. The train started and left the man at the station and he went in the train and couldn't tell American. By the time the conductor found out the trouble we were speeded on so they wired back to

would take the next train and the train would be off and wait.

Pullbrook is in a wild country with little green trees by the millions and no snow at all. The mountains on the west of Duluth, Minn. extend for many miles and Indian villages or villages are near by. Lewis Clark passed here in 1804. We found passenger turn their watches back 49 hours here.

We are now in Montana with 10 miles and men of level prairies, horse, cattle and sheep are out all winter. Not a house to be seen. Now they are following the Yellowstone river. It is open in some places and this are jammed along the shore. We had a look on the other side of the river. The farm buildings are small. The train has just started from the train this morning, snowing again.

This City is a real nice place with fine buildings. If you are in an airplane this will be a good place to stop and take in the school building. The Yellowstone River is just wonderful here at Rose Bud. All open and running like summer. Our last train at 9:20 Tuesday morning. So far a nice town and economy. Population 2339. Now just level prairie with hills or little mountains in the distance covered with little green trees. As we speed on we see a large flock of sheep a million or more, we didn't stop to count them. Spingdale, a small town in the mountains. The farmers are hard on the ground and the sheep are so there must be something growing. We had a look at those wonders not made by hands and pen and paper can't describe. We just went through the gates and into the lights. It is like the night. The train is hauled by two engines. It is snowing hard now and the Rockies I can't describe them. You'll have to come out and see. We just went through another tunnel this is the 3rd. Boseman is a small town but they are cement highways and are making a fine job. As we speed on we went through the Rockies, the dust covered wonders are just broken by the Columbia River, with cherry blossoms. Little flow is in and ice at Rose. The lower are just the summer in Minnesota.

We followed the Columbia River all afternoon. There are some fine cities along the river, some have been built on the steep hillsides at 9:30 and were met by relatives and well taken care of and taken in their car to see some of the most wonderful natural scenery in the world. The streets in Vancouver, British and Everett are all wide and paved. We visited a week and then went down to Junction City to 2000 feet in getting settled again, to have a new bungalow and good buildings and are well and happy.

Best regards,
Mrs. W. A. Chadwick
— Junction City, Ore.

U. S. NET TRADE \$19,000,000

\$389,000,000 Margin Shows With \$270,000,000 on Debt Side.

Washington—After estimating various items of "invisible exchange" the department of commerce has announced that the balance of trade in favor of the United States for the year 1923, amounted to approximately \$19,000,000. The favorable trade balance is reduced by taking into consideration such "invisible items" as interest in dividends, ocean freight, governmental payments, services to tourists, charitable and missionary expenditures and immigration remittances.

25 RACE TRIGGERS IN TUNNEL

Compressed Air Explosion Blows Hole in Roof and Shuts Geyser.

New York—Twenty-five men working in the vehicular tunnel being built under the Hudson river, fled for their lives when compressed air explosion blew a hole in the tunnel roof and set off the geyser.

The explosion occurred about 200 feet from the New York end of the tunnel.

Camphor for Sore Eyes

It is surprising how quickly eye inflammation is helped by camphor. Hydroxide, witchhazel, etc., as mixed in Lavoptik eye wash. One small bottle helps any case sore, weak or strained eyes. Aluminum eye cap free. Prochaska's Pharmacy.

Glycerine Mixture for Sore Throat

Simple glycerine, licorice bark, etc., as mixed in Adalena, helps any case of sore in the throat. It is a most wonderful remedy not only on lower throat but Adalena gets on BOTH upper and lower vocal and removes all gasses and poisons. Bring out matter you never thought was in your system. Excellent for pharyngitis. Guard against cheap imitations. Prochaska's Pharmacy.

 Curtis Johnson is Qualified

The thing that appeals to us when considering the qualifications of Curtis Johnson for governor of Minnesota, is the fact that he is not a professional politician, but is a business man, a small town merchant whose success depends upon the success of the farmers.

Mr. Johnson is the head of the Johnson Hardware and Implement Company of Rush City. The business has steadily grown and prospered. This is due to two facts. One is Mr. Johnson's ability as a manager and the other is the fact that in the past the farmers in his territory have prospered.

We need men in public office today who thoroughly understand the needs of the farmers and who are sincere when they advocate legislation that will help the farmer. Mr. Johnson has spent his life in the country and understands conditions as they are today. He has demonstrated his executive ability time and again as a member of various national organizations, as president of the Minnesota State Fair, and in the management of his own business.

He is well qualified to act as the chief executive of Minnesota. This is the first time he has sought a public office. He is not tied to any particular issue and he does his own thinking. If elected governor he would act with credit to himself and credit to the state of Minnesota. He deserves the support of Pine and Chicago counties not only because he is a native son, but because he has the ability to perform the duties of Minnesota's chief executive.

The government of Minnesota and the nation at large has been burdened with too much politics and too little business in the handling of public affairs. There have been too many politicians whose chief business has been to "farm the farmers." What we need are men in public office who will consider things from the standpoint of the welfare of the country and not from the effect it will have on their votes in the next election.

FASCISTI CARRIES ELECTION
 Mussolini Government to Have 300 Majority in Chamber of Deputies.
 Rome—While the result of general election will be officially announced, it was known that Premier Mussolini's fascist party has been successful.

Public interest was slight as it was a foregone conclusion the fascists would win. Only about 55 per cent of the voters went to the polls.
 The Central News circulated a report that Mussolini's ticket received 350,140, while the opposition got only 85,841 votes.
 There were few incidents. Fascist militiamen and police were on guard in districts where trouble was anticipated.

ALBANIANS KILL AMERICANS
 Political Motive Believed Behind Assassination of Travelers.
 Washington—The state department cabled the American consulates at Tirana requesting an immediate investigation and report on the reported slaying of George B. De Long, of New York and Robert L. Coleman, of San Francisco, by Albanian bandits.
 Tirana, Albania—Ulysses Grant Smith, American minister to Albania, began a vigorous investigation into the assassination of two American travelers—George B. De Long, of New York and Robert L. Coleman of San Francisco—on the Tirana-Sentari road. They were attacked by bandits from ambush and both were shot dead.

PAGE MEMORIAL IS UNVEILED
 Tribute to U. S. Ambassador During War is Paid at Yorkhires.
 Pickering, Yorkhires, England—Here, near his ancestral home, a memorial tablet to Walter Hines Page, friend of England and American ambassador to the court of St. James throughout the great war, was unveiled by the present American ambassador, Frank B. Kellogg. Mr. Kellogg left the British capital for the first time since his arrival in November to participate in the ceremonies and deliver the address of the day.
 The services were conducted by the Archbishop of York and many prominent persons in the official and social life of northern England attended.

 Pulsations of the Earth.
 It has been proved that, in addition to the many tremors due to seismic or earthquake influences which modern delicate instruments detect, there are certain pulsations that seem to have some other origin. Some of these are diurnal and are probably due to the influence of the sun and the weather on the ground. In wet weather the sides and bottom of a valley carry a heavier load than the bounding ridges; in dry weather the case is reversed.

SENATOR WHEELER INDICTED

Daugherty Prosecutor Alleged to Have Accepted \$4,000 Retainer.

Great Falls, Mont.—United States Senator Burton K. Wheeler, prosecutor of the Senate Daugherty investigating committee, was indicted here by a federal grand jury on charges of unlawful receiving money as a retainer fee to influence the issuance of oil and gas prospecting permits by the Secretary of Interior and commissioner of the general land office.

With Senator Wheeler were indicted Gordon Campbell oil prospector and operator, and L. C. Stevenson, oil promoter and principal owner of an oil refinery. Campbell and Stevenson were the discoverers of the Sunburst-Kerrin oil field in Montana. Other oil men of lesser prominence also were indicted on charges of using the mails to defraud.

The grand jury charges that on two occasions Senator Wheeler accepted money improperly after he had been elected United States senator but before he had qualified for office and on a third occasion agreed to accept money.

TO SEEK PEACE CONFERENCE

Joint Resolution Introduced in Senate By Pennsylvania Republican.

Washington—A joint resolution proposing a world peace conference was introduced by Senator Pepper, Representative of Pennsylvania.

The Senate would advise the President under the resolution that the time is suitable for the assembling of a conference similar to the two held in the past at The Hague.

In a brief explanation, Senator Pepper said the economic feature had been deliberately left out because it was covered in a similar resolution by Senator Borah, Republican.

The proposal for discussion of a world court, he said, was intended to obviate the necessity "for anything to satisfy the widely diverse views upon the League of Nations."

KENTUCKY TROOPS CALLED

Two Companies of Guardsmen Are Rushed to Straight Creek.

Blifford Found in Net Recalls Tragedy

Two Rivers, Wis.—A billfold, caught in the meshes of a fishing net, used in Lake Michigan, has been identified as the property of Captain Herman Schunemann, of the three masted schooner Rosse Simmons, which foundered in a terrific gale November 24, 1914. Calls for help were picked up that night by the Kewawee life saving station, but the crew was unable to locate the Rosse Simmons which, loaded with Christmas trees, was making for Chicago.

GET AT THE CAUSE!

Many Pine City folks are showing how to avoid needless suffering.

There's nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day aches, the sufferer is tormented and what with the burning and scalding, the attendant backache, headache and dizziness, life is indeed a burden. Doan's Pills a stimulant diuretic to the kidneys have brought peace and comfort to many Pine City people. Try it by this resident's experience:

J. M. Morrow, farmer, says: "I had heavy, bearing down pains in the small of my back. When I stopped these pains became more severe and if I attempted to lift anything, my back gave out entirely. My kidneys began to act too often and I had to get up several times during the night to pass the secretions. The first box of Doan's Pills brought relief. The backache left and my kidneys became strong."

Why Commercial Users Prefer the Ford

There is much significance in the fact that more than 75% of all commercial cars of one-ton capacity or less in the United States are Fords.

This overwhelming preference for Ford haulage units has its basis in the low cost of Ford transportation, the rugged construction of the truck itself, and its unusual adaptability to every line of industry.

Mechanical excellence, simplicity of design and ample power are further factors that have contributed to the popularity of the Ford One-Ton Worm Drive Truck.

The Ford One-Ton Truck equipped with an all-steel body and cab is now available as a complete unit, priced at \$490 f. o. b. Detroit. Screen sides and canopy top that may be easily fitted to this unit are supplied at small additional cost.

ITS issue of March 5, the Gazette, of Hutchinson, Kansas, says:

"THE BRIGHT SIDE"

The Standard Oil Company gets its praise often but seldom says the company is the best managed business organization in the world.

The entire oil business has been singularly free from labor troubles which have beset many of the other major industries. Reasons for this can be found in the fact of the rapid growth of the industry, the payment of relatively high wages and the shilling of producing and refining centers.

The oil companies, however, have not been content to allow harmony to rest entirely on conditions. Efforts have been made, in the Standard and other companies, to obtain the greatest harmony possible among the workers. The Standard of Indiana was a pioneer in fostering a policy granting employees, through their elected representatives, a voice in settlement of all questions affecting their welfare, as to wages, hours of labor and working conditions.

How the plan is working is expressed by Colonel Robert W. Stewart, chairman of the board of directors, who says:

"The greatest thing needed in American industry today is a better understanding between employees and management. The day of intolerant and drastic measures by either the leaders of capital or labor is past. Each needs the other, and the policy of establishing good-will, peace and understanding have been established between the management and employees of our company.

For five years we have worked together in mutual esteem and trust. For the board of directors, I say to you that while the problems presented by the situation in the oil industry today are stupendous, we face them with a greater confidence because we feel that we have back of us the whole-hearted support of every man and woman in the Standard Oil Company (Indiana)."

The oil business has its virtues as well as its foibles, if conducted properly.

The Standard Oil Company (Indiana) has been relatively free from labor troubles because justice, equity and fairness are fundamental to the organization.

Without loyalty, earnestness and complete harmony in its organization of 27,000 men and women, this Company would be unable to render to the thirty million people of the Middle West, the comprehensive service which they now enjoy and which is so essential to their commercial and domestic life.
