Official County Paper

Vol. XVI

PINE CITY, MINN. JUNE 18, 1914.

No. 43

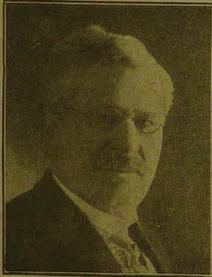

IT'S LEE AND HAMMOND

Lee Defeated Eberhart by About 25,000

RINES WINS OUT FOR AUDITOR

Roberts and Rystrom are the Nominees for the State Senate

Primary election day, Tuesday, was a beauty and most every village in the county took on sort of a Sunday aspect—either because the farmers were all busy at home or because they took the day off to talk politics. But the vote in the county was pretty light—only 1,500 being cast out of a possible total of about 3,800 that might be shed into the ring.

HON. WM. E. LEE
Who defeated Gov. Eberhart for re-nomination

Hon. Wm. E. Lee of Long Prairie carried the State over Governor Eberhart by about 15,000 and Hon. J. A. O. Preus is probably nominated state auditor by a small but substantial plurality.

Lawler seems to have carried off the Democratic nomination for governor though Hammond carried Pine by a substantial majority.

On the balance of the Republican state ticket Lieut. Gov. Burnquist was renominated for Railway and Warehouse Commissioner and present officers were renominated clear down the line.

P. A. Christianson of Hinckley and J. A. Bystrom of North Branch are nominated for the State Senate. Mr. Christianson and Mr. Roberts ran a very close race in the county but Bystrom carried Chicago county overwhelmingly and Christianson ran ahead of Roberts there, insuring his nomination.

County Supt. Blankenship was renominated with nearly 300 to spare over either of his opponents. Prof. Anderson and Mr. Golly ran a very close race, the latter winning by 35 with Wilma town to hear from. Prof. Anderson did not work over the county and was unknown. Had he got out he would have been nominated without a doubt.

For county attorney Mr. Lamson is renominated by a good margin and Mr. Ervin of Sandstone wins over Mr. Sobotka of Pine City by a close vote. This pits Mr. Lamson and Ervin against each other in the November finale.

In Chicago county Bystrom received 1,157 votes for senator, giving him 1,548 in the district. Christianson received 229 in Chicago, giving him 399 in the district.

General Election Will Be Held November 10th, 1914

Roberts received 193 in Chisago, giving him 836 in the district.

For Representative, Berg received 490 in Chisago, making his total vote 879. Larson received 369 there, making his total vote 1,055. Moberg received 283 in Chisago—a total of 540 in the district. Nelsson received 93 votes there, making his total 397. Nordgren received 953 votes in Chisago, giving him a total of 1,210. Peterson received 304 in Chisago and 393 in Pine, making his total 697. These figures indicate that Larson, with 1,085 votes, Nordgren with 1,210, Berg with 879 and Peterson with 697 will be the nominees over Mobeck with 540 and Nelsson with 397.

There were hardly any Progressive votes cast in the county, precinct after precinct reporting a blank for the Bull Moosers. Rock Creek led in the number of these votes with four.

There were warm fights for county commissioner in the 1st and 3rd districts in this county, Gust Anderson and Henry Studt winning in the former and Andrew P. Edin and Matt Bullis in the latter district.

Battle Ships Are Rigged

Bos'n Ole Olson of the government ship Gopher was down to Pine City from Duluth, Wednesday and Thursday of this week, rigging sails on the two battle ships, Whaleboat and Cutter, that are used by the local division of Naval Militia to guard the coast from Chengwatana to the Cutoff.

Both the men-of-war were fitted with fore and main masts and a full complement of sails, including a jib.

From these additions the members of the militia will get a fuller knowledge of sailing and be more "onto the job" when the annual cruises on the Gopher direct their activities into actual nautical experiences.

These Filed Expense Accounts

All of the candidates for county office were expected to file their expense account with the county auditor last Saturday but very few

of them apparently found that they had any expense account to file. At least the only ones to turn in statements were Louis Anderson and C. W. Colby, candidates for county superintendent of schools, Ottocar Sobotka and W. H. Lamson, candidates for county attorney and John Von Rueden, candidate for commissioner in the 3rd district.

Anderson reported a total expense of \$11.55, Colby of \$7.50, Sobotka of \$8.25, Lamson of \$18.50 and Von Rueden \$5.

There is no reason to think that anyone exceeded the speed limit in Pine county. Nobody has seen any indication of it at least.

For County Commissioner, 1st Dist.

The vote for county commissioner in the first district was as follows: Rocke Wm. E. Anderson 26,

Gust Anderson 59, N. P. Johnson 1, W. H. Lehn 3, J. M. Morrow 38, Matz Peterson 12 and Henry Studt 7.

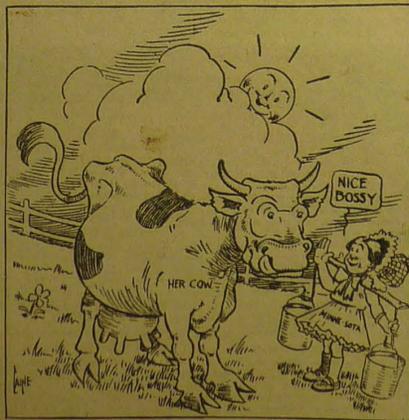

Royalton: Gust Anderson 7, N. P. Johnson 11, W. H. Lehn 2, Matz Peterson 22 and Henry Studt 58. This nominates Gust Anderson and Henry Studt.

In a Dilemma.

One of London's charming young suffragettes said: "I want to get married just to prove that I can, and I don't want to get married just to prove that I don't have to. If I don't they'll say I can't. If I do they'll say I have no more independence than any other woman."—T. P. A. London Weekly.

Out west there is a river called the Milk River. How would you like to face the task of swimming up a real river of milk, 100 feet deep, 100 feet wide and 12 miles long? It would take a strong man to do it. Yet Minnesota produced far more milk than this in 1913. The milk received by the 184 Minnesota creameries last year would have filled this river, according to the State Board of Lactation. Had the milk been condensed that was used in making home butter, cheese, or used as whole milk, the big river of milk would have been increased considerably. The cash paid out by the six creameries to its patrons last year amounted to nearly \$20,000,000, which fully justifies the encouragement given to dairymen by the Minnesota State Fair. This year the Fair will offer \$1,000 in cash prizes to deserving exhibitors of butter and cheese, and over \$7,000 will be awarded at the Dairy Cattle Show. The cattle show will be one of the biggest ones held in the United States this year.

PINE CITY WILL CELEBRATE

Regular Old Time Doings at County Seat

CALATHUMPS AND RED FIRE

So Far It Is Only Promise of a Celebration In The County

Pine City will celebrate the 4th of July with a whole of a time, under the direction of the firemen who hope to give everyone a good day and incidentally make a profit of a few shekels that will be added to the fund for entertaining the state firemen's convention here next year.

Arrangements haven't gone very far yet into details but the Finlayson band will be on hand to help in making the day harmonious and the Finlayson ball club will cross bats with the locals in the afternoon.

There will be a proper slambanging at sunrise, a parade, program in the park etc. during the forenoon. In the afternoon there will be all kinds of sports and games and the whole time will be filled up with something worth seeing and hearing.

And in the evening there will be a dance with Dunning's orchestra from Duluth furnishing the music—and fireworks over all.

So far as we know no other town in the county will pull out the Eagle's tail feathers and cause 'er to scream on Our Country's natal day.

But there will be lots of picnic celebrations at lakes and farm homes where neighbors will gather for the day.

HON. J. A. O. PREUS
who has probably been elected State Auditor in a close fight.

County Commissioner 3rd Dist.

In the third commissioner's district the result was as follows: Hinckley village: Bullis 43, DeBoer 11, Edin 4 and VonRueden 43.

Sandstone village: Bullis 76, DeBoer 17, Edin 116 and VonRueden 8.

Hinckley town: Bullis 13, DeBoer 16, Edin 23, VonRueden 28.

Dell Grove: Bullis 10, DeBoer 23, Edin 45, VonRueden 4.

Barry: Bullis 17, DeBoer 2, Edin 2, VonRueden 12.

Clover: Bullis 5, DeBoer 1, Edin 1, VonRueden 11.

Arlene: Edin 7, VonRueden 2.

Danforth: Bullis 6, Edin 8.

Wilma: Bullis 6, Edin 4.

Arna: Bullis 11, Edin, 2 DeBoer 1.

LEE SEEMS TO BE WINNER OF G. O. P.; HAMMOND VICTOR

ST. PAUL AND DULUTH GO FOR GOVERNOR EBERHART BUT MINNEAPOLIS AND COUNTY FOR LEE.

OLD CONGRESSMEN WIN RENOMINATIONS AGAIN

Lyndon A. Smith Victorious Over Manahan by Great Majority—Henry Rices Makes Good Race For State Auditor.

St. Paul, June 17.—Minnesota has probably given William E. Lee the Republican nomination for governor. Minneapolis went to Lee by a majority of about 2,000 over A. O. Eberhart, in Minneapolis of 100 precincts out of 157 the vote stood. Lee 5,350, Eberhart 7,575. Ramsey county went heavily for the governor. In the country districts reporting early, Mr. Lee is running ahead. Duluth returns indicate a good Eberhart vote there.

The question is whether St. Paul and Duluth will be able to offset Minneapolis and the country losses to the governor. In the country 149 precincts give Lee 7,934 and Eberhart 5,810. Mr. Eberhart, through the St. Paul and Duluth votes, led by a narrow margin, but the country vote piled up against these figures.

One of the immense surprises of the campaign was the vote on state auditor. J. A. O. Proulx, present incumbent commissioner, was looked for to make a runaway. From the country 76 precincts give Proulx 1,892, Rices,

William E. Lee.

2,304 and Block 1,098. Minneapolis, however, gave Proulx a plurality over Rices and he may be pulled through yet. This contest was a total surprise to everyone concerned.

On the other hand, O. P. R. Jacobson, candidate for railroad and warehouse commissioner, was expected to be last on the organization ticket.

Manahan Loses Out. James Manahan was not in the running for attorney general. Sincerely a precinct in either country or city gave him a majority over Lyndon A. Smith, incumbent.

Daniel G. Lawler, candidate for the Democratic gubernatorial nomination, ran strong in St. Paul but W. S. Hammond soon began cutting into the vote and he recorded the victor in that fight. Hugh Halbert won the Progressive nominee. In only a few precincts was the Progressive vote large, but Halbert led the lead there.

Judge Bunn received a big vote for associate justice of the state supreme as against the incumbent, that Lieutenant Governor Burdett defeated Elias Stenholm.

State Against Eberhart. Southern and central Minnesota gave the governor poor support. The returns from the north made it look better for the Eberhart cause. The first six precincts from Duluth showed Eberhart 478 and Lee 373.

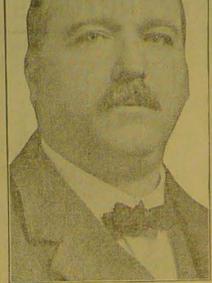

Crow Wing county sent in good returns for the governor, two precincts in Trained showing 230 for Eberhart to 182 for Lee.

Kandioli county went strongly against the governor, 13 precincts giving Eberhart 385 and Lee 761. Nobles county, south of Grand Forks, right. Hugh Halbert won the Progressive nominee. In only a few precincts was the Progressive vote large, but Halbert led the lead there.

See Fiance Drown. Grand Forks.—While his fiancee stood on the shore powerless to help him, a young man, son of Con Whalen of this city, was drowned in the Red Lake river. The drowning occurred south of Grand Forks, near the Kimball farm. Ray Clingworth, a friend, barely escaped drowning in hurrying to Mr. Whalen's rescue, only the prompt action of Bert Clingworth, Mr. Whalen's brother, saving him. Ray Clingworth had gone down twice, when his brother reached him.

ty is against the governor, with four precincts showing Eberhart 173 and Lee 253. Wright county, as expected, went against the governor, the first precincts showing Eberhart 48 to 103 for Lee.

Scattering Returns. Lake county started in with for the governor with Eberhart 63, Lee 23. Seven precincts in Chisago give Eberhart 277, Lee 322. Polk county, expected to be even, gave Eberhart 192 and Lee 201. Henry county gave Eberhart 107, Lee 195. Pine county went against the governor, Martin

W. S. Hammond.

county was for Lee. Washington county for Eberhart. Blue Earth gave the governor a good vote from his home town people.

Beltrami was close but Eberhart carried. The city of Moorhead with two outside precincts gave the governor 474 and Lee 245.

Congressmen are Renominated. Nearly all the members of Minnesota's congressional delegation who were candidates for nomination, were successful at the polls. In the Second district Winfield Scott Hammond, incumbent, was a candidate for governor and a new man was nominated. Also in the new Tenth there was a new name to go on the ballot this fall.

In the Fifth district, which takes in all of Minneapolis but the Fourth, Third and Tenth wards, George R. Smith is 1,304 votes ahead of Ernest Lundeen. Madison County Bowler seems to have the Democratic nomination, having defeated John H. Long Swenson in Tenth.

Democrats in the tenth district showed more vigor in sending in returns, and it seems certain that Harry Swenson, two years ago a candidate for county attorney, defeated A. S. Dowdall, Jr.

Some returns came in from the Second district, where it appears that Senator Julius Haycraft has the Republican nomination. Other districts were also to report and it is impossible to tell who is victor elsewhere.

The man, which Ernest Lundeen made against George R. Smith was just another of the surprises of this campaign would not have the slightest difficulty.

In the first district Sydney Anderson of Lanesboro, incumbent, seems to have defeated his former private secretary and campaign manager, Ole M.

Lyndon A. Smith.

Levang, also of Lanesboro, for the republican nomination. Levang got into a disagreement with Congressman Anderson over money compensation. He defeated his former private secretary of Rochester, is the likely Democratic nominee in this district, having no opposition at the primaries.

Re-elected in Minneapolis. Wallace G. Nye and James D. Williams are the majority nominees in Minneapolis. Charles D. Gould is the prominent senate members are candidates for re-election without opposition, but others are being given hot fights for nominations within their respective parties.

Senate Personnel to Change. Blinnark. Interesting changes in the personnel of the state senate will be worked by the elections of this year, twelve of the members of the upper house having retired voluntarily, while others probably will join the list of absentees by virtue of the primaries of June 24. Several of the prominent senate members are candidates for re-election without opposition, but others are being given hot fights for nominations within their respective parties.

Little Hope for Ballonists. Portland, Ore., June 18.—Little hope is held out that Roy Henderson and Willie Henderson, who left here last Thursday in the balloon Springfield, in a race with five other balloons will be found alive. Minful of the narrow escape from death of the Italian club and Roy Henderson, the latter party vigorously pushed their arrangements and arrangements have been made for more extensive operations immediately.

VILLA SPLITS WITH CARRANZA; RESIGNS AS NORTH WERN CHIEF

LONG EXPECTED BREAK IN THE REBEL RANKS HAS OCCURRED ACCORDING TO REPORT FROM EL PASO, TEXAS.

CARRANZA'S OFFICES IN NORTH HAVE BEEN SEIZED

Customs House and Treasury Department at Juarez Said to Have Been Taken by Villa's Men—Carranza's Orders are Disobeyed.

El Paso, Texas, June 18.—Reports that General Villa has resigned as commander of the northern military zone in Mexico is confirmed partly by Carranza's office at Juarez, which has been confiscated by Villa supporters. Similar confessions are authoritatively reported to have taken place at Chihuahua City and at Torreon, where Villa remained yesterday. The seizure of the offices in Juarez is taken as evidence of the long-expected split between Carranza, leader of the revolutionaries, and Villa, his most successful chieftain.

Customs House Confiscated. In addition to the information bureau and the telegraph office it was later learned that the customs house and the treasury department at Juarez had been confiscated by Villa's officers.

H. Perez Abreu, Carranza's publicity agent, was reported as called and it was made known that nearly all of the employes of Alberto Pani had been ordered to the treasury department at Juarez and has been the trusted relation Carranza from Saltillo and Rafael Zubaran at Washington, who in turn transferred the message to the media-tors at Niagara.

To Confer With Chief. Manuel Bonilla, Villa's confidential secretary at Juarez, said last night that he had been ordered to listen to Torreon to confer with his chief.

Although Villa's persistent military successes had caused speculation regarding his relation with Carranza, the matter did not receive serious consideration until the appointment by Carranza of General Panfilo Natera as commander of a newly created military zone. Natera's appointment placed him in charge of a strip of country which Villa previously had planned to invade, including the yet uncaptured city of Zacatecas.

Natera is Defeated. Natera attacked Zacatecas while Villa remained at Torreon, viewing the experiment from the rear, and according to reports from Mexico City, completely confirmed by private advices from the revolutionaries, from below this point, Natera was defeated decisively in frequent attempts to take the city.

Then it was that Carranza requested Villa to rush to Natera's assistance. This was several days ago, and in the meantime, reports continued to arrive of Natera's defeats. Villa remained at Torreon.

Bone of Contention. The matter of who should regulate the public service in northern Mexico actually has been a bone of contention between Carranza, the leader, and Villa, the subordinate. Under the old Federal regime, the railroads and telegraph were subject to the central control from the national capital. All the officials ousted by Villa yesterday were appointees of Carranza. The chief cashier had taken over the management of the railroads and telegraph and incidentally the information bureau, in accordance with the prescribed custom in Mexico.

Albanian Attack Goes On. Durazzo, Alban., June 17.—Another attack on the Albanian capital was made by Mussulman insurgents when heavy artillery was brought to bear on the defending forces commanded by Prince William. The ruin of the attacking force were soon located in the vicinity of Hasbal, and the artillery men in the park quickly found the range. Detachments of blue-jackets from the international fleet lying on the coast took up positions in the neighborhood of the foreign legations.

New Kentucky Senator. Frankfort, Ky., June 17.—Governor McCree has signed the commission of Johnson N. Camden of Versailles as United States senator from Kentucky to fill the vacancy caused by the recent death of Senator W. O. Bradley.

Relieved by Quitting Coffee. Many cases of defective vision are caused by the habitual use of coffee. It is said that the caffeine which coffee is used in large quantities, may lose their eyesight at about fifty. Tea contains the same drug, caffeine, as coffee.

My son was for years troubled with his eyes. He tried several kinds of glasses without relief. The optician said there was a defect in his eyes which was hard to reach. He used to drink coffee, as we all did, and finally quit it and began to use Postum. That was three years ago and he has not had to wear glasses and has had no trouble with his eyes since.

"I was always fond of tea and coffee and finally became so nervous I could hardly sit still long enough to eat a meal. My heart was in such a condition I thought I might die at any time.

"Medicine did not give me relief and I was almost desperate. It was about this time we decided to quit coffee and use Postum, and have used it ever since. I am in perfect health. No trouble now with my heart and never felt better in my life.

HOW WOMEN AVOID OPERATIONS

By Taking Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio.—"My left side pained me so for several years that I expected to have to undergo an operation, but the first day I took Lydia E. Pinkham's Vegetable Compound I felt the pains in my side and I continued its use until I became regular and free from the pains in my side. I had asked several doctors if there was anything I could take to help me and they said there was nothing that they knew of. I am thankful for such a good medicine and will always give it the highest praise."

—Mrs. C. H. GIFFRITH, 7365 Madison Ave., Cleveland, Pa.—"I suffered from female trouble and the pains were so bad at times that I could not sit down. The doctor advised a severe operation but my husband got Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new person and can do a hard day's work and not mind it. What joy and happiness it is to be well once more. I am always ready and willing to speak a good word for the Compound."

—Mrs. Anna W. Smith, Hanover, Pa.—"If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (officially) Lynn, Mass. You will be opened and answered by a woman and held in strict confidence."

Wanted to See Novelty. A little girl's uncle wrote her a letter, using a "script" typewriter, the letters of which were joined as those in ordinary handwriting. The little girl noticed the difference between this ordinary type and that more generally used with interest.

"Oh, uncle, uncle," she cried upon her next visit to his office. "I want to see the typewriter that writes words instead of letters!"

Saved. The chief Postman was about to pulverize Mr. John Smith when a shriek rent the air and Postachons stood beside them.

"Stay," the man commanded. "Ah!" exclaimed Smith, who was noted for his fertility in resource. "You are the first I ever loved!"

Postachons was just graduated and believed everything she heard, and so they were married.

Worst Yet to Come. "I hate to leave the old place," remarked Adam as he turned from the garden to Eden. "Leaving isn't the worst of it," replied Eve. "Think of the trouble you've just had to have when you get to telling of the animals and rivers in this place to the explorers and geographical experts over yonder."—Washington Star.

Stationery Talk. "I like your address," said the postage-stamp to the envelope.

"If it were not for my address I don't suppose you would be stuck on me," replied the envelope.

Northwestern Minnesota Epworth League Takes Action at Fergus Falls—New Officers

Fergus Falls—The northwestern Minnesota district Epworth league held its annual convention here Sunday night. A ministerial convention was held in conjunction and the committee having the matter in charge recommended that George C. Curtis of Fossilton, Henry G. Gardner of Parkville, William J. Nelson of Harneville and Claude E. Sanders be admitted into the traveling branch of the ministry at the coming session of the conference to be held at Montevideo in October.

Bishop William A. Grayle delivered the opening address Sunday.

At the business session of the convention late Saturday resolutions were unanimously adopted to the effect that the following send a telegram to the Minnesota senators and representatives in congress, urging them to support the Holston prohibition amendment to the national constitution, and that a telegram also be sent to the commissioner of Indian affairs, urging him to enforce the Indian treaty provisions and close the saloons of northern Minnesota without delay.

Officers for the ensuing year were elected as follows: President, C. H. McCrea, Detroit; president, Miss Mary Craig, Wadena, first vice president, Miss Elsie R. Kapphan, Alexandria, second vice president, Miss Marietta Nicholson, Crookston, third vice president, Miss Vera Pearl, Sauk Centre, fourth vice president, Miss Esther J. Palmer, St. Hildy, secretary, Glen Cochran, Park Rapids, treasurer, Miss Helma Peterson, Fergus Falls, Junior league superintendent.

"RIVER PIGS" OUT OF WORK

Log Drivers Laid Off Because of High Water Stage Along Mississippi

St. Cloud—The high stage of water in the Mississippi will throw out of employment over 200 log drivers or "river pigs," as they call themselves. A crew of over 100 men under the direction of Otis Webb has gone to Minneapolis.

Less than 70,000,000 feet of logs are jammed between here and the Mill city and the high water will do most of the work in carrying them down stream. Whereas in past years from six to nine weeks have been required in making the drive from St. Cloud to Minneapolis, but fifteen days will be consumed this trip. The crew will then be laid off.

The Ed Lovick crew ran from Brainerd to Little Falls and laid off and is now awaiting the arrival of a northern drive at Brainerd. The Webb crew will be laid off at Minneapolis last of the month and will not be given employment again until August.

ALBERT LEA WAR MEMORIAL

Former Governor Van Sant Unveils Statue to Civil War Veterans

Albert Lea—A statue erected in honor of the veterans of the civil war was unveiled here Friday with appropriate ceremonies. Former Governor Van Sant, past commander-in-chief of the G. A. R., delivered the address before a large audience. He was warmly welcomed by the veterans, many of whom had fought in his regiment.

Governor A. O. Eberhart, who was making a campaign tour in the vicinity, appeared unexpectedly. Although he was not on the program, he made a brief speech. He hurried away to talk to the crowd at the Owatonna. Albert Lea ball game and from there went to the Albert Lea State Creamery association picnic, leaving by a night train for Minnabota.

The appearance of the governor at the unveiling created much comment.

STATE AUDITOR IS UPHELD

Supreme Court Upholds Fish Commission Cannot Collect \$40,000.

St. Paul—The state supreme court upheld State Auditor S. G. Iverson in his refusal to turn over some \$40,000 in resident game license fees to the state game and fish commission. A writ of quo warrantum secured by George J. Bradley, chairman of the commission, is quashed by the court. The money thus stays in the general fund of the state treasury.

Chapter 140, laws of 1913, abolishing standing appropriations, except where there is a provision for a levy or fee or receipts for any purpose set apart as a special fund," says the decision. "Abolished the standing appropriation of hunter license fees to the use of the game and fish commission. Such fees were never set apart in a special fund so as to be excepted from the operation of that act."

The department formerly had an appropriation of \$35,000 and fees. Last year the legislature cut the appropriation at \$63,000. The department continued to spend money at the old rate, having spent \$101,000 in 1913. The appropriation is nearly exhausted and the warden, if they serve at all, will have to serve without pay until August.

HOUSE GIVES WAY; BOY JUMPS

Duluth Dwelling Falls 25 Feet into Ravine and is Completely Demolished.

Duluth—While all members of the family was away except Frank, age 12 years, the supports of a two-story dwelling house owned by John Karovsky, 5104 E. East Ninth street, gave away and the building plunged 25 feet into a ravine and was completely demolished.

Feeling the floor settling beneath his feet, Frank ran to a window at the first floor, and jumped, landing safely on the high bank fronting the house. A second later a cloud of dust arising from the bottom of the ravine indicated to the frightened lad that the house was wrecked. Recent rain had caused the footings of the supports of the rear of the building to become weakened.

Sues His Wife's Parents.

St. Paul—A man charging that he was alienated by his wife's parents, Ernest Menton, formerly of Kasota, has filed suit against her parents, W. R. Skipton and Abbie Skipton, of Kasota township. The action has been started in the district court of Itasca county, and \$20,000 damages is demanded by the plaintiff. He alleges that he and his wife were invited to visit at the Skipton home in La Suer county. Dislike for the plaintiff, the complaint adds, caused the defendants to persuade the daughter to refuse to return to her husband's home. Mrs. Menton has brought an action for divorce.

Des Moines Out of Banks.

Jackson, Minn., June 15.—Heavy rains the past week has put the Des Moines river out of its banks, causing untold damage to crops in this vicinity. More rain has increased the danger. Many families in the lowlands are being to Jackson.

Boat Crashes; Two Drowned.

St. Paul—Two St. Paul men were drowned in the Mississippi river opposite Harriet Island, when their boat crashed into the motorboat club dock. The boat was without lights. The drowned were: Julius G. Fuerst and Fred Peterson.

To Enforce Indian Prohibition.

Washington, June 11.—Commissioner "Don" Sawyer of the Indian bureau has instructed his subordinates to gather all data possible on the Indian liquor situation in Minnesota, with a view to enforcing the prohibition in the territory covered by the treaty of 1855. "I am especially gratified that prohibition extends to the White Earth reservation and adjacent territory." "We have had a lot of trouble in keeping liquor away from the Indians there."

Nicollet Farmers Hold Picnic.

Nicollet—The Nicollet County Dairy and Creamery association held its annual picnic at the Red Johnson grove south of this village. The meeting was entertained by the Nicollet Creamery association, and the Germania band of Nicollet furnished the music. A basket picnic was served at noon under the trees and an interesting program was carried out. Several prizes were given to the best speakers. A program of athletic sports was carried out.

A VAIN HOPE.

"Grandma could help our social ambitions if she would. You know she smokes an old pipe."

"Don't worry. Society may condemn that."

"You don't understand. Don't you see how much smarter it would be if she would consent to smoke cigarettes?"

REAR LIGHTS.

Bacon—I see searchlights are to be found mounted on the transportation platforms of some western railroad trains.

Egbert—I suppose that is so passengers can see where they're not going.

TO PERPETUATE the memory of mighty deeds on the field of battle and of epochal events which have led to the changing of governments and of the boundary lines in our geographies and to arouse in the minds of succeeding generations the spirit of patriotism which inspired our forefathers to accomplish these deeds, tablets and monuments of various kinds have been placed on the sites of those historic events.

In the United States Boston, New York, Philadelphia and many other places in the East and Southeast are rich in memories of the War of the Revolution and of the events leading up to and succeeding it. Boston, more than any other place perhaps, is deserving of the title "the Cradle of American Liberty." Faneuil Hall, Old South church, Christ church, or Old North church, from whose bell the signal was flashed which started Paul Revere on his famous ride and Bunker Hill are only a few of the historic landmarks which make Boston famous in Revolutionary history. The famous "Boston Tea Party" was the first protest of the indignant colonists against the oppressive rule of the mother country.

This event occurred in Boston harbor in December, 1773. In order to compel Great Britain to be just toward the American colonists in the matter of taxation, merchants of this country had agreed not to import anything while such oppressive laws existed. The British parliament declared their right to tax the colonists without their consent; the latter declared that "taxation without representation is tyranny." The quarrel grew hotter and hotter, some of the contested duties were removed under pressure, but by 1773, several articles, among them tea, were still burdened by heavy taxes. The colonists finally refused to allow any cargo of tea even to be landed at some of the ports. Vessels were immediately sent back with their cargoes untouched. In December, 1773, three British ships landed at Boston and the royal governor attempted to have their cargoes landed in defiance of the popular will. The "Boston Tea Party" was the result. This occurrence the inscription on the tablet itself sufficiently explains.

"Here formerly stood Griffin's Wharf, at which lay moored on Dec. 16, 1773, three British ships with cargoes of tea. To defeat King George's tyrant but tyrannical tax of three pence a pound, about ninety citizens of Boston, partly disguised as Indians, boarded the ships, threw the cargoes, three hundred and forty-two chests in all, into the sea, and made the world ring with the patriotic exploit of the BOSTON TEA PARTY.

"No! never was mingled such a draught in palace, hall, or arbor, As freemen brewed and tyrants quaffed That night in Boston harbor."

A large building on the corner of Pearl street and Atlantic avenue, devoted to commercial purposes, now marks the site of Griffin's wharf where this event occurred.

The first armed resistance to Great Britain took place at Salem Bridge, Mass. In February, 1775 General Gage of the British army heard

that some cannon and munitions of war had been placed in Salem by the colonists, so he sent Colonel Leslie in a vessel from Castle William to seize them. They landed at Marblehead, marched into Salem, and not finding what they sought, moved toward Danvers. Part way between the two towns at a small drawbridge, which is now marked by the tablet shown in the illustration, they found a large number of people assembled and on the opposite side 40 militia under Timothy Pickering. The drawbridge was up and Pickering refused to let it down. Leslie tried to ferry his troops over in a gondola, but when the colonists a secret expedition scuttled the craft. The British troops eventually returned to their vessel, but without the cannon.

The first real battle of the Revolution was fought at Lexington, Mass. In the spring of 1775 General Gage was informed that the colonists had deposited a large quantity of munitions of war at Concord, a village some 16 miles outside of Boston, and he planned a secret expedition to seize them. The alert and wary colonists heard of his plan, however, and through the immortal ride of Paul Revere, the whole countryside was alerted. When Major Pitcairn, with some 800 men (the advance guard of the British), arrived at Lexington on their way to Concord, they were met there on the village green by about seventy determined men under Capt. Jonas Parker. The British ordered them to disperse, and when they refused to do so, fired upon them, killing eight and wounding a number of others. This began the Revolutionary war.

It was at Cambridge, Mass., that the army of the colonists was gathered for the march against the British at Bunker Hill.

The city of Cambridge, one of the county seats of Middlesex county, Massachusetts, is separated from the greater city of Boston by the Charles river. It is chiefly noted for three things: As the seat of Harvard university, as the place where Washington took command of the Continental army on July 2, 1775, which was only a short distance from the spot shown in the illustration, and for the occurrence marked and described by the tablet also. The building in the background is the Law library of Harvard university.

The battlefield of Bunker Hill at Charlestown, now part of the city of Boston, is marked by an imposing monument, erected on a commanding site on the summit of Breed's Hill.

The cornerstone of this huge granite obelisk was laid on June 17, 1825—the fiftieth anniversary of the battle. Lafayette was at the time on a visit to America, and he was present at the ceremony; Daniel Webster delivered an oration. The monument stands on Breed's Hill, near the center of the ground included in the old breastwork. It is built of Quincy granite, and is 231 feet in height. It is 30 feet square at the base and 15 feet square at the spring of the apex. The top may be reached by a flight of 235 stone steps. There is a room in the top with four iron shuttered windows. The monument was not completed until 1843, when it was dedicated in the

The first of a series of dances to be given at Inglenook was given last Friday evening in honor of Miss Estelle Bucholz of Minneapolis who has been a guest at the Inn the past couple of weeks. H. W. Paulson was host, assisted by Mrs. L. S. Leslon. Two score were present and during the evening a new dance was born to be christened "the Inglenook hop." A very pleasant evening was reported and it is the wish of the management that Inglenook be made the social gathering place for all who wish.

The addition to the Pine Grove church, about four miles southeast of town, is about finished and its completion will be celebrated with a basket social and general good time, including a choice musical program next Tuesday evening, June 23rd—Midsummer night. The addition—20x30—will contain the church kitchen and dining room and will be the home of the Young Peoples' society—for, everyone knows, young folks are long on the eat. Everybody is invited to the celebration and a good time is assured.

Chief J. M. Collins and Peter Holm and W. P. Gottry of the local fire department, accompanied by Hon. J. Adam Bede as special counsel, left Tuesday noon, for the state firemen's convention which was in session yesterday and today at Fairmont. Mr. Bede was on the program at the meeting. Mr. Holm is expected home tomorrow. Editor Gottry will not be back until Monday as he intends going on to Iowa Falls to spend a couple of days with his nephew Raymond who has an excellent position with Swift & Co. there. Mr. Collins will join his wife tomorrow at Bingham Lake, where she spent Tuesday, and they will visit there, at Mankato and Delevan before returning, being gone upward of a week. Next year the local fireman wont have to travel far to attend the convention as it will be held right here. But the whole town will have to "go some" to take care of the convention and see that Pine City's name goes out over the state with the proper label attached.

Connacker—Kaim

Michael Connacker and Miss Julia Kaim, both of this place, were married by Father Leo at high mass service in the Catholic church at 9 a. m., Wednesday. Miss Seebina Kaim, sister of the bride, was bridesmaid and Thomas Connacker, brother of the groom, was best man. The church held a large company of friends and relatives of the contracting parties during the solemn service.

Afterward a bountiful wedding dinner was served at the home of the bride's parents, Mr. and Mrs. Adolph Kaim at Pokegama lake, of which only relatives and close friends partook.

The happy couple left on the north-bound limited for a trip on the lakes, after which they will be at home at Hilbinger where Mr. Connacker is employed as engineer.

The old friends of the folks here were not stinting at all in their expressions of good will and sent them away in a shower of rice which we all hope may presage a long and happy life for them.

SUMMARY OF IMPORTANT HAPPENINGS IN FAR OFF NORTHWEST.

Resume of the Most Important Events in Sweden, Norway and Denmark—Of Interest to the Scandinavians in America.

DENMARK.

Georg Brandes upon returning to Europe after a two weeks' stay in America, made some tart remarks: "I think you have less liberty in America than you have in Europe—less personal, individual liberty. In this country you are all slaves of the telephone. The American telephone is the worst instrument of torture that ever existed. The electrical rack and thumb screws were playthings compared to it. And from it one can never get away. I sit here talking to you in this cool corner of the restaurant. Somewhere out there the telephone bell rings, and a person demands to speak with me. I must get up and answer him, and if he called at any hour of the night it would get just the same. Am I free? No. Another way in which you are not free is that you are never permitted to be alone. How can you think? But does any American think before he speaks? I go into a big business establishment and there I see two clerks, fifty men working in their shirt sleeves and not even a glass partition between them. Even on the railroad train, in the sleeping cars, one cannot be alone. Abroad, I buy my first class passage, and I have my compartment to myself—my little traveling home. But here, when I have thirty or forty men and women sleeping in the same car. But you have clean minds here in America. That is what saves you. One of the features of American life which has aroused the respect and admiration is the public safety accord your women. They can go anywhere in your streets at any time without a fear of insult."

The conservatives have succeeded in blocking the passage in the land-thing of the election reform law, which is applicable to both houses. This bill provides for the abolition of all electoral property qualifications and for the enfranchisement of women. Amendments to the bill supported by the coalition comprising the Socialist, Radical and Moderate parties were adopted by a vote of 33 to 31. All those who voted on the negative were Conservatives, and the Conservative leader then announced that they would assume no responsibility for the adoption of the bill, and would immediately leave the house and would withdraw as often as the measure came before the house. After they left the amendments were adopted by 33 votes, 32 members being absent. The president informed the house that no vote was valid unless more than half of the members of the land-thing participated in the division.

The average egg production per hen among the members has been raised to 150 during the past 18 years since the Danish Co-operative Egg society has been in operation. This society began with a few hundred members and now has about forty thousand. Members are pledged to gather their eggs every day and ship them at least once a week. The eggs that are not distributed to consumers by the time they are eight or ten days old are pickled and used to meet the demand for cooking and lower-priced trade. The average return to the Danish farmers for eggs throughout the year is about eighteen cents a dozen, but they are sold by weight. The cost of co-operative collecting and selling is about one-half cent a dozen. The Danish hen, therefore, furnishes the farmer a gross income of about \$2.75 per hen. When they learn just how the egg-laying trait is inherited it will be \$2.75.

The last royal Danish mail coach, which had been used on the route Velle-Brande, has been taken out of service and installed as a curiosity in the Danish post office museum.

NORWAY.

Eleven convicts at the national prison at Akershus were pardoned on the occasion of the centennial jubilee. The inmates of all the jails of the country were treated to better meals and refreshments the 17th of May.

In 1833 the consumption of whiskey was four gallons per capita, now it is half a gallon per capita. This puts Norway at the top of the list of civilized nations with regard to the consumption of alcohol.

The soldiers are not allowed to use whiskey while on service. Now some members of the military propose to apply the same rule to the officers. They must have been goaded to this step by the example of Secretary Daniels of the United States navy.

It is estimated that Norway has about 4,000,000 acres of tillable soil. One-third of this is still unbroken. This means that even as an agricultural country Norway still has a chance to make marked progress.

The London Times published a special supplement on the centennial of the Norwegian constitution. The following extract shows the style of this piece of Journalism: "After 100 years of peace the Norwegian people are celebrating the centennial of their national independence amidst generally propitious circumstances. Both at home and abroad the two main articles of the constitution have been upheld. A democratic form of government and an independent people have been created, and in the midst of this work patriotism has been strengthened and supported in a way that cannot be overestimated, and to which each national event of later years—as for instance in 1905, and at the Jubilee of the University in 1911—has given unqualifying expression. The industrial awakening which began in the nineties has been continued. From one end of the kingdom to the other we see the advance of extensive industries. Waterfalls and mines—two of the most important possessions—have been the objects of keen speculation, while the conquests that have been made in these domains have been utilized rationally and energetically. At this point in history, Norway finds itself in the center of its industrial program, stands out as an important factor that the new industry has taken a fresh direction to politics, and we may add that it put an ineffaceable mark on literature by the introduction of the industrial worker into the novel and on the stage. It has also been of vital importance in creating a deeper understanding of social questions, while at the same time its daily life has assumed other forms under the influence of the numerous new conditions of existence, and the ever-growing rank and intensity that are always in the rear of modern invention and requirements."

The treatment of Norwegians at the immigration station on Ellis Island in New York has been receiving criticism in the storthing. Several members have made speeches in which they criticized the treatment of Norwegian immigrants under detention there and the foreign minister was asked pointedly what he intended to do. One of the major Scandinavians defends the conditions at Ellis Island and holds that this matter was handled too rashly in the storthing.

SWEDEN.

The funeral of an old farmer at Gunnarvatnet, Jamtland, was attended by unusual difficulties. The man died just as the spring thaw was well under way. The coffin was easily transported by sled and sled dogs to Vassalo lake. From this point there was no drive road by land, and the ice on the lake was no longer safe. So the coffin was put on a sledge and sled and pulled by men through the country to another part of the lake, which was already open. Here the coffin was taken in a boat and rowed along a part of the lake. Now came the most difficult part of the whole trip, for the coffin had to be carried down a path through the woods to Rotkven, where it was put on a sled and hauled to Hotagen church.

It will be remembered that the people of Sweden raised money for a new ironclad by private subscription. The name of the ship is to be Sverige, Sweden. The work is completed and the ironclad remains about \$300,000 of the amount raised. The executive committee of the society having charge of the money has proposed that said amount be turned over to the government on condition that no less than three ironclads of the size of Sverige, or still larger, be built in the near future, and that the work on at least one of the three be commenced at once.

The ironclad Tappertehnen, which was ordered several months ago, can be saved, but it will take at least three months more before it can be floated. There are many large holes in the bottom, and it is a difficult work to stop up a hole so that the water can be kept out of the hull. For a time it was considered impossible to save the ship, but the ingenuity of the engineers of Sweden proved equal to the task before them.

There is no hitch in the work of placing a cable under the Öresund for transmitting electric power from the Lagan river in Sweden to Slesland, Denmark. It is expected that everything will be ready for turning on the current before the end of the year. Only one cable will be put down this year, but if the experiment proves successful another cable will be put down before very long.

A remarkable feat was accomplished by Baron Blixen Finkelde of the Swedish husars. Early in the afternoon he rode in a race at Göttingburg and passed the post first. At two o'clock he left the course in an aeroplane, flew across the sea and landed on the race course at Klampenborg, near Copenhagen, where he won two steeplechases.

The Swedes proposed that the students of all the universities of the countries and provinces around the Baltic sea have a rally at the Baltic exposition in Malmo. But the plan went to pieces on account of the Danish students, who did not think it was fair to ask them to meet German students in a Jubilee festival just 50 years after Germany annexed the southern portion of the kingdom of Denmark. The Swedes and Russians were ready to admit that the sentiment of the Danish students ought to be respected.

400,000 Settlers a Year

Immigration figures show that the population of Canada increased during 1912, by the addition of 400,000 new settlers from the United States and Europe. Most of these have come on farms in provinces of Manitoba, Saskatchewan and Alberta.

Land William Percy, an English nobleman says: "The possibilities and opportunities offered by the Canadian West are so infinite that it seems absurd to think that people should be impeded from coming to that country where they can most easily and certainly improve their position."

Five districts are being opened up which will make accessible a great number of homesteads in districts especially adapted to mixed farming (grain and stock raising).

MAN SURELY NEEDED HELP

Fredly Beloved, One Believed His Appeal for "Lone" Must Have Been Granted.

A Boston philanthropist, it is said, not long ago received the following letter:

"Dear and Noble Sir: Knowing your kind heart and nobleness of nature Irite these few lines to ask will you be so kind as to add to your good deeds the following. I have lately lost my home, my home and my wife. So being homeless, homeless and wifeless I am up again I had trying to earn a living. Would you be so kind in the goodness of your great heart to help me along some financially until I can replace my three losses when I am sure I can repay you. Once on my feet I can make good my losses and would pay back the lone with interest. A small lone would help but a bigger one would help me to reach the goal of success sooner and therefore you would get your money back sooner so it would be better for both if the lone could be large as possible. Hope to have favorable reply, etc."

Confidential.

The dull routine of the day in the bank is one day lightened by the receipt of the following communication:

"Dear Bank: What interest would you give on a Deposit of 15 dollars? What interest per annum and also draw it live without my signature or is it the Law and that I would have to have his Permission to Deposit it there in your Bank. Please to answer back in a sure to say what interest per annum and if he can draw it out. Yours with respect"

As to Jones. "Jones puts his watch under his pillow nights." "I notice he likes to sleep over time"

MADE A PERSONAL APPEAL

Taylor's Desperate Endeavor to Make Convention Listen to "His Best Customer."

Registrar O'Loughlin of Brooklyn will think twice before he undertakes to address another convention of tailors. His own tailor led him into it. O'Loughlin put on his own work clothes and sat on the platform. Tailors, cutters, buyers, city salesmen, busibmen, models, bosses, other patrons of the industry buzzed loudly on the floor. Now and then some man would enter and be greeted with applause.

"That," said O'Loughlin's tailor and guide, "is Max Scheinler, he is the buyer for Clipperton & Menz." Hours O'Loughlin sat there. At last he was introduced as the most speaker. No one paid the least attention to him. Conversation rose toward the heights of emotion. After three false starts O'Loughlin sat down. He was angry enough for arson. His tailor saw the black rage on his brow.

"Ladies and gentlemen," he belatedly, chucking at the table with his gavel. "You should listen to Mr. O'Loughlin. He is my best customer—Pittsburgh Chronicle Telegraph.

Charles Lamb and Hastings. Hastings, which is to indulge in a pageant of heroes, was an object of particular aversion to the Lamb. "I love town or country," he wrote, "but this detestable Cinque Port is neither. If it were what it was in its primitive shape, and what it ought to have remained, a fair, honest fishing town and no more, it were something else—with a few straggling fishermen's huts scattered about, raised as its cliffs, and with their materials fished from them—it were something. I could abide to dwell with Menabech to associate with fisher swain and smugglers. There are, or I dream there are, many of this latter occupation here. Their faces become the place I like the smallest. He is the only honest fisher. He robs nothing but the revenue, an abstraction I never greatly cared about"—London Chronicle.

The Middle Course. Senator Root at a reception was discussing the Mexican situation.

"Steer a middle course," he said to an extremist. "These extreme ideas are always wrong."

"Thus at ten, one young girl asked another: "And where are you going this summer, dear?"

"From the way mother talks," was the reply, "you'd think we were going to Newport. From the way father talks you'd think we were going to starve. But I suppose we'll steer a middle course, as usual, and put up a fortnight at a \$12 Atlantic City boarding-house."

Complicated Courtesies. "I tried to apologize to my wife," said Mr. Meekton, "but it was confusing." "Why?" "Every time I tried to say anything she insisted on saluting back, word for word."

Libby's Luncheon Delicacies

Dried Beef, sliced wafer thin, Hickory Smoked and with a choice flavor that you will remember.

Vienna Sausage—just right for Hot Hats, or to serve cold. We suggest you try them served like this: Cut rye bread in thin slices, spread with creamed butter and remove crust. Cut a Libby's Vienna Sausage in half, lengthwise, and lay on the bread. Place on the top of the sausage a few thin slices of Libby's Midget Pickles. Cover with the other slice of bread and press lightly together. Arrange on plate and serve garnished with a few parsley sprays.

PRIVATE JONES WAS LATE

Under the Circumstances the Probabilities Are That Congratulatory Visit Was Postponed.

Corporal Jenkins married on his strength, and in due course his wife presented him with a son and heir. His pals all flocked around to tender their congratulations and incidentally taste Bill's bitter beer.

Private Jones was on his way when he met Sergeant Brown returning. "Where are you off to?" asked the latter.

"Oh, I'm going around to see Bill and wish him luck with that youngster of his," was the answer.

"Then you're 'too late,'" said the sergeant solemnly.

"Well!" exclaimed Private Jones "Surely I hasn't gone and died?" "No, the youngster's all right, but the barrel is out!" was the grim response—London Tit-Bits.

Of Course Not. "I found a letter in your coat pocket that you had not mailed." "Is that all you found in my coat?" "That is all there was in it." "Oh, no it's not."

"A rip under the sleeve, but, of course, you were not looking for anything like that."

Accounting for Expense. Redd—I understand that golf enthusiasts in Massachusetts yearly spend about \$300,000 on the game. Greene—Gee! They must put away a lot of Scotch!

Sure Cure. "Doctor, is your patient sure you can cure him by your new method?" "How did you know my patient was not a woman?" "I heard that you were going to try the silence cure."

Arden Monroe and family returned to Willow River last Tuesday.

Joe. Kucera came up from St. Paul to spend a few days with the folks at home.

Miss Blanche Henderson came home from Pine City Monday where she has been attending high school.

Misses Josephine Broz and Eva Henderson spent Sunday afternoon with Misses Anna and Barbara Koppeck.

The dance that was given last Saturday evening at the Joe Kuh home was well attended and a very pleasant evening was enjoyed by all.

TIP TOP WOOD

An old friend of the horse back in Ohio advertised for "five loads of tip top wood" and a man of a fellow reading the ad. closed a deal for the delivery of the wood, received his pay in advance, and then delivered the wood—five loads of brush on tree tops. Well, the old man was pretty hot until he had been shown the ad. The joke stuck.
